MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

- a** Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)
- b** Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)
- c** Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)
- d** Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)
- e** Was this plan covered by a fidelity bond?
- f** Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?
- g** Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?
- h** Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?
- i** Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)
- j** Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)
- k** Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?
- l** Has the plan failed to provide any benefit when due under the plan?
- m** If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)
- n** If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.

## Independent Auditor's Report

October 13, 2025

To the Participants and Plan Administrator of the  
High Gear Auto Inc. 401(k) Plan

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the financial statements of the High Gear Auto Inc. 401(k) Plan, (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or Federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

## Opinion

In our opinion, based on our audits and on the procedures performed as described in the **Auditor’s Responsibilities for the Audits of the Financial Statements** section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“U.S. GAAS”). Our responsibilities under those standards are further described in the **Auditor’s Responsibilities for the Audits of the Financial Statements** section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audits of the Financial Statements**

Except as described in the **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit** section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during our audits.

#### **Other Matter - Supplemental Schedules Required by ERISA**

The supplemental schedules of Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2024 and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## High Gear Auto Inc. 401(k) Plan

### Notes to Financial Statements

#### Note 1 - Description of Plan

The following description of the High Gear Auto Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a qualified defined contribution profit-sharing plan under Section 401(a) of the Internal Revenue Code with a Section 401(k) provision. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective date - The Plan was effective January 1, 2023 with the special effective date of January 6, 2023 for deferral Roth and Safe Harbor matching contributions. Activity presented in the accompanying statements of changes in net assets available for benefits and related notes to the financial statements represents information for the period January 6, 2023 (date of operations) through December 31, 2023.

Plan amendments - Effective September 30, 2024, the Plan was amended to exclude union employees, leased employees, non-resident alien employees, and interns for all plan purposes. Additionally, the Plan was amended to include a force out provision in which terminated participants with a vested account balance that does not exceed \$5,000 will receive a mandatory distribution in the form of a direct payment or rollover to a qualified plan.

Eligibility - The Plan covers employees of High Gear Auto Inc. (the "Company"). Eligible employees who are at least eighteen years old can begin participating in the Plan immediately after completing three months of service at the Company.

Once an employee meets the eligibility requirements, the Plan automatically enrolls them under its automatic enrollment feature. A participant is automatically enrolled to begin making elective contributions of 3% of their annual compensation to the Plan, unless the participant elects a different percentage or expressly elects not to participate in the Plan.

Contributions - During each year, participants may contribute up to 90% of their annual compensation and up to 50% of compensation on participants Roth deferrals, as defined in the Plan document, up to the maximum amount allowed by the Internal Revenue Code (the "Code"). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Eligible participants, who attain the age of fifty before the end of the plan year, are eligible to make catch-up contributions, subject to certain limitations of the Internal Revenue Code. Rollover contributions to the Plan are allowed.

The Company makes matching contributions equal to 100% of salary deferrals up to 1% of the participant's compensation plus 50% of the salary deferrals that exceed 1% of the participant's compensation but do not exceed 3%. Employer matching contributions amounted

to \$94,592 for the year ended December 31, 2024, of which the Company paid \$90,699 and used available forfeitures of \$3,893 to reduce payments remitted to the Plan (see below). Employer matching contributions amounted to \$107,155 for the period ended December 31, 2023, of which the Company accrued \$2,034 as an employer contribution receivable as of December 31, 2023, paid \$104,073, and used available forfeitures of \$1,048 to reduce payments remitted to the Plan (see below). The Company may also make additional discretionary matching contributions. There were no additional discretionary matching contributions made for the year ended December 31, 2024 and the for the period ended December 31, 2023.

Vesting of benefits - Participants are vested immediately in their elective salary deferral and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on the years of credited service. Participants are 100% vested in the Company matching contributions after two years of service. Participants are 100% vested in Company non-elective contributions after six years of credited service.

Participant accounts - Each participant's account is credited with the participant's elective deferral contribution, and allocations of employer contributions of plan earnings. Allocations are based on account balances, according to specific terms provided by the Plan document. The benefit to which a participant is entitled in the benefit that can be provided from the participants account balance. Participants can access their account information via the Matrix Trust Company website, where they have the ability to change their elective deferrals and investment options as well as apply for participant notes receivable and request distributions.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of a) \$50,000 reduced by the excess of the participant's highest outstanding loan balance during the twelve-month period ending on the date of the loan or b) 50% of their vested account balance. The notes are secured by the balance in the participant's account. Each note receivable from a participant bears a reasonable interest rate determined as the prime interest rate plus 1.00% (8.50% as of December 31, 2024). Principal and interest is repaid through payroll deductions each pay period. The notes receivable and interest thereon shall be repaid over a period not to exceed five years unless the note is used to acquire a personal residence. The plan administrator will consider a note in default if any scheduled payment remains unpaid at the end of the cure period, or there is an outstanding principal balance existing on a loan after the last scheduled repayment date. Any notes that are in default as defined by the plan document, are reported as either deemed distributions or benefit payments (see below).

Forfeited accounts - Forfeited, non-vested accounts can be used to reduce future employer contributions or pay administrative expenses and are at the discretion of the plan administrator. The Plan used \$3,893 and \$1,048 of forfeitures to offset employer contributions for the year ended December 31, 2024 and for the period ended December 31, 2023, respectively. There were no available forfeited, non-vested accounts as of December 31, 2024 and 2023, respectively.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes receivable from participants who are actively participating in the Plan and have not

continued to make payments on their outstanding notes, as required under the plan document. There were no deemed distributions for the year ended December 31, 2024 and the period ended December 31, 2023.

Investment options - Upon enrollment in the Plan, a participant may direct their elective contributions to the Plan in various investment options. Participants may change their investment options daily through online access.

Payment of benefits - Upon termination of service due to death, disability, retirement, or other reasons, a participant or beneficiary may elect to receive the value of the vested interest in his or her account as a lump sum distribution or rollover contribution to another qualified plan. A participant of at least fifty-nine and a half years of age may also be eligible to receive in-service distributions subject to the plan's provisions.

#### Note 2 - Summary of accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market risk. Market risks include domestic and global events which could impact the value of investment securities, such as economic concerns. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Investment valuation and income recognition - Investments are stated at fair market value (see Note 4). All investment values have been determined and certified by Matrix Trust Company, the Custodian of the Plan (see Note 3). Purchases and sales of securities are recorded on a trade-date basis. Net appreciation in investments include the Plan's gains and losses on investments bought and sold, as well as held during the year. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when incurred. Management individually reviews all

notes receivable balances that exceed ninety days from the date of the most recent payment and based on the assessment of credit worthiness, estimates the portion, if any, of the balances that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance if and when potentially uncollectible notes receivable from participants becomes material. If a participant defaults on a note receivable and distribution from the participant's account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statements of changes in net assets available for benefits and deducted from the receivable balance. Interest income on notes receivable from participants is recorded when it is earned.

Payment of benefits - Benefits are recorded when paid.

Economic dependency and concentration of credit risk - All of the Plan's investments are held and managed by Vanguard as of December 31, 2024 and 2023. Accordingly, the Plan is dependent upon the financial condition of Vanguard.

Administrative costs - Administrative costs, including maintaining participant accounts, legal, and auditing costs are the obligation of the Plan; however, the Company may pay for such expenses or reimburse the Plan for any payment of these expenses. Costs of maintaining participant accounts and managing the investments are paid directly out of the plan assets (see Note 5).

Subsequent events - Effective February 1, 2025, the Plan adopted the Automatic Data Processing, Inc. ("ADP, Inc.") Non-Standardized Defined Contribution Pre-Approved Plan Adoption Agreement #001. In addition, effective February 1, 2025, the Plan changed third-party administration services from Human Interest, Inc. and investment custodian services from Matrix Trust Company to ADP Retirement Trust Services, LLC. Management has evaluated subsequent events through October 13, 2025, the date that the financial statements were available for issue.

### Note 3 - Information certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held as of December 31, 2024 and 2023, net appreciation in investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2024 and the period ended December 31, 2023 was obtained by management and agreed to or derived from information certified as complete and accurate by Matrix Trust Company, the Plan's Custodian. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to the information except to compare such information to the related information included in the financial statements and ERISA-required supplemental schedule.

#### Note 4 - Fair value measurements

The Financial Accounting Standards Board has published authoritative guidance on Fair Value Measurements, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are described as follows:

Level 1            Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2            Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3            Input to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measures at fair value.

*Registered investment companies* - The investment portfolios consist of mutual funds, which are valued at the closing price reported on the active market on which the individual security is traded (Level 1).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the

use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of:

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 480,900	\$ -	\$ -	\$ 480,900

  

	December 31, 2023			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 297,776	\$ -	\$ -	\$ 297,776

Note 5 - Party-in-interest transactions

The Plan's investments are managed by Matrix Trust Company as of December 31, 2024 and 2023. Fees paid for these services qualify as party-in-interest transactions and are included in the net appreciation in investments in the accompanying statements of changes in net assets available for benefits.

The Plan contracted with Human Interest, Inc. for the years ended December 31, 2024 and 2023 to provide investment advisory services, record keeping, and third-party administrative services, which qualify as party-in-interest transactions under ERISA and are recorded as administrative expenses in the accompanying statements of changes in net assets available for benefits. Fees paid for these services to Human Interest, Inc. amounted to \$2,021 and \$565 for the year ended December 31, 2024 and for the period ended December 31, 2023, respectively. Additionally, the Plan contracts with Dannible & McKee, LLP to provide auditing services, which qualifies as party-in-interest transactions. Fees for these services were paid for by the Company for the year ended December 31, 2024 and for the period ended December 31, 2023.

Note 6 - Tax status of the Plan

Effective January 1, 2023, the Plan adopted the Human Interest, Inc. 401(k)/Profit-Sharing Non-Standardized Adoption Agreement #002. The Internal Revenue Service has determined and informed the Company that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's Trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the Plan has been accounted for as a tax-exempt plan.

The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the year ended December 31, 2024 and for the period ended December 31, 2023.

Note 7 - Prohibited transactions

The Company failed to remit to the Plan's third-party administrator employee contributions of \$11,181 and \$2,576 within the period prescribed by the United States Department of Labor for the year ended December 31, 2024 and for the period ended December 31, 2023, respectively. The Plan calculated lost earning and interest under the Voluntary Fiduciary Correction Program. Delays in remitted contributions were due to issues with payroll file feeds, and the Company remitted these contributions to the affected participant accounts in 2024 and 2023.

Note 8 - Classification differences between financial statements and Form 5500

Form 5500 has certain investment balances and income items that differ from amounts shown on the accompanying financial statements. These differences relate to classification and rounding only and have no effect on the net assets available for benefits as of December 31, 2024 and 2023, nor changes in net assets available for benefits for the periods then ended.
