Independent Auditors' Report

Plan Administrator
The Innsbrook Corporation
Employees Stock Ownership Plan
Innsbrook, Missouri

Opinion

We have audited the financial statements of The Innsbrook Corporation Employees Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024 **and 2023**, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis For Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities For The Audit Of The Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required By ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 And 2023

1. Description Of The Plan

The following brief description of The Innsbrook Corporation Employees Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Innsbrook Corporation (the Company) established the Plan effective January 1, 2000. The Plan, which operates as an employee stock ownership plan (ESOP), is designed to comply with Sections 4975(e)(7) and 401(a) and the regulations thereunder of the Internal Revenue Code of 1986 (the Code), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after completion of one year of credited service. Entry in the Plan is retroactive to January 1 of the Plan year containing the anniversary date of the year of service.

All employees who had completed a year of service with the Company prior to January 1, 2000 were immediately eligible to participate in the Plan.

Contributions

The Company may contribute amounts as determined by the Board of Directors. The contribution is allocated to the accounts of participants who have completed at least 500 hours of service during the Plan year. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with allocations of Company contributions, forfeitures of terminated participants' nonvested accounts, Plan earnings, Sub Chapter S distributions, and administrative expenses. Company contributions, forfeitures, and Sub Chapter S distributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings and administrative expenses are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

THE INNSBROOK CORPORATION
EMPLOYEES STOCK OWNERSHIP PLAN

Notes To Financial Statements (*Continued*)

Diversification

The Plan Document provides that qualified participants (any participant who has attained age fifty-five (55) and has completed ten (10) years of participation under the Plan) shall be permitted to direct the Plan as to the investment of not more than 25% of the value of the participant's Company common stock account each year for five years. In the sixth (6th) year in which the diversification is available, qualified participants will be allowed to diversify 50% of their Company common stock account, as described in the Plan Document. The participant's direction shall be completed no later than ninety (90) days after the close of the ninety (90) day election period.

Payment Of Benefits

Distributions from the Plan are made when a participant retires, becomes disabled, dies or otherwise terminates employment. Distributions are made in one or more substantially equal periodic cash payments over a period no longer than five years. Periodic payments may extend an additional five years for participants with account balances in excess of certain dollar limits, as defined by the Plan Document.

For terminations related to retirement, death or disability, distributions will commence no later than one year after the close of the Plan year in which one of these events occur. For terminations other than retirement, death or disability, distributions are made during the sixth Plan year following the Plan year in which the participant terminates.

The Plan also allows for the distribution of Company common stock. Upon distribution, the Company common stock is immediately sold to the Company at fair value for a single sum payment.

Put Option

Under federal income tax regulations, the Company common stock that is held by the Plan and its participants that is not readily tradable on an established market, or is subject to trading limitations, must include a put option. As defined by the Plan, the Company or Trust must buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock as determined by appraisal as of the last day of the Plan year. The Company or Plan can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

EMPLOYEES STOCK OWNERSHIP PLAN

Notes To Financial Statements (*Continued*)

Vesting

Participants become vested in their accounts based on years of service, in accordance with the following schedule:

Years Of Service	Vested Percentage
Less than 2 years	0%
2 years, but fewer than 3	20%
3 years, but fewer than 4	40%
4 years, but fewer than 5	60%
5 years, but fewer than 6	80%
6 years or more	100%

Forfeitures

Forfeitures of nonvested participant balances are allocated to participants entitled to an allocation of Company contributions based on compensation relative to total compensation. Forfeited amounts allocated to participants were \$2,816 in cash and \$1,772 in Company common stock for the year ended December 31, 2024. Forfeited amounts allocated to participants were \$15,724 in cash and \$7,720 in Company common stock for the year ended December 31, 2023. There were no forfeitures available as of December 31, 2024 or 2023.

Administrative Expenses

The Plan pays significant administrative expenses, including recordkeeping, investment management and professional fees.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates And Assumptions

The preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

THE INNSBROOK CORPORATION
EMPLOYEES STOCK OWNERSHIP PLAN

Notes To Financial Statements *(Continued)*

Investment Valuation And Income Recognition

The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends and Subchapter S corporation distributions are recorded on the ex-dividend date. The net change in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates subsequent events through the date, which the financial statements are available for issue, which is the date of the Independent Auditors' Report.

3. Investments

Investments consist of the following:

	December 31,

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Innsbrook Corporation Common Stock

The fair value of Innsbrook Corporation common stock held by the Plan is valued at fair market value based upon an independent appraisal. This appraisal was based upon income and market approaches, using a discounted cash flow valuation technique.

The valuation process involves the Trustee's selection of an independent appraiser (the Appraiser). The Appraiser will make reviews, analyses, and inquiries that are deemed necessary and appropriate to express an opinion on the fair market value of the common stock held by the Plan. Among the information obtained by the Appraiser are audited financial statements, forecasts and projections prepared by Plan management. The Appraiser prepares a written report, which the Trustee reviews in detail, discusses with the Appraiser and approves.

Common Stocks And Exchange Traded Funds

Valued at the closing price reported on the active market on which the individual securities are traded.

Cash Equivalent

Cash equivalent consists of a money market fund valued at the daily closing price as reported by the fund. The money market fund held by the Plan is an open-end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The money market fund held by the Plan is deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Risks And Uncertainties

It is the Plan's intent to be primarily invested in Company common stock, which represents a nondiversified investment portfolio. Investment securities, including the Company's common stock, other common stocks, and exchange traded funds, are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 25, 2013, that the Plan is qualified and the related trust established under the Plan is tax-exempt under the appropriate sections of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
