Independent Auditors' Report

To the Investment Committee and Board of Directors of the
Redlands Community Hospital Plus Program

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Redlands Community Hospital Plus Program (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- the information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements related to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but it is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule contained on pages 14 through 16 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the DOL Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Redlands Community Hospital Plus Program

Notes to Financial Statements

1. Description of Plan

The following description of the Redlands Community Hospital Plus Program (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 403(b) plan providing benefits to all employees of Redlands Community Hospital (Employer). Employees are eligible for the Employer matching contribution and Employer discretionary matching contribution if they have completed one year of service, are not covered by a collective bargaining agreement, and are not a nonresident alien. To be eligible for the Employer discretionary matching contribution, employees must also be employed on the last day of the Plan year, unless there has been a termination of service during the Plan year due to death, disability, or retirement. Eligible employees may begin contributing to the Plan immediately upon the satisfaction of the eligibility requirements.

Contributions

Under the provisions of the Plan, each active participant may enter into a salary deferral agreement with the Employer, deferring up to the maximum allowable amount as determined yearly by the Internal Revenue Service (IRS). Participants age 50 and older may contribute catch-up contributions as allowed per IRS limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Employer provides a matching contribution of \$0.25 on the dollar up to 5 percent of compensation for participants with over one year and up to three years of service; \$0.50 on the dollar up to 5 percent of compensation for participants with over three years and up to six years of service; and \$0.75 on the dollar up to 5 percent of compensation for participants with more than six years of service.

The Employer, at its discretion, may make a discretionary matching contribution to the Plan. For the year ended December 31, 2024, the Employer elected not to make a discretionary matching contribution to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocation of the Employer's contributions, and Plan earnings or losses and charged with an allocation of administrative expenses that are paid by the Plan. Allocations may be charged based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Through October 31, 2012, vesting in Employer matching contributions and Employer discretionary matching contributions was based on years of service. A year of service was given for each Plan year in which a participant completed 1,000 hours or more of service. After one year of service, a participant became 20 percent vested. Each service year thereafter increased the participant's vesting by 20 percent, with 100 percent after five years of service. Effective November 1, 2012, active participants became 100 percent vested in all prior and future Employer matching contributions and Employer discretionary matching contributions.

Notes to Financial Statements

1. Description of Plan (Continued)

Investment Options

Each participant directs employee and Employer contributions to his or her account through investment options offered by the Plan. These investment options include investments through Lincoln National Life Insurance Company (LNL) including investment contracts and pooled separate accounts, and investments through Fidelity Management Trust Company (FM) including an investment contract, mutual funds, a money market fund, and self-directed brokerage accounts.

Notes Receivable from Participants

Participants may borrow from their FM accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of the participant's vested account balance. Prior to August 1, 2018, a participant may have two notes receivable outstanding. Effective August 1, 2018 for new notes receivable, a participant may have one note receivable outstanding. The notes receivable are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1 percent. Interest rates on notes receivable from participants range from 4.25 percent to 9.50 percent. Principal and interest are repaid ratably through payroll deductions or repaid directly to FM by participants. Notes receivable terms cannot exceed five years, unless related to the purchase of a principal residence, in which case the terms of the notes receivable may not exceed twenty years. Any outstanding notes receivable balance will become due and payable in its entirety upon occurrence of a distributable event.

Loans to Participants

Loans to participants with accounts held by LNL are made from the general assets of LNL and are secured by a portion of the participant's vested account balance. Interest rates are set based on prevailing rates at the time of the participant loan. Principal and interest payments on these loans are due quarterly. These loans are not recorded as Plan assets because the loans are issued from the general assets of LNL. The amount of Plan assets used to collateralize these loans was \$96,852 and \$141,325 as of December 31, 2024 and 2023, respectively.

Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant is entitled to receive a distribution equal to the value of the vested interest in the participant's account and may elect to receive either a lump-sum distribution, or monthly, quarterly, or annual installments. Distribution of a deceased participant's account will be made to the designated beneficiary.

The following types of distributions are also allowed by the Plan:

- In-service
- Hardship
- Involuntary cash-outs

Forfeited Accounts

Forfeitures represent unvested portions of terminated participants' accounts. These funds are available to pay Plan expenses or reduce future Employer contributions. At December 31, 2024 and 2023, forfeited nonvested accounts were \$16,724 and \$7,443, respectively. During the year ended December 31, 2024, Employer contributions were reduced by \$10,604 from forfeited nonvested accounts.

Notes to Financial Statements

1. Description of Plan (Continued)

Plan Expenses

The Plan's expenses are paid by either the Plan or the Employer, as provided by the plan document. Expenses paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation in fair value of investments.

Termination of the Plan

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, no further contributions will be made to the Plan and all amounts credited to the participant's account will become 100 percent vested. The Employer will direct the distribution of the participant's account in a manner permitted by the Plan as soon as practicable.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. GAAP.

Use of Estimates

The preparation of these financial statements in accordance with U.S. GAAP requires Plan management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of net assets available for benefits, net appreciation in fair value of investments, as well as the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. U.S. GAAP requires investment contracts held by a defined-contribution plan to be reported at contract value for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 5 for fair value measurements.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as investments held during the year.

Redlands Community Hospital Plus Program

Notes to Financial Statements

2. Summary of Accounting Policies (Continued)

Contributions

Contributions from Plan participants are recognized in the year in which the participant contributions are withheld from compensation. Employer matching contributions are recognized in the same period as the related participant contributions.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make scheduled repayments and the Plan Administrator deems the participant note receivable to be in default, the participant note receivable balance is recorded as a distribution based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Plan management has considered events occurring through October 10, 2025 in its evaluation of the conditions on which estimates were based or for changes in conditions subsequent to the date of the statement of net assets available for benefits, which should be disclosed. The financial statements were available to be issued at this date.

3. Certified Investments (Unaudited)

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, dividends, interest income, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by LNL and FM, Custodians of the Plan.

4. Investment Contracts with Insurance Companies (Unaudited)

The Plan has two traditional group annuity contracts with LNL and New York Life Insurance Company (NYL), which consist of two fully benefit-responsive investment contracts: the LNL Multi-Fund and Multi-Fund Select Fixed Accounts, and the NYL Guaranteed Interest Account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contracts, because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by LNL and NYL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may direct the withdrawal or transfer of all or a portion of their investments at contract value.

The investment contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate for LNL and NYL is based on a formula established by the contract issuer but may not be less than 3.00 percent and 1.00, respectively. The credit rate is reviewed by LNL on an annual basis for resetting and the crediting rate is reviewed by NYL on a semi-annual basis for resetting. The Plan's ability to receive amounts due is dependent on the issuers' ability to meet its financial obligations. The issuers' ability to meet its contractual obligations may be affected by future economic and regulatory developments.

The Plan's investment contracts specify certain conditions under which distributions from the contracts may be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Employer, and certain other Employer-initiated events that result in distributions exceeding a set amount. Currently, management believes it is improbable that an event will occur which would cause the Plan to transact contract distributions at less than contract value.

LNL may terminate the contract if it has determined that the Plan does not qualify for special tax treatment under section 401(a), 403(a), 403(b), 414(d) or 457 of the Internal Revenue Code (IRC). Payment of the balance in the investment contracts may differ from contract value if the contract holder elects to receive the contract owners account balance using a market value lump sum calculation.

Redlands Community Hospital Plus Program

Notes to Financial Statements

4. Investment Contracts with Insurance Companies (Unaudited) (Continued)

NYL may terminate the guaranteed interest account for cause or without cause. If the contract is terminated with cause, 6 percent of the balance in the guaranteed interest account will be withdrawn from the guaranteed interest account and paid to NYL.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund, which represents the net asset value (NAV) of shares held by the Plan at year end.

Pooled separate accounts: Valued at the NAV of the underlying assets held by the separate account.

Money market funds: Valued based on historical cost, which represents fair value.

Self-directed brokerage accounts: Valued at NAV of the underlying assets held in the self-directed brokerage account.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Redlands Community Hospital Plus Program

Notes to Financial Statements

5. Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December:

	2024	2023
Level 1		
Mutual funds	\$ 149,043,858	\$ 129,491,742
Self directed brokerage accounts	1,504,655	1,191,061
Money market fund	55,652	3,097
Level 2		
Pooled separate accounts	5,925,864	5,370,587
Level 3	—	—
Investments at fair value	\$ 156,530,029	\$ 136,056,487

6. Related Party Transactions and Transactions with Parties-in-Interest

A related party is any party who can control or significantly influence Plan management or operating policies. Parties-in-interest are defined under DOL regulations as employees of the Plan, fiduciaries of the Plan, service providers to the Plan, the Employer whose employees are covered by the Plan, and certain significant owners of the Employer and their relatives. Service providers may include, but are not limited to, the custodian, trustee, third-party administrator (TPA), investment managers, investment advisors, legal counsel, and Plan auditor.

The Plan invests in units of pooled separate accounts managed by an affiliate of LNL and investment contracts issued by LNL, and mutual funds managed by an affiliate of FM. LNL and FM act as Custodians for only those investments as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees incurred by the Plan for investment management services are included as a reduction of the return earned on each investment, as the fees are paid through revenue sharing, rather than paid as a direct payment. As described in Note 2, the Plan made a direct payment to service providers of \$70,767 for services related to the Plan, which was not covered by revenue sharing. The Plan Sponsor directly pays any other fees related to the Plan's operations, other than those fees that may be paid through the use of forfeitures as allowed by the Plan.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is, at least, reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Tax Status

The Plan sponsor adopted a plan which received a favorable determination letter, issued to the document provider, from the IRS dated August 7, 2017, which states that the Plan is designed in accordance with the applicable sections of the IRC and is, therefore, not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not, based on the technical merits, would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, the statute of limitations for the IRS to assess taxes on a plan expires three years from the due date of the return or the date on which it was filed, whichever is later.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits between the financial statements and Form 5500 as of December 31:

	2024	2023
Net assets available for benefits per the financial statements	\$ 173,819,226	\$ 154,827,581
