## Independent Auditor's Report

To the Plan Administrator and Participants  
Pension Plan for Bargaining Employees of Evraz Rocky Mountain Steel:

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the financial statements of Pension Plan for Bargaining Employees of Evraz Rocky Mountain Steel, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2023, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Pension Plan for Bargaining Employees of Evraz Rocky Mountain Steel's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section,

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pension Plan for Bargaining Employees of Evraz Rocky Mountain Steel and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pension Plan for Bargaining Employees of Evraz Rocky Mountain Steel's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Pension Plan for Bargaining Employees of Evraz Rocky Mountain Steel's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pension Plan for Bargaining Employees of Evraz Rocky Mountain Steel's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter — Supplemental Schedules Required by ERISA***

The supplemental schedule of assets (held at end of year) as of December 31, 2024 and the schedule of reportable transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information,

including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**PENSION PLAN FOR BARGAINING EMPLOYEES  
OF EVRAZ ROCKY MOUNTAIN STEEL**

Notes to Financial Statements

December 31, 2024 and 2023

**(1) Description of the Plan**

The following description of the Pension Plan for Bargaining Employees of Evraz Rocky Mountain Steel (“the Plan”), formerly Rocky Mountain Steel Mills Pension Plan, provides only general information. Plan participants should refer to the Plan document for more complete information.

**(a) General**

Evraz Inc., N.A. (“the Company”) adopted the Plan effective December 31, 1959 to provide retirement benefits to eligible employees of CF&I Steel, L.P., a related company, (“the Employer”) and other affiliates which may adopt the Plan with the approval of the Company. The Plan is a defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended, and is administered by an administrative committee appointed by the Company’s chief executive officer.

The Plan was amended on September 10, 2004 as the result of a labor dispute settlement (“the Settlement”) between the United Steelworkers of America (the Union) and the Company. The Settlement resulted in an early retirement opportunity for a maximum of 200 employees, pension credit for the period of the labor dispute and for service with predecessor companies, and an amended calculation for monthly pension annuities. Effective January 2, 2006, the existing compensation based formula used to calculate the monthly pension annuities was modified. For each year during which an employee has benefit service, the employee will accrue a monthly pension annuity of \$55. Under the terms of the collective bargaining agreement effective September 10, 2009, the monthly pension annuity for each year of service in 2011 and 2012 was \$65 and for each year of service in 2012, 2013 and 2014 was \$70. The collective bargaining agreement was extended through September 10, 2017 and participants continued to accrue a monthly annuity of \$70 in accordance with the contract extension. As a result of a new collective bargaining agreement, the pension multiplier was increased to \$74 for service on or after January 1, 2018 and increased to \$84 for service on or after January 1, 2023.

**(b) Eligibility**

All regular domestic employees of the Employer covered by a collective bargaining agreement that provides for Plan participation are eligible to participate in the Plan upon employment.

**(c) Retirement Benefits**

Qualified employees are generally entitled to a monthly pension annuity beginning at normal retirement age (65) based on compensation for service prior to 2006 and a multiplier for years of benefit service for service after 2005. The Plan permits participants to retire early with a reduced benefit after attainment of age 55 and at least 15 years of service. The reduction is 0.6% for each month by which the retiree’s age precedes 62. There is no reduction for retirement after

attainment of age 62 with at least 15 years of service. An active employee participant may defer retirement benefits beyond age 65, but no later than the latter of their date of retirement or April 1 following the calendar year in which they attain age 73.

A non-married participant receives a life annuity payable in monthly installments. A married participant automatically receives a reduced joint and survivor life annuity with 50% continuance to the surviving spouse, unless the participant and spouse elect (in the manner required by law) a single life annuity or a reduced joint and survivor annuity with 100% continuance. If the actuarial present value of a participant's annuity benefit is \$10,000 or less, the participant may elect (with spousal consent) to receive a lump-sum payment of the entire benefit. If the present value of a participant's annuity benefit is \$1,000 or less, the benefit will automatically be distributed in a single lump-sum payment.

An additional 30-year benefit is provided to a participant that retires prior to attainment of age 62 and has accumulated a minimum of thirty years of service at retirement. The 30-year benefit is equal to a monthly benefit of \$15 for each year of benefit service accumulated and is payable beginning in the month following retirement, continuing until the participant attains age 62. This monthly benefit is nontransferable and does not have the right of survivorship.

**(d) Vesting**

A participant becomes fully vested in their pension benefit after completing 5 years of service, becoming eligible for retirement, becoming disabled while employed as defined by the Plan, or upon attaining age 65 while employed by the Employer.

**(e) Disability and Death**

If a participant becomes totally disabled, all Plan years and fractions thereof during which the total disability exists constitute benefit service. When a participant reaches age 65, the participant is entitled to the monthly pension annuity including years the participant was disabled as described in Note 1(c) above.

A death benefit is payable to the spouse of a participant or former participant who dies prior to retirement, provided the participant has 5 years of service at the time of death and has been married for at least 6 months. The benefit amount is equal to 50% of the joint and survivor form of annuity and is payable when the participant would have attained age 62 if the participant had completed at least 15 years of service or age 65 if the participant had completed less than 15 years of service. An alternative death benefit is payable to the spouse of an active employee who dies after attaining age 55 and completing at least 15 years of service, or after age 65 regardless of length of service. This alternative death benefit is a life annuity; payable immediately, equal to a percentage of the participant's accrued benefit (ranging from 50% to 82%, depending on the participant's age at death).

**(f) Expenses**

Administrative expenses of the Plan are paid by the Company and the Plan. Direct expenses totaling approximately \$2,100,000 and \$1,983,000 were paid by the Plan during 2024 and 2023, respectively. Certain expenses are included in the transaction prices of investments bought and sold and are not separately quantified.

## **(2) Summary of Significant Accounting Policies**

### **(a) Basis of Accounting**

The accompanying financial statements have been prepared on an accrual basis of accounting.

### **(b) Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles (“GAAP”) requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in net assets available for plan benefits during the reporting period. These significant estimates include the measurement of accumulated plan benefits and market value of investments. Actual results could differ from those estimates.

### **(c) Risks and Uncertainties**

The Plan invests in a variety of investments. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with such investments, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan, on occasion, holds cash that may exceed Federal Deposit Insurance Corporation depository insurance limits.

### **(d) Investment Valuation and Income Recognition**

The Plan follows the fair value measurement and disclosure requirements of Accounting Standards Codification (“ASC”) 820, *Fair Value Measurement*, which defines fair value as the exchange price that would be received for the asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Investment purchases and sales are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments sold during the year as well as the change in the unrealized appreciation or depreciation on investments held during the year.

### **(e) Benefit Payments**

Benefit payments to participants are recorded when paid.

### **(f) Subsequent Events**

Management has evaluated the potential recognition and disclosures in the financial statements of subsequent events that have occurred through October 14, 2025, which is the date the financial statements were available to be issued.

On July 31 2025, the Plan Sponsor was acquired by Altas Holding, resulting in the formation of a new entity, Orion Steel Group LLC. Effective August 1, 2025, Orion Steel Group LLC assumed

sponsorship of the Plan and the Plan's name was changed to Orion Steel Rocky Mountain Steel Pension Plan.

**(3) Funding Policy**

Contributions to the Plan, if necessary, are made to meet or exceed the minimum funding standards of ERISA and the Internal Revenue Code ("IRC"). Contributions are based on actuarially determined amounts as calculated by the Plan's consulting actuary. For the years ended December 31, 2024 and 2023, the Company contributed \$8,644,000 and \$0, respectively. Contributions to the Plan during 2024 and 2023 met the minimum funding requirements of ERISA.

**(4) Benefits and Actuarial Assumptions**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Significant assumptions underlying the actuarial computations at December 31, 2023 are as follows:

Actuarial method	Standard unit credit cost method	
	Age	Rate
Retirement	55–60	5%
	61–63	20
	64	25
	65	50
	66–69	40
	70+	100
Discount rate	4.94%	
Mortality	Amounts-weighted rates from the Pri-2012 mortality study with blue collar adjustments projected generationally from 2012 with Scale MP-2021	

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial valuations were prepared as of

January 1, 2024. Had the valuation been prepared as of December 31, 2023, there would be no material differences.

For the 2024 actuarial valuation, the discount rate used to determine costs and the actuarial present value of the benefit obligations for financial accounting purposes was increased by 16 basis points from the prior year.

## (5) Fair Value Measurements

ASC 820 establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Mutual funds and money market fund* – The fair value of these investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

*Collective investment trusts* – The Plan's interest in the collective investment trusts is valued at the net asset value ("NAV") of the underlying investments as based on information reported by the investment advisor using the audited financial statements or daily reported NAV of the collective investment trusts at year-end. The NAV is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation

methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2024 and 2023:

<b>Investments at Fair Value as of December 31, 2024</b>

The investment objective of the Legal & General Long Liability Treasury 2X CIT Fund is to manage, within a pension risk management context, the interest rate risk associated with changes in corporate bond-based pension liability discount rates for the average duration liabilities, seeking to achieve around two times leverage.

The objective of the Mawer Global Equity Fund is to invest for above-average risk-adjusted returns in securities of companies around the world. This is done by choosing companies that the Fund believes will

be wealth-creating in the long-term and are trading at a discount to their intrinsic value. The Fund prefers companies with enduring competitive advantages that will allow them to earn a return greater than their cost of capital over the long-term. The Fund has a long-term buy-and-hold strategy and seeks to keep turnover low.

Clarion Partners Lion Properties Fund objective is managing a portfolio of primarily institutional quality real estate investments that maintains full diversification across the four Core property types and the four regions of the United States.

There were no unfunded commitments at December 31, 2024 or 2023.

## **(6) Plan Termination**

While the Company has not expressed any intent to terminate the Plan, it is free to do so at any time, subject to ERISA and collective bargaining requirements. Upon termination of the Plan, the Plan assets shall be allocated by the Plan Administrator on an actuarial basis among participants, surviving spouses and beneficiaries in the manner prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for the three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
- b. Other vested benefits insured by the Pension Benefit Guarantee Corporation ("PBGC") up to applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All non-vested benefits.

Upon Plan termination, the rights of all affected participants to the benefits then accrued and funded shall fully vest and be non-forfeitable. Benefits already distributed in cash or by purchase and delivery of an annuity contract shall not be affected and are excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring in 2025 that ceiling is \$7,432 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants, or for those who elect to receive their benefits in some form more valuable than single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits, the Plan's net assets to provide for accumulated benefit obligations, the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

**(7) Tax Status**

The Plan received a favorable determination letter dated September 14, 2017 from the Internal Revenue Service ("IRS") as to the qualification of the Plan and exemption of the Plan from federal income taxes. The Plan has been amended since receiving the determination letter; however, the Administrative Committee believes the Plan is currently designed and continues to be operated in compliance with the applicable requirements of the IRC, and accordingly, continues to be tax exempt.

Assuming it meets certain initial and ongoing requirements, the Plan is generally exempt from federal and state income taxes. However, GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**(8) Information Certified by Trustees**

The Administrative Committee has elected the method of compliance permitted by 29 CFR 2520.103 8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the financial statements and supplemental schedules was provided and certified by the Plan's trustee, Fifth Third Bank, as of December 31, 2024 and 2023 as complete and accurate:

- Investments, at fair value
- Accrued income
- Investment income
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year)
- Schedule H, Line 4j – Schedule of Reportable Transactions

**(9) Related-Party Transactions**

Parties in interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Fifth Third Bank, the trustee for the Plan, as of December 31, 2024 and 2023 qualifies as a party in interest. Additionally, certain investment fees are paid by the trustee and are reflected in the investment income or loss for the year. As such, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transactions rules.

The Plan sponsor, Evraz Inc., N.A., is a party-in-interest. However, there were no transactions with the Plan sponsor other than funding of contributions and payment of certain Plan expenses.

**Benefit Limits**

Projected benefits are limited by the current IRC section 415 maximum benefit of \$275,000.

**Valuation of Plan Assets**

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

**Expected Return on Assets**

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the retirement rates to better reflect anticipated plan experience.
- A change in the optional form election assumptions to better reflect anticipated plan experience.

The assumption changes listed above did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
