Independent Auditor's Report

To the Benefits Committee and Participants of
the Mission Support and Test Services LLC (MSTS) Employee Retirement Plan

Opinion on the 2024 Financial Statements

We have audited the financial statements of Mission Support and Test Services LLC (MSTS) Employee Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (collectively, the financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2024 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole

are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2024 Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information in the accompanying Schedule of Assets (Held at End of Year) as of December 31, 2024, the Schedule of Assets (Acquired and Disposed Within Year) for the year then ended, and the Schedule of Reportable Transactions for the year then ended is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing

procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the supplemental schedules are fairly stated, in all material respects, in relation to the financial statements, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

2023 Financial Statements

We performed an audit of the 2023 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, our audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. In our report dated October 14, 2024, we indicated that in our opinion (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that Management determined meets the requirements of ERISA Section 103(a)(3)(C).

Mission Support and Test Services LLC (MSTS)
Employee Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 1: Description of the Plan

The following description of the Mission Support and Test Services LLC (MSTS or the Company) Employee Retirement Plan (the Plan) provides only general information. Participants should refer to the *Plan Document* for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan was established effective November 5, 1990, and amended May 26, 1994, to provide retirement benefits to eligible employees of Raytheon Services Nevada (RSN) employed under a contract with the United States Government as successor to Holmes & Narver, Inc., the previous sponsor of the Plan. Effective in 1992, RSN became the sponsor of the Plan (previously the Holmes & Narver, Inc. Energy Support Division Pension Plan).

Effective January 1, 1996, RSN ceased to be the Plan's administrator. RSN continued to be a participating sponsor until March 31, 1996. Under a contract with the United States Government, Bechtel Nevada (BNV), a joint venture comprised of Bechtel Nevada Corporation, Lockheed Martin Nevada Technologies, Inc., and Johnson Controls Nevada, Inc., became the new sponsor of the Plan. Effective December 31, 1996, the Plan name was changed to Bechtel Nevada Employee Retirement Plan. During 2004, Johnson Controls Nevada, Inc. ceased participation in the BNV joint venture.

BNV's contract with the United States Government expired June 30, 2006. The contract was awarded to National Security Technologies, LLC (NSTec). Under the terms of the contract, sponsorship of the Plan was assumed by NSTec on July 1, 2006, and the Plan name was changed from Bechtel Nevada Employee Retirement Plan to the National Security Technologies, LLC (NSTec) Employee Retirement Plan.

NSTec's contract with the U.S. Department of Energy expired on November 30, 2017. The contract was awarded to MSTS, a limited liability company consisting of Honeywell International Inc., Jacobs Engineering Group Inc., and Stoller Newport News Nuclear, Inc. (name changed to HII Nuclear, Inc. effective August 7, 2018). Under the terms of the contract, sponsorship of the Plan was assumed by MSTS on December 1, 2017, and the Plan name was changed from National Security Technologies, LLC (NSTec) Employee Retirement Plan to the Mission Support and Test Services LLC (MSTS) Employee Retirement Plan.

The Plan is a defined benefit pension plan covering eligible employees and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was restated effective December 1, 2017, to incorporate all previously adopted amendments into the basic Plan document.

Effective June 19, 2023, the Plan was amended to include certain employees who transferred from SOC, LLC at the Nevada National Security Site to MSTS.

Pension Benefits

Employees with 5 or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to 1.5% of the average annual compensation (highest five years out of last ten), multiplied by the years of benefit service less 1.5% of their primary social security benefit at age 65, multiplied by the years of benefit service (maximum 35 years). Annual earnings in excess of \$330,000 for 2023, adjusted annually for the changes in the cost of living as provided in Section 415(d) of the Internal Revenue Code (IRC), are not eligible when determining benefits under the Plan. The Plan permits early retirement at ages 55-64 with 10 years of service. Certain Plan participants who transferred to the Plan as former participants of the Retirement Plan for the Employees of Reynolds Electrical and Engineering Company, Inc. (the retirement plan of a former affiliate of the BNV joint venture) are eligible for early retirement at age 55 with 5 years of service. Members who retire early shall be entitled to a percentage of the normal retirement benefit, with the percentage increasing as the retirement age approaches normal retirement age.

Employees hired or rehired after June 30, 2009, are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the sum of 0.9% of each year's compensation for each calendar year that a participant is credited with less than 5 years of vesting service, plus 1.0% of each year's compensation for each calendar year that a participant is credited with 5 or more, but less than 10 years of vesting service, plus 1.1% of each year's compensation for each calendar year that a participant is credited with 10 or more years of vesting service. Effective January 1, 2014, the formula was increased to 1.0% of each year's compensation for each calendar year that a participant is credited with 5 or more, but less than 10 years of vesting service, plus 1.3% of each year's compensation for each calendar year that a participant is credited with 10 or more years of vesting service. The "variable benefit" will be adjusted every March 1 (before and after a participant's annuity starting date), when the Plan's actuarial investment performance is compared to the Plan's assumed rate of return of 5%. The Plan permits early retirement at ages 55-64 with 10 years of service. Members who retire early shall be entitled to a percentage of the normal retirement benefit, with the percentage increasing as the retirement age approaches normal retirement age.

Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If an employee terminates before completing 5 years of service, they are not considered to be vested and are not entitled to benefits under the Plan.

The Plan provides specified retirement and death benefits to be paid from the net assets available for benefits. The level of benefits under the Plan is based principally on an employee's years of service and average compensation. The standard form of retirement benefit to single participants is a monthly payment beginning the first day of the month following retirement and continuing until death.

The standard form of benefit to married participants is a reduced monthly payment for the participant's life and one-half of that payment for the life of the participant's surviving spouse. Optional forms of benefits are also available.

Notes to Financial Statements
December 31, 2024 and 2023

Effective January 1, 2014, MSTS employees hired or rehired prior to July 1, 2009, stopped accruing benefits under the Fixed Benefit Formula and began accruing benefits under the Variable Benefit Formula as described above.

For Plan Years beginning on or after January 1, 2014, and ending prior to the earlier of January 1, 2024, the Variable Benefit multiplier is temporarily increased for a period not to exceed 10 years. This temporary increased multiplier will be applied to employees hired or rehired before July 1, 2009, who were eligible employees on December 31, 2013, eligible employees on January 1, 2014, as of January 1, 2014, had attained age plus years of benefit service equal to or exceeding 60, and as of January 1, 2014, have years of benefit service greater than or equal to 5. The temporary increased multiplier is 0.2% for at least 5 and less than 20 years of service, 0.5% for at least 20 and less than 30 years of service, and 0.8% for at least 30 years of service. Notwithstanding anything to the contrary, if the Company determines that it is necessary, to avoid having the Plan violate the Code's non-discrimination rules, or appropriate, in its business judgement to reduce temporary increased multiplier(s) on prospective basis in such amounts, for such periods, for such categories of Participants, and with such notice to Participants as is legally required.

Death and Disability Benefits

If participants are married and die before they retire (whether or not they are active employees) and they are vested in the Plan, their surviving spouse is entitled to a benefit payable for life.

Active employees who became totally disabled after completing 10 years of vested service, and terminated employment prior to January 1, 2015, will continue to earn benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document. The terms of the existing contract between the United States Government and the Company provides that if the operations at the site continue but the contract passes to a successor contractor, the retirement plan and its assets and liabilities shall pass to the successor contractor (except for liabilities for participants retained by the current contractor and assets equaling those liabilities).

Guaranteed Benefits

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the

Mission Support and Test Services LLC (MSTS)
Employee Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

amount of an individual's monthly benefit that the PBGC guarantees. Payment of PBGC premiums is made from the Plan's trust.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the levels of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management (Management) to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains (losses) on investments bought and sold as well as those held during the year.

The Plan has a Group Annuity Contract AC 1973A (Contract 1973) with Equitable Life Assurance Society of the United States (Equitable), a trustee of the Plan. Contract 1973 with Equitable provides periodic payments to the identified retired participants (Retirees). Under this contract, Equitable retains liability for benefits earned during the term of this contract. MSTS does not have any future liabilities pertaining to these Retirees. Accordingly, Contract 1973 is considered to be an allocated contract. Therefore, Plan assets and the actuarial value of accumulated Plan benefits exclude this annuity contract.

The Plan also has a non-participating direct disbursement contract with Equitable, referred to as Guaranteed Annuity Contract AC 6691 (Contract 6691). Contract 6691 provides costs of living adjustment benefits to the Retirees and surviving spouses receiving guaranteed benefits under Contract 1973. Under this contract the Plan periodically makes contributions to Equitable to maintain

Mission Support and Test Services LLC (MSTS)

the minimum balance as required. Accordingly, Contract 6691 is considered an unallocated contract. The value of Contract 6691 was \$17,192 and \$18,180, at December 31, 2024 and 2023, respectively.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on an average of the employee's three highest years of compensation. The accumulated plan benefits for active employees are based on an average of each employee's three highest years of compensation preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability, withdrawal, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Employer Contributions

The Company contributions to the Plan are recorded in the appropriate period as determined by the Plan's actuary except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Funding Policy

The Plan's funding policy is for the plan sponsors to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Plan recorded contributions of \$18,495,000 and \$30,425,000 for the years ended December 31, 2024 and 2023, respectively, which included receivables of \$8,150,000 and \$30,425,000 as of December 31, 2024 and 2023, respectively. The Plan Sponsor's contributions for 2024 and 2023 met the minimum funding requirements of ERISA.

Vesting

Participants become fully vested in the value of their benefit upon (a) completing 5 years of service, (b) reaching normal retirement age as defined in the Plan, while employed by the MSTS.

Payment of Benefits

Benefits paid directly to participants and beneficiaries are recorded when paid.

Administrative Expenses

The Plan pays a portion of the eligible expenses incurred by the Plan from the assets of the Plan. All expenses not paid from Plan assets are paid by MSTS. There is no guarantee that MSTS will continue to pay such expenses.

Management's Review of Subsequent Events

In preparing the accompanying financial statements, Management has reviewed all known events that have occurred after December 31, 2024, and through October 14, 2025, which is the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

Note 3: Investments and Related Investment Income Certified by Trustee

Certain information in the accompanying financial statements related to the Plan's investments held as of December 31, 2023, and the related net appreciation in fair value of investments, interest and dividends for the year then ended, was certified, complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan (Trustee). This certification was provided in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Management obtained this information and agreed to or derived it from the information certified by the Trustee.

Note 4: Fair Value Measurement

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Mission Support and Test Services LLC (MSTS)
Employee Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024, and 2023.

Mutual funds (including money market mutual funds): valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Interest-Bearing Cash: valued at amortized cost, which approximates fair value.

Registered Investment Companies (Mutual Funds): valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Corporate Stock: valued at the closing price of corporate stock and shares held by the Plan at year-end determined by quoted market prices.

Corporate Debt Instruments and U.S. Government Securities (Bonds): valued at the closing price reported on the active market on which the individual securities are traded.

Common/Collective Trusts: valued at fair value based on the NAV of units held of the collective trusts. The NAV, as provided by the trustee/custodian, is used as a practical expedient to estimate fair value. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Partnership/Joint Venture: valued at their NAV as a practical expedient to estimate fair value as reported by a general or managing partner.

Other - Foreign and Domestic Bonds: using available information including information reported on the market on which such investments are traded, net asset value of the entity that issued the investment security or other information as deemed appropriate to use to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5: Accumulated Plan Benefits

The actuarial firm of Mercer estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the Plan to reflect the time value of money (through discount for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2024, were as follows:

Vested benefits:	
Active participants	\$ 166,636,573
Inactive participants with deferred benefits	56,106,331
Inactive participants receiving benefits	330,093,757
	<u>552,836,661</u>
Non-vested benefits	<u>5,742,664</u>
Actuarial present value of accumulated Plan benefits, January 1, 2024	<u>\$ 558,579,325</u>

The change in the actuarial present value of accumulated plan benefits for the year ended January 1, 2024, is as follows:

Actuarial present value of accumulated plan benefits, January 1, 2023	<u>\$ 528,678,418</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated	18,469,877
Increase in interest due to decrease in the discount period	32,470,580
Benefits paid	(37,351,601)
Changes in actuarial assumptions	7,114,003
Other changes (Unit Value Change)	<u>9,198,048</u>
Net increase	<u>29,900,907</u>
Actuarial present value of accumulated Plan benefits, January 1, 2024	<u>\$ 558,579,325</u>

Mission Support and Test Services LLC (MSTS)
Employee Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Significant assumptions underlying the actuarial computations of the accumulated plan benefits as of December 31, 2024, are as follows:

Discount rate for non-variable benefits	7.00%
Discount rate for variable benefits	5.00%
Assumed rate of return for accumulated benefits	7.00%
Mortality	
Healthy participants	Section 430(h)(3) prescribed separate generational annuitant and non-annuitant mortality tables. These tables are based on RP-2014 mortality tables, adjusted back to the 2006 based year projected with mortality improvement based on Scale MP-2020. Pri-2012 with no collar adjustment with separate rates for males vs. females, healthy vs. disabled and employees vs. retirees vs. contingent survivors, projected generationally with MP-2021 projection scale.
Retirement age	Rates varying by age between 55 and 71 and above.
Employee turnover	Variable rate, decreasing by age.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 6: Party-In-Interest Transactions

Certain plan investments are managed by the Plan's Trustee or its affiliates. Payments of the Trustee's fees and purchases and sales of assets were transacted through the Trustee. There were no other transactions with parties in interest.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and current market volatility, it is at least reasonably possible that changes in the values of investment securities will continue to occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Mission Support and Test Services LLC (MSTS)
Employee Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 8: Plan Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the IRS) dated December 10, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification.

US GAAP requires Management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

• Salary increases	See table of sample rates.	
• Inflation	2.2% per year	
• Expected investment return	7.00% for 2024 and 7.25% for 2023 and 6.00% for 2022	
• Expenses	\$5,400,000 added to current year normal cost	
• Assumed annual increase to variable benefits	Consistent with discount rate assumption.	

Rationale for Economic Assumptions

- Salary increases – The salary scale assumption was adopted following an experience study completed in 2019. The experience from January 1, 2014 through December 31, 2018 was examined. The assumption change is consistent with what was observed with the expectation that future experience and inflation will be unchanged. The underlying inflation rate is 2.2%.
- Inflation – The inflation assumption is based on the inflation assumption periodically published by Mercer Investment Consulting's Capital Markets Outlook.
- Expected investment return – The expected investment return is set using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix (Fixed and Variable combined), net of an adjustment of 20 bps for expenses assumed to be paid from plan assets and an adjustment of 15 bps for active management, which is within the 35th-65th percentile acceptable range.
- Expenses – The load is based on a rolling three-year average of administrative expenses that the plan sponsor typically pays from plan assets plus anticipated PBGC premiums, with the result rounded up to the nearest \$50,000.

Rationale for Demographic Assumptions

An experience study for the demographic actuarial assumptions was completed in 2019 ('2019 Experience Study'). The experience from January 1, 2014 through December 31, 2018 was examined. The assumption changes are consistent with what was observed with the expectation that future experience will be unchanged.

- Withdrawal – The withdrawal assumption was adopted following the 2019 Experience Study.
- Retirement age – The retirement assumption was adopted following the 2019 Experience Study.
- Benefit commencement age – The benefit commencement age was adopted following the 2019 Experience Study.
- Spouse assumptions – The age difference assumption was adopted following the 2019 Experience Study.
- Form of payment – The form of payment assumption was adopted following the 2019 Experience Study.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 25 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all participants as of the valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** A portion of the total monthly benefits are paid through an annuity purchase. The value of the annuity purchase is not included in the assets and the liability for the benefits is not included in the liabilities. The plan does not have any other insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- This plan provides disability/death benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.

Variable Benefits

Liabilities for variable benefits have been determined using assumed annual increases to accrued benefits. The assumed rates of increase were determined each year based on the discount rates applicable to that year. This methodology is used for variable benefits under both stabilized and nonstabilized segment rates.

Statement by Enrolled Actuary	
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions**

Effective date and plan year	Original plan: January 1, 1971. Restated plan: December 1, 2017. Plan year: Calendar Year. Most recent amendment: Amendment No. 2 effective June 19, 2023.
Status of the plan	The plan has ongoing benefit accruals and new employees are eligible to participate in the plan once they satisfy the participation requirements.
Significant events that occurred during the plan year	None.
Definitions	
Covered employees	All regular employees of participating Employer on the first day that they perform an hour of service under DOE contract DE-AC08-96NV11718. Leased employees, nonresident aliens, bargained employees, and employees who participate in the retirement plans of another employer are excluded.
Employee contributions	Employee contributions are no longer made to the Plan. Effective January 1, 1992, for employees who previously participated in the Retirement Plan for the Employees of Reynolds Electrical & Engineering Co., Inc., employee contributions were optionally withdrawn or transferred to the Reynolds Electrical & Engineering Co., Inc. Investment Savings Plan with no reduction to the Accrued Benefit under this Plan.
Vesting service	Sum of the Participant's Vesting Service earned before January 1, 1997 under the Predecessor Plans and, beginning January 1, 1997, years in which an individual is credited with 1,000 Hours of Service as an Employee.
Benefit service	Sum of the Participant's Benefit Service earned before January 1, 1997 under the Predecessor Plans and, beginning January 1, 1997, 1/2080 (rounded to the nearest 1/10th of a percent) for each Hour of Service as an Employee, limited to one year of Benefit Service for each calendar year.
Final average earnings	Compensation for the highest 5 calendar years within the last 10 calendar years that yield the highest average compensation. Final average earnings are frozen as of December 31, 2013.
Covered compensation	Section 3401(a) wages plus Section 125 and 402(e) deferrals excluding relocation benefits, severance payments, and payments of accrued but unused vacation and/or paid time-off on or after July 25, 1996. Compensation may not exceed the limit on pay under IRC Section 401(a)(17).

Schedule SB, Part V — Summary of Plan Provisions**Variable Benefit Units****Pre July 1, 2009 participants**

Effective for accruals after December 31, 2013, participants are credited with Variable Benefit Units at the end of each Plan Year. The amount of Variable Benefit Units is equal to the product of (A) the participant's compensation for the year, times (B) the applicable multiplier below, divided by (C) the Variable Benefit Unit Value as of the last day of the Plan Year.

Years of Vesting Service as of January 1 of Plan Year	Multiplier
Less than 10	1.0%
At least 10	1.3%

Additionally, participants as of January 1, 2014 who had 5 or more Years of Benefit Service and whose attained age plus Years of Benefit Service was 60 or more are eligible for a temporarily increased multiplier for plan years beginning January 1, 2014 and ending at the earlier of January 1, 2024 or date of termination as follows:

Years of Benefit Service as of January 1, 2014	Temporarily Increased Multiplier
At least 5, less than 20	0.2%
At least 20, less than 30	0.5%
At least 30	0.8%

Post June 30, 2009 participants

Participants are credited with Variable Benefit Units at the end of each Plan Year. The amount of Variable Benefit Units is equal to the product of (A) the participant's compensation for the year, times (B) the applicable multiplier below, divided by (C) the Variable Benefit Unit Value as of the last day of the Plan Year.

For accruals from July 1, 2009 to December 31, 2013:

Years of Vesting Service as of January 1 of Plan Year	Multiplier
Less than 5	0.9%
At least 5 and less than 10	1.0%
At least 10	1.1%

For accruals after December 31, 2013:

Years of Vesting Service as of January 1 of Plan Year	Multiplier
Less than 10	1.0%
At least 10	1.3%

Schedule SB, Part V — Summary of Plan Provisions

Variable Benefit Unit Value	Defined as 10.000 as of December 31, 2009 and adjusted each year by multiplying the Variable Benefit Unit Value as of the preceding Valuation Date by the ratio of (A) divided by (B) below: (A) is equal to "1" plus the annual rate of investment return earned by the Plan assets for the Plan Year ending with the Valuation Date. (B) is equal to 1.05 ("1" plus the hurdle rate of 5%). January 1, 2024 Variable Benefit Unit Value: 11.896
Accrued benefit	Pre July 1, 2009 participants For accruals prior to January 1, 2014, calculated same as Normal Retirement Benefit but based on Final Average Earnings and Benefit Service at date of calculation. Final Average Earnings and Benefit Service are frozen as of December 31, 2013. For accruals after December 31, 2013, the accrued benefit is calculated the same as Normal Retirement Benefit but based on Variable Benefit Units and Unit Value at date of calculation. Post June 30, 2009 participants Calculated the same as Normal Retirement Benefit but based on Variable Benefit Units and Unit Value at date of calculation.

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement	
Eligibility	The first day of the month on or after age 65.
Benefit	Pre July 1, 2009 participants For benefits accrued prior to January 1, 2014, the greatest of (A) or (B) or (C): (A) the amount determined under the terms of the Plan as in effect December 31, 1995, taking into account only Compensation and Benefit Service on or prior to such date, plus the amount determined under (i) below taking into account only Compensation and Benefit Service after such date and prior to January 1, 2014; (i) the excess of (1) the product of 1.5% of Average Compensation and all of the Member's years of Benefit Service over (2) the product of 1.5% of the Member's Primary Social Security Benefit and the Member's years of Benefit Service (up to a maximum of 35); or (B) the excess of (1) the product of 1.5% of Average Compensation and all of the Member's years of Benefit Service over (2) the product of 1.5% of the Member's Primary Social Security Benefit and the Member's years of Benefit Service (up to a maximum of 35); or (C) the amount determined under the terms of the Plan as in effect on December 31, 1996, taking into account only Compensation and Benefit Service on or prior to such date. Average Compensation, Benefit Service, Primary Social Security Benefit for (A)(i) and (B) above are all frozen as of December 31, 2013. For accruals after December 31, 2013, the Normal Retirement Benefit each year is equal to the product of (1) the total number of Variable Benefit Units accrued times (2) the Variable Benefit Unit Value as of the most recent prior Valuation Date. Benefits may not exceed the maximum benefit limit as specified in Section 415(b) of the Internal Revenue Code. Post June 30, 2009 participants The Normal Retirement Benefit each year is equal to the product of (1) the total number of Variable Benefit Units accrued times (2) the Variable Benefit Unit Value as of the most recent prior Valuation Date. Benefits may not exceed the maximum benefit limit as specified in Section 415(b) of the Internal Revenue Code.

Schedule SB, Part V — Summary of Plan Provisions

Early retirement	
Eligibility	Age 55 and 10 years of Vesting Service (age 55 and 5 years of service for participants in this plan who were participants in the Retirement Plan for the Employees of Reynolds Electrical Engineering Co., Inc. on December 31, 1996 and for participants transitioned to Wackenhut Services, Inc. on or after August 31, 1998 and before October 2, 1998).
Benefit	Pre July 1, 2009 participants Frozen accrued benefit as of December 31, 2013 reduced for commencement prior to age 65. Reductions are 6-2/3% for each of the first five years and 3-1/3% for each of the next five years by which the early retirement date precedes normal retirement date. For benefits accrued after December 31, 2013, the accrued benefit reduced for commencement prior to age 65. Reduction is determined as the actuarial equivalent of the Normal Retirement Benefit based on 5% interest and RP-2000 mortality projected with Scale AA to the year 2020. Post June 30, 2009 participants Accrued benefit reduced for commencement prior to age 65. Reduction is determined as the actuarial equivalent of the Normal Retirement Benefit based on 5% interest and RP-2000 mortality projected with Scale AA to the year 2020.
Postponed retirement	
Eligibility	Termination after normal retirement date.
Benefit	Pre July 1, 2009 participants Accrued benefit based on Final Average Earnings and Benefit Service at earlier of December 31, 2013 or postponed retirement date, plus for accruals after December 31, 2013, the accrued benefit based on total accumulated Variable Benefit Units and Variable Benefit Unit Value as of postponed retirement date. Post June 30, 2009 participants Accrued benefit based on total accumulated Variable Benefit Units and Variable Benefit Unit Value as of postponed retirement date.
Deferred vested	
Eligibility	5 years of Vesting Service.

Schedule SB, Part V — Summary of Plan Provisions

Benefit	Pre July 1, 2009 participants For benefits accrued prior to January 1, 2014, the accrued benefit based on Final Average Earnings and Benefit Service at termination date, payable upon normal retirement date. If participant has 10 years of Vesting Service and has attained age 55, they may elect an early benefit. Reductions for commencement prior to age 65 are 6-2/3% for each of the first five years and 3-1/3% for each of the next five years by which the deferred vested retirement date precedes normal retirement date. For benefits accrued after December 31, 2013, the accrued benefit based on total accumulated Variable Benefit Units as of termination date and Variable Benefit Unit Value as of most recent valuation date, payable upon normal retirement date. Reduction for commencement prior to age 65 is determined as the actuarial equivalent of the Normal Retirement Benefit based on 5% interest and RP-2000 mortality projected with Scale AA to the year 2020. Post June 30, 2009 participants Accrued benefit based on total accumulated Variable Benefit Units as of termination date and Variable Benefit Unit Value as of most recent valuation date, payable upon normal retirement date. If participant has 10 years of Vesting Service and has attained age 55, they may elect an early benefit. Reduction for commencement prior to age 65 is determined as the actuarial equivalent of the Normal Retirement Benefit based on 5% interest and RP-2000 mortality projected with Scale AA to the year 2020.
Disability	
Eligibility	Total and permanent disability prevents any substantial gainful employment. Benefit may commence the first day of any month on or after age 55 with 10 years of service. Pre July 1, 2009 participants who meet these requirements prior to January 1, 2015 are entitled to a disability benefit, Post June 30, 2009 participants who meet the requirements for a disability benefit prior to January 1, 2015 after completing 10 or more years of service are entitled to a disability benefit. There is no disability benefit for participants who become disabled after December 31, 2014.
Benefit	Pre July 1, 2009 participants Same as Normal Retirement Benefit assuming service continues to date of payment and compensation remains the same as compensation at the time of disability (not frozen as of December 31, 2013). Post June 30, 2009 participants Same as Normal Retirement Benefit. Participant shall continue to accrue Variable Benefit Units during period of disability equal to (A) multiplied by (B) multiplied by (C) divided by (D) where: (A) is equal to participant's annualized Compensation at time of termination due to Disability. (B) is equal to number of months in the Plan year that are included in the period of Disability divided by 12. (C) is equal to multiplier in effect at time of Disability. (D) is equal to the Variable Benefit Unit Value as of the end of such Plan Year.

Schedule SB, Part V — Summary of Plan Provisions

The basis for converting to optional forms of benefits for variable benefits is 5.0% and RP-2000 mortality projected with Scale AA to the year 2021.

Schedule SB, Part V — Summary of Plan Provisions

Miscellaneous	
Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2024, the limit is \$345,000.
Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.
Benefits not included in valuation	None.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated effective December 1, 2017 are included in this valuation:

- **Most recent plan amendments included:** Amendment No. 2 effective June 19, 2023
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.

Schedule SB, Part V — Summary of Plan Provisions

- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.

The Variable Benefit Unit Value changed from 11.254 as of January 1, 2023 to 11.896 as of January 1, 2024.
