REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator and Plan Participants
Stepan Company Retirement Plan for Millsdale Hourly and
Anaheim Hourly Employees

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed audits of the financial statements of Stepan Company Retirement Plan for Millsdale Hourly and Anaheim Hourly Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Stepan Company Retirement Plan for Millsdale Hourly and Anaheim Hourly Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document, as amended, for more complete information regarding the Plan's provisions.

General

The Plan is a defined benefit pension plan covering all union employees of Stepan Company (the "Company") at its Millsdale, Illinois, and Anaheim, California plants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by the Company. Bank of America, N.A. ("Bank of America") is the Plan's trustee and investment manager.

Eligibility

Effective August 31, 2007, the Plan was amended to freeze participation and benefit accruals in the Plan for the Millsdale hourly employees. Beginning September 1, 2007, no new Millsdale hourly employees were eligible to participate in the Plan. Also beginning September 1, 2007, accruals of additional pension benefits based on future years of service were stopped.

Effective January 31, 2008, the Plan was amended to freeze participation and benefit accruals in the Plan for the Anaheim hourly employees. Beginning February 1, 2008, no new Anaheim hourly employees were eligible to participate in the Plan. Also beginning February 1, 2008, accruals of additional pension benefits based on future years of service were stopped.

Employees are eligible to participate in the Plan if they are a member of the group of employees covered by the collective bargaining agreements between the Company and General Chauffeurs, Sales Drivers and Helpers Union, Local Union No. 179, International Brotherhood of Teamsters Chauffeurs, Warehousemen and Helpers of America (Local Union No. 179) and have completed at least one year of service with the Company. Employees of the United Electrical Radio and Machine Workers of America Local 1421 ("Local Union 1421") with at least one year of service with the Company are also eligible to participate. Effective September 1, 2007, no new employees of Local Union No. 179 are eligible to participate in the Plan or accrue additional pension benefits based on future years of service. Effective February 1, 2008, no new employees of Local Union 1421 are eligible to participate in the Plan or accrue additional pension benefits based on future years of service.

Pension Benefits

Participants with five or more years of service whose present value of benefits is greater than \$5,000 at the time of termination are entitled to pension benefits beginning at the normal retirement age of 65. The amount of a participant's monthly benefit is the participant's number of years of service (up to a maximum of 35 years) times the benefit multiplier, per the participant's applicable bargaining agreement, in effect at the time of termination of employment. The Plan permits early retirement beginning at age 55, with an early retirement benefit reduction factor for each month the retirement benefit begins before age 63. Participants may elect to receive their pension benefit in the form of a single life annuity, 50%, 66-2/3%, 75% or 100% joint and survivor annuity, or a five- or 10-year period certain option.

Participants with five or more years of service whose present value of benefits is less than \$5,000 at the time of termination will receive their benefit as a lump-sum distribution upon termination of employment. Participants with five or more years of service whose present value of benefits is greater than \$5,000 and

less than \$10,000 at the time of termination have the option to receive their benefit as a lump-sum distribution upon termination of employment.

Death and Disability Benefits

If a vested participant dies prior to retirement, a death benefit would be due to a surviving spouse. The amount of the benefit would equal the spousal portion of the 100% joint and survivor annuity. If a participant dies after retirement and had elected a benefit payment option, monthly payments would continue to a beneficiary based on the form of benefit chosen at the time of retirement. Active participants who become totally disabled receive disability benefits that are computed in the same manner as the normal retirement benefit, but based on the benefit multiplier in effect and years of service at disability retirement age. Disability benefits are paid until normal retirement age, at which time the disabled participant begins receiving normal retirement benefits. Disability benefits could cease before normal retirement age if the participant ceases to be disabled.

Vesting

All participants are fully vested.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investment in the Stepan Company Trust for Qualified Plans (the "Master Trust") is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the record date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

As provided in the Plan document, administrative expenses may be paid either by the Plan or by the Company. The Plan pays for investment management, Pension Benefit Guaranty Corporation ("PBGC"), audit and actuary fees.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 3 - INTEREST IN MASTER TRUST

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust, plus contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 21% and 20%, respectively.

The investment assets of the Plan are held in the Master Trust, which was established for the investment of assets of the Plan and other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The plans with equity in the Master Trust at December 31, 2024 and 2023, were as follows:

- Stepan Company Retirement Plan for Salaried Employees
- Stepan Company Retirement Plan for Millsdale Hourly and Anaheim Hourly Employees
- Stepan Company Retirement Plan for Maywood Hourly Employees

The following table presents the investments of the Master Trust and Plan's interest in the Master Trust as of December 31, 2024 and 2023:

NOTE 4 - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (“FASB”) has issued guidance that defines fair value, establishes a framework for measuring fair value under current accounting pronouncements that require or permit fair value measurement and enhances disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Fixed income securities - Fixed income securities that are considered Level 1 securities are valued at the closing price reported on the active market on which the individual securities are traded. Fixed income securities that are considered Level 2 securities are valued by the trustee using various pricing services using a pricing matrix.

Common stocks - Valued at the closing price reported on the active market on which the individual securities are traded.

Money market funds - Valued at cost plus earnings from investments for the period, which approximates fair market value due to the short-term duration. Issuances and redemptions of units are made on each business day without restrictions, which are typically at a constant net asset value (“NAV”) of \$1.00 per unit.

Mutual funds - Valued at the quoted NAV of shares held by the Plan at year end.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31:

	2024			Total

NOTE 5 - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, the trustee of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Plan interest in Master Trust, as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Plan interest in Master Trust net investment income (loss), as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.
- Investments, accrued income, dividends and interest and net appreciation (depreciation) in fair value of investments of the Master Trust as of and for the years ended December 31, 2024 and 2023.

NOTE 6 - PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employee service at the valuation date.

The actuarial present value of accumulated Plan benefits was determined by Willis Towers Watson, actuarial consultants, as of December 31, 2023 and 2022. The actuarial present value is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant assumptions used in the valuations as of December 31, 2023 and 2022 were as follows:

	2023	2022
Interest rate	5.50%	5.50%
Mortality basis	Pri-2012 Mortality Table, projected generationally using Alternate Order-2 MP-2021	Pri-2012 Mortality Table, projected generationally using Alternate Order-2 MP-2021
Retirement	Graded table ranging from age 55 to 70	Graded table ranging from age 55 to 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefit was made as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences.

The actuarial present value of accumulated Plan benefits as of December 31, 2023 was as follows:

Vested benefits	
Current retirees and beneficiaries receiving benefits	\$ 17,458,047
Deferred vested participants	1,412,664
Active employees	2,577,034
Total vested benefits	21,447,745
Non-vested benefits	62,744
Total actuarial present value of accumulated Plan benefits	\$ 21,510,489

All participants are fully vested; the non-vested benefits refer to certain temporary disability or death benefits that are not considered vested until a participant qualifies for or receives the benefit.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

The changes in the actuarial present value of the Plan's accumulated Plan benefits for the year ended December 31, 2023 were as follows:

Actuarial present value of accumulated Plan benefits at December 31, 2022	\$ 21,813,063
Increase (decrease) during the year attributable to	
Decrease in the discount period	1,155,299
Actuarial losses	179,280
Benefits paid	<u>(1,637,153)</u>
Actuarial present value of accumulated Plan benefits at December 31, 2023	<u>\$ 21,510,489</u>

NOTE 7 - FUNDING OF THE PLAN

The Company's funding policy is to meet the minimum funding standard requirements of ERISA. The Plan was in compliance with applicable ERISA minimum funding requirements for the Plan years ended December 31, 2024 and 2023.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 9 - TAX STATUS

The Plan received a favorable determination letter, dated August 13, 2015, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable regulations of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress.

NOTE 10 - RELATED-PARTY TRANSACTIONS

Certain Plan investments in the Master Trust are managed by Bank of America, the trustee of the Plan. The Plan, through the Master Trust, also owns shares of Stepan Company common stock. These transactions qualify as party-in-interest transactions.

NOTE 11 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 12 - SUBSEQUENT EVENTS

The Plan evaluated its December 31, 2024, financial statements for subsequent events through October 14, 2025, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

Economic Assumptions

Interest rate basis:

- Applicable month September 2023
- Interest rate basis Segment rates

Interest rates:	Reflecting Stabilization	Not Reflecting Stabilization
-----------------	--------------------------	------------------------------

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and generally currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

Benefits Not Valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Stepan Company and based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$10,000) in a single lump sum payment. Such lump sums are not explicitly valued as such; rather, such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on this review, certain data adjustments were made at the direction of the plan sponsor. We are unaware of any data adjustments made by the plan sponsor after the data was provide to us and are not aware of any significant events that occurred between the date the data was collected and the measurement date.

In a limited number of situations, assumptions or estimates may have been made when data was not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Administrative “and investment” expenses Administrative expenses are estimated by determining the actual expenses paid from the trust the preceding year.

Assumed return for asset smoothing The assumed return of 5.5% used for asset smoothing, limited the third segment rate, is the expected return on assets assumption chosen by the client for the 2024 plan year under U.S. GAAP. We understand that the assumption reflects the plan sponsor’s estimate of future experience for trust asset returns, reflecting the plan’s current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor’s expectations for future market conditions.

Assumptions Rationale - Significant Demographic Assumptions

Funding Healthy and Disabled Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination Termination rates are set based on plan design, expected participant behavior and plan sponsor expectations for the future and vary by age. An experience study was performed during 2019 to help Stepan review this assumption.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Actuarial Assumptions and Methods

Economic Assumptions

Interest rate basis:

- Applicable month September 2023
- Interest rate basis Segment rates

Interest rates:	Reflecting Stabilization	Not Reflecting Stabilization
-----------------	--------------------------	------------------------------

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and generally currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

Benefits Not Valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Stepan Company and based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$10,000) in a single lump sum payment. Such lump sums are not explicitly valued as such; rather, such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on this review, certain data adjustments were made at the direction of the plan sponsor. We are unaware of any data adjustments made by the plan sponsor after the data was provide to us and are not aware of any significant events that occurred between the date the data was collected and the measurement date.

In a limited number of situations, assumptions or estimates may have been made when data was not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Administrative “and investment” expenses Administrative expenses are estimated by determining the actual expenses paid from the trust the preceding year.

Assumed return for asset smoothing The assumed return of 5.5% used for asset smoothing, limited the third segment rate, is the expected return on assets assumption chosen by the client for the 2024 plan year under U.S. GAAP. We understand that the assumption reflects the plan sponsor’s estimate of future experience for trust asset returns, reflecting the plan’s current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor’s expectations for future market conditions.

Assumptions Rationale - Significant Demographic Assumptions

Funding Healthy and Disabled Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination Termination rates are set based on plan design, expected participant behavior and plan sponsor expectations for the future and vary by age. An experience study was performed during 2019 to help Stepan review this assumption.

Disability	Disability rates are based on plan design and published tables for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.
Retirement	Retirement rates are set based on plan design, expected participant behavior and plan sponsor expectations for the future and vary by age. An experience study was performed during 2019 to help Stepan review this assumption.
Form of Payment	The assumed form of payments are based on plan design, expected participant behavior and plan sponsor expectations for the future. An experience study was performed during 2019 to help Stepan review this assumption.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
