Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Smart & Final Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Smart & Final Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Smart & Final Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Smart & Final Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Smart & Final Pension Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Smart & Final Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024, and the Schedule H, Line 4(j) – Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Smart & Final Pension Plan Notes to Financial Statements

Note 1 – The Plan and Its Significant Accounting Policies

General – The following brief description of the Smart & Final Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document for more complete description of the Plan’s provisions.

The Plan was established in 1974 and is a noncontributory defined benefit pension plan sponsored by Smart & Final LLC (the “Company”). The Plan provides benefits to eligible employees of the Company and other companies, affiliates, and subsidiaries which adopt the Plan with the consent of the Board of Directors of the Company.

The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the “Code”) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On January 1, 2020, the Plan effected a spin-off of 926 participants to the newly created Smart Stores Pension Plan sponsored by the Company’s then-affiliate, Smart Foodservice Warehouse Stores LLC (formerly Cash & Carry Stores LLC) (“Smart Foodservice”). The spin-off was conducted in accordance with ERISA §4044 and IRC §414(l) provisions. On March 5, 2020, the Company was spun-off from its former ultimate parent entity, Smart Stores Holdings Corp. (“Smart Stores”) which remained the ultimate parent of Smart Foodservice. On April 24, 2020, Smart Stores and its subsidiaries including Smart Foodservice was acquired by an affiliate of U.S. Foods Holding Corp. On June 30, 2020, the Company and Pension Benefit Guaranty Corporation (PBGC) agreed to reduce the additional contribution amount required under the PBGC settlement agreement to \$1,496,000 annually for each of five years beginning June 1, 2020. The Company made the first revised contribution as scheduled.

Effective April 24, 2020, participants’ accounts totaling \$51,751,810 were transferred from the Plan to U.S. Foods Holding Corporate Savings Plan.

On July 28, 2021, the Company was acquired (along with its parent and affiliate entities) by Bodega Latina Corporation (BLC). The PBGC was provided notice of the acquisition, which notice was acknowledged. BLC does not sponsor any plans which are insured by PBGC.

Pension benefits – Effective June 1, 2008, the Plan was amended whereby, with the exception of employees who are employed in a covered hourly-paid position in the warehouse or transportation department of the Company’s Commerce Distribution Center (“CDC Pension Employees”), participants will no longer accrue benefits under the Plan. Effective January 1, 2010, CDC Pension Employees was expanded to include any employee who is employed by Commerce Distribution Company, LLC, an affiliated employer. While non-CDC Pension Employees will no longer accrue benefits in the Plan as of June 1, 2008, any such employees who accrued benefits in the Plan as of June 1, 2008 (the frozen benefit date), will continue to earn vesting service for their years of service with the Company, subsequent to that date. In general, the provisions of the Plan, other than the provision relating to the accrual of benefits on or after June 1, 2008, continue to apply to the frozen benefit.

Smart & Final Pension Plan Notes to Financial Statements

Note 1 – The Plan and Its Significant Accounting Policies (continued)

Eligible employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age 65, based upon the greater of:

1. 1.5% of final average earnings multiplied by the number of years of service as of December 31, 1991, plus 1% of final average earnings multiplied by the number of years of service since January 1, 1992 (years of service cease accrual as of June 1, 2008, for non-CDC Pension Employees), less any benefit provided by a prior Company-sponsored plan; or
2. The accrued benefit as of December 31, 1988, under the Pension Plan for Employees of Smart & Final Iris Corporation (the “SFI Plan”), the previous name of the Plan; or
3. Effective July 1, 2002, when the Plan was amended, grandfathered accrued benefits for all participants as of March 31, 1992, participating under the SFI Corporation Implemented Offer of the February 6, 1989, Defined Benefit Pension Plan (“Plan 89”), a plan that merged into the Plan effective March 31, 1992. Prior to this amendment, only Plan 89 participants who attained age 45 and completed five years of service as of March 31, 1992, were entitled to receive the benefits that would have been provided by Plan 89, had the Plan continued unchanged.

The Plan permits early retirement, with reduced benefits, to participants who are at least 55 years old with 10 years of service. For participants who do not elect otherwise, retirement income will be paid on the basis of a qualified joint and survivor annuity for married participants and a straight-life annuity for unmarried participants. The Plan provides for distributions to employees whose vested present value benefit is less than \$5,000 at the time of their termination or whose vested benefits accrued prior to December 31, 1988 and March 31, 1992, for participation in the SFI Plan and Plan 89, respectively.

Administration – The Company has appointed the Administrative Committee for Retirement and Savings Plans (the “Committee”) to manage the operation and administration of the Plan. The Company processes and maintains the records of participant data, and has contracted with Principal Bank (“Principal”) to act as the trustee and custodian. Substantially all expenses incurred for administering the Plan are paid by the Plan.

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation – The investments are reported at fair value. The Plan’s trustee, Principal Bank, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Note 1 – The Plan and Its Significant Accounting Policies (continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the “exit price”) in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation of those investments.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Expenses – The Plan’s expenses are paid by the Plan, as specified in the Plan Document. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment-related expenses are deducted from investment earnings, as disclosed in the investment prospectus, and thus are not separately disclosed in the accompanying financial statements.

Vesting – The Plan provides that benefits vest to participants based on years of service as follows: less than five years of credited service, zero; five or more years of credited service, 100%.

Income taxes – The Internal Revenue Service has determined and informed the Company by a letter dated July 16, 2015, that the Plan is designed in accordance with applicable sections of the Code. The plan administrator believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes (Accounting Standards Codification 740-10), management evaluated the Plan’s tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant’s account balance and the amounts reported in the statement of net assets available for benefits.

Additionally, the Plan has foreign investments, which may involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

Note 1 – The Plan and Its Significant Accounting Policies (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 15, 2025, which is the date the financial statements were available to be issued.

Note 2 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 2 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Interest-bearing cash – Comprised of cash equivalents and valued at cost, plus accrued interest, which approximates fair value.

U.S. government securities – Valued using available market information and/or dealer quotes and takes into account yield and market risk.

Asset-backed securities – Valued by independent pricing sources using a variety of market sources and observed market movements input into a single cash flow stream model. Certain infrequently traded asset-backed securities require valuation using observable as well as significant unobservable inputs, such as the estimation of the market manager for the security.

Corporate bonds and notes – Valued using pricing models maximizing the use of observable inputs for similar securities which includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Equity securities – Consists of common stock, preferred stock, and the American Depositary Receipts (ADRs) directly held by the Plan. They are valued at the closing price reported in the active market in which the individual securities are traded.

Registered investment companies (mutual funds) and money market funds – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Other – Includes municipal bonds, which are valued using available market information and/or dealer quotes and takes into account yield and market risk.

The Administrative Committee for Retirement and Savings Plans (the “Committee”) works with accounting staff, the Company’s chief financial officer, and the Plan’s administrator to determine fair value measurement policies and procedures. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the staff work with the Plan’s administrator to understand the valuation measurement of the various assets within the Plan.

Smart & Final Pension Plan Notes to Financial Statements

Note 2 – Fair Value Measurements (continued)

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose the fair value hierarchy of the Plan's assets by level at fair value as of December 31, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total

Note 3 – Party-in-Interest Transactions

Certain plan investments are managed by Principal, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 4 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to: a) retired or terminated employees or their beneficiaries, b) beneficiaries of employees who have died, and c) present employees or their beneficiaries. Benefits under the Plan are based on years of service and benefit credit rates. The accumulated plan benefits for active employees are based on years of service and benefit credit rates on the date at which the benefit information is presented (valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2023, are as follows:

Assumed return on assets	5.50%
Mortality assumption	The Pri-2012 Blue Collar tables with mortality scale MP-2021.
Benefit commencement date	
Death benefit	The later of the death of the active participant and the date the participant would have attained early retirement.
Deferred vested and disability benefit	The later of age 65 and the termination or disablement of the participant.
Retirement benefit	Upon termination of employment.
Retirement age	A set of graded rates from age 55 through age 67.
Form of payment	Lump sum for SFI Plan or Plan 89 minimum benefit participant; annuity for all others.

Smart & Final Pension Plan

Notes to Financial Statements

Note 4 – Actuarial Present Value of Accumulated Plan Benefits (continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of December 31, 2023. The following table reflects the present value of accumulated plan benefits as of December 31, 2023:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 50,382,256
Participants with deferred benefits	52,976,109
Active employees	<u>55,974,113</u>

Nonvested benefits	<u>842,701</u>
	Total actuarial present value of accumulated plan benefits
	<u><u>\$ 160,175,179</u></u>

The changes in the actuarial present value of the Plan's accumulated plan benefits are as follows for the year ended December 31, 2023:

Actuarial present value of accumulated plan benefits at December 31, 2022	<u>\$ 152,613,496</u>
Increase (decrease) during the year attributable to

The funding valuation reflects the following assumption changes:

- The assumed return on assets was updated from 6.0% to 5.5%.

Note 5 – Funding Policy

The Company's funding policy is to make cash contributions to the Plan in amounts determined by the Plan's actuary to meet the requirements of the Funding Standard Account prescribed by ERISA and the Code. For 2024 and 2023, the Company met its minimum funding requirement for the Plan.

In addition, the Company makes additional cash contributions under a settlement agreement with the PBGC. Under the agreement, the Company will make additional cash contributions to the Plan for plan years 2012 through 2018 to be funded in calendar years 2013 through 2019. For the plan year ended December 31, 2024, the Company had met their minimum funding contributions under this agreement.

In conjunction with the sale of the Company's then-ultimate parent on June 20, 2019, the Company entered into an amendment to the PBGC settlement agreement, dated July 9, 2019, which provided for additional cash contributions of \$2.0 million annually for five years beginning June 1, 2020. As noted in Note 1, on June 30, 2020, the Company and PBGC agreed to reduce the additional contribution amount to \$1,496,000 for each of the five years.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.

Note 6 – Plan Termination or Modification

The Company intends to continue the Plan indefinitely for the benefit of its employees; however, it reserves the right to discontinue its contributions and terminate or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- To retired employees receiving benefits and participants having reached the normal retirement date as of the beginning of the three-year period ending on the termination date based on the provisions of the Plan in effect five years prior to the termination date.
- To provide all other income guaranteed by Title IV of ERISA.
- To provide all other nonforfeitable benefits under the Plan.
- To provide all other benefits under the Plan.

Note 6 – Plan Termination or Modification (continued)

Certain benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits.

However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of termination. There is a statutory ceiling, which is adjusted periodically, on the amount of a participant's monthly benefit that the PBGC guarantees.

For plan terminations occurring during 2024, that ceiling is \$7,432 per month. That ceiling applies to those annuitants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Note 7 – Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Bank, the custodian of the Plan, has certified to the completeness and accuracy of the following:

- Investments and amounts due to and from broker reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net appreciation in fair value of investments, dividends, and interest reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Investments reflected on the schedule of assets (held at end of year) as of December 31, 2024.
- Transactions reflected on the schedule of reportable transactions for the year ended December 31, 2024.

Schedule SB, Part V – Summary of Plan Provisions

This exhibit is a summary of the plan provisions used for this valuation. It should not be used to determine plan benefits.

General Provisions

Effective date	April 1, 1974
Eligible employee	Before June 1, 2008: All employees of Smart & Final LLC and any other affiliated employer that has adopted the plan. On or after June 1, 2008: CDC employees who are employed by Commerce Distribution Company LLC.
Participation eligibility	Eligible employees enter the plan on the first day of the calendar quarter following attainment of age 21 and completion of one year of service.
Pension service	Years and months of service as a covered employee through January 1, 1992 using the elapsed time rule. After January 1, 1992, one year of service is earned for each year with 1,000 hours of service. On or after June 1, 2008, only CDC employees are eligible to accrue future years of service.
Vesting service	Years and months of service as a covered employee through January 1, 1992 using the elapsed time rule. After January 1, 1992, one year of service is earned for each year with 1,000 hours of service.
Pensionable pay	Section 415 compensation paid while a CDC employee excluding expense allowances, fringe benefits, moving expenses, deferred compensation, severance pay, and welfare benefits.
Average earnings	The average of the highest 5 consecutive calendar years out of the last 10 calendar years while a CDC employee.
Actuarial equivalence	8% interest and 83 GAM Male mortality. Lump sums based on greater of: (a) 417(e) segment rates reset annually with 2-month lookback and 417(e) mortality or (b) 417(e) segment rates reset annually with 1-month lookback and 83 GAM Male mortality.

Benefit Eligibility

Normal retirement	The later of (a) and (b): (a) Age 65 (b) 5 years of pension service
Early retirement	The later of (a) and (b): (a) Age 55 (b) 10 years of vesting service
Delayed retirement	Retirement after normal retirement date.
Preretirement death	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.
Vested termination	Termination for reasons other than death or retirement after completing 5 years of vesting service. Participants with at least 10 years of service may commence at age 55. Participants who were part of the Florida operations sold to Gordon Food Service in 2003 shall be 100% vested in their accrued benefits. Active participants who were part of the Northern California operations sold to Sysco Corporation shall be 100% vested in their accrued benefit.
Disability retirement	CDC employees eligible to receive LTD after completing 10 years of vesting service. Service accruals continue while on LTD until benefit commencement date.

Accrued Benefit

- The greater of:
- (a) 1.5% of final average pay times service before January 1, 1992 plus 1.0% of final average pay times service since January 1, 1992 (less any benefit provided by a previous company sponsored plan)
 - (b) The accrued benefit as of 12/31/1988 under SFI Plan
 - (c) The accrued benefit as of March 31, 1992 under Plan 89
 - (d) For participants in Plan 89 who had attained age 45 and 5 years of service on March 31, 1992,
 - (i) \$48 per month of service before 1/1/87
 - (ii) \$55 per month of service after 1/1/87
 - (iii) \$16 per month of service after 1/1/87 (in excess of 20 years)

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

With the possible exception of the funding policy recommendation and maximum tax deduction limit, all calculations in this report assume the plan will be ongoing and use the unit credit actuarial cost method to develop costs and liabilities.

Actuarial Methods

The actuarial accrued liability and normal cost under the unit credit actuarial cost method are used to determine the minimum required contribution under IRC Section 430 for the plan. Under this method, actuarial accrued liability is the total present value of benefits accrued under the plan formula at the valuation date for all participants (both active and nonactive). Normal cost is the total actuarial present value of additional benefits expected to be earned during the plan year by active participants plus administrative expenses expected to be paid from plan assets during the plan year.

As required by IRC proposed regulation section 1.430(d)-1, the determination of both the target liability and target normal cost (IRC section 430 terms for accrued liability and normal cost) includes any plan provisions that are adopted on or before the valuation date and become effective during the plan year.

The normal cost and actuarial accrued liability for the plan are the sum of the individual normal costs and the sum of the individual accrued liabilities, respectively.

Vested liabilities are based on the same methods and assumptions used for accrued liabilities, but exclude participants with less than 5 years of service as of the valuation date.

Asset Valuation Method

The actuarial value of assets is determined by smoothing investment gains and losses (the excess/shortfall of the actual investment return over the expected return), in accordance with procedures described in Revenue Notice 2009-22. The preliminary actuarial value of assets is equal to the market value of assets (including discounted receivable contributions) plus/(minus) 2/3 of the loss/(gain) for the prior year and 1/3 of the loss/(gain) for the second prior year. Expected returns are based on the lesser of the third segment rate used for IRC Section 430 and 6.0%. If the resulting

asset value is outside a 90% to 110% market value corridor, an additional adjustment maintains the actuarial value of assets at the appropriate corridor limit.

Economic Assumptions

IRC Section 430 interest rates

The plan sponsor has elected to use 24-month-average segment rates based on the corporate bond yield curve with a 4-month lookback – limited to be no less (more) than 95% (105%) of the average of segment rates over 25 years, subject to a 5% floor.

Segment rates used to discount expected benefit payments from the expected distribution date to the valuation date:

	PPA 24-month Average	ARPA 25-year Average	Funding Rates Limited by Corridor
■ 0-5 years	3.62%	3.33%	4.75%
■ 5-20 years	4.46%	5.13%	4.87%
■ 20+ years	4.52%	5.88%	5.59%
■ Effective rate	4.47%	N/A	5.24%

Salary increases

3.25% for CDC employees not on LOA.

Expenses

\$1,693,763 based on PBGC premium plus \$500,000.

Demographic Assumptions

Assumptions are made about survival, marital status, and the causes and timing of separation from service. Retirement and termination rates are expected to approximate your experience.

Retirement

Mortality (healthy lives and disabled participants)

The Generational Mortality Table of IRC Reg. §1.430(h)(3)-1 as prescribed by the IRS.

Decrement timing and adjustment

Pre-retirement active decrements are assumed to occur beginning-of-year. Nonactive mortality is uniform throughout the year. Active mortality decrement probabilities are determined from the mortality rates shown above by adjusting for competing decrements.

EIN/PN: 95-4079584/002
2024 Schedule SB (Form 5500) Attachment

Benefit payment timing	Annuity payments are assumed to occur beginning-of-month and lump sum payments are assumed to occur on date of decrement.
Payment form elections	All participants are assumed to elect the lump sum value of their grandfathered SFI and Plan 89 benefits using the funding segment rates with 417(e) mortality with the remaining benefit paid as an annuity. 25% of married participants are assumed to elect the life annuity, and 75% of married participants are assumed to elect the 100% Joint & Survivor annuity. All single participants are assumed to elect the life annuity.
Benefit commencement date:	
Preretirement death benefit	The later of the death of the active participant and the date the participant would have attained early retirement.
Deferred vested benefit	The later of age 65 and the termination of the participant.
Disability benefit	The later of age 65 and disablement.
Retirement benefit	Upon termination of employment.
Marital characteristics	Wives are assumed to be three years younger than their husbands; 80% of male participants and 40% of female participants are assumed to be married.
Covered pay	Covered pay is assumed to be the greater of pensionable earnings for the prior year with annual increase or current year annualized base pay rate.
Service credit	CDC employees not on LOA are assumed to earn service credit.

Non-prescribed assumptions are estimates of future experience, based mainly on past plan experience. For each such assumption, experience is compared to the assumption and appropriate adjustments are made if deviations are significant and expected to continue in the future.

Financial and Census Data

The actuarial value of assets is based on unaudited financial statements provided by Principal. The census data submitted by Smart & Final LLC as of the valuation date appears consistent with that of the prior valuation.

Benefits Not Included in the Liabilities

To the best of our knowledge, all benefits have been included in liabilities.

Events and Trends Not Taken Into Account

To the best of our knowledge, no event or trend has been omitted which may require a material change in plan costs or required contribution rates.

Actuarial Standards of Practice (ASOP) Disclosures

- The plan sponsor elected to add excess contributions to the prefunding balance.
- In our opinion, the combined set of assumptions (other than those prescribed by law) does not have significant bias.
- Retirement, termination, death, and disability benefits are regarded as vested based on each participant's years of vesting service and the plan's vesting schedule.
- Benefit payment default risk or the financial health of the plan sponsor was not taken into account when performing the valuation.
- The IRS prescribed the interest rates and mortality assumptions.
- Mortality improvements under 2024 scale MP-2021 from 2012 adjusted rates were used.
- In preparing the results, the actuary used ProVal valuation software developed by Winklevoss Technologies, LLC. This software is widely used for the purpose of performing pension valuations. We coded the plan provisions, assumptions, methods, and participant data summarized in this report, and reviewed the liability and cost outputs for reasonableness. We are not aware of any material weaknesses or limitations in the software and have determined it is appropriate for performing this valuation.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
