Independent Auditors' Report

Board of Trustees
Sheet Metal Workers' Local 88 401(k) Plan
Las Vegas, Nevada

Opinion

We have audited the financial statements of Sheet Metal Workers' Local 88 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects the net assets available for benefits of Sheet Metal Workers' Local 88 401(k) Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis For Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the audit of the Financial Statements section of our report. We are required to be independent of Sheet Metal Workers' Local 88 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sheet Metal Workers' Local 88 401(k) Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities For The Audit Of The Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sheet Metal Workers' Local 88 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sheet Metal Workers' Local 88 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required By ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2024 and delinquent participant contributions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

SHEET METAL WORKERS' LOCAL 88 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 And 2023

1. General Information

Description Of The Plan

The following description of Sheet Metal Workers' Local 88 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

The Plan was formed effective May 1, 1992, under an agreement between the Sheet Metal Workers' International Association Local Union No. 88 (Local Union 88) and the Sheet Metal and Air Conditioning Contractors' National Association of Southern Nevada. Agreements were adopted which permit the employers and the covered employees of Sheet Metal Workers' Local Union No. 26 (Local Union 26) working within their respective jurisdictions to participate in the Plan effective February 1, 1995. In addition, participation agreements were adopted which permit non-bargaining personnel of the Sheet Metal Benefit Plans Administrative Corporation (SMBPAC) and Sheet Metal and Air Conditioning National Contractors Association of Southern Nevada (SMACNA) to participate in the Plan effective April 12, 2004 and December 3, 2020, respectively.

The Plan is a defined contribution plan covering substantially all members of Local Union 88 and Local Union 26 under the terms of the collective bargaining agreements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions And Benefits

The Plan Document provides that the employers shall make base contributions at the rate specified in the collective bargaining agreements. The base contribution rate was 75 cents an hour and 25 cents an hour for Local Union 88 and Local Union 26 employers, respectively, during the contribution period. Effective July 1, 2023, the employer contribution rate increased to \$1.00 an hour for Local Union 88 employers.

Base contributions, exclusive of any administrative charges, shall be credited to the base account of the participant for whom such contributions were made. Agreements were adopted which permit certain non-bargaining units to participate in the Plan. The employers of the non-bargaining units shall make contributions at varying rates from 25 cents to \$3.50 an hour for each eligible participant during the contribution period.

SHEET METAL WORKERS' LOCAL 88 401(k) PLAN

Notes To Financial Statements (*Continued*)

A participant may elect to make voluntary contributions by entering into, with his or her employer, a written wage reduction agreement approved by the trustees. The wage reduction agreement shall provide that the participant agrees to accept a reduction in wages or salary from his or her employer for the years ended December 31, 2024 and 2023 not to exceed \$23,000 and \$22,500, respectively (\$30,500 and \$30,000, respectively, for participants who will turn age 50 or older).

Contributions are remitted by Local Union 88 and Local Union 26 employers to Zenith American Solutions and SMBPAC, respectively. SMBPAC then sends the Local Union 26 contributions and applicable information to Zenith American Solutions, who then sends both the Local Union 88 and Local Union 26 contributions and applicable information to Empower Retirement Services (Empower) for investment recordkeeping services. Each participant has an account set up by Empower and is fully vested upon the establishment of the account.

Each participant's account is credited with the participant's contribution and allocations of the employer's contribution, deductions for administrative expenses, an allocation of Plan earnings (losses), and charges for withdrawals. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Amounts credited to a participant's base and voluntary wage reduction account shall be 100% vested and non-forfeitable at all times. The participants have the right to choose the type of investment within the Plan's list of investment portfolios for their contribution.

Administrative fees of \$18 are deducted monthly from the participant's accounts, and are deposited into a separate bank account, from which administrative expenses are paid. Administrative fee assessments are imposed at the discretion of the trustees.

Plan Participation And Payment Of Benefits

Participants are immediately vested in their employee and employer contributions plus actual earnings thereon. All employees who have had contributions paid on their behalf by an employer which is party to, or bound by, a collective bargaining agreement, a participation agreement or other agreement requiring contributions shall be considered a Plan participant, without any restrictions as to age or years of service.

In addition to the normal benefits at retirement age, the Plan Document makes provisions for the participant to receive benefits (provided they qualify) in form of early distributions, lump-sum distributions, death, disability, and early retirement.

SHEET METAL WORKERS' LOCAL 88 401(k) PLAN

Notes To Financial Statements (*Continued*)

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balances. Only one loan is allowed outstanding to a participant at any one time. Loans are for a period not exceeding five years. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent. Principal and interest are paid ratably through direct participant payments. If a participant ceases to make loan repayments and Empower deems the loan to be in default, the participant's loan balance is reduced and a benefit payment is made in accordance with the Plan Document.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Cash

The Plan deposits its cash in financial institutions. At times, deposits may exceed federally insured limits. The Plan has not experienced losses in such accounts.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Concentration Of Risk

For the year ended December 31, 2024, one contributing employer accounted for approximately 15% of employer contributions, and a second contributing employer accounted for approximately 12% of employer contributions. For the year ended December 31, 2023, one contributing employer accounted for approximately 20% of employer contributions, and a second contributing employer accounted for approximately 11% of employer contributions.

SHEET METAL WORKERS' LOCAL 88 401(k) PLAN

Notes To Financial Statements (*Continued*)

Investments Valuation And Income Recognition

The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. The net change in fair value of investments represents the difference between the aggregate fair value of investments at year end and the values at the beginning of the year, and includes any realized gains and losses in shares that were bought and sold during the year.

Guaranteed Investment Contract

The Plan is invested in the MassMutual SAGIC, which is a fully benefit-responsive investment contract. Contract value is the relevant measurement attribute for fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The Plan's investment in the MassMutual SAGIC is reported at contract value in the statement of net assets available for benefits.

Certain events limit the ability of the Plan to transact the Mass Mutual SAGIC at contract value with the insurance company and the financial institution issuer. Such events include (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures of spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (3) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred.

Payment Of Benefits

Benefit payments to participants are recorded upon distribution.

SHEET METAL WORKERS' LOCAL 88 401(k) PLAN

Notes To Financial Statements (*Continued*)

Amendments

Effective March 1, 2023, the Plan adopted amendment 1 to the January 1, 2022 restatement to incorporate a taxable “Roth” contribution feature. In addition, amendment 1 amends the Plan as required by the SECURE 2.0 Act of 2022.

Effective October 1, 2023, the Plan adopted amendment 2 to the January 1, 2022 restatement to permit a voluntary in-plan “Roth” conversion by eligible participants and beneficiaries.

Employer Contributions Receivable And Credit Loss Policy

The Plan accounts for employer contributions receivable and cash in accordance with Accounting Standards Codification Topic 326, *Financial Instruments - Credit Losses*. The standard requires entities to record an estimate of expected credit losses on financial assets for the remaining estimated life of the asset. This estimate includes consideration of historical experience, current conditions, and reasonable and supportable forecasts.

Contributions receivable are principally amounts received in January from employers for hours worked by employees in December or earlier. The Plan has concluded that no allowance for current expected credit losses related to employer contributions receivable or cash was necessary at December 31, 2024 and 2023, respectively.

Subsequent Events

Management of the Plan evaluates subsequent events through the date which the financial statements were available for issue, which is the date of the Independent Auditors' Report.

3. Related Party And Party In Interest Transactions

Investments

The Plan's investments are held in trust by Empower, which is a custodian as defined by the Plan and therefore, these transactions qualify as party in interest transactions. Empower also provides the recordkeeping services to the Plan.

All investments represent either a guaranteed investment contract, mutual shares held in common/collective trusts, or are held with registered investment companies. The investment performances were reviewed and evaluated by Verus Advisory Inc.

SHEET METAL WORKERS' LOCAL 88 401(k) PLAN

Notes To Financial Statements (*Continued*)

Investment Fees

The fees for recordkeeping services are deducted from the participant's accounts and are paid to Empower at the rate of \$12.25 per participant per quarter for the years ending December 31, 2024 and 2023. Total recordkeeping fees paid for the years ending December 31, 2024 and 2023 were \$87,349 and \$91,058, respectively.

Administrative Fees

Zenith American Solutions provides certain administrative services for the Plan. Total administrative fees paid for the years ending December 31, 2024 and 2023 were \$195,457 and \$188,108, respectively.

Notes Receivable From Participants

Certain employees have outstanding loans with the Plan as of December 31, 2024 and 2023. These loans are exempt party in interest transactions.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

SHEET METAL WORKERS' LOCAL 88 401(k) PLAN

Notes To Financial Statements (*Continued*)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value:

Registered Investment Companies

Valued at the daily closing prices as reported by the funds. Registered investment companies held by the Plan are open-end investment vehicles that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts

Valued at the NAV of units of the individual fund. The NAV, as provided by the trustee of the invested fund, is used as a practical expedient to estimate fair value and was calculated daily by the trustee. The NAV was based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient was not used when it was determined to be probable that the Plan would sell the investment for an amount different than the reported NAV. Withdrawals from the common/collective trusts for benefit payments were made within 30 days after the request for distribution. The common/collective trusts filed annual reports on Form 5500 as direct filing entities, and there were no capital commitments.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the fair value methodologies used at December 31, 2024 or 2023.

SHEET METAL WORKERS' LOCAL 88 401(k) PLAN

Notes To Financial Statements (*Continued*)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 33,447,412	\$ —	\$ —	\$ 33,447,412
Common/collective trusts measured at net asset value {a}				39,467,506
Investments At Fair Value				<u>\$ 72,914,918</u>

	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 29,165,803	\$ —	\$ —	\$ 29,165,803
Common/collective trusts measured at net asset value {a}				35,297,736
Investments At Fair Value				<u>\$ 64,463,539</u>

{a} Certain investments that are measured at fair value using the net asset value per share/unit (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

5. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

6. Income Tax Status

The Plan is exempt from federal income tax under provisions of the Internal Revenue Code (IRC). The Plan obtained its latest determination letter dated August 12, 2015, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since the date of the determination letter. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and the related trust is tax-exempt.

SHEET METAL WORKERS' LOCAL 88 401(k) PLAN

Notes To Financial Statements (*Continued*)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position, that more likely than not, would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although the trustees have not expressed intent to do so, they have the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of termination, all monies of the Plan would be used to pay any and all obligations of the Plan with the excess to be distributed to the Plan participants.
