INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Greater Wisconsin Multi-Employer Retirement Income Plan

Opinion

We have audited the accompanying financial statements of Greater Wisconsin Multi-Employer Retirement Income Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits (in liquidation) as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits (in liquidation) for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter - Liquidation Basis of Accounting

As further discussed in Note 7 to the financial statements, the Plan terminated effective December 31, 2012, due to the mass withdrawal of all employers from the Plan. In accordance with accounting principles generally accepted in the United States of America, the accompanying financial statements are presented using the liquidation basis of accounting. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The supplemental schedules of administrative expenses (in liquidation) for the years ended December 31, 2024 and 2023 are provided for informational purposes only. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedule of assets (held at end of year) and schedule of reportable transactions, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content of the supplemental schedule of assets (held at end of year) and schedule of reportable transactions are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

GREATER WISCONSIN MULTI-EMPLOYER RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

1. DESCRIPTION OF PLAN

The following brief description of the Greater Wisconsin Multi-Employer Retirement Income Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a multi-employer defined benefit plan covering individuals who are represented by the United Steelworkers of America AFL-CIO for collective bargaining purposes and who are employees of a company (Employer) that participated in the Plan during the individual's employment with that company. The Plan is administered by a Board of Trustees (Trustees) consisting of a union and an employer representative, each having equal voting power.

As described in Note 7 effective December 31, 2012, the Plan was terminated due to the withdrawal of all employers.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The Trustees have engaged the services of BeneSys, Inc. as the third-party administrator (TPA) to handle the daily administration duties of the Plan. The investments of the Plan are managed by Russell Investments Trust Company which serves as the investment manager to the Plan.

Contributions

The Plan is financed by employer withdrawal liability contributions. The withdrawal liability is \$33,685 per month per the actuarial calculation. Withdrawal liability contributions are recognized monthly as described in Note 7.

1. DESCRIPTION OF PLAN (Continued)

Pension Benefit

The normal retirement benefit is attained at the older of age 65, or the participant's age on the date five years after entering the Plan. Participants retiring after the normal retirement age receive increased benefits of 6%-10% for each year their actual retirement age follows the normal retirement age. The Plan permits an early retirement benefit at age 55 for those participants with ten or more years of service. If early retirement is taken, the amount of the monthly pension benefits is reduced by a factor for each year prior to the normal retirement age. Participants' monthly benefits for each earned accrual service unit are determined by the various collective bargaining agreements. Earned accrual service units are the sum of service units earned after the date the Employer began participation in the Plan (future accrual service units) plus each year of service earned prior to the date the Employer began participation in the Plan (past accrual service units). Future accrual service units were earned at the rate of 0.1 service unit for each 180 hours of service without limitation. However, participants with 870 to 1,979 service hours in a year were given credit for a full year of service (1.0 future accrual service unit).

The Plan elected to adopt the Setting Every Community Up for Retirement Enhancement Act (SECURE Act 2.0) effective January 1, 2023. The SECURE Act 2.0 increased the required minimum distribution age from 72 to 73 for participants who have not obtained the age of 72 prior to January 1, 2023, and increases the required minimum distribution age to 75 for participants who have not obtained the applicable age as defined in Internal Revenue Service (IRS) Code Section 401(a)(9) prior to January 1, 2034.

Vesting of Benefits

Upon termination of the Plan, the accrued benefit of each participant as of the date of termination was not fully vested because the Plan was underfunded. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) Multi-Employer Program Division when the Plan terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pension. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan termination, subject to a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Disability Benefits

Active participants with ten or more years of service (five years for participants with Greater Wisconsin Employer Pension Fund Office - Administration Group) were entitled to disability benefits if they become permanently and totally disabled. This benefit was eliminated from the Plan effective January 1, 2011 unless a disability pension was awarded on or before April 30, 2010. The monthly disability benefits were equal to the participant's accrued monthly pension benefits as of the date of disability. Disability payments are paid until normal retirement age at which time participants begin receiving normal pension benefits.

1. DESCRIPTION OF PLAN (Continued)

Death Benefits

Monthly surviving spouse benefits, payments of which are deferred to the participant's earliest retirement date, are equal to one-half of the participant's accrued monthly pension benefits under the one-half survivorship option as of the date of death. Monthly surviving spouse benefits, payable immediately, are equal to one-half of the participant's accrued monthly pension benefits as of the date of death.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

Associated with the termination of the Plan as discussed in Note 7, the Plan has prepared its financial statements on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP). Due to the nature of the Plan's assets and liabilities, the liquidation basis is equivalent to the accrual basis of accounting.

Cash

Cash is defined as currency on hand, in demand deposits.

Use of Estimates

The preparation of financial statements is in conformity with US GAAP and requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities, and the actuarial present value of non-forfeitable benefits. Accordingly, actual results may differ from those estimates. Although it is not possible to measure the degree of variability inherent in this estimate, management believes that the liability reported is adequate. Any adjustment determined to be necessary is reflected in current operations.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Trustees determine the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefit payments to participants or beneficiaries are recorded upon distribution.

Administrative Expenses

Expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits - liquidation basis. Certain investment-related expenses are included in net investment income presented in the accompanying statements of changes in net assets available for benefits - liquidation basis.

Recent Accounting and Regulatory Pronouncements

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the years ended December 31, 2024 and 2023. Plan management continues to evaluate the impact of the optional provisions of SECURE 2.0 and awaiting additional regulatory guidance from the Internal Revenue Service (IRS) and Department of Labor (DOL). The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements for the plan years ended December 31, 2024 and 2023. The Plan will be amended to reflect any changes made in response to SECURE 2.0 prior to the deadline set by law or applicable regulations.

3. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of commingled trust funds managed by the Russell Investment Company Commingled Employee Benefit Funds Trust. Russell Investments Trust Company is the investment manager as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services was \$23,325 and \$45,142 for the years ended December 31, 2024 and 2023, respectively.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

4. FAIR VALUE MEASUREMENTS (Continued)

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted prices for identical or similar assets or liabilities in inactive markets,
- Inputs other than quoted prices that are observable for the asset or liability,
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

Commingled Trust Funds: Commingled trust funds provide various investment objectives to ERISA qualified purchasers. Valued at the net asset value (NAV) per units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values and are not necessarily an indication of the risk associated with investing in those securities. Furthermore, although the Plan believes its valuation method is appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
TOTAL ASSETS IN FAIR VALUE HIERARCHY	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV (a)				2,655,191
TOTAL INVESTMENTS AT FAIR VALUE				\$ 2,655,191

Description	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
TOTAL ASSETS IN FAIR VALUE HIERARCHY	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV (a)				7,733,996
TOTAL INVESTMENTS AT FAIR VALUE				\$ 7,733,996

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits - liquidation basis.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table presents the fair value, unfunded commitments, redemption frequency, and redemption notice period for plan investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2024 and 2023:

5. UNFUNDED PRESENT VALUE OF NON-FORFEITABLE BENEFITS

Accumulated benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on contributions for employees during their years of credited service. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of vested benefits was determined by the independent actuary of the Plan, Segal, and is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

In accordance with the mass withdrawal, and corresponding termination of the Plan that was effective December 31, 2012, the actuary has calculated the unfunded present value of non-forfeitable benefits, based on assumptions and methods prescribed by the Pension Benefit Guaranty Corporation (PBGC).

The significant actuarial assumptions used in the ERISA Section 4281 valuation as of December 31, 2024 were:

- (a) A 4.79% discount rate increasing to 5.78% over 27 years using the yield curve published by the PBGC for December 2024 under ERISA Section 4044,
- (b) Mortality Table: rates published by the PBGC for December 31, 2024 under ERISA Section 4044 for healthy and disabled participants,
- (c) Participants eligible for an immediate pension are assumed to retire immediately. Others are assumed to retire once they meet the eligibility requirements for early/normal retirement.
- (d) Expenses in accordance with Section 4044 of ERISA.
- (e) Benefit Election: 60% of married participants are assumed to elect the 50% joint and survivor annuity; 40% are assumed to elect the single life annuity; non-married participants are assumed to elect single life annuity.

The significant actuarial assumptions used in the ERISA Section 4281 valuation as of December 31, 2023 were:

- (a) A 5.06% discount rate for first 20 years then 4.37% thereafter,

GREATER WISCONSIN MULTI-EMPLOYER RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

5. UNFUNDED PRESENT VALUE OF NON-FORFEITABLE BENEFITS (Continued)

- (b) Mortality Table: rates published by the PBGC for December 31, 2023 under ERISA Section 4044 for health and disabled participants,
- (c) Participants eligible for an immediate pension are assumed to retire immediately. Others are assumed to retire once they meet the eligibility requirements for early/normal retirement.
- (d) Expenses in accordance with Section 4044 of ERISA.
- (e) Benefit Election: 60% of married participants are assumed to elect the 50% joint and survivor annuity; 40% are assumed to elect the single life annuity; non-married participants are assumed to elect single life annuity.

The unfunded present value of non-forfeitable benefits as of valuation date, December 31, 2024 and 2023 are as follows:

	<u>2024</u>	<u>2023</u>
Unfunded present value of non-forfeitable benefits (per PBGC assumptions)		
Pensioners and beneficiaries	\$ 49,537,469	\$ 52,299,369
Non-retired participants and eligible spouses	13,599,204	16,794,096
Administrative expense loading	180,437	941,235
TOTAL UNFUNDED PRESENT VALUE OF NON-FORFEITABLE BENEFITS	<u><u>\$ 63,317,110</u></u>	<u><u>\$ 70,034,700</u></u>

6. TAX STATUS

The IRS issued its latest determination letter dated September 24, 2015, applicable to amendments adopted through November 14, 2014 and proposed amendments submitted June 29, 2015, which states that the Plan and related trust continues to qualify under the applicable sections of the Internal Revenue Code (IRC) and are exempt from federal income taxes. The Plan has been amended since receiving the determination letter. However, Plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PLAN TERMINATION AND WITHDRAWAL LIABILITY

In December 2012, the last employer withdrew from the Plan, thus leading to the termination of the Plan under ERISA. In accordance with ERISA Section 4219 and the PBGC Regulation 4219, initial mass withdrawal liability calculation was determined to be \$39,523,424 as of December 31, 2012 for Seagrave Fire Apparatus, LLC (Seagrave) and for the Greater Wisconsin Employer Pension Fund Office (GWEPF) for the administrative and clerical employees of \$928,428.

In accordance with PBGC regulations a redetermination of the liability allocation was performed during 2013. The reallocation of the liability to each employer as of December 31, 2013 was Seagrave \$42,608,290 and GWEPF \$1,572,893. Monthly payments due for perpetuity from Seagrave are \$33,685 and due from GWEPF \$788. The amount due from GWEPF was a non-cash transaction as contributions were offset by a charge to employee benefits.

The above withdrawal liability due to the Plan has not been booked as the offsetting allowance for credit loss amounts due to the uncertainty of collection through perpetuity cannot be reasonably estimated.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Should the plan assets be insufficient to provide participants' benefits, whether a particular participant's accumulated plan benefits will be paid is dependent upon the priority of those benefits and the level of the benefits guaranteed by the PGBC at that time.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of non-forfeitable benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

GREATER WISCONSIN MULTI-EMPLOYER RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

9. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 15, 2025, which was the date that these financial statements were available for issuance and noted the following subsequent event:

- The Plan applied for PBGC assistance and Plan management was informed by the PBGC on July 7, 2025 that the application was approved. The PBGC provided funding of \$1,553,700 which was deposited into plan assets on July 17, 2025 for the period of August 1, 2025 through October 31, 2025 and includes a one-month benefit reserve. The PBGC is expected to continue to provide funding on a quarterly basis based on the Plan's projected needs.
