## **Report of Independent Auditors**

The First American Bank Audit Committee  
First American Bank KSOP Committee  
First American Bank 401(k) Employee Stock Ownership Plan

### **Report on the Audit of the Financial Statements**

#### ***Opinion***

We have audited the financial statements of First American Bank 401(k) Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of First American Bank 401(k) Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

#### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of First American Bank 401(k) Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about First American Bank 401(k) Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of First American Bank 401(k) Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about First American Bank 401(k) Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Supplemental Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024 and the Schedule of Delinquent Participant Contributions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

## **Note 1 – Description of Plan**

The following description of the First American Bank 401(k) Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of Plan provisions.

**General** – The Plan has been restated effective January 1, 2016. The Plan is an employee stock ownership plan with a 401(k) feature established under the Internal Revenue Code (IRC) Section 401 covering all employees of First American Bank (the Bank), a subsidiary of First Artesia Bancshares, Inc. (the Company). The investment assets are held in various locations. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Eligibility** – Employees are eligible to participate in the Plan the month following completion of one year of service, and upon reaching age 18, as defined in the Plan. If an eligible participant terminates employment and is later re-employed, that employee may become a participant upon re-employment after meeting the requirements in the plan agreement.

**Trustee** – First American Bank Trust Department serves as the trustee for the Plan. The trustee is responsible for the administration, management, and investment of the trust fund. In addition, the trustee has outsourced to EPIC Retirement Plan Services (EPIC), which makes all distributions and benefit payments from the trust fund to participants and beneficiaries. The trustee, along with EPIC, maintains the records of the Plan on a calendar year basis (the Plan Year).

Bank contributions are held by EPIC, as trustee, which invests cash received and interest, and makes distributions to participants. The Plan's assets, which consist principally of Company common stock, are held by the trustee of the Plan.

## **Contributions**

*Participant contributions* – Each year, participants may contribute the maximum amount of pretax annual compensation, as defined by the Plan being the lesser of 100% of total compensation or the amount determined by the federal maximum amount available participant deferral elections. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained the age of 50 before the end of the Plan Year are eligible to make catch-up contributions. Participants may also contribute amounts representing termination distributions from other qualified defined benefit and defined contribution plans, or any amounts from Traditional, Roth, SEP, or SIMPLE IRA accounts. The Plan has implemented an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until elected otherwise by the participant.

*Employer match and profit-sharing contributions* – The Bank contributes a safe harbor matching contribution equal to 100% of the first 3% of the participant's compensation, plus 50% of the participants above 3%, up to 5% of the participant's compensation. The employer match cannot exceed 4% of total compensation. Any profit-sharing contributions are subject to a vesting requirement. During 2024 and 2023, there were no profit-sharing contributions. At December 31, 2024 and 2023, the employer match was \$500,154 and \$482,921, respectively.

# First American Bank 401(k) Employee Stock Ownership Plan Notes to Financial Statements

---

Contributions are subject to regulatory limitations.

**Participant accounts** – Each participant’s account is credited with the participant’s contributions and employer matching contributions, as well as allocations of the Bank’s profit-sharing contributions, plan earnings, and rollovers authorized by the participant. Earnings allocations are based on balances credited and deposits received in the form of contributions, credited earnings, and rollovers. At any time, the accrued benefit of the participant to which the participant has absolute ownership subject to the Plan’s distribution provisions is the participant’s vested account balance. Participants direct the investment of their contributions and existing or current discretionary balances into a series of diversified investment options offered by the Trustee. Investments including First Artesia Bancshares, Inc. stock and reserve money market accounts are administered by the Bank’s Trust and Wealth Management Group.

**Vesting** – Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Bank’s safe harbor contribution portion of their account is 100% vested in interest from the matching contribution of the employer. The vesting schedule for the Bank’s profit-sharing contribution follows:

<u>Participant's Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

The term “years of service” includes all periods of employment except for years in which an employee worked less than 1,000 hours. For purposes of vesting, the “year” is defined as a calendar year.

A participant is 100% vested, regardless of years of service, upon disability or death.

**Notes receivable from participants** – Per the Plan provision, participants may not borrow from their accounts. However, upon the acquisition in June 2022, participants of the acquired financial institution were allowed to transfer their notes receivable balances into the Plan and continue payment. The loans are secured by the balance in the participant’s account. All loans must be repaid within a period of five years. Plan loans bear a reasonable rate of interest determined by the previous Plan administrator. Principal and interest are paid ratably through semimonthly payroll deductions. As of December 31, 2024, the rates of interest on outstanding loans ranged from 6.00% to 7.50%, with various maturities through June 2027.

**Payment of benefits** – On termination of service because of death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant’s vested interest in his or her account less 20% federal withholding, a direct rollover into another qualified benefit plan or account, or installments payments.

## **First American Bank 401(k) Employee Stock Ownership Plan Notes to Financial Statements**

---

If the First American Bank stock portion of the vested account balance is greater than \$500,000, the Plan will opt to retain the participant's stock in his or her account, liquidating the equivalent of one tenth of the shares annually and exercising the option to pay out the participant stock account distributions over a ten-year period. If the First American Bank stock portion of the vested account balance is between \$100,000 and \$500,000, the Plan will opt to retain the participant's stock in his or her account, liquidating the equivalent of one fifth of the shares annually and exercising the option to pay out the participant stock account distributions over a five-year period.

If a participant's non-forfeitable accrued benefit does not exceed \$1,000, then settlement occurs automatically as a lump sum payment following termination of employment. If a participant's non-forfeitable accrued benefit exceeds \$1,000 but is less than \$5,000, then the participant has the option to elect the method used to distribute his or her benefits. If the participant's accrued balance is greater than \$5,000, he or she may keep the vested balance in the Plan; however, the First American Bank common stock will be immediately sold unless the participant was hired before July 1, 2003.

**Hardship withdrawals** – Participants may take distributions from the Plan in cases of an immediate and heavy financial need. Hardship distributions may not exceed the current balance of the participant's elective deferrals at the date of distribution; they may not exceed the amount of the need.

**Diversification** – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who have completed ten years of service as a participant and have attained age 55 may elect to diversify a portion of their account. Participants may direct the Plan as to the investment of up to 25% of their qualified account balance, which equals (a) the balance of their account as the end of the prior plan year; minus (b) any amounts previously diversified.

**Put option** – Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

**Forfeitures** – The nonvested portion of a terminated participant's account is forfeited upon the earlier of distribution of the entire vested account balance or five consecutive one-year breaks in service. Forfeitures are allocated only to participants in the Plan in the current year based upon compensation. At December 31, 2024 and 2023, the forfeitures account had balances of \$64,198 and \$1,128, respectively.

### **Note 2 – Summary of Significant Accounting Policies**

**Basis of accounting** – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

**Use of estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

# First American Bank 401(k) Employee Stock Ownership Plan Notes to Financial Statements

---

**Investment valuation** – The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

**Notes receivable from participants** – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

**Payment of benefits** – Benefits are recorded when paid.

**Administrative expenses** – General plan administrative expenses may be paid out of the forfeiture account or paid by the Bank. Distribution fees are paid by the Plan participants.

**Subsequent events** – Subsequent events are events or transactions that occur after the statements of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan’s financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 14, 2025, which is the date the financial statements were available to be issued.

### **Note 3 – Administration of Plan Assets**

Certain administrative functions are performed by officers or employees of the Bank. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee’s fees are paid directly by the Bank.

As of December 31, 2024 and 2023, the current value of each share of First Artesia Bancshares, Inc. common stock is \$6,700 and \$5,925, respectively.

**Note 5 – Fair Value Measurements**

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

**Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

**Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

## **First American Bank 401(k) Employee Stock Ownership Plan Notes to Financial Statements**

---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

*Registered investment companies (mutual funds) and money market funds* – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

*Common stock* – The First Artesia Bancshares, Inc. common stock held by the Plan is reported at fair value based on an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepared a report of estimated per share value that a participant will receive upon distribution. The president of the Bank reviews the report for accuracy and reasonableness.

*Investments measured at NAV – collective trust* – A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued using the NAV practical expedient, an estimate of fair value. This NAV practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose the fair value hierarchy of the Plan's assets by level as of December 31, 2024 and 2023:

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Plan administrator evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

**Note 6 – Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter dated July 12, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan’s tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 7 – Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant’s account balance and the amounts reported in the statements of net assets available for benefits.

**Note 8 – Party-in-Interest Transactions**

Plan investments include shares of First Artesia Bancshares, Inc. managed by First American Bank as trustee and plan sponsor. Therefore, transactions with this entity qualify as a party-in-interest transaction. There were no fees paid for these services.

**Note 9 – Plan Termination**

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time, subject to the provisions of ERISA. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

**Note 10 – Delinquent Participant Contributions**

As disclosed in the accompanying supplemental schedule, certain employee deferrals were not remitted to the Plan within the timeframe required by the Department of Labor. The Company will determine the amount of related lost earnings and remit these amounts to participants' accounts.

**Note 11 – Subsequent Event**

On June 30, 2025, First American Bank 401(k) Employee Stock Ownership Plan purchased 250 shares of First Artesia Bancshares, Inc. common stock that had been held in treasury. The share price at time of purchase was \$6,700. The transaction totaled \$1,675,000.
