Independent Auditor's Report

U.S. Employee Benefit Plans Administrative Committee
Prysmian Pension Plan
Highland Heights, Kentucky

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Prysmian Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2023, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from Fidelity Management Trust Company as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Opinion, Continued

- The information in the accompanying financial statements related to assets held by and certified to by Fidelity Management Trust Company agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for within one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements, Continued

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Supplemental Schedule Required by ERISA, Continued

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by Fidelity Management Trust Company agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Prysmian Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 1. Description of the Plan

The following description of the Prysmian Pension Plan (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General:

The Plan is a frozen noncontributory defined benefit retirement plan of Prysmian Cables and System USA, LLC (the “Company”) subject to the Employee Retirement Income Security Act of 1974 (“ERISA”). Historically, the Plan covered certain and former hourly rated and salaried employees at certain existing and closed facilities of the Company and its affiliated companies. Prysmian Cables and Systems USA, LLC (formerly maintained by GK Technologies, Inc.) is the Plan Sponsor. General Cable Corporation, Prysmian Cables and Systems, USA, LLC and affiliated companies are participating employers. The Retirement Committees, appointed by the Board of Directors of the Company, control and manage the operation and administration of the plan. The amount of the annual contribution made by the Company is based upon the recommendations of Willis Towers Watson, an independent actuary. The trustee of the Plan is Fidelity Management Trust Company (the “trustee”). Fidelity Management Trust Company and AXA Equitable Life Insurance Company serve as custodians of the Plan’s asset (the “custodians”).

Effective February 26, 2021, Prysmian Cables and Systems, USA, Inc (“PCS”) directed the trustee to transfer assets from the Prysmian Cables and Systems Pension Plan into the General Cable Master Pension Plan and to create the Prysmian Group U.S Pension Plan Master Trust (“Master Trust”). The Plan’s assets were held in the Master Trust until December 31, 2023.

On December 21, 2023, the board of directors of the Plan Sponsor approved the merger of the Prysmian Cables and Systems Pension Plan assets into the General Cable Master Pension Plan effective December 31, 2023. In connection with the merger, net assets totaling \$15,244,283 were transferred into the Plan. The General Cable Master Pension Plan was amended and restated to incorporate the benefit provisions of the merged plan and the Plan was renamed the Prysmian Pension Plan, effective January 1, 2024. The merger did not impact participant benefits, as all provisions were preserved. As of March 1, 2024, accrued benefits under the Plan were frozen for all participants.

Pension benefits:

Benefits are determined based on the participant’s hypothetical account balance. Participant entitlement to pension benefits upon retirement varies among locations. Employees who are vested Plan participants and have attained the normal retirement age (the later of age 65 or fifth anniversary of participation) are entitled to a monthly benefit equal to the years of credited service multiplied by a benefit multiplier which varies among the locations or according to a formula. Participants are entitled to early retirement at reduced benefit amounts. Both the early retirement dates and the percentage reduction of benefits vary among locations. The normal form of benefit payment is a life annuity for participants without spouses, and a qualified option form providing an actuarially reduced benefit for participants with spouses. Participants with spouses have the option of receive a life annuity benefit without survivor benefits. The plan also provides death and disability benefits.

Note 1. Description of the Plan, Continued

Pension benefits, continued:

In 2019 and 2018, hourly rated employees of the following plant locations were eligible to participate in the Plan: Lawrenceburg, Kentucky (hired prior to September 1, 2009); Altoona, Pennsylvania (hired prior to March 27, 2011); Manchester, New Hampshire (hired prior to April 1, 2008); and Lincoln, Rhode Island (hired prior to April 1, 2009). The Plan also includes employees at the Chino, California and Lebanon, Indiana regional distribution center locations (hired prior to August 1, 2009). Former employees of certain closed plant locations are also eligible to receive their vested Plan benefits.

Contributions:

The Plan is funded solely by contributions from the Company. The Company's funding policy, subject to the minimum and maximum funding requirements of ERISA and the Internal Revenue Code ("IRC"), is to contribute such amounts as determined on an actuarial basis to provide assets sufficient to meet the Plan's benefit obligations. The Company contributed \$2,375,000 and \$2,047,182 to the Plan for the years ended December 31, 2024 and 2023, respectively. At December 31, 2024 and 2023, there was an employer contributions receivable for the Plan of \$2,375,000 and \$2,046,856, respectively. The Plan met the minimum funding requirement for both 2024 and 2023 Plan years. The Plan's AFTAP percentages for the years ended January 1, 2024 and 2023 were 97.83% and 95.72%, respectively. Therefore, there were no benefit payment restrictions.

Vesting:

Participant vesting varies among locations. However, for each of the locations, participants are either 100% vested after completion of five calendar years of 1,000 hours worked each year or vested on a seven year graded schedule.

Note 2. Summary of Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits and the actuarial present value of accumulated plan benefits as the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Note 2. Summary of Significant Accounting Policies, Continued

Investment valuation and income recognition:

The Plan was a participant in a Master Trust of which Fidelity Management Trust Company is the trustee during 2023. Investments, including the Plan's interest in the Master Trust, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension and Benefit Plans Administration Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 5 for discussion of fair value measurements.

Prior to 2024, the investment in the Master Trust consisted of units of participation and was stated at redemption value, which approximated the Plan's share of the fair value of Master Trust's net assets. Purchases and sales of securities, including those within the Master Trust, were recorded on a trade-date basis. Interest income, including that within the Master Trust, was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments and interest in the Master Trust bought and sold as well as held during the year.

Effective December 31, 2023, due to the merger (See Note 1), the plan assets and benefit obligations are no longer maintained in the Master Trust and are under the control of the newly merged Prysmian Pension Plan.

Payment of benefits:

Benefits payments to participants are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of the Plan, including those incurred within the Master Trust, are recorded by the trustee and included in administrative expenses. These administrative fees incurred include fiduciary (trustee), investment management, actuarial, and other professional service and administrative fees. Certain administrative functions are performed by employees of the Plan Sponsor. Neither the Plan Sponsor nor the employees of the Plan Sponsor receive compensation from the Plan.

Subsequent events:

The Plan has evaluated subsequent events through October 15, 2025, which is the date these financial statements were available to be issued.

Recently issued accounting pronouncements:

Accounting standards that have been issued or proposed by the Financial Accounting Standards Board (FASB) or other standards-setting bodies are not expected to have a material impact on the Plan's financial statements.

Note 3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to services rendered by the participants. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries and (b) beneficiaries of participants who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated participants or their beneficiaries are determined according to the Plan, generally based on years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Willis Towers Watson, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death or withdrawal) between the valuation date and the expected date of payment.

The actuary's estimate of the present value of accumulated plan benefits is made as of the beginning of the Plan year, January 1, 2024. The Plan administrator estimates that there were no material changes in the present value of accumulated plan benefits from December 31, 2023 to January 1, 2024. The following were significant actuarial assumptions used in the Plan's valuations as of January 1, 2024 and January 1, 2023:

Funding method:	Unit of credit
Investment return:	5.06% as of January 1, 2024, which decreased from 5.19% in the prior year valuation
Discount rate:	5.00%, which decreased from 5.35% in the prior year valuation
Mortality rates:	The mortality table used was the Pri-2012 Private Retirement Plans tables for males and females with separate rates for employees, retirees and contingent survivors, with blue collar adjustment, projected generationally from 2012 using Scale MP-2021 For the prior valuation, the Pri-2012 Private Retirement Plans tables for males and females with separate rates for employees, retirees and contingent survivors, with blue collar adjustment, projected generationally from 2012 using Scale MP-2021
Retirement age:	Graded table beginning at age 50 varying by age and gender; vested terminated participants are assumed to begin receipt of benefits at age 62

As disclosed above, the discount rate decreased from 5.35% to 5.00% resulting in an increase in actuarial assumptions of \$903,099 in the accompanying statement of changes in accumulated plan benefits.

Note 3. Actuarial Present Value of Accumulated Plan Benefits, Continued

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4. Trustee and Custodian Certifications

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the years then ended, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and custodian and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee and custodian that the information provided to the plan administrator by the trustee and custodian related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2024	2023
Investments at fair value:		
Mutual funds	\$ 1,035,007	\$ 2,205,591
Collective trust funds	72,331,050	74,133,764
Total investments at fair value	<u>73,366,057</u>	<u>76,339,355</u>
Investments at estimated fair value:		
AXA Equitable contract	289,650	318,741
Total investments at estimated fair value	<u>\$ 73,655,707</u>	<u>\$ 76,658,096</u>

The trustee and custodian also certified to the completeness and accuracy of \$3,143,719 and \$3,720,985 of net appreciation in fair value of investments and \$118,111 and \$149,397 of interest and dividends as well as \$0 and \$2,814 of other income for the years ended December 31, 2024 and 2023, respectively.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Prysmian Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 5. Fair Value Measurements, Continued

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at NAV. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidation will be carried out in an orderly business manner.

AXA Equitable Contract: Valued at NAV. NAV as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 6. Master Trust

Prior to 2024, all of the Plan's investments excluding the AXA Equitable contract and money market fund were in the Master Trust, which was established for the investment of assets of the General Cable Master Pension Plan and Prysmian Cables and Systems Pension Plan. Each participating retirement plan had an undivided interest in the Master Trust. The assets of the Master Trust were held by Fidelity Management Trust Company. Effective December 31, 2023, the Plan's assets and liabilities are no longer held in the Master Trust, pursuant to a Plan merger. See Note 1.

The value of the Plan's interest in the Master Trust was based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's investments were not in the Master Trust. Total investment income (including net appreciation in the fair value of investments) of the Master Trust was allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

The following table sets forth the changes in net assets for the Master Trust for the year ended December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Additions to net assets attributed to:		
Investment income:		
Net appreciation in fair value of investments	\$ -	\$ 4,650,321
Interest and dividends	<u>404</u>	<u>148,415</u>
Total investment income	404	4,798,738
Contributions	(287)	-
Net transfers	-	(82,692,867)
Benefit payments	(117)	-
Administrative expenses	-	(2,267,275)
Total deductions	<u>(117)</u>	<u>(45,475,486)</u>

Master Trust net assets, end of year	<u>\$ -</u>	<u>\$ -</u>

Refer to Note 5 for a description of the valuation methodologies used.

As noted above, as of December 31, 2023, the General Cable Master Pension Plan and the Prysmian Cables and Systems Pension Plan were no longer a part of the Master Trust.

Note 7. AXA Equitable Contract

The Plan has an immediate participation guarantee contract with AXA Equitable Life Insurance Company dated January 1, 1982. Under the terms of the contract, contributions are deposited in separate funds of AXA Equitable Life Insurance Company and investments in stocks, bonds or short-term accounts are made by AXA Equitable Life Insurance Company. All earnings on deposited funds, reported as interest income, are credited to the funds as earned. The investment in this immediate participation guarantee contract is carried at fair value using NAV as a practical expedient.

Note 8. Related-Party and Party in Interest Transactions

Certain Plan investments are managed by Fidelity Management Trust Company and AXA Equitable Life Insurance Company. Fidelity Management Trust Company is the trustee and custodian and AXA Equitable Life Insurance Company is a custodian, as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator totaling \$1,688,009 and \$1,638,015 in 2024 and 2023, respectively, which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 9. Plan Termination

The Plan Sponsor has been established with the expectation that it will continue indefinitely. However, since future conditions cannot be foreseen, Prysmian Cables and Systems USA, LLC reserves the right to amend, modify, or terminate the Plan at any time. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Prysmian Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 9. Plan Termination, Continued

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of Prysmian Cables and Systems USA, LLC and the level of benefits guaranteed by the PBGC.

Note 10. Tax Status

The Internal Revenue Service has determined and informed the Plan Sponsor in a letter dated November 22, 2016, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRC. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the 2024 statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Retirement

- Former General Cable Master Pension Plan

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and gender are shown below.

Age	Manchester NH (%)	Other Locations (%)
Under 50	0	0
50-53	2	2
54-61	4	4
62	20	20
63	20	20
64	10	10
65-68	25	25
69	50	50
70	0	100

All deferred vested participants are assumed to retire at age 62.

- Former Prysmian Cables and Systems Pension Plan

Rates varying by age and gender are shown below.

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year	
Age	Unisex (Male & Female)
Under 50	0
50 – 53	2

63	20
64	10
65-68	25
69	50
70 and above	100

Percent married

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible participants are assumed to be married.

Spouse age

Male spouses are assumed to be 3 years older than female spouses.

Covered pay

Plan Compensation is actual earnings provided by the employer for the prior year adjusted by the compensation increase rate.

Benefit commencement dates

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit The later of age 62 or current age
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment It is assumed that future retirees and terminations will elect the following forms of payment:

Payment Form	Former General Cable Master Pension Plan	Former Prysmian Cables and Systems Pension Plan
Life Annuity	5%	40%
50% Joint and Survivor Annuity	0%	40%
100% Joint and Survivor Annuity	20%	20%
Lump Sum	75%	N/A

Calculation of lump sum Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality. The PPA 2024 unisex optional combined mortality and September segment rates are used to determine lump sums.

Participant data Participant data was supplied by Fidelity as of the valuation date.

Tax policy The actuarial valuation performed for the plan year ending December 31, 2024 is used to determine the maximum deductible contribution for the tax year ending December 31, 2024.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

SCHEDULE SB ATTACHMENTS

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with Prysmian regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with General Cable and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator Fidelity, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Rates of increase in:

- **Compensation** Assumed compensation increases are based on plan sponsor expectations, including general pay practices and targets, for near-term years and the effect that the assumed long-term CPI and NAW will have on compensation increases over the longer term.
- **Assumed return for asset smoothing** The assumed return of 5.35% used for asset smoothing is the expected return on assets limited by the third segment rate for the prior year. We understand that the expected return on assets assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates are based on an experience study conducted in 2023 for the experience period January 1, 2018 to December 31, 2022. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.
Disability	Assumed disability rates differ by plan, age, and gender because of expected differences in disability rates by plan, age, and gender. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.
Retirement	Assumed retirement rates are based on an experience study conducted in 2023 for the experience period January 1, 2018 to December 31, 2022. For the reasons discussed above, we believe the

assumptions selected do not significantly conflict with what would be reasonable.

Benefit commencement date for deferred vested benefits

Deferred vested participants are assumed to begin benefits at age 62 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at various ages is not expected to be significant. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Form of payment

The form of payment assumption is based on an experience study conducted in 2023 for the experience period January 1, 2018 to December 31, 2022. For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable

Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality assumption used to calculate the funding target was updated to reflect the latest mortality table and mortality improvement scale, as required by guidance issued by IRS under IRC §430, and was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.
- The applicable lump sum mortality was updated from 2023 to 2024 PPA Optional Combined Unisex Mortality.
- The amount assumed for plan-related expenses updated from \$1,444,232 for the 2023 plan year to \$2,104,000 for the 2024 plan year. The basis for determining the assumed amount has not changed from the prior year.
- The rates of termination and retirement, and the form of payment assumption was updated to reflect the results of an experience study conducted during 2023.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Sponsor

Prysmian Cables and Systems (US), Inc.

Plan

Prysmian Pension Plan

Effective December 31, 2023 the Prysmian Cables and Systems Pension Plan (EIN: 57-1061511 PN: 004) merged into the General Cable Master Pension Plan (EIN: 13-3064555 PN:002) and the plan was subsequently renamed to Prysmian Pension Plan

Former Plan: Prysmian Cables and Systems Pension Plan

Plan Provisions

The plan was originally effective June 1, 1989. The plan was amended and restated January 1, 2016.

Covered employees Effective July 1, 1990 all salaried employees of Tri-State Utility, Inc. became members of the Plan. Effective January 1, 1991 eligible non-bargaining employees at Prysmian's Lexington, South Carolina Plant became members of the Plan. Effective January 1, 1999, all hourly non-bargaining employees at Prysmian's Abbeville, South Carolina Facility became members of the Plan. Effective December 31, 2003, membership to the Plan is frozen. Therefore, no employee hired after January 1, 2003 will become a member.

Participation date Completion of 12 consecutive month period in which the employee completes at least 1,000 hours of service and attainment of age 21. (Participants of the prior plan enter immediately.)

Definitions

Vesting service All service after age 18. An employee shall accrue one month Vesting Service for each month of service.

Pension service A member shall receive one month of credited service for each calendar month in which he receives compensation. Service begins on the later of January 1, 1989 or the date that the membership requirements are satisfied. Maximum service is limited to 40 years.

Plan Name: Prysmian Pension Plan

SCHEDULE SB ATTACHMENTS

Members of the Lexington, South Carolina plant who joined the Plan on January 1, 1991 and members of the Abbeville, South Carolina Facility who joined the Plan on January 1, 1999 will receive credited service from their date of hire.

Effective December 31, 2003, Pension Service is frozen.

Pensionable pay

For Plan years prior to January 1, 2004: Base Salary.

For Plan years after January 1, 2004: Lesser of Base Salary in effect on January 1 and the earnings limit for that plan year. The earnings limit for each plan year is the January 1, 2004 salary rate increased each year thereafter by the lesser of the actual increase in salary rate (calculated by comparing the rate in effect on January 1 of the prior year) and the cost of living increase during that year.

Average earnings

Final Average Salary is the annual average during the highest 60 consecutive months of the final 120 months of employment. Pensionable earnings in excess of the 401(a)17 limit is not considered in the calculation of benefits. Effective February 28, 2007, average annual salary is frozen.

The Offset Base equals the lesser of the final 3 year average compensation or Covered Compensation. In determining the final 3 year average, compensation in excess of the taxable wage base for that year will not be considered.

Normal retirement date (NRD)

First month coincident with of following attainment of age 65.

Monthly pension benefit

One-twelfth of 1.5% of average earnings for 35 years of pension service, plus .75% of average earnings for each year in excess of 35 years, less 50% of the Social Security benefit prorated for less than 35 years of pension service.

Monthly preretirement death benefit

50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday.

Eligibility for Benefits

Normal retirement

age (credited service used in determining the benefit is defined in the prior plan), less the sum of (a), (b), and (c) below:

- (a) the monthly benefit accrued under the prior plan as of May 31, 1989, purchased from the Allstate Life Insurance Company, payable at normal retirement date,
- (b) the monthly benefit under the current plan benefit formula (as described above under normal retirement benefit), and
- (c) the account balance, as of the date the member terminates employment, converted to a deferred annuity payable monthly at normal retirement date. The account balance is determined by assuming that a contribution of 4% of pensionable earnings is made each plan year starting with the 1989 plan year. The investment return of this account balance is assumed to be equal to the 1-year constant maturity rate for Treasury securities in November of the preceding plan year.

The conversion of this account balance to an annuity is based on the GATT 2003 mortality table and the annual rate of interest on the 30-year Treasury securities for the month of November of the plan year preceding termination or retirement.

Credited Service, for purposes of determining the benefit payable had the prior plan been in effect, is frozen as of December 31, 2003. Also, effective December 31, 2003, the account balance described in (c) above is calculated assuming no further contributions after December 31, 2003.

Special additional benefit for Abbeville participants

Eligible participants are entitled to an additional pension benefit equal to the positive difference, if any, between the retirement benefit under the rules of the Abbeville Hourly Plan in effect on December 31, 1998 (\$20.50 a month for each year of Credited Service) and the sum of (a) and (b) below:

- (a) the monthly benefit under the current plan benefit formula (as described above under Normal Retirement Benefit), and
- (b) the account balance, as of the date the Member terminates employment, converted to a deferred annuity payable monthly at Normal Retirement Date. The account balance is determined by assuming that a contribution of 4% of pensionable earnings is made in each plan year starting with the 1999 plan year. The investment return of this account balance is assumed to be equal to the 1-year constant maturity rate for Treasury securities in November of the preceding plan year.

Preretirement death

The surviving spouse of a member who dies after meeting the eligibility requirements shall be paid a monthly benefit equal to 50% of the benefit the member would have received had he retired the day before his death, further reduced by 1/24 of 1% for each month in excess of 60 that the spouse is younger than the member.

If a vested participant is not eligible to retire at his date of death, benefits payments to the spouse are deferred until the earliest date he would have been eligible for Early Retirement.

Supplemental Benefit: Same as above.

Postretirement death \$4,500 Lump sum death benefit.

Other Plan Provisions

Forms of payment

Normal Form of Benefit: Life Annuity for single participants. For married participants, an automatic joint and survivor option providing 90% of the Normal Retirement Benefit to the employee and 50% of the Normal Retirement Benefit to the surviving spouse upon the employee's death. If the spouse is more than 60 months younger than the employee, the spouse's benefit is reduced by 1/24 of 1% for each month that the difference exceeds 60 months.

Optional Forms: 50%, 66-2/3%, 75%, 100% continuation to the Contingent Annuitant upon the death of the Retiree. A member may elect to have the social security adjustment described below included with the life annuity or any optional form of payment.

Social security adjustment: An increased benefit is payable until attainment of age 62. At that time it is reduced by the amount of the expected Social Security benefit.

Optional form conversion factors: The plan document contains conversion factors for joint and survivor and contingent annuities, small lump sums
