Independent Auditor's Report

To the Plan Administrator of the
Clinton Hospital Association Tax Sheltered Annuity Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Clinton Hospital Association Tax Sheltered Annuity Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a significant likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Part IV, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Clinton Hospital Association Tax Sheltered Annuity Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 1 – Description of Plan

The following description of the Clinton Hospital Association Tax Sheltered Annuity Plan (the Plan) provides only general information. Participants should refer to the Plan agreement, and any amendments thereto, for a more complete description of the Plan's provisions.

General

The Plan includes employee contributions and discretionary Employer matching and nonelective contributions. The Plan covers certain employees of UMass Memorial Health Alliance-Clinton Hospital (the Employer) who are not covered by other plans as defined in the Adoption Agreement, except employees whose contribution would be \$200 or less and non-resident aliens who receive no compensation from the Employer which constitutes U.S. source income. Employees are eligible to elect to make contributions on the first day of the next payroll period following their employment. To be eligible for the Employer matching contributions and the Employer nonelective contributions, participants must have one year of eligible service and 1,000 hours of eligible service with the Employer and must not be employed on a per diem basis and, effective July 1, 2020, those participants covered by the Clinton MNA Collective Bargaining Agreement (Clinton MNA CBA), both regularly scheduled employees and per diem employees, become eligible for the Employer contributions after two years of elapsed service time. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, investment managers and custodians. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, eligible participants may contribute from a minimum of \$200 up to 100% of annual compensation, as defined in the Plan, subject to Internal Revenue Service (IRS) limitations. Participants that have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollover distributions from other qualified plans. Effective December 11, 2023, participants have the option to elect to make Roth contributions.

Employer discretionary nonelective contributions for active eligible participants are equal to 1% of eligible compensation, which occurs at each pay period. The Employer can also make a discretionary matching contribution to the Plan for each plan year. For all active eligible participants, the Employer's discretionary matching contribution is equal to 50% of total eligible participant deferrals for the Plan year, not to exceed \$500 during the Plan year, with Clinton MNA CBA active eligible participants becoming eligible July 1, 2020 for the following step schedule of per pay match:

Years of Credited Service	Minimum Employee Contribution	Matching Rate	Matching Limit as a Percentage of Compensation
2-5 years	2%	50%	1%
5-20 years	2%	100%	2%
20+ years	3%	100%	3%

During the years ended December 31, 2024 and 2023, the Employer made a discretionary matching contribution to the Plan. The Employer's discretionary matching contributions will apply to the catch-up contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and the allocations of (a) the Employer's contributions, if any, (b) Plan earnings, (c) and administrative expenses. Allocations are based on participant earnings, deferrals, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Clinton Hospital Association Tax Sheltered Annuity Plan

Notes to Financial Statements

December 31, 2024 and 2023

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. For the participants who received the new Employer matching contributions and Employer nonelective contributions, effective July 1, 2020, in accordance with the Clinton MNA CBA, those contributions and earnings thereon are immediately vested. A participant's interest in the previous and ongoing Employer matching contributions and Employer nonelective contributions is fully vested after five years of credited service with the Employer in accordance with the following schedule:

Years of Credited Service	Vesting Percentage
One year	20%
Two years	40%
Three years	60%
Four years	80%
Five years	100%

Investments

Participants direct the investment of the employee and Employer contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a money market fund, a group variable annuity account and guaranteed investment contracts (GIC).

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Participant loans are secured by the balance in the participants' accounts and bear interest between 4.25% and 9.50% for outstanding loans during 2024, which is commensurate with local prevailing rates as defined by the Plan administrator. Loans must be fully repaid within five years, or within a reasonable amount of time not to exceed 20 years for the purchase of a primary residence. Principal and interest are paid monthly or quarterly. Certain direct fees are charged to the participant to set up and maintain the loan.

Payment of Benefits

On termination of service, if the vested value of the participant's Plan account exceeds \$5,000, a participant may elect to receive a lump-sum payment, installment payments, annuity payments if so invested, or a partial lump-sum minimum of \$1,000 equal to the value of the participant's vested account. A participant may also elect to defer payment until the participant's Required Beginning Date according to the IRS rules. On termination of service, if the vested value is \$5,000 or less, the participant will receive the value of the participant's vested account in a lump-sum payment. In-service withdrawals, including distribution of rollover sourced contribution balances, hardship distributions and distributions for participants over age 59 ½, are also available to those participants who are eligible.

Forfeited Accounts

At December 31, 2024 and 2023, forfeited non-vested accounts totaled \$4,552 and \$2,451, respectively. Forfeited non-vested accounts are retained in the Plan and used to pay plan expenses, to reduce Employer contributions, and to restore forfeitures to a participant account. During the year ended December 31, 2024, forfeitures of \$12 were used to reduce Employer matching contributions and \$880 was used to pay Plan expenses.

Note 2 – Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared under the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Clinton Hospital Association Tax Sheltered Annuity Plan

Notes to Financial Statements

December 31, 2024 and 2023

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value equals accumulated cash contributions, interest credited to the Plan's contracts, and transfers in (if any) less any withdrawals and transfers out (if any). The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Contributions

Contributions from Plan participants, matching contributions from the Employer, and non-elective contributions from the Employer are recorded in the year in which employee contributions are withheld from compensation.

Other Income

Other income consists of revenue earned from revenue sharing in connection with plan services in excess of contractual compensation. These amounts must be used for payment of qualified plan expenses or allocation to eligible participants, as defined by the agreement.

Fidelity Management Trust Company (Fidelity) provides certain administrative services to the Plan pursuant to a Group Custodial Agreement (GCA) between the Employer and Fidelity. Fidelity receives revenue from fund service providers for services Fidelity provides to the funds. This revenue is used to offset certain amounts owed to Fidelity for its administrative services to the Plan.

If the revenue received by Fidelity from such fund service providers exceeds the amount owed under the GCA, Fidelity remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During 2024, there were excess amounts of \$34,478, which are included in other income on the statement of changes in net assets available for benefits. The Plan or Employer may make a payment to Fidelity for administrative expenses not covered by revenue sharing.

Payment of Benefits

Benefits are recorded when paid.

Clinton Hospital Association Tax Sheltered Annuity Plan

Notes to Financial Statements

December 31, 2024 and 2023

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments on the statement of changes in net assets available for benefits.

Note 3 – Certified Investments

The Plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2024 and 2023, and investment income and interest income on notes receivable from participants for the year ended December 31, 2024, that are disclosed in the accompanying financial statements and supplemental schedule, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity, Lincoln National Life Insurance Company (Lincoln), and ReliaStar Life Insurance and Annuity Company (ReliaStar), the custodians of the Plan.

Note 4 – Fair Value Measures

Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. Assets and liabilities reported at fair value are classified and disclosed in one of the following three categories:

Level 1 – Observable inputs such as quoted prices for identical assets and liabilities in active markets at the measurement date. The fair value hierarchy gives the highest priority to Level 1 inputs;

Level 2 – Valuations using observable inputs other than Level 1 prices such as quoted prices in active markets for similar assets and liabilities; quoted prices for identical or similar assets or liabilities in markets that are not active; broker or dealer quotations; or inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts represented in this table are intended to permit reconciliation of the fair value hierarchy to the amount presented in the statements of net assets available for benefits.

The Plan categorizes, for disclosure purposes, assets and liabilities measured at fair value in the financial statements based upon whether the inputs used to determine their fair values are observable or unobservable. Observable inputs are inputs that are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about pricing the asset or liability based on the best information available in the circumstances.

Clinton Hospital Association Tax Sheltered Annuity Plan

Notes to Financial Statements

December 31, 2024 and 2023

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Investments may be classified as Level 2 when market information is available, yet the investment is not traded in an active market. Market information, subscription, and redemption activity, if applicable, and the length of time until the investment will become redeemable are considered when determining the proper categorization of the investment's fair value measurement within the fair valuation hierarchy. Investments that have observable market inputs and we have the ability to redeem at the measurement date are classified in the fair value hierarchy as Level 2.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds and money market funds: Valued at the daily closing price as reported by the fund. Mutual funds and money market funds held by the Plan are open-end mutual funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds and money market funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract (GIC): The non-fully benefit-responsive GIC is valued at fair value by the investment company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Group Variable Annuity Account (GVA): This category consists of a separate account made up of multiple subaccounts. Each subaccount holds a single registered mutual fund. The separate account purchases specific mutual funds at the direction of the variable annuity contract owners. The GVA is valued at NAV as reported by the custodian as a practical expedient to measure their value. There are no trading restrictions or unfunded commitments outstanding related to the Plan's investments in GVA.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023.

Note 5 – Guaranteed Investment Contract with Lincoln and ReliaStar

The Plan maintains a total of two investment contracts - one in Lincoln Fixed Annuity Funds, which is fully benefit-responsive, maintained in general accounts, and one with ReliaStar, which is non-fully benefit-responsive, in fixed accounts. These accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value, as reported to the Plan by Lincoln, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. The minimum guaranteed interest rates for Lincoln is 3.00% and ReliaStar is 1.00%. The guaranteed crediting interest rate is announced in advance and is guaranteed for a six-month period.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event which would limit the Plan's ability to transact at contract value with participants is probable.

Note 6 – Related-Party Transactions and Party-In-Interest Transactions

Certain plan investments are GICs, shares of mutual funds, GVA and a money market fund managed by Fidelity, Lincoln, and ReliaStar. Fees paid by the Plan for investment management services are included in the net appreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment. The Plan made a direct payment to the third-party administrator of \$5,677, which was not covered by revenue sharing. Fidelity, Lincoln, and ReliaStar are the custodians, as defined by the Plan, and, therefore, these transactions qualify as exempt party-in-interest transactions. The Employer pays directly any other fees related to the Plan's operations. Notes receivable from participants are also exempt party-in-interest transactions.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Employer contributions.

Note 8 – Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform to the sample language provided by the IRS. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan has adopted the Fidelity Volume Submitter Plan Document determined qualified by the IRS in a letter dated August 7, 2017.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 – Subsequent Events

The Plan has evaluated subsequent events through October 14, 2025, which is the date the financial statements were available to be issued.
