Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: CLIFTONLARSONALLEN LLP

(2) EIN: 41-0746749

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 556369.

Teck American Incorporated Retirement Plan
Spokane, Washington

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Teck American Incorporated Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits - modified cash basis as of December 31, 2024, and 2023, the statements of changes in net assets available for benefits - modified cash basis for the years ended December 31, 2024 and 2023, the statement of accumulated plan benefits - modified cash basis as of December 31, 2023, the statement of changes in accumulated plan benefits - modified cash basis for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Teck American Incorporated Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Teck American Incorporated Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Teck American Incorporated Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Teck American Incorporated Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules Schedule H, Line 4i—schedule of assets – modified cash basis (held at end of year) and Schedule H, Line 4j—schedule of reportable transactions – modified cash basis as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

TECK AMERICAN INCORPORATED RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF THE PLAN

The following description of the Teck American Incorporated Retirement Plan (the Plan) is provided for general information purposes only. For a complete description of the Plan and its specific provisions, a copy of the Plan agreement should be obtained directly from Teck American Incorporated.

General and Other Information

The Plan is a noncontributory defined benefit pension plan covering both salaried and certain hourly employees of Teck American Incorporated (the Company). It provides retirement, disability, and death benefits to all eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).
Funding Policy

Funding Policy

The Plan's funding policy is for the Company to contribute such amounts so that all participants' benefits will be fully provided for by the time they retire. Participants are not permitted to make contributions to the Plan. During 2024 and 2023, the Company made contributions of \$0 and \$2,800,000, respectively. The Company's contributions for 2024 and 2023 exceeded the minimum funding requirements of ERISA. At December 31, 2024 and 2023, there were no amounts due to the Plan from the Company.

The contributions of the Company are designed to fund the Plan's current service costs on a current basis and the estimated accrued benefit costs arising from past service costs. The yield (interest, dividends, and net appreciation) on investments of the Plan serves to reduce future contributions that would otherwise be required for the defined level of benefits under the Plan.

Pension Benefits

Prior to January 1, 1989, employees with five or more years of service were entitled to annual pension benefits beginning on the first day of the month following the normal retirement age of 65. Normal retirement benefits are equal to 1.6% of final average earnings for each of the first 35 years of benefit service, plus 0.8% of final average earnings for each of the next five years of benefit service, less 1.4% for each of the first 35 years of benefit service of Primary Social Security.

Effective January 1, 1989, the Plan was amended to adjust participant's retirement benefits. Under the terms of the amended plan agreement, normal retirement benefits consist of 1.1% of final average earnings (the highest average of three consecutive years of compensation) up to the Social Security Average Maximum Wage ("SSAMW") and 1.4% of final average earnings in excess of the SSAMW, times years of Benefit Service up to 35 years, plus an additional 0.8% of final average earnings for each year of Benefit Service in excess of 35 years, but no more than 40 years.

The Plan permits early retirement at age 55 with five years of eligible service. Early retirement benefits are equal to normal retirement benefits multiplied by an early retirement factor based on completed eligible service at the age of benefit commencement.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Pension Benefits (Continued)

Early retirement benefits will be equal to normal retirement benefits if the years of eligible service plus the former employee's age on the date when benefits begin totals 90 or more. If the years of eligible service plus age when benefits begin total less than 90, the retirement benefit will be reduced by 4% for each year benefits begin before the unreduced benefit could have been received, or by 4% for each year before age 65, whichever results in the larger benefit. However, if an employee retires with less than 15 years of service, or is terminated with vested benefits prior to age 55, the early retirement benefit will be reduced by 6% for each year benefits begin before age 65.

If an employee continues in active employment after their Normal Retirement Date, they will be eligible to retire on the first day of any month following their Normal Retirement Date, however, are required to begin no later than the date the Member reaches the age of 70 $\frac{1}{2}$.

The Plan was closed to new participants effective May 1, 2004. As new employees are excluded from participating in the Plan, the Company modified the contribution and matching provisions of the Teck American Incorporated Retirement Savings Plan ("RSP") for these employees to compensate them for their exclusion from the Retirement Plan. In October 2004, employees hired on or before May 1, 2004, were given a one-time opportunity to freeze their benefits in the Retirement Plan as of December 31, 2004 and participate under the new RSP provisions beginning January 1, 2005. To take advantage of this opportunity, these employees had to elect to participate in the new plan provisions by December 24, 2004. The Plan was amended and restated as of January 1, 2014 to allow for certain highly-compensated employees to receive a social security bridge in the event of early retirement. The Plan was further amended on August 25, 2017 to allow eligible participants or their beneficiaries the option of receiving benefits in a lump-sum payment, rather than receiving annuity payments. The one-time optional election to receive the lump-sum payment had to be made prior to October 6, 2017.

Death and Disability Benefits

If death occurs before retirement, an employee must have completed 25 years of eligible service or have completed ten years of eligible service and attained age 55, to qualify a spouse for full spousal benefits. Full spousal benefits are equal to 50% of normal retirement that the employee would have received at age 65. If the surviving spouse is more than five years younger than the employee, the spouse's benefit will be reduced by one-sixth of one percent for each month in excess of five years. For vested participants who have not qualified their spouse for a full spousal benefit, the spousal benefit will equal one-half of a 50% joint annuity, subject to an early retirement reduction factor, if applicable. Participants who become disabled continue to be credited with benefit service accruals provided they were participating in the Plan when disabled.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). This basis of accounting differs from GAAP primarily because contributions are recognized when received rather than when earned and expenses are recognized when paid rather than when incurred.

Use of Estimates

The preparation of financial statements in accordance with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits – modified cash basis. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits – modified cash basis.

Reclassifications

Certain amounts in the 2023 financial statements have been reclassified to conform with the 2024 presentation. These amounts do not affect net assets available for benefits as previously reported.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2025, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a. retired or terminated employees or their beneficiaries,
- b. beneficiaries of employees who have died, and
- c. present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Willis Towers Watson, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of distributions such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2023 were:

- a. Mortality rates vary for non-annuitants and annuitants based on Pri-2012 tables projected by Scale MP-2020
- b. Retirement rates varying between 3% and 100% between age 55 to 68 with the average age of 63.
- c. The rates at which participants age 40 and older are assumed to leave the Company: 7.0%
- d. Investment Return of 5.75%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2024. Had the valuation been performed as of December 31, there would be no material differences.

The change in actuarial assumptions resulting in an approximate \$4.7 million decrease in the accumulated Plan benefits was primarily due to updating the rate of investment return to more accurately reflect the current market.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

With the exception of the limited partnership investments held at December 31, 2024 and 2023, valued at \$9,764,436 and \$10,398,405, respectively, Bank of America, N.A., qualified institution of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of investment information reflected on the accompanying statements of net assets available for benefits – modified cash basis as of December 31, 2024 and 2023, the statements of changes in net assets available for benefits – modified cash basis for the years then ended, and the supplemental schedule of assets (held at end of year) – modified cash basis and reportable transactions – modified cash basis as of or for the year ended December 31, 2024.

Included in net appreciation (depreciation) in fair value of investments on the statements of changes in net assets available for benefits – modified cash basis is investment income (loss) that is not certified of \$(133,984) and \$(224,782) for the years ended December 31, 2024 and 2023, respectively.

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

Cash and Money Market Funds: Valued at the daily closing price as reported by the fund. These investments are public investment vehicles valued using \$1 for the Net Asset Value (NAV). These instruments are deemed to be actively traded.

Municipal Bonds and U.S. Governmental Obligations and Federal Agency Obligations: Instruments are valued based on market-corroborated inputs such as matrix prices, yield curves, and indices. These instruments are classified within Level 2 of the valuation hierarchy.

Foreign and Domestic Corporate Debt: Securities fair values are determined by quoted prices on an active market as of the last day of the plan year. These instruments are classified within Level 1 of the valuation hierarchy.

Foreign and Domestic Common Stock: Common stock fair values are determined by the quoted share price on active markets as of the last day of the plan year. These instruments are classified within Level 1 of the valuation hierarchy.

Common/Collective Trust: Valued at NAV of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily.

Limited Partnerships: Valued at NAV per unit (or its equivalent) based upon the fair value of the underlying investments. NAV is used as a practical expedient to estimate fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2024			
	Level 1	Level 2	Level 3	Total

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits – modified cash basis.

During the year ended December 31, 2024, the Common/Collective Trust fund has been corrected to be reported as a collective trust fund and the Real Estate limited partnership fund has been corrected to be reported as a limited partnership measured at NAV as a practical expedient, rather than mutual funds as originally presented in the 2023 financial statements. The amounts previously reported in the 2023 financial statements have been corrected to reflect this change with no impact on net assets or changes in net assets.

The following table summarizes investments for which fair value is measured using the net asset per share practical expedient as of December 31:

Investment Type	Fair Value		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	2024	2023			
Limited Partnership					
Infrastructure	\$ 4,262,229	\$ 3,989,128	\$ -	Semi-Annual	90 Days
Real Estate	5,502,207	6,409,277	-	Quarterly	30 Days

The infrastructure focused limited partnership invests in a broad range of infrastructure and infrastructure-related assets located in member countries of the Organization for Economic Co-Operation and Development with a primarily focus on the United States, Canada, Western Europe and Australia.

The real estate focused limited partnership is comprised of real estate holdings with the objective to generate attractive rates of return on capital and hedge against inflation. The fund currently has a redemption queue.

NOTE 6 PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax exempt.

The modified cash basis of accounting requires Plan management to evaluate if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits – modified cash basis.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are managed by Merrill Lynch, a subsidiary of Bank of America. Merrill Lynch is the trustee as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE 10 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

With respect to the Plan's investment in the JP Morgan IIF ERISA LP, as of December 31, 2024 and 2023, the investment has been treated as a limited partnership in the financial statements. Plans investing in an investment entity with over 25% of ownership by benefit plans are required to present their investment in the entity by type of investments with the investment entity for Form 5500 reporting purposes.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality

- **Healthy/disabled rates** Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Disability rates None assumed

Termination (not due to disability or retirement) rates The rates at which participants age 40 and older are assumed to leave the Company: 7.0%

Retirement rates Rates at which participants are assumed to retire by age are shown below. The average retirement age is 63.

SCHEDULE SB ATTACHMENTS

Benefit commencement date:

- **Preretirement death benefit** The later of the death of the active participant or the date the participant would have attained age 55. For participants with at least 25 years of service, surviving spouse benefits commence immediately.
- **Deferred vested benefit** Age 65 or termination of employment, if later.
- **Disability benefit** N/A
- **Retirement benefit** Upon termination of employment

Form of payment 50% joint and survivor annuity if married and retired from active employment, otherwise a single life annuity; actual form of payment elected by current retirees is used.

Percent married 85% of males and females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement

Spouse age Wives three years younger than husbands for active and terminated vested participants; actual spouse's age for retirees

Covered pay Pensionable pay received for 2023 brought forward to the current year using the annual rate of compensation increases.

At risk assumptions For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the 50% joint and survivor annuity.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Funding target Present value of accrued benefits as required by regulations under IRC §430.

SCHEDULE SB ATTACHMENTS

Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 4.75%/5.25% (for 2022 and 2023 plan years respectively, with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Teck American Incorporated and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates made for missing or apparently inconsistent data elements were provided to Teck American Incorporated on June 25, 2024.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in compensation	Assumed compensation increases are based on plan sponsor expectations, reflecting both current conditions and future experience.
Administrative expenses	Administrative expenses are based on the prior year's actual administrative expenses and rounded to the nearest ten thousand.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Marital Assumptions:	
Percent married	The assumed percentage married is based on the percentage married observed among recent retirees.
Spouse age	The assumed age difference for spouses is based on the age difference observed among recent retirees.
Benefit commencement date for deferred benefits:	
Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start at this point, unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal

	value, and experience indicates that most spouses do take the benefit as soon as it is available.
Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.
Form of payment	Future retirees are assumed to take a 50% joint and survivor annuity if married because there is no reduction for this form of payment.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
-----------------	--

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality tables used to calculate the funding target and target normal cost were updated to reflect the latest mortality tables and improvement scale, as required by guidance issued by the IRS under IRC §430. In addition, projection of mortality improvement was changed from using a static projection to a generational projection as required by guidance issued by the IRS under IRC §430. The assumed plan-related expenses added to the target normal cost were changed from \$790,000 for 2023 to \$580,000 for 2024.
Change in methods since prior valuation	None

Mortality

- **Healthy/disabled rates** Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Disability rates None assumed

Termination (not due to disability or retirement) rates The rates at which participants age 40 and older are assumed to leave the Company: 7.0%

Retirement rates Rates at which participants are assumed to retire by age are shown below. The average retirement age is 63.

Benefit commencement date:

- **Preretirement death benefit** The later of the death of the active participant or the date the participant would have attained age 55. For participants with at least 25 years of service, surviving spouse benefits commence immediately.
- **Deferred vested benefit** Age 65 or termination of employment, if later.
- **Disability benefit** N/A
- **Retirement benefit** Upon termination of employment

Form of payment 50% joint and survivor annuity if married and retired from active employment, otherwise a single life annuity; actual form of payment elected by current retirees is used.

Percent married 85% of males and females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement

Spouse age Wives three years younger than husbands for active and terminated vested participants; actual spouse's age for retirees

Covered pay Pensionable pay received for 2023 brought forward to the current year using the annual rate of compensation increases.

At risk assumptions For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the 50% joint and survivor annuity.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 4.75%/5.25% (for 2022 and 2023 plan years respectively, with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Teck American Incorporated and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates made for missing or apparently inconsistent data elements were provided to Teck American Incorporated on June 25, 2024.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in compensation	Assumed compensation increases are based on plan sponsor expectations, reflecting both current conditions and future experience.
Administrative expenses	Administrative expenses are based on the prior year's actual administrative expenses and rounded to the nearest ten thousand.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Marital Assumptions:	
Percent married	The assumed percentage married is based on the percentage married observed among recent retirees.
Spouse age	The assumed age difference for spouses is based on the age difference observed among recent retirees.
Benefit commencement date for deferred benefits:	
Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start at this point, unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal

	value, and experience indicates that most spouses do take the benefit as soon as it is available.
Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.
Form of payment	Future retirees are assumed to take a 50% joint and survivor annuity if married because there is no reduction for this form of payment.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
-----------------	--

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality tables used to calculate the funding target and target normal cost were updated to reflect the latest mortality tables and improvement scale, as required by guidance issued by the IRS under IRC §430. In addition, projection of mortality improvement was changed from using a static projection to a generational projection as required by guidance issued by the IRS under IRC §430. The assumed plan-related expenses added to the target normal cost were changed from \$790,000 for 2023 to \$580,000 for 2024.
Change in methods since prior valuation	None

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

Effective date	Amended and restated effective January 1, 2014. The Plan was amended in 2004 to close entry into the plan after April 30, 2004 and to provide for retiree cost-of-living adjustments retroactive to January 1, 2003. The plan was amended on August 25, 2017 for a one time lump sum offering to certain terminated vested participants.
Covered Employees	Salaried and certain hourly employees of the Company or designated affiliates.
Participation Date	First of month after completion of 12 months of eligibility service. Effective April 30, 2004, the plan was closed to new entrants.

Definitions

Eligibility service	Eligibility service will be granted for the period of service from the employee's most recent employment date to the severance date.
Benefit service	(i) Prior to January 1, 1985: Benefit service will be granted in accordance with the provisions of the plan in effect at December 31, 1984. (ii) On and after January 1, 1985: Except as noted below, benefit service will be granted for the period of service from the employee's employment date to the severance date. ■ Benefit service will also be granted for the one-year waiting period required for participation. ■ Benefit service will be reduced pro rata for part-time employees by the ratio of hours actually earned to hours earned on a full-time schedule.
Pensionable pay	Earnings paid during the year including overtime earnings and other cash incentive compensation including the personal performance component of the management bonus plan but excluding the general operating unit bonus. Pensionable pay also includes deferrals to the Company's 401(k) plan and deferrals made in accordance with Code Section 125 to a qualified cafeteria plan of the Company. Pensionable pay shall exclude any relocation allowance, fringe benefits related to vehicle usage or imputed income, contributions made by the Company to or under any form of employee benefit program, payments made on account of severance of employment, or any amounts paid in a lump sum in lieu of vacation or holiday. Pensionable pay in a Plan Year is subject to Code Section 401(a)(17) limits.

Average earnings	The average of the highest 36 consecutive calendar months of participation of pensionable pay ending on the participant's termination date. Months of a suspension of participation are disregarded and do not impact or break the consecutive months of participation.
Covered compensation	The 35-year average of Social Security wage bases ending in the year Social Security retirement age is attained.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65 with five years of eligibility service.
Monthly pension benefit	As of any date, one-twelfth of 1.1% of final average earnings up to covered compensation plus 1.4% of final average earnings over covered compensation, times benefit service up to 35 years, plus .8% of final average earnings times benefit service in excess of 35 years limited to 40 years, but not less than the amount accrued as of December 31, 1993 plus benefits based on service accrued after December 31, 1993.
Monthly Social Security bridge payment	\$700 per month indexed from 1989 at the same rate as the Social Security wage base.
Monthly preretirement spouse benefit	(i) If the deceased employee was age 55 and had completed 10 years of eligibility service or had completed 25 years of service, 50% of the pension which would have been paid to the employee had he remained in employment to age 65 and his earnings in the most recent calendar year prior to death remained constant to age 65, reduced 1/6% for each month by which the spouse is more than five years younger than the employee. Payments begin on the first of the month following employee's death. (ii) Otherwise, 50% of the accrued pension payable at the date the employee would have been age 55 assuming he terminated immediately prior to death and survived to age 55, electing a 50% contingent annuity. Payments begin the first of the month following the date the employee would have been age 55.
Monthly postretirement spouse benefit	50% of the benefit payable upon retirement to the employee as a life annuity, reduced by 1/6% for each month by which the spouse is more than five years younger than the employee. Payments begin on the first day of the month following death.
