## Independent Auditors' Report

Benefits Committee of Zurn LLC  
Zurn Pension Plan  
Milwaukee, Wisconsin

### *Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of Zurn Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Zurn Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities For The Audit Of The Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis For Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of Zurn Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Emphasis Of Matter - Plan Termination***

As discussed in Note 7 to the financial statements, on January 30, 2025 the Board of Directors of Zurn LLC approved a resolution to terminate Zurn Pension Plan effective April 1, 2025. Our ERISA Section 103(a)(3)(c) audit opinion is not modified with respect to this matter.

### ***Responsibilities Of Management For The Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Zurn Pension Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities For The Audit Of The Financial Statements***

Except as described in the Scope And Nature Of The ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Zurn Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Zurn Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### ***Supplemental Schedules Required By ERISA***

The supplemental schedules of assets (held at end of year) as of December 31, 2024 and reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 And 2023

### 1. Description Of The Plan

The following brief description of the Zurn Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

#### General

The Plan is a noncontributory defined benefit pension plan sponsored by Zurn LLC (the "Company") and is comprised of two legacy subplans effective October 4, 2021. The Benefits Committee of the Board of Directors of the Company controls and manages the operation and administration of the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan's trustee and record keeper is Principal Financial Services, Inc. (the "Trustee" or "Principal").

#### Pension Benefits

##### Zurn Union Subplan ("Zurn Plan")

The Zurn Plan provides pension, death and disability payments to certain eligible employees of Zurn Industries, LLC who are members of the International Association of Machinists and Aerospace Workers Pattern Makers Local Lodge 1968 of Erie, Pennsylvania and United Steel Workers of America Local 3199-19. The Zurn Plan applies only to persons who were participants in the JBI Master Pension Plan and who terminated their employment with Zurn Industries, LLC on or after February 7, 2007, or those eligible employees that were hired after February 7, 2007.

Participants are entitled to pension benefits beginning the later of the participant's 62nd birthday or the fifth anniversary of the date that participant entered the Zurn Plan or a predecessor plan. Retirement benefits are paid to pensioners or beneficiaries in various forms of annuities. Participants may elect early retirement between the ages of 60 and 62. Additional early retirement provisions include the following:

- A participant who retires after completing 30 years of continuous service and commences payment of Zurn Plan benefits on or after the early retirement age, but prior to the normal retirement date shall receive a benefit equal to the participant's normal retirement Zurn Plan benefits, without reduction for early commencement. In addition to those benefits, the participant will receive a monthly supplement of \$225 for each month in which the benefit is payable until the month in which the participant attains age 62.
- A participant who has at least 15 years of continuous service and who becomes permanently incapacitated is eligible to retire and may, upon retirement, be eligible for benefits as defined by the Zurn Plan. Eligibility for permanent incapacity continues only so long as the participant is incapacitated.

- A participant who (i) has at least 10 years of continuous service and whose combined age and years of continuous service equals 70 or more, or (ii) whose combined age and years of continuous service equals 80 or more, and whose continuous service is broken by reason of a permanent shutdown of a plant, department or subdivision thereof or by reason of a layoff or physical disability shall be eligible to retire and shall upon retirement be eligible for benefits as defined by the Zurn Plan.

Effective December 31, 2010, the Zurn Plan's pension benefit provisions have been frozen with respect to accrual of service for all participants, and salary credits for all participants under the age of 40. Additionally, employees hired after August 31, 2010 are not eligible for participation in the Plan. Effective January 1, 2011, the Plan's participants have become eligible for participation in an existing defined contribution plan sponsored by the Company.

#### Zurn Non-Union Subplan ("Non-Union Plan")

The Non-Union Plan is a defined benefit pension plan covering certain non-union employees of the Company and certain eligible employees of Jacuzzi Brands, Inc. ("JBI").

Participants with five years of continuous service, as defined by the Non-Union Plan, are entitled to pension benefits upon retirement. Pension benefits are provided to participants under several types of retirement options based upon years of continuous service and age. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities, including a lump-sum payment option.

Effective March 31, 2004, the accrued benefit of each participant was frozen and no employee could become eligible to become a new participant after March 31, 2004. No additional benefit accrual could occur under the Non-Union Plan after that date. Compensation paid after March 31, 2004 is not considered for purposes of the Non-Union Plan, except for that amount paid to any participant who had attained age 45 on or before March 31, 2004. Compensation paid to these participants up to and including March 31, 2014, will be considered in determining benefits, while compensation paid after March 31, 2014, will not be considered.

The former Jacuzzi Brands, Inc. Master Pension Plan, which was merged into the Non-Union Plan in 2007, ceased admitting new participants effective January 1, 2005.

## **2. Summary Of Significant Accounting Policies**

### **Basis Of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting.

### **Estimates And Assumptions**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, the reported amounts of additions to and deductions from net assets during the reporting period, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

## **Valuation of Investments And Income Recognition**

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements for assets held in the Plan.

Investment income (loss) is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments represents the difference between the aggregate fair value of investments at the end of the year and the values at the beginning of the year, and includes any realized gains and losses and unrealized appreciation or depreciation on those investments.

## **Administrative Expenses**

All administrative expenses are paid by the Plan as provided for in the Plan Document.

## **Payment of Benefits**

Benefits payments to participants are recorded when paid.

### **3. Funding Policy**

The Company contributes such amounts as are necessary on an actuarial basis to provide sufficient assets to meet benefit payments to Plan participants and fund prior year service costs. The net investment income or loss serves to reduce or increase contributions that would otherwise be required for the defined level of benefits under the Plan. Amounts forfeited by any participant through termination of employment are used to reduce future contributions to the Plan and do not increase the benefits which other participants would otherwise receive under the Plan. The Plan met the minimum funding requirements of ERISA for the years ended December 31, 2024 and 2023.

### **4. Actuarial Present Value Of Accumulated Plan Benefits**

Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to services rendered by the employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2024 and 2023 is as follows:

	2024	2023
<b>Vested Benefits</b>		
Participants and/or beneficiaries		
currently receiving benefits	\$ 167,684,974	\$ 170,803,355
Other participants	52,875,618	54,120,321
<b>Total Vested Benefits</b>	<b>220,560,592</b>	<b>224,923,676</b>
<b>Non-vested Benefits</b>	—	70,942
<b>Total Actuarial Present Value Of Accumulated Plan Benefits</b>	<b>\$ 220,560,592</b>	<b>\$ 224,994,618</b>

The changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2024 are as follows:

<b>Actuarial Present Value of Accumulated Plan Benefits At January 1, 2023</b>	<b>\$ 224,994,618</b>
<i>Increase (decrease) during the year attributable to:</i>	
Benefits accumulated	273,631
Actuarial (gains)/losses	(1,629,870)
Decrease in the discount period	11,329,972
Actual benefits paid	(18,918,499)
Changes in actuarial assumptions	4,510,740
<b>Total Actuarial Present Value Of Accumulated Plan Benefits At January 1, 2024</b>	<b>\$ 220,560,592</b>

The significant actuarial assumptions used in the January 1, 2024 and 2023 valuations were:

Mortality	The Pri-2012 mortality tables (blue collar for Zurn Union subplans and no collar for Non-Union subplan) with fully generational projections on the MP-2021 projection scales for 2024 and 2023.
Retirement age	Age-related retirement ranges from age 55 to age 65
Discount rate	5.00% in 2024 and 5.25% in 2023, compounded annually
Compensation increases	3.00% in 2024 and 2023, compounded annually

## 5. Certified Financial Information

Financial information related to the Plan's investments and related earnings thereon, as of and for the years ended December 31, 2024 and 2023, are included in the accompanying financial statements and

are based on information provided by Principal Bank. This information, which has not been audited by the Plan's independent auditors, has been certified to as complete and accurate by Principal Bank.

## 6. Fair Value Measurements

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* ("ASC 820"), defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed assumptions about the assumptions a market participant would use.

In accordance with ASC 820, fair value measurements are classified under the following hierarchy:

Level 1	Quoted prices for identical instruments in active markets.
Level 2	Quoted prices for similar instruments; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable.
Level 3	Model-derived valuations in which one or more inputs or value-drivers are both significant to the fair value measurement and unobservable.

If applicable, the Plan uses quoted market prices in active markets to determine fair value, and therefore classifies such measurements within Level 1. Where market prices are not available, the Plan makes use of observable market based inputs to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally developed models that use, where possible, current market-based parameters. These measurements are classified within Level 3 if they use significant unobservable inputs.

A description of the valuation methodologies used for assets measured at fair value is as follows:

### **Money Market Fund/Mutual Funds**

Valued at the daily closing price as reported by the fund. The money market fund and mutual funds held by the Plan are open-end investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The money market fund and mutual funds held by the Plan are deemed to be actively traded.

### **Common/Collective Trusts**

Valued at the NAV of units of the common/collective trusts. The NAV, as provided by the trustee of each fund, is used as a practical expedient to estimate fair value. The NAV of each fund is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Units of the common/collective trusts may be purchased and redeemed on a daily basis. All of the common/collective trusts held by the Plan file annual returns on Form 5500 as direct filing entities, and there are no unfunded commitments in these funds.

## Venture Capital/Limited Partnerships

Interests in venture capital funds and limited partnerships are valued using the NAV, or equivalent, as a practical expedient and as provided by the investment advisors. Generally, the investments in venture capital funds or limited partnerships are made for the purpose of providing capital appreciation. These funds and partnerships include direct investments in privately held entities and other private investment funds as part of their respective portfolios.

The investments in these alternative investment funds include contractual commitments to provide capital contributions over periods of time. As of December 31, 2024, the remaining unfunded capital commitments totaled approximately \$0.5 million for 1 individual contract.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the methodologies used at December 31, 2024 and 2023.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
Money market fund	\$ 4,232,526	\$ —	\$ —	4,232,526
Mutual funds	2,881,263	—	—	2,881,263
	<u>\$ 7,113,789</u>	<u>\$ —</u>	<u>\$ —</u>	7,113,789
Common/collective trusts (a)				192,744,449
Venture capital/limited partnerships (a)				—
				<u>\$ 199,858,238</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023:

	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
Money market fund	\$ 3,834,451	\$ —	\$ —	\$ 3,834,451
Mutual funds	9,305,065	—	—	9,305,065
	<u>\$ 13,139,516</u>	<u>\$ —</u>	<u>\$ —</u>	<u>13,139,516</u>
Common/collective trusts (a)				168,061,385
Venture capital/limited partnerships (a)				31,847
				<u>\$ 181,232,748</u>

(a) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

## 7. Plan Termination

On January 30, 2025, Zurn's Board of Directors approved a resolution to terminate the Plan effective April 1, 2025, subject to the provisions of ERISA. As part of that resolution, a full freeze of benefit accruals under the Plan was effective March 31, 2025. The Plan expects to be fully liquidated by December 31, 2025 through a combination of benefit payments to participants and the purchase of an annuity contract. The Plan will be funded to meet any obligations as necessary to affect the termination.

The Plan Sponsor has requested approval from the IRS and Pension Benefit Guaranty Corporation (PBGC). This approval has not yet been received. The Plan Sponsor reserves the right to cancel the Plan's termination. In connection with the Plan's termination, each participant shall become fully vested in his or her accrued benefit. The termination will not affect the amount of benefit to which the participants are entitled.

Participants receiving monthly benefits will continue to receive monthly benefits, via the purchase of an annuity contract. For participants not currently receiving monthly benefits, these participants will have the same choices to start their benefit and the same payment options currently available under the Plan, or they may elect a lump sum distribution.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

The actuarial assumptions utilized for the valuation of accumulated plan benefits as of January 1, 2024, as disclosed in Note 4, were based on the presumption that the Plan would continue. In consideration of the decision to terminate the Plan, however, there is no impact to the actuarial assumptions for mortality rates, retirement rates or account balance crediting rates. During 2025, the Plan began liquidating the investments in preparation for the purchase of an annuity contract and in preparation for making lump sum distributions.

## **8. Party In Interest Transactions**

Certain Plan investments are managed by Principal or affiliates of Principal. The Plan paid certain expenses related to Plan operations. These transactions are exempt party in interest transactions under ERISA.

## **9. Income Tax Status**

Prior to the December 31, 2017 merger of the Non-Union Pension Plan into the Plan, the Internal Revenue Service ("IRS") had determined and informed the Company that the Zurn Union Pension Plan and related trusts were designed in accordance with the applicable regulations of the Internal Revenue Code ("IRC"). This confirmation was done by letters dated May 20, 2015 for the Zurn Union Pension Plan and February 26, 2014 for the Non-Union Pension Plan. The Plan, subsequent to the December 31, 2017, merger has not received a tax determination letter related to the merged plan. However, the Company and the Plan Administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Plan Sponsor to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions. However, there are currently no audits for any tax periods in progress.

## **10. Risks And Uncertainties**

The Plan invests in various investment securities. Investments, in general, are exposed to various risks, such as interest rate changes, credit risks and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

## **11. Subsequent Events**

Management has evaluated subsequent events through the date which the financial statements were available for issue, which is the date of the Independent Auditors' Report. See more information related to the Plan Termination within Note 7, Plan Termination.

## Schedule SB, Part V Statement of Actuarial Assumptions/Methods

### Economic Assumptions

#### Interest rate basis:

- Applicable month September
- Interest rate basis 3-Segment Rates

#### Interest rates:

	Reflecting Stabilization	Not Reflecting Stabilization
--	--------------------------	------------------------------

#### Annual rates of increase

- Compensation 3.00%
- Future social security wage base 2.50%
- Consumer price index 2.00%

#### Plan-related expenses

Based on the prior year's actual expenses adjusted for anticipated expenses for the current year. The amount included this year for plan-related expenses is \$2,100,000.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

#### Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

## Methods

<b>Valuation date</b>	First day of plan year
<b>Funding target</b>	Present value of accrued benefits as required by regulations under IRC §430.
<b>Target normal cost</b>	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
<b>Actuarial value of assets</b>	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 4.25% for 2023 and 4.00% for 2022 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
<b>Decrement Timing</b>	<p>The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.</p>

## Benefits not valued

The plan pays small benefits in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

No allowance was made for 70/80 Retirement in the event of a plant shutdown or other job elimination, or for special payment for Legacy Zurn Union. Based on discussions with the Plan Sponsor, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued until and unless the triggering event occurs.

All remaining benefits described in the Plan Provisions section of this report were valued.

## Source of Data and Other Information

The plan sponsor, along with its third party administrator Principal, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions were supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Zurn Elkay Water Solutions, assumptions were made for missing or apparently inconsistent data elements. These assumptions have been documented and communicated with Zurn Elkay Water Solutions.

We are not aware of any errors or omissions in the data that would have significant effect on the results of our calculations.

## Assumptions Rationale — Significant Economic Assumptions

### Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

### Plan-related expenses

Plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

### Rates of increase in:

#### ■ Compensation

Assumed compensation increases are based on Plan Sponsor expectations for near-term years and the effect that the assumed long-term CPI will have on compensation increases over the longer term.

- **Social Security Wage Base (SSWB)** The assumed SSWB is based on the assumed long-term CPI, plus assumed increases in real wages (the portion of GDP increases that become part of wages) based on Plan Sponsor expectations.
- **Consumer Price Index (CPI)** The assumed CPI increase of 2.00% is based on recent average CPI experience.
- **Assumed return for asset smoothing** The assumed return used for asset smoothing is the expected return on assets assumption chosen by the Plan Sponsor for the prior fiscal years under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the plan sponsor's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

## Assumptions Rationale — Significant Demographic Assumptions

- PPA Mortality** Assumptions used for funding purposes are as prescribed by IRC §430(h).
- Termination** Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.
- Disability** Disability rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by disability patterns different than assumed.
- Retirement** Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
- Benefit commencement date for deferred benefits:**
- **Preretirement death benefit** Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, adjustments from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

- **Deferred vested benefit** Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

## **Form of payment**

The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience over recent periods with annual review.

## **Marital Assumptions:**

- **Percent married** The assumed percentage married is based on a blending of marital statuses of recent retirees and changes expected to occur in marriage patterns of retirement age individuals in the future.
- **Spouse age** The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

## **Source of Prescribed Methods**

### **Funding methods**

The methods used for funding purposes as described herein, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

## Schedule SB, Part V Statement of Actuarial Assumptions/Methods

### Economic Assumptions

#### Interest rate basis:

- Applicable month September
- Interest rate basis 3-Segment Rates

#### Interest rates:

	Reflecting Stabilization	Not Reflecting Stabilization
--	--------------------------	------------------------------

#### Annual rates of increase

- Compensation 3.00%
- Future social security wage base 2.50%
- Consumer price index 2.00%

#### Plan-related expenses

Based on the prior year's actual expenses adjusted for anticipated expenses for the current year. The amount included this year for plan-related expenses is \$2,100,000.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

#### Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

- **Disability benefit**                      The later of normal retirement age or disability  
  
Immediate commencement upon disability for Legacy Union participants with 15 years of service, and Legacy Non-Union Brass participants with 10 years of service
- **Retirement benefit**                      Upon termination of employment

**Form of payment**                              Participants are assumed to elect the normal form. If a participant has a spouse, the benefit shall be paid in the form of a Qualified Joint & Survivor Annuity. If the participant does not have a spouse, the benefit shall be paid in the form of a Single Life Annuity (or a Ten Year Certain and Life Annuity for former participants in the JBI Master Plan).

## **Percent married**

- **Non-Union**                                      For purposes of valuing the pre-retirement surviving spouse's benefit, 80% for former participants are assumed to be married.
- **Union**    For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of participants are assumed to be married.

**Spouse age**                                      Wife 3 years younger than husband

## **Covered pay**

- **Non-Union**                                      Total amount paid in the Plan Year to the Participant by the employer for services rendered as reported on IRS Form W-2. Compensation also includes contributions made on behalf of an Employee by Employer pursuant to Code section 401(k) or 125 or 132(f)(4).
- **Union**    Total amount paid in the Plan Year to the Participant by the employer for services rendered as reported on IRS Form W-2.

**At-risk assumptions**                              For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most

## Methods

<b>Valuation date</b>	First day of plan year
<b>Funding target</b>	Present value of accrued benefits as required by regulations under IRC §430.
<b>Target normal cost</b>	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
<b>Actuarial value of assets</b>	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 4.25% for 2023 and 4.00% for 2022 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
<b>Decrement Timing</b>	<p>The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.</p>

## Benefits not valued

The plan pays small benefits in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

No allowance was made for 70/80 Retirement in the event of a plant shutdown or other job elimination, or for special payment for Legacy Zurn Union. Based on discussions with the Plan Sponsor, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued until and unless the triggering event occurs.

All remaining benefits described in the Plan Provisions section of this report were valued.

## Source of Data and Other Information

The plan sponsor, along with its third party administrator Principal, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions were supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Zurn Elkay Water Solutions, assumptions were made for missing or apparently inconsistent data elements. These assumptions have been documented and communicated with Zurn Elkay Water Solutions.

We are not aware of any errors or omissions in the data that would have significant effect on the results of our calculations.

## Assumptions Rationale — Significant Economic Assumptions

### Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

### Plan-related expenses

Plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

### Rates of increase in:

#### ■ Compensation

Assumed compensation increases are based on Plan Sponsor expectations for near-term years and the effect that the assumed long-term CPI will have on compensation increases over the longer term.

- **Social Security Wage Base (SSWB)** The assumed SSWB is based on the assumed long-term CPI, plus assumed increases in real wages (the portion of GDP increases that become part of wages) based on Plan Sponsor expectations.
- **Consumer Price Index (CPI)** The assumed CPI increase of 2.00% is based on recent average CPI experience.
- **Assumed return for asset smoothing** The assumed return used for asset smoothing is the expected return on assets assumption chosen by the Plan Sponsor for the prior fiscal years under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the plan sponsor's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

## Assumptions Rationale — Significant Demographic Assumptions

- PPA Mortality** Assumptions used for funding purposes are as prescribed by IRC §430(h).
- Termination** Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.
- Disability** Disability rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by disability patterns different than assumed.
- Retirement** Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
- Benefit commencement date for deferred benefits:**
- **Preretirement death benefit** Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, adjustments from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

- **Deferred vested benefit** Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

## **Form of payment**

The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience over recent periods with annual review.

## **Marital Assumptions:**

- **Percent married** The assumed percentage married is based on a blending of marital statuses of recent retirees and changes expected to occur in marriage patterns of retirement age individuals in the future.
- **Spouse age** The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

## **Source of Prescribed Methods**

### **Funding methods**

The methods used for funding purposes as described herein, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

## Schedule SB, Part V Summary of Plan Provisions

### Effective Date and Most Recent Amendment

The plan was formerly known as the Zurn Union Pension Plan. The plan was amended and restated as of January 1, 2018 as a result of the merger of the Rexnord Non-Union Pension Plan and the Rexnord Union Pension Plan into the Zurn Union Pension Plan on December 31, 2017.

As a result of the October 4, 2021 divestiture of the Process & Motion Control Business of Regal Rexnord Corporation, the plan divested a portion of their assets, obligations and contribution requirement related to this group impacted by this sale to Regal Rexnord Corporation.

### Non-Union Pension Plan

#### Covered Employees and Participation Date

- **Former JBI Master Pension Plan** Only individuals that were participants in the Jacuzzi Brands, Inc. Master Pension Plan on April 13, 2007 shall be a participant in this plan. Plan consisted of Eljer Salaried, JBI Corporate, US Brass, ZIRP and Wilkins all of whom have additional coverage provisions described below.
- **Eljer Salaried Plan** All salaried employees of Eljer Industries, Inc. hired on or before 10/01/2003 are eligible to participate in the plan on the first of the month coincident with or next following attainment of age 21 and completion of one year of Vesting Service. Employees hired after 10/01/2003 are not eligible to participate in this plan.
- **JBI Corporate** All non-union employees age 21 with one year of service. Employees hired after 12/01/2004 are not eligible to participate in this plan.
- **US Brass (PEX)** All hourly paid employees of PEX hired on or before 12/01/2004 are eligible to participate in the plan on the first of the month coincident with or next following attainment of age 21 and completion of one year of Vesting Service. Employees hired after 12/01/2004 are not eligible to participate in this plan.
- **ZIRP** The first of the month following attainment of age 21 and the completion of one year of vesting service. Employees hired after 12/01/2004 are not eligible to participate in this plan.

- **Wilkins** All hourly employees of the Wilkins Regulator Division of Zurn Industries, Inc. Non-bargaining employees hired on or before 12/01/2004 become participants in the plan on the January 1 on or after age 20-1/2 within six months of service. Employees hired after 12/01/2004 are not eligible to participate in this plan.

## Definitions

**Vesting Service** Years of Vesting Service shall be measured in terms of years and fractions of a year, on the basis that twelve months of service or 365 days of service equals a whole year of service, and 30 days of service equals a whole month of service with respect to the aggregation of fractional months. Non-successive periods of Vesting Service shall be aggregated.

**Credited Service** Service from hire date computed in years and fractions of years, on the basis that twelve months of Service or 365 days of service equals a whole year of service and 30 days of service equals a whole month of service. Credited Service shall not include employment after December 31, 2009.

## Covered Compensation

- **Eljer Salaried, US Brass and ZIRP** The average of the Social Security wage bases for an employee attaining age 65 in the year of termination or retirement over the period from 1951 to the year prior to retirement or termination, or 35 years if less.
- **JBI Corporate** Maximum average wage for benefit determination purposes under the Social Security Act for an individual who was born in the same year as the participant, assuming that the wage base remains constant from the calendar year of termination until the participant's normal retirement age under the Social Security Act.
- **All Others** N/A

## Average Final Compensation

- **Eljer Salaried, US Brass, and ZIRP** Participant's average annual compensation for the five consecutive calendar years of employment which produces the greatest aggregate compensation out of the last 10 consecutive years of employment. Average Final Compensation is frozen as of December 31, 2009 for those under age 40 on that date.

- **JBI Corporate** The average of actual earnings during the 60 consecutive full months of credited services in which such earnings are the highest in the ten years preceding the date of retirement. Average Final Compensation is frozen as of December 31, 2009 for those under age 40 on that date.

- **All Others** N/A

## Monthly Pension Benefit

- **Eljer Salaried and US Brass** The amount determined under (A) plus (B):
  - (A) Service prior to January 1, 1999: The June 30, 1998 accrued benefit plus  $(0.95\% \times \text{Final Average Compensation} \times \text{Credited Service from } 07/01/1998 - 12/31/1998)$
  - (B) Service after December 31, 1998:  $(1.25\% \times \text{Final Average Compensations plus } 0.55\% \times \text{Final Average Compensation in excess of Covered Compensation}) \times \text{Credited Service after } 12/31/1998$  (maximum 35 years of total service)
- **JBI Corporate** Greater (A) or (B):
  - (A) Ongoing Benefit

An annual benefit of 1.95% of the employee's final average earnings plus 0.65% of his final average earnings greater than year of birth covered compensation, both times credited service up to 25 years
  - (B) Frozen Benefit

December 31, 1992 accrued benefit value under the prior Social Security offset formula
- **ZIRP** The benefit is equal to the sum of (A) and (B):
  - (A) Service prior to January 1, 1999:  $\text{December 31, 1998 accrued benefit} \times \text{Normal Form Conversion Factor} \times (\text{Final Average Compensation at Termination} / \text{Final Average Compensation at December 31, 1998})$
  - (B) Service after December 31, 1998:  $(1.25\% \times \text{Final Average Compensation plus } 0.55\% \times \text{Final Average Compensation in excess of Covered Compensation}) \times \text{Credited Service}$  (maximum 35 years of total service)
- **Wilkins** The monthly benefit is equal to \$10.00 multiplied by credited service

## Benefits not valued

The plan pays small benefits (with a present value up to \$1,000) in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

No allowance was made for 70/80 Retirement in the event of a plant shutdown or other job elimination, or for special payment for Legacy Zurn Union. Based on discussions with Zurn Elkay Water Solutions, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued until and unless the triggering event occurs.

All remaining benefits described in the Plan Provisions section of this report were valued.

## Substantive Future Plan Changes

WTW is not aware of any future plan changes that are required to be reflected.

## Substantive Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.

## Schedule SB, Part V Summary of Plan Provisions

### Effective Date and Most Recent Amendment

The plan was formerly known as the Zurn Union Pension Plan. The plan was amended and restated as of January 1, 2018 as a result of the merger of the Rexnord Non-Union Pension Plan and the Rexnord Union Pension Plan into the Zurn Union Pension Plan on December 31, 2017.

As a result of the October 4, 2021 divestiture of the Process & Motion Control Business of Regal Rexnord Corporation, the plan divested a portion of their assets, obligations and contribution requirement related to this group impacted by this sale to Regal Rexnord Corporation.

### Non-Union Pension Plan

#### Covered Employees and Participation Date

- **Former JBI Master Pension Plan** Only individuals that were participants in the Jacuzzi Brands, Inc. Master Pension Plan on April 13, 2007 shall be a participant in this plan. Plan consisted of Eljer Salaried, JBI Corporate, US Brass, ZIRP and Wilkins all of whom have additional coverage provisions described below.
- **Eljer Salaried Plan** All salaried employees of Eljer Industries, Inc. hired on or before 10/01/2003 are eligible to participate in the plan on the first of the month coincident with or next following attainment of age 21 and completion of one year of Vesting Service. Employees hired after 10/01/2003 are not eligible to participate in this plan.
- **JBI Corporate** All non-union employees age 21 with one year of service. Employees hired after 12/01/2004 are not eligible to participate in this plan.
- **US Brass (PEX)** All hourly paid employees of PEX hired on or before 12/01/2004 are eligible to participate in the plan on the first of the month coincident with or next following attainment of age 21 and completion of one year of Vesting Service. - **Wilkins** All hourly employees of the Wilkins Regulator Division of Zurn Industries, Inc. Non-bargaining employees hired on or before 12/01/2004 become participants in the plan on the January 1 on or after age 20-1/2 within six months of service. Employees hired after 12/01/2004 are not eligible to participate in this plan.

## Definitions

**Vesting Service** Years of Vesting Service shall be measured in terms of years and fractions of a year, on the basis that twelve months of service or 365 days of service equals a whole year of service, and 30 days of service equals a whole month of service with respect to the aggregation of fractional months. Non-successive periods of Vesting Service shall be aggregated.

**Credited Service** Service from hire date computed in years and fractions of years, on the basis that twelve months of Service or 365 days of service equals a whole year of service and 30 days of service equals a whole month of service. Credited Service shall not include employment after December 31, 2009.

## Covered Compensation

- **Eljer Salaried, US Brass and ZIRP** The average of the Social Security wage bases for an employee attaining age 65 in the year of termination or retirement over the period from 1951 to the year prior to retirement or termination, or 35 years if less.
- **JBI Corporate** Maximum average wage for benefit determination purposes under the Social Security Act for an individual who was born in the same year as the participant, assuming that the wage base remains constant from the calendar year of termination until the participant's normal retirement age under the Social Security Act.
- **All Others** N/A

## Average Final Compensation

- **Eljer Salaried, US Brass, and ZIRP** Participant's average annual compensation for the five consecutive calendar years of employment which produces the greatest aggregate compensation out of the last 10 consecutive years of employment. Average Final Compensation is frozen as of December 31, 2009 for those under age 40 on that date.

## Benefits not valued

The plan pays small benefits (with a present value up to \$1,000) in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

No allowance was made for 70/80 Retirement in the event of a plant shutdown or other job elimination, or for special payment for Legacy Zurn Union. Based on discussions with Zurn Elkay Water Solutions, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued until and unless the triggering event occurs.

All remaining benefits described in the Plan Provisions section of this report were valued.

## Substantive Future Plan Changes

WTW is not aware of any future plan changes that are required to be reflected.

## Substantive Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.
