### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audit of the financial statements of **County National Bank 401(k) Plan** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits for the years ended December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements (the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

## ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Independent Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Supplemental Schedules Required by ERISA***

The supplemental schedules of assets (held at end of year) and delinquent participant contributions as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified Investment Information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## Notes to Financial Statements

### 1. DESCRIPTION OF THE PLAN

The following description of the **County National Bank 401(k) Plan** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

#### **General**

The Plan is a defined contribution plan covering substantially all full-time salaried employees of County National Bank (the "Company") who are age eighteen or older or have met the federal requirements for certain long-term part time employee. Certain employee types are excluded from eligibility including interns, seasonal employees, temporary employees, part-time (employees with less than 1,000 hours of service each year), and residents of Puerto Rico. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

There is no length of service requirement for eligible participants to participate in the Plan using employee contributions. There is a three-month service requirement for eligibility for employer match contributions and profit-sharing contributions.

Voya Institutional Trust Company and Voya Retirement Insurance and Annuity Company (collectively "Voya") are the trustee and recordkeeper of the Plan. The Company is the administrator of the Plan (the "Plan Administrator"). The Trustee holds all assets of the Plan in accordance with the service provider contract with the Company. Management of the Plan sponsor is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Trustees.

#### **Contributions**

Each year participants may contribute up to the maximum amount allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to contribute to the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund, automatically escalating by 1% each year until participant reaches 5% deferral, or the deferral rate is changed by the participant. Under the safe harbor provisions, the Company contributes 100% of each participant's contributions, up to a maximum of 5% of their eligible compensation. The Company, at its discretion, may make an additional profit sharing contribution to the Plan at an amount equal to a percentage of each participant's eligible compensation. The profit sharing contribution was 6% of eligible participant compensation for 2024, and amounted to \$912,798. Participants direct the investment of contributions into various investment options, including a self-directed brokerage account, offered by the Plan.

## COUNTY NATIONAL BANK 401(k) PLAN

### Notes to Financial Statements

#### *Participant Accounts*

Each participant's account is credited with the participant's contributions and the Company's matching contributions and an allocation of (a) the Company's profit sharing contribution (when made), (b) Plan earning, and (c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses, if any. Participants who initiate a loan or benefit payment are charged a fee for that transaction. Allocations are based on participant compensation, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### *Vesting*

Participants are immediately vested in their 401(k) voluntary contributions and the Company safe harbor matching contributions plus actual earnings thereon. Vesting in the Company profit sharing contributions is based on years of continuous service. A participant is 100% vested after five years of credited service, with a graduated vesting schedule beginning after one year of service.

#### *Notes Receivable from Participants*

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The resulting notes receivable are secured by the balances in the participants' accounts and bear interest at rates ranging from 4.25% to 9.50%, which are commensurate with local prevailing rates at the time the notes were issued, as determined quarterly by the Plan Administrator. Principal and interest is collected ratably through payroll deductions.

#### *Payment of Benefits*

Upon termination of service due to death, disability, financial hardship, retirement or any other distributive event, as defined in the Plan agreement, participants or their beneficiaries may receive an amount equal to the value of the participant's vested interest in their account in a lump-sum payment or in various installment annuities. The Plan also allows distributions on attainment of 59 1/2 years of age equal to the value of the participant's vested interest in their account.

#### *Forfeited Accounts*

If a participant is not fully vested on their termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future employer cash contributions with any remaining amounts first used to pay Plan expenses and then allocated among the accounts of participants. Employer cash contributions were reduced by \$211,040 from forfeited nonvested accounts during 2024. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$64,583 and \$42,638, respectively.

## Notes to Financial Statements

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### *Basis of Accounting*

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

#### *Use of Estimates*

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### *Investment Valuation and Income Recognition*

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at the contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net change in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year.

#### *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

#### *Contributions*

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

#### *Excess Contributions Payable*

Contributions withheld in excess of amounts allowed by the IRS are recorded as excess contributions payable with a corresponding reduction to contributions.

# COUNTY NATIONAL BANK 401(k) PLAN

## Notes to Financial Statements

### *Benefits Paid to Participants*

Benefit payments to participants are recorded when paid.

### *Administrative Expenses*

The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain administrative expenses, including an allocation of salaries related to Plan administration, a portion of audit fees, and legal costs are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Fees for custodial, record keeping services, and a portion of the audit fees are paid by the Plan. Participants are charged directly for loan fees and fees related to certain distribution types.

### *Subsequent Events*

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to the most recent statement of net assets available for benefits presented herein, through the date these financial statements were available to be issued.

## 3. CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and the ERISA-required supplemental schedule, including investments held at December 31, 2024 and 2023, and net change in fair value of investments, interest and dividends, for the year ended December 31, 2024 was obtained by management and agreed to and derived from information certified as complete and accurate by Voya Institutional Trust Company.

## 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

# COUNTY NATIONAL BANK 401(k) PLAN

## Notes to Financial Statements

- Level 2: Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability; and
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2024.

*Mutual funds:* Shares held in mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Stable value common collective trust:* A stable value fund that is composed primarily of fully benefit-responsive investment contracts is valued at the NAV of units of the bank collective trust, is classified as "other" and is not assigned a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require a 12 month notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

*Self-directed brokerage accounts:* These accounts primarily consist of mutual funds and common stocks which are valued on the basis of readily determinable market prices.

(1) Certain investments are measured at NAV per share (or its equivalent) on a non-active market and have not been classified in the fair value hierarchy and are presented in the column titled "Other" above. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV per share (or its equivalent) as of December 31:

## COUNTY NATIONAL BANK 401(k) PLAN

### Notes to Financial Statements

The following is a description of the investment strategies for investments in certain entities that calculate NAV per share (or its equivalent) at December 31, 2023 and 2024:

*Stable value common collective trust:* These funds include investments that seek capital appreciation to provide a fixed income.

#### 5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a traditional fully benefit-responsive guaranteed investment contract with Voya, the guaranteed investment contract issuer ("issuer"), with a balance of \$1,862,878 and \$1,784,266 at December 31, 2024 and 2023. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement without prior notice to the Plan.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include:

- 1) Amendments to the Plan documents (including complete or partial Plan termination or merger with another plan),
- 2) Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions,
- 3) Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan,
- 4) The failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or;
- 5) Termination or conversion to another contract by the issuer.

Plan management does not believe there are any events probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

# COUNTY NATIONAL BANK 401(k) PLAN

## Notes to Financial Statements

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value after the earlier of one year from a contribution cessation date or five completed contract years, with notice given to the Plan as stated in the contract. Such events include:

- 1) An uncured violation of the Plan's investment guidelines,
- 2) A breach of material obligation under the contract,
- 3) A material misrepresentation, or;
- 4) A material amendment to the agreement without the consent of the issuer.

## 6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are in funds and accounts that are managed by Voya Retirement Insurance and Annuity Company (Voya) or their subsidiaries and affiliates. Participant loan and distribution processing fees are paid to Voya by participants. The Plan paid for third party administrator fees, investment advisory, and plan audit fees which qualify as party-in-interest transactions. The Plan also issues loans to participants which are secured by the vested balance of the participants' accounts. Certain management fees in the form of an expense ratio charged to each investment option are paid by the Plan and deducted from earnings on investments. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

## 7. TAX STATUS

The Plan uses a prototype plan document sponsored by Voya Retirement Insurance and Annuity Company. The prototype plan document has received an opinion letter from the IRS dated June 30, 2020, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. While the Plan may be subject to routine audits by taxing jurisdictions, there are currently no audits for any tax periods in progress.

## 8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their profit sharing employer contributions.

## Notes to Financial Statements

### 9. DELINQUENT PARTICIPANT CONTRIBUTIONS

During the Plan year ended December 31, 2024, participant contributions and loan repayments totaling \$152,930 were not remitted to the Plan within the period prescribed by DOL regulations. These transactions constitute prohibited transactions as defined by ERISA. The contributions were remitted to the Plan during 2024. Lost earnings are expected to be remitted to the Plan during 2025.

### 9. RISKS AND ECONOMIC UNCERTAINTIES

The Plan invests in various investment securities with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of interest rate, market, and credit risks inherent with certain of the Plan's investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

### 10. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF IRS FORM 5500

## INDEPENDENT AUDITORS' REPORT

October 15, 2025

Plan Administrator  
County National Bank 401(k) Plan  
One S Howell St  
Hillsdale, Michigan

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audit of the financial statements of **County National Bank 401(k) Plan** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits for the years ended December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements (the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

## ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Independent Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Supplemental Schedules Required by ERISA***

The supplemental schedules of assets (held at end of year) and delinquent participant contributions as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified Investment Information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### 1. DESCRIPTION OF THE PLAN

The following description of the *County National Bank 401(k) Plan* (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

#### *General*

The Plan is a defined contribution plan covering substantially all full-time salaried employees of County National Bank (the "Company") who are age eighteen or older or have met the federal requirements for certain long-term part time employee. Certain employee types are excluded from eligibility including interns, seasonal employees, temporary employees, part-time (employees with less than 1,000 hours of service each year), and residents of Puerto Rico. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

There is no length of service requirement for eligible participants to participate in the Plan using employee contributions. There is a three-month service requirement for eligibility for employer match contributions and profit-sharing contributions.

Voya Institutional Trust Company and Voya Retirement Insurance and Annuity Company (collectively "Voya") are the trustee and recordkeeper of the Plan. The Company is the administrator of the Plan (the "Plan Administrator"). The Trustee holds all assets of the Plan in accordance with the service provider contract with the Company. Management of the Plan sponsor is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Trustees.

#### *Contributions*

Each year participants may contribute up to the maximum amount allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to contribute to the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund, automatically escalating by 1% each year until participant reaches 5% deferral, or the deferral rate is changed by the participant. Under the safe harbor provisions, the Company contributes 100% of each participant's contributions, up to a maximum of 5% of their eligible compensation. The Company, at its discretion, may make an additional profit sharing contribution to the Plan at an amount equal to a percentage of each participant's eligible compensation. The profit sharing contribution was 6% of eligible participant compensation for 2024, and amounted to \$912,798. Participants direct the investment of contributions into various investment options, including a self-directed brokerage account, offered by the Plan.

## COUNTY NATIONAL BANK 401(k) PLAN

### Notes to Financial Statements

#### *Participant Accounts*

Each participant's account is credited with the participant's contributions and the Company's matching contributions and an allocation of (a) the Company's profit sharing contribution (when made), (b) Plan earning, and (c) forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses, if any. Participants who initiate a loan or benefit payment are charged a fee for that transaction. Allocations are based on participant compensation, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### *Vesting*

Participants are immediately vested in their 401(k) voluntary contributions and the Company safe harbor matching contributions plus actual earnings thereon. Vesting in the Company profit sharing contributions is based on years of continuous service. A participant is 100% vested after five years of credited service, with a graduated vesting schedule beginning after one year of service.

#### *Notes Receivable from Participants*

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The resulting notes receivable are secured by the balances in the participants' accounts and bear interest at rates ranging from 4.25% to 9.50%, which are commensurate with local prevailing rates at the time the notes were issued, as determined quarterly by the Plan Administrator. Principal and interest is collected ratably through payroll deductions.

#### *Payment of Benefits*

Upon termination of service due to death, disability, financial hardship, retirement or any other distributive event, as defined in the Plan agreement, participants or their beneficiaries may receive an amount equal to the value of the participant's vested interest in their account in a lump-sum payment or in various installment annuities. The Plan also allows distributions on attainment of 59 1/2 years of age equal to the value of the participant's vested interest in their account.

#### *Forfeited Accounts*

If a participant is not fully vested on their termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future employer cash contributions with any remaining amounts first used to pay Plan expenses and then allocated among the accounts of participants. Employer cash contributions were reduced by \$211,040 from forfeited nonvested accounts during 2024. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$64,583 and \$42,638, respectively.

## Notes to Financial Statements

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### ***Basis of Accounting***

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

#### ***Use of Estimates***

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### ***Investment Valuation and Income Recognition***

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at the contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net change in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year.

#### ***Notes Receivable from Participants***

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

#### ***Contributions***

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

#### ***Excess Contributions Payable***

Contributions withheld in excess of amounts allowed by the IRS are recorded as excess contributions payable with a corresponding reduction to contributions.

# COUNTY NATIONAL BANK 401(k) PLAN

## Notes to Financial Statements

### *Benefits Paid to Participants*

Benefit payments to participants are recorded when paid.

### *Administrative Expenses*

The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain administrative expenses, including an allocation of salaries related to Plan administration, a portion of audit fees, and legal costs are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Fees for custodial, record keeping services, and a portion of the audit fees are paid by the Plan. Participants are charged directly for loan fees and fees related to certain distribution types.

### *Subsequent Events*

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to the most recent statement of net assets available for benefits presented herein, through the date these financial statements were available to be issued.

## 3. CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and the ERISA-required supplemental schedule, including investments held at December 31, 2024 and 2023, and net change in fair value of investments, interest and dividends, for the year ended December 31, 2024 was obtained by management and agreed to and derived from information certified as complete and accurate by Voya Institutional Trust Company.

## 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

# COUNTY NATIONAL BANK 401(k) PLAN

## Notes to Financial Statements

- Level 2: Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability; and
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2024.

*Mutual funds:* Shares held in mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Stable value common collective trust:* A stable value fund that is composed primarily of fully benefit-responsive investment contracts is valued at the NAV of units of the bank collective trust, is classified as "other" and is not assigned a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require a 12 month notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

*Self-directed brokerage accounts:* These accounts primarily consist of mutual funds and common stocks which are valued on the basis of readily determinable market prices.

(1) Certain investments are measured at NAV per share (or its equivalent) on a non-active market and have not been classified in the fair value hierarchy and are presented in the column titled "Other" above. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV per share (or its equivalent) as of December 31:

Investment Type	2024			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable value common collective trust	\$16,345,071	\$ -	Daily	12 months

## COUNTY NATIONAL BANK 401(k) PLAN

### Notes to Financial Statements

The following is a description of the investment strategies for investments in certain entities that calculate NAV per share (or its equivalent) at December 31, 2023 and 2024:

*Stable value common collective trust:* These funds include investments that seek capital appreciation to provide a fixed income.

#### 5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a traditional fully benefit-responsive guaranteed investment contract with Voya, the guaranteed investment contract issuer ("issuer"), with a balance of \$1,862,878 and \$1,784,266 at December 31, 2024 and 2023. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement without prior notice to the Plan.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include:

- 1) Amendments to the Plan documents (including complete or partial Plan termination or merger with another plan),
- 2) Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions,
- 3) Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan,
- 4) The failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or;
- 5) Termination or conversion to another contract by the issuer.

Plan management does not believe there are any events probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

# COUNTY NATIONAL BANK 401(k) PLAN

## Notes to Financial Statements

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value after the earlier of one year from a contribution cessation date or five completed contract years, with notice given to the Plan as stated in the contract. Such events include:

- 1) An uncured violation of the Plan's investment guidelines,
- 2) A breach of material obligation under the contract,
- 3) A material misrepresentation, or;
- 4) A material amendment to the agreement without the consent of the issuer.

### 6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are in funds and accounts that are managed by Voya Retirement Insurance and Annuity Company (Voya) or their subsidiaries and affiliates. Participant loan and distribution processing fees are paid to Voya by participants. The Plan paid for third party administrator fees, investment advisory, and plan audit fees which qualify as party-in-interest transactions. The Plan also issues loans to participants which are secured by the vested balance of the participants' accounts. Certain management fees in the form of an expense ratio charged to each investment option are paid by the Plan and deducted from earnings on investments. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

### 7. TAX STATUS

The Plan uses a prototype plan document sponsored by Voya Retirement Insurance and Annuity Company. The prototype plan document has received an opinion letter from the IRS dated June 30, 2020, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. While the Plan may be subject to routine audits by taxing jurisdictions, there are currently no audits for any tax periods in progress.

### 8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their profit sharing employer contributions.

# COUNTY NATIONAL BANK 401(k) PLAN

## Notes to Financial Statements

### 9. DELINQUENT PARTICIPANT CONTRIBUTIONS

During the Plan year ended December 31, 2024, participant contributions and loan repayments totaling \$152,930 were not remitted to the Plan within the period prescribed by DOL regulations. These transactions constitute prohibited transactions as defined by ERISA. The contributions were remitted to the Plan during 2024. Lost earnings are expected to be remitted to the Plan during 2025.

### 9. RISKS AND ECONOMIC UNCERTAINTIES

The Plan invests in various investment securities with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of interest rate, market, and credit risks inherent with certain of the Plan's investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

### 10. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF IRS FORM 5500

The following is a reconciliation of net assets available for benefits reported in these financial statements to the amounts reported on Schedule H of the Forms 5500 at December 31:
