INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Object Oriented Partners, LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements

We have performed audits of the accompanying financial statements of **Object Oriented Partners, LLC 401(k) Plan** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the certified information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, line 4i – Schedule of Assets (Held at End of Year), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Object Oriented Partners, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2024

Note A – Description of Plan

The following description of the Object Oriented Partners, LLC 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Object Oriented Partners, LLC (the “Company”), excluding union employees, non-resident aliens, leased employees, and residents of Puerto Rico. The Plan was formed and adopted on January 1, 2024. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Employees become eligible to participate fully in the Plan immediately upon reaching 21 years of age. After meeting the eligibility requirements, employees will enter the Plan on the first payroll that is administratively feasible to implement deferrals but no later than the later of 2 pay periods or 2 weeks after the requirements are met.

Administration

The Plan is administered by Guideline, Inc. The Plan’s assets for the year were maintained by Benefit Trust Company (the “Custodian”). Contributions are held by the Custodian, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (“IRC”) limitations. The maximum participant deferral for the year ended December 31, 2024 was \$23,000. A participant who has attained the age of 50 may also make catch up contributions, subject to Internal Revenue Service (“IRS”) limitations of \$7,500 for the year ended December 31, 2024. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation. Participants may also make Roth deferrals and contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may contribute discretionary nonelective contribution to be determined by the Company. For the year ended December 31, 2024, no discretionary nonelective contributions were made by the Company.

Participant Accounts

Each participant’s account is credited and/or reduced with the participant’s elective referral contributions and distributions, the Company’s contributions, and an allocation of the Plan’s investment earnings/losses, investment fees and any administrative expenses paid out of the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan.

Object Oriented Partners, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2024

Note A – Description of Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions and rollovers plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after three years of credit service as follows:

<u>Years of Services</u>	<u>Vesting Percentage</u>
Less than 3	0%
3 years or more	100%

A participant who reaches normal retirement age 65, becomes totally disabled, or dies, whichever comes first while under the Company's employment, shall be 100% vested on such date.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account, or other acceptable collateral, and bear interest at a prime rate plus 1%. The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years but will be no greater than 10 years.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution by the end of the calendar quarter following the calendar quarter in which payment is first delinquent.

Distribution of Benefits

After age 65, upon termination of service due to death, or retirement a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, as defined in the Plan agreement, less any applicable taxes. Participants may also request in-service distributions at age 59 ½. Participants may also request a hardship withdrawal for qualifying expenses from the portion of all their vested account balances.

Forfeitures

Forfeitures occur as of the earlier of the last day of the Plan Year in which the former Participant incurs five consecutive 1-Year Breaks in Service or upon the distribution of the entire vested portion of the Participant's account. Forfeitures may be added to any Employer contribution and allocated in the same manner, or may be used to pay administrative expenses. For the year ended December 31, 2024, there were no forfeitures.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value. Actual results could differ from those estimates.

Valuation of Investments

The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s management determines the valuation policies utilizing information provided by the Custodian.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Fair Value Measurements

The Financial Accounting Standards Board has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|----------------|--|
| <i>Level 1</i> | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| <i>Level 2</i> | Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| <i>Level 3</i> | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

Notes to Financial Statements

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their prices daily and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	<u>Fair Value Measurements at Reporting Date Using:</u>	
	<u>Assets Measured at Fair Value at 12/31/2024</u>	<u>Quoted Prices in Active Markets (Level 1)</u>
Mutual funds	\$ 414,839	\$ 414,839
Investments at fair value	\$ 414,839	\$ 414,839

Note C – Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2024, and net appreciation in fair value of investments, interest and dividends and other income for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Benefit Trust Company, a qualified institution. As of December 31, 2024 and for the year then ended, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by Benefit Trust Company, except for comparing such information to the related information included in the financial statements, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note D – Income Tax Status

The Plan has received a determination letter from the IRS dated September 26, 2024 stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Object Oriented Partners, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2024

Note D – Income Tax Status (continued)

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements.

Note E – Risks and Uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note F – Party-In-Interest Transactions

Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services. Fees paid to parties-in-interest by the Plan for services amounted to approximately \$300 during the year ended December 31, 2024.

Note G – ERISA Bonding Requirement

ERISA section 412 and related regulations generally require that every fiduciary of an employee benefit plan and every person who handles funds or other property of such a plan shall be bonded. ERISA's bonding requirements are intended to protect employee benefit plans from risk of loss due to fraud or dishonesty on the part of the persons who "handle" plan funds or other property. ERISA refers to persons who handle funds or other property of an employee benefit plan as "plan officials." A plan official must be bonded for at least 10% of the amount of funds he or she handles, subject to a minimum bond amount of \$1,000 per plan with respect to which the plan official has handling functions. In most instances, the maximum bond amount that can be required under ERISA with respect to any one plan official is \$500,000 per plan.

The Plan, Plan Sponsor, and officials were not bonded for at least 10% of the amount of funds for the year ended December 31, 2024. Fidelity bond coverage was held only by Guideline, Inc., the Plan Administrator. Management is evaluating corrective actions to ensure future compliance with ERISA bonding requirements.

Note H – Subsequent Events

Subsequent events have been evaluated through October 10, 2025, which is the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Object Oriented Partners, LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements

We have performed audits of the accompanying financial statements of **Object Oriented Partners, LLC 401(k) Plan** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the certified information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, line 4i – Schedule of Assets (Held at End of Year), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Object Oriented Partners, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2024

Note A – Description of Plan

The following description of the Object Oriented Partners, LLC 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Object Oriented Partners, LLC (the “Company”), excluding union employees, non-resident aliens, leased employees, and residents of Puerto Rico. The Plan was formed and adopted on January 1, 2024. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Employees become eligible to participate fully in the Plan immediately upon reaching 21 years of age. After meeting the eligibility requirements, employees will enter the Plan on the first payroll that is administratively feasible to implement deferrals but no later than the later of 2 pay periods or 2 weeks after the requirements are met.

Administration

The Plan is administered by Guideline, Inc. The Plan’s assets for the year were maintained by Benefit Trust Company (the “Custodian”). Contributions are held by the Custodian, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (“IRC”) limitations. The maximum participant deferral for the year ended December 31, 2024 was \$23,000. A participant who has attained the age of 50 may also make catch up contributions, subject to Internal Revenue Service (“IRS”) limitations of \$7,500 for the year ended December 31, 2024. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation. Participants may also make Roth deferrals and contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may contribute discretionary nonelective contribution to be determined by the Company. For the year ended December 31, 2024, no discretionary nonelective contributions were made by the Company.

Participant Accounts

Each participant’s account is credited and/or reduced with the participant’s elective referral contributions and distributions, the Company’s contributions, and an allocation of the Plan’s investment earnings/losses, investment fees and any administrative expenses paid out of the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan.

Object Oriented Partners, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2024

Note A – Description of Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions and rollovers plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after three years of credit service as follows:

<u>Years of Services</u>	<u>Vesting Percentage</u>
Less than 3	0%
3 years or more	100%

A participant who reaches normal retirement age 65, becomes totally disabled, or dies, whichever comes first while under the Company's employment, shall be 100% vested on such date.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account, or other acceptable collateral, and bear interest at a prime rate plus 1%. The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years but will be no greater than 10 years.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution by the end of the calendar quarter following the calendar quarter in which payment is first delinquent.

Distribution of Benefits

After age 65, upon termination of service due to death, or retirement a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, as defined in the Plan agreement, less any applicable taxes. Participants may also request in-service distributions at age 59 ½. Participants may also request a hardship withdrawal for qualifying expenses from the portion of all their vested account balances.

Forfeitures

Forfeitures occur as of the earlier of the last day of the Plan Year in which the former Participant incurs five consecutive 1-Year Breaks in Service or upon the distribution of the entire vested portion of the Participant's account. Forfeitures may be added to any Employer contribution and allocated in the same manner, or may be used to pay administrative expenses. For the year ended December 31, 2024, there were no forfeitures.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value. Actual results could differ from those estimates.

Valuation of Investments

The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s management determines the valuation policies utilizing information provided by the Custodian.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Fair Value Measurements

The Financial Accounting Standards Board has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|----------------|--|
| <i>Level 1</i> | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| <i>Level 2</i> | Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| <i>Level 3</i> | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their prices daily and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	<u>Fair Value Measurements at Reporting Date Using:</u>	
	<u>Assets Measured at Fair Value at 12/31/2024</u>	<u>Quoted Prices in Active Markets (Level 1)</u>
Mutual funds	\$ 414,839	\$ 414,839
Investments at fair value	\$ 414,839	\$ 414,839

Note C – Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2024, and net appreciation in fair value of investments, interest and dividends and other income for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Benefit Trust Company, a qualified institution. As of December 31, 2024 and for the year then ended, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by Benefit Trust Company, except for comparing such information to the related information included in the financial statements, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note D – Income Tax Status

The Plan has received a determination letter from the IRS dated September 26, 2024 stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Note D – Income Tax Status (continued)

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements.

Note E – Risks and Uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note F – Party-In-Interest Transactions

Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services. Fees paid to parties-in-interest by the Plan for services amounted to approximately \$300 during the year ended December 31, 2024.

Note G – ERISA Bonding Requirement

ERISA section 412 and related regulations generally require that every fiduciary of an employee benefit plan and every person who handles funds or other property of such a plan shall be bonded. ERISA's bonding requirements are intended to protect employee benefit plans from risk of loss due to fraud or dishonesty on the part of the persons who "handle" plan funds or other property. ERISA refers to persons who handle funds or other property of an employee benefit plan as "plan officials." A plan official must be bonded for at least 10% of the amount of funds he or she handles, subject to a minimum bond amount of \$1,000 per plan with respect to which the plan official has handling functions. In most instances, the maximum bond amount that can be required under ERISA with respect to any one plan official is \$500,000 per plan.

The Plan, Plan Sponsor, and officials were not bonded for at least 10% of the amount of funds for the year ended December 31, 2024. Fidelity bond coverage was held only by Guideline, Inc., the Plan Administrator. Management is evaluating corrective actions to ensure future compliance with ERISA bonding requirements.

Note H – Subsequent Events

Subsequent events have been evaluated through October 10, 2025, which is the date the financial statements were available to be issued.
