## Independent Auditor's Report

The Employee Benefits Committee  
Master Lock Company Savings Plan  
for Hourly Paid Union Employees Plan  
Chicago, Illinois

### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*

We have performed audits of the financial statements of Master Lock Company Savings Plan for Hourly Paid Union Employees Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 (in liquidation) and December 31, 2023 (ongoing), and the related statement of changes in net assets available for benefits for the year ended December 31, 2024 (in liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

### *Opinion*

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting***

As further discussed in Notes 1 and 7 to the financial statements, the Plan Committee of the Plan approved a plan of liquidation on September 1, 2024, and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the going-concern basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter - Supplemental Schedule Required by ERISA***

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### 1. Description of the Plan

The following description of the Master Lock Company Savings Plan for Hourly Paid Union Employees Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

#### *General*

The Plan is a defined contribution plan covering all employees of Master Lock Company (the Company), a subsidiary of Fortune Brands Home & Security, Inc., who are represented in a collective-bargaining agreement (CBA) with the International Union, United Automobile, Aerospace, and Agricultural Implement Workers of America, UAW-AFL-CIO, Local 469. Each employee covered under the CBA, which expired on April 7, 2024, was eligible to become a participant upon completion of at least 90 days of consecutive service determined in accordance with the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The trustee of the Plan is Fidelity Management Trust Company (Fidelity or Trustee).

The Plan qualifies under Section 401(a) of the Internal Revenue Code (IRC), which provides participants with the option to defer taxes on contributions into the before-tax portion of the Plan and on investment earnings until their funds are withdrawn. The IRC contains certain rules and limitations on before-tax contributions and withdrawals from this portion of the Plan.

As noted above, the CBA expired on April 7, 2024. All contributions to the Plan ceased after April 11, 2024 as a result of the expiration of the agreement.

On September 1, 2024, the Plan Committee passed a resolution to terminate the Plan. Effective September 1, 2024, actions were begun in preparation to freeze the Plan for termination. The Plan will formally adopt an amendment to terminate and liquidate the Plan effective September 1, 2024. No participants were allowed to enter the Plan after the date of Plan termination. All participants were fully vested in their account balances, and the account balances were liquidated and distributed to participants as soon as administratively practicable after that time.

#### *Contributions*

Participants may contribute to the Plan in whole percentage increments up to 60% of their annual compensation. For 2023, participants' annual tax-deferred contributions are limited by the IRC to \$22,500 for participants under 50 years of age or \$30,000 for participants 50 years of age and over. A participant may contribute a rollover contribution subject to approval, provided it represents a balance from a qualified plan under the IRC, and it is contributed to the Plan within 60 days of the original distribution. A participant has, at all times, a fully vested and non-forfeitable interest in his or her tax-deferred and rollover contributions portion of their account. Contributions are subject to certain limitations.

Eligible employees are automatically enrolled into the Plan; 3% of the participant's compensation will be automatically withheld and contributed to the Plan in connection with the automatic enrollment, unless a participant makes an election not to participate in the Plan.

Eligible employees hired, rehired, or who became eligible through an employment transfer on or after January 28, 2008 and have elected not to accrue additional years of pension credit under the Master Lock Pension Plan during the special election periods offered by the Company, receive a 50%

---

matching Company contribution not in excess of 6% of the participant's compensation. These participants are also eligible for additional Company contributions, as described in the Plan. For participants hired on or after January 28, 2008, who have seniority as defined under the applicable CBA, the Company shall contribute an amount equal to 1% (not to exceed 25%) of each eligible participant's compensation. For all other participants, the Company contributes 50% of the first 4% of base compensation that a participant contributes to the Plan. A participant becomes fully vested in the Company contribution portion of their account after one year of service.

At December 31, 2024 and 2023, forfeited non-vested accounts totaled \$23,544 and \$20,824, respectively. These accounts will be used to pay Plan expenses. There were no forfeitures used during the year ended December 31, 2024.

### *Participant Accounts*

Participant account balances are increased by participant contributions, including rollovers from other plans. Income and losses on Plan assets are allocated to participants' accounts based on the ratio of each participant's amount invested in an investment fund to the total of all participants' account balances invested in that fund. A participant's account is also charged for the participant's respective transaction fees. All assets of the Plan are invested in the funds available to the participants. A participant may direct his or her contributions and Company matching contributions in whole percentages to be invested in one or more of these funds. In the absence of participant direction, the participants' accounts shall be invested in the age-appropriate target date fund.

### *Payment of Benefits*

The amount distributed from a participant's account upon a participant's retirement, termination of employment, death, or disability may be in the form of a lump-sum payment or annual installments as elected by the participant. Balances less than \$1,000 are distributed as a lump sum and do not require the participant's consent. Normal retirement age under the Plan is 65. Participants may also withdraw their contributions in the event of a financial hardship, as described in the Plan, or upon their attainment of age 59½.

### *Notes Receivable from Participants*

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000 reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period. Participants may only have one loan outstanding at any given time. The loans are collateralized by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan administrator based on prevailing interest rates. Principal and interest are paid ratably through payroll deductions. Loan terms range from one to five years or longer for the purchase of a primary residence.

## **2. Summary of Significant Accounting Policies**

### *Basis of Accounting*

The accompanying 2023 financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (GAAP).

# Master Lock Company Savings Plan for Hourly Paid Union Employees Plan

## Notes to Financial Statements

---

The 2024 financial statements have been prepared under the liquidation basis. This basis was adopted when liquidation was deemed imminent in accordance with Accounting Standards Update (ASU) 2013-07, *Liquidation Basis of Accounting*. Plan management determined that liquidation was imminent upon adoption of the resolution to terminate the Plan on September 1, 2024. Under the liquidation basis of accounting, assets are measured at their net realizable value, estimated by fair value, reduced by surrender charges, penalties and redemption charges, and disposal expenses, to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process. Liabilities are measured using the accrual basis of accounting, including any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

### ***Contributions and Contributions Receivable***

Participant contributions and any related employer matching contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Non-elective contributions are recorded in the relevant period in accordance with the terms in the Plan document.

### ***Investments Valuation and Income Recognition***

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Employee Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Trustee. See Note 3 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

### ***Payment of Benefits***

Benefits are recorded when paid.

### ***Notes Receivable from Participants***

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

### ***Administrative Expenses***

All administrative expenses of the Plan are paid by the Plan unless paid by the Company.

### ***Use of Estimates***

The preparation of the Plan's financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets

# Master Lock Company Savings Plan for Hourly Paid Union Employees Plan

## Notes to Financial Statements

---

available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

### ***Risks and Uncertainties***

The Plan provides for various investment options with various investment objectives. Investment securities are exposed to various risks, such as interest risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

### **3. Fair Value Measurements**

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

*Level 1* - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

*Level 2* - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the assets or liabilities.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* - Inputs are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

# Master Lock Company Savings Plan for Hourly Paid Union Employees Plan

## Notes to Financial Statements

Plan management uses the following methods and significant assumptions to estimate fair value of investments. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Interest-Bearing Cash* - Interest-bearing cash is valued at cost plus earnings from investments for the period, which approximates fair market value due to the short-term duration.

*Mutual Funds* - Mutual funds are valued at the quoted net asset value (NAV) of the shares held by the Plan at year-end, which is obtained from an active market.

*Collective Investment Trust Funds* - Collective investment trust funds are valued at the NAV of units of each collective trust. The NAV is used as a practical expedient to estimate fair value. The NAV, as provided by the Trustee of the fund, is based on the fair value of the underlying investments held by the funds less their liabilities. As of December 31, 2024, there is no intention to sell or otherwise dispose of the investments in collective investment trust funds at prices different than their respective NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust, the investment advisor generally reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations would be carried out in an orderly business manner. All of the collective investment trust funds file a Form 5500 as a direct-filing entity with the Department of Labor (DOL). Redemption from these funds is permitted with 30 days' notice, except for one fund with 12 months' notice. There were no unfunded commitments, liquidity, or redemption restrictions related to the collective investment trusts funds.

*Self-Directed Brokerage Accounts* - Self-directed brokerage accounts comprise cash, common stock, and mutual funds. The individual investments in the self-directed brokerage accounts are valued on the basis of readily determinable market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different a fair value measurement at the reporting date.

The following tables present the Plan's investments by level within the fair value hierarchy:

### 4. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net investment income and interest income on notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such certified investment information to the related investment information included in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and in the ERISA-required supplemental schedule, including assessing whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

### 5. Tax Status

The Plan uses a pre-approved defined contribution plan from FMR LLC, an affiliate of the Trustee, which received an opinion letter from the IRS dated June 30, 2020, which states that the pre-approved defined contribution plan, as then designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed, and currently being operated in compliance, with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not

# Master Lock Company Savings Plan for Hourly Paid Union Employees Plan

## Notes to Financial Statements

---

be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

### **6. Related Party and Party-in-Interest Transactions**

The Trustee manages the self-directed brokerage accounts. These transactions qualify as party-in-interest transactions. Fees have been paid to the Trustee by the Plan or the Plan administrator for recordkeeping and investment management services.

Additionally, the Plan issues loans to participants, which are secured by the participants' account balances. These transactions qualify as party-in-interest transactions.

### **7. Plan Termination**

The Company was obligated to continue the Plan during the term of the existing CBA, which expired on April 7, 2024. As a result, the Company approved a termination of the Plan effective September 1, 2024, and participants became 100% vested in their employer contributions as of the termination date.

### **8. Subsequent Events**

Management has evaluated subsequent events through October 15, 2025, which is the date these financial statements were available to be issued.

## Independent Auditor's Report

The Employee Benefits Committee  
Master Lock Company Savings Plan  
for Hourly Paid Union Employees Plan  
Chicago, Illinois

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the financial statements of Master Lock Company Savings Plan for Hourly Paid Union Employees Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 (in liquidation) and December 31, 2023 (ongoing), and the related statement of changes in net assets available for benefits for the year ended December 31, 2024 (in liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting***

As further discussed in Notes 1 and 7 to the financial statements, the Plan Committee of the Plan approved a plan of liquidation on September 1, 2024, and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the going-concern basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter - Supplemental Schedule Required by ERISA***

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### 1. Description of the Plan

The following description of the Master Lock Company Savings Plan for Hourly Paid Union Employees Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

#### *General*

The Plan is a defined contribution plan covering all employees of Master Lock Company (the Company), a subsidiary of Fortune Brands Home & Security, Inc., who are represented in a collective-bargaining agreement (CBA) with the International Union, United Automobile, Aerospace, and Agricultural Implement Workers of America, UAW-AFL-CIO, Local 469. Each employee covered under the CBA, which expired on April 7, 2024, was eligible to become a participant upon completion of at least 90 days of consecutive service determined in accordance with the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The trustee of the Plan is Fidelity Management Trust Company (Fidelity or Trustee).

The Plan qualifies under Section 401(a) of the Internal Revenue Code (IRC), which provides participants with the option to defer taxes on contributions into the before-tax portion of the Plan and on investment earnings until their funds are withdrawn. The IRC contains certain rules and limitations on before-tax contributions and withdrawals from this portion of the Plan.

As noted above, the CBA expired on April 7, 2024. All contributions to the Plan ceased after April 11, 2024 as a result of the expiration of the agreement.

On September 1, 2024, the Plan Committee passed a resolution to terminate the Plan. Effective September 1, 2024, actions were begun in preparation to freeze the Plan for termination. The Plan will formally adopt an amendment to terminate and liquidate the Plan effective September 1, 2024. No participants were allowed to enter the Plan after the date of Plan termination. All participants were fully vested in their account balances, and the account balances were liquidated and distributed to participants as soon as administratively practicable after that time.

#### *Contributions*

Participants may contribute to the Plan in whole percentage increments up to 60% of their annual compensation. For 2023, participants' annual tax-deferred contributions are limited by the IRC to \$22,500 for participants under 50 years of age or \$30,000 for participants 50 years of age and over. A participant may contribute a rollover contribution subject to approval, provided it represents a balance from a qualified plan under the IRC, and it is contributed to the Plan within 60 days of the original distribution. A participant has, at all times, a fully vested and non-forfeitable interest in his or her tax-deferred and rollover contributions portion of their account. Contributions are subject to certain limitations.

Eligible employees are automatically enrolled into the Plan; 3% of the participant's compensation will be automatically withheld and contributed to the Plan in connection with the automatic enrollment, unless a participant makes an election not to participate in the Plan.

Eligible employees hired, rehired, or who became eligible through an employment transfer on or after January 28, 2008 and have elected not to accrue additional years of pension credit under the Master Lock Pension Plan during the special election periods offered by the Company, receive a 50%

matching Company contribution not in excess of 6% of the participant's compensation. These participants are also eligible for additional Company contributions, as described in the Plan. For participants hired on or after January 28, 2008, who have seniority as defined under the applicable CBA, the Company shall contribute an amount equal to 1% (not to exceed 25%) of each eligible participant's compensation. For all other participants, the Company contributes 50% of the first 4% of base compensation that a participant contributes to the Plan. A participant becomes fully vested in the Company contribution portion of their account after one year of service.

At December 31, 2024 and 2023, forfeited non-vested accounts totaled \$23,544 and \$20,824, respectively. These accounts will be used to pay Plan expenses. There were no forfeitures used during the year ended December 31, 2024.

### *Participant Accounts*

Participant account balances are increased by participant contributions, including rollovers from other plans. Income and losses on Plan assets are allocated to participants' accounts based on the ratio of each participant's amount invested in an investment fund to the total of all participants' account balances invested in that fund. A participant's account is also charged for the participant's respective transaction fees. All assets of the Plan are invested in the funds available to the participants. A participant may direct his or her contributions and Company matching contributions in whole percentages to be invested in one or more of these funds. In the absence of participant direction, the participants' accounts shall be invested in the age-appropriate target date fund.

### *Payment of Benefits*

The amount distributed from a participant's account upon a participant's retirement, termination of employment, death, or disability may be in the form of a lump-sum payment or annual installments as elected by the participant. Balances less than \$1,000 are distributed as a lump sum and do not require the participant's consent. Normal retirement age under the Plan is 65. Participants may also withdraw their contributions in the event of a financial hardship, as described in the Plan, or upon their attainment of age 59½.

### *Notes Receivable from Participants*

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000 reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period. Participants may only have one loan outstanding at any given time. The loans are collateralized by the balance in the participant's account and bear interest at a reasonable rate as determined by the Plan administrator based on prevailing interest rates. Principal and interest are paid ratably through payroll deductions. Loan terms range from one to five years or longer for the purchase of a primary residence.

## **2. Summary of Significant Accounting Policies**

### *Basis of Accounting*

The accompanying 2023 financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (GAAP).

# Master Lock Company Savings Plan for Hourly Paid Union Employees Plan

## Notes to Financial Statements

---

The 2024 financial statements have been prepared under the liquidation basis. This basis was adopted when liquidation was deemed imminent in accordance with Accounting Standards Update (ASU) 2013-07, *Liquidation Basis of Accounting*. Plan management determined that liquidation was imminent upon adoption of the resolution to terminate the Plan on September 1, 2024. Under the liquidation basis of accounting, assets are measured at their net realizable value, estimated by fair value, reduced by surrender charges, penalties and redemption charges, and disposal expenses, to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process. Liabilities are measured using the accrual basis of accounting, including any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

### ***Contributions and Contributions Receivable***

Participant contributions and any related employer matching contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Non-elective contributions are recorded in the relevant period in accordance with the terms in the Plan document.

### ***Investments Valuation and Income Recognition***

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Employee Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Trustee. See Note 3 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

### ***Payment of Benefits***

Benefits are recorded when paid.

### ***Notes Receivable from Participants***

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

### ***Administrative Expenses***

All administrative expenses of the Plan are paid by the Plan unless paid by the Company.

### ***Use of Estimates***

The preparation of the Plan's financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets

# Master Lock Company Savings Plan for Hourly Paid Union Employees Plan

## Notes to Financial Statements

---

available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

### ***Risks and Uncertainties***

The Plan provides for various investment options with various investment objectives. Investment securities are exposed to various risks, such as interest risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

### **3. Fair Value Measurements**

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

*Level 1* - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

*Level 2* - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the assets or liabilities.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* - Inputs are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

# Master Lock Company Savings Plan for Hourly Paid Union Employees Plan

## Notes to Financial Statements

Plan management uses the following methods and significant assumptions to estimate fair value of investments. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Interest-Bearing Cash* - Interest-bearing cash is valued at cost plus earnings from investments for the period, which approximates fair market value due to the short-term duration.

*Mutual Funds* - Mutual funds are valued at the quoted net asset value (NAV) of the shares held by the Plan at year-end, which is obtained from an active market.

*Collective Investment Trust Funds* - Collective investment trust funds are valued at the NAV of units of each collective trust. The NAV is used as a practical expedient to estimate fair value. The NAV, as provided by the Trustee of the fund, is based on the fair value of the underlying investments held by the funds less their liabilities. As of December 31, 2024, there is no intention to sell or otherwise dispose of the investments in collective investment trust funds at prices different than their respective NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust, the investment advisor generally reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations would be carried out in an orderly business manner. All of the collective investment trust funds file a Form 5500 as a direct-filing entity with the Department of Labor (DOL). Redemption from these funds is permitted with 30 days' notice, except for one fund with 12 months' notice. There were no unfunded commitments, liquidity, or redemption restrictions related to the collective investment trusts funds.

*Self-Directed Brokerage Accounts* - Self-directed brokerage accounts comprise cash, common stock, and mutual funds. The individual investments in the self-directed brokerage accounts are valued on the basis of readily determinable market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different a fair value measurement at the reporting date.

The following tables present the Plan's investments by level within the fair value hierarchy:

	Level 1	Level 2	Level 3	Total

### 4. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net investment income and interest income on notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such certified investment information to the related investment information included in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and in the ERISA-required supplemental schedule, including assessing whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

### 5. Tax Status

The Plan uses a pre-approved defined contribution plan from FMR LLC, an affiliate of the Trustee, which received an opinion letter from the IRS dated June 30, 2020, which states that the pre-approved defined contribution plan, as then designed, satisfies the applicable provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed, and currently being operated in compliance, with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not

## Notes to Financial Statements

---

be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

### **6. Related Party and Party-in-Interest Transactions**

The Trustee manages the self-directed brokerage accounts. These transactions qualify as party-in-interest transactions. Fees have been paid to the Trustee by the Plan or the Plan administrator for recordkeeping and investment management services.

Additionally, the Plan issues loans to participants, which are secured by the participants' account balances. These transactions qualify as party-in-interest transactions.

### **7. Plan Termination**

The Company was obligated to continue the Plan during the term of the existing CBA, which expired on April 7, 2024. As a result, the Company approved a termination of the Plan effective September 1, 2024, and participants became 100% vested in their employer contributions as of the termination date.

### **8. Subsequent Events**

Management has evaluated subsequent events through October 15, 2025, which is the date these financial statements were available to be issued.
