## **Report of Independent Auditors**

The Trustees of  
Woodland Pulp LLC Pension Plan

### **Report on the Audit of the Financial Statements**

#### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the financial statements of Woodland Pulp LLC Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Woodland Pulp LLC Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

#### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Woodland Pulp LLC Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Woodland Pulp LLC Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Woodland Pulp LLC Pension Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Woodland Pulp LLC Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter***

*Supplemental Schedule Required by ERISA*

The supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## Woodland Pulp LLC Pension Plan Notes to Financial Statements

### Note 1 – Description of Plan

The following brief description of the Woodland Pulp LLC Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for more complete description of the Plan's provisions.

**General** – On September 30, 2010, International Grand Investment Corporation acquired Domtar Maine, LLC (Domtar), a Delaware limited liability company, and formed a company called Woodland Pulp LLC (the Company). As of October 1, 2010, the Company established the Plan to provide pension benefits substantially similar to the benefits provided to the Domtar employees, who participated in either the Domtar US Hourly Pension Plan or the Domtar Salaried Pension Plan immediately prior to the acquisition.

Effective March 8, 2019, the Plan Sponsor amended the Plan to cease all future benefit accruals for all salaried employees participating in the Plan. Effective March 9, 2019, the Plan Sponsor established a new defined benefit plan for salaried participants not yet in pay status, Woodland Pulp LLC Salaried Pension Plan.

The Plan is a noncontributory defined benefit plan featuring traditional benefits for hourly employees. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the Plan's sponsor and serves as plan administrator.

**Pension benefits** – Effective April 17, 2012, May 16, 2012, and October 1, 2012, the Plan was frozen to new hourly employee entrants for Trades, USW/PACE, and OPEIU unions, respectively. Effective November 30, 2025, the Plan was amended to freeze the future accrual of all retirement benefits as of November 30, 2025 for all USW/PACE participants.

Participants eligible for benefits with five or more years of service or attainment of retirement age while working for the Company are entitled to pension benefits beginning at normal retirement age (65) equal to the product of (i) the benefit level set forth in the most current labor agreement for their location less the Domtar benefit level set forth in the labor agreement for their location, and (ii) years of Benefit Service, as defined by the Plan. The Plan permits early retirement at ages 55 to 64. If employees retire prior to age 62, the benefit shall be reduced by 0.5% for each full month between the employee's early retirement date and the first day of the month coincident with or immediately following the employee's 62<sup>nd</sup> birthday. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions.

Employees may elect, upon retirement or termination, to receive the value of their accumulated plan benefits as a single life annuity or a 50% joint and survivor (J&S) annuity. Alternatively, they may elect to receive their benefits as a 75% annuity, 100% J&S annuity, or three-year certain and life annuity, payable monthly from retirement. For each employee electing a life annuity, payments will not be less than the greater of (a) the employee's accumulated contributions plus interest, or (b) an annuity for three or ten years.

If the benefit does not exceed \$5,000, then distribution may only be made as an immediate lump-sum payment. If the benefit is below \$1,000, no participant consent is required to distribute the benefit.

## **Woodland Pulp LLC Pension Plan**

### **Notes to Financial Statements**

---

**Death and disability benefits** – If an active employee dies at age 55 or older, a death benefit equal to the value of the employee’s accumulated pension benefits is paid to the employee’s beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until the participant attains the age of 62, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

#### **Note 2 – Summary of Accounting Policies**

**Basis of accounting** – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), using the accrual method of accounting.

**Use of estimates** – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

**Investment valuation** – The investments are stated at fair value. The Plan’s custodian, Charles Schwab Trust Bank, certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the “exit price”) in an orderly transaction between market participants at the measurement date.

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

**Payment of benefits** – Benefit payments to participants are recorded upon distribution.

**Expenses** – The Plan’s expenses are paid by the Plan or the Company, as specified in the plan document. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are deducted from investment earnings, as disclosed in the investment prospectus, and thus are not separately disclosed in the accompanying financial statements.

## **Woodland Pulp LLC Pension Plan**

### **Notes to Financial Statements**

---

**Subsequent events** –Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 13, 2025, which is the date the financial statements were available to be issued.

### **Note 3 – Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their years of credited service. The accumulated plan benefits for active employees are based on their years of credited service ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service, rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of December 31, 2023 were (a) life expectancy of participants (PRI-2012 Blue Collar Mortality Table using MP-2021 Generational Improvement Scale), (b) retirement age assumptions (the assumed weighted-average retirement age of 64), and (c) investment return. The 2023 valuation included an assumed average rate of return of 4.75%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuation been performed as of December 31, there would be no material differences.

## Woodland Pulp LLC Pension Plan

### Notes to Financial Statements

---

The actuarial present value of accumulated plan benefits as of December 31, 2023 was as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 4,814,551
Other participants	<u>5,219,209</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 10,033,760</u></u>

The change in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2023, were as follows:

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 9,705,098</u>
Increase (decrease) during the year attributable to	
Change in actuarial assumptions	118,114
Benefits accumulated	243,542
Increase for interest due to the decrease in the discount period	468,003
Benefits paid	<u>(500,997)</u>
Net decrease	<u>328,662</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 10,033,760</u></u>

#### Note 4 – Funding Policy

**Employee contributions** – Contributions by participants are not required or permitted by the Plan.

**Employer contributions** – The Company's funding policy is to make annual contributions to the Plan based upon recommendations from the Plan's independent actuary and based upon the Company's cash flows.

The Company's contributions for 2024 and 2023 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

## Woodland Pulp LLC Pension Plan Notes to Financial Statements

---

### Note 5 – Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination, if any.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency), up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2025, that ceiling is \$7,432 per month. That ceiling applies to those annuitants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

### Note 6 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

**Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2024 and 2023.

*Registered investment companies (mutual funds)* – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

The following table provides additional information for investments in certain entities that measure fair value using the NAV practical expedient:

	Fair Value Measurements at December 31, 2024			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 9,757,718	\$ -	\$ -	\$ 9,757,718
	Fair Value Measurements at December 31, 2023			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 9,109,783	\$ -	\$ -	\$ 9,109,783

## **Woodland Pulp LLC Pension Plan**

### **Notes to Financial Statements**

---

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

#### **Note 7 – Certified Investment Information**

The following information related to investments was obtained by management and agreed to or derived from information certified as complete and accurate by Charles Schwab Trust Bank, a qualified institution:

- Investments in registered investment companies reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net appreciation in fair value of investments and dividends reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.
- Investments reflected on the schedule of assets (held at end of year) as of December 31, 2024.

#### **Note 8 – Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter dated February 20, 2013, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### **Note 9 – Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

## Woodland Pulp LLC Pension Plan Notes to Financial Statements

---

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

### Note 10 – Party-in-Interest Transactions

Certain Plan investments are managed by Charles Schwab Trust Bank. Charles Schwab Trust Bank is the custodian of the Plan and an affiliate of Charles Schwab Investment Management, Inc.; therefore, transactions with these entities qualify as exempt party-in-interest transactions.

### Note 11 – Reconciliation to Form 5500

The following is a reconciliation of the net assets available for benefits reported in the financial statements and the net assets reported on the Form 5500 as of December 31:

	2024	2023
Net assets available for benefits, per the financial statements	\$ 10,179,899	\$ 9,692,029
Less timing difference related to recognition of dividends	-	(11,803)
Net assets per the Form 5500	\$ 10,179,899	\$ 9,680,226

The following is a reconciliation of the change in net assets available for benefits reported in the financial statements and the net income reported on the Form 5500 for the year ended December 31, 2024:

Change in net assets available for benefits, per the financial statements	\$ 487,870

**Schedule SB, Part V - Statement of Actuarial Assumptions/Methods**

**Actuarial Cost Method**

---

---

Annual costs were calculated using the Traditional Unit Credit Actuarial Cost Method as required by the Pension Protection Act of 2006. The Traditional Unit Credit Method is one of the Accrued Benefit Actuarial Cost Methods.

Under the Traditional Unit Credit Cost Method, benefits are assigned to each year and are valued as they accrue.

The target normal cost for each year is defined as the actuarial present value of retirement and ancillary benefits that are earned for each active participant and the expected administrative expenses to be paid from plan assets in the current year.

The funding target is defined as the actuarial present value of retirement and ancillary benefits that have been earned in years of service prior to the current year.

**Asset Valuation Method**

---

---

In determining the plan's funded status for the purpose of calculating minimum funding requirements and deduction limitations, plan assets are valued at market.

Contributions for the prior plan year made after the end of the plan year are included in the current year's market value of assets at their discounted value, based on the prior year's effective interest rate.

**Preretirement Death Benefit**

Either option 1 or 2 below:

Option 1 (QPSA): available to the surviving spouse of a participant with a minimum of five years of vesting service; the benefit payable is the same benefit the surviving spouse would have received had the participant died and elected an immediate 50% J&S annuity immediately prior to death; if the employee dies prior to the attainment of the earliest retirement age, benefit commencement is deferred until the date they would have reached their earliest retirement date.

Option 2: available to a participant's designated beneficiary for participants who die while actively employed with 10 years of vesting service and is either married and under age 55 or unmarried at any age; the death benefit payable in a single lump sum is \$500 per year of service for all years of service (credited service plus prior service).

**Actuarial Equivalence**

All optional forms of benefit are actuarially equivalent to the accrued benefit:

Mortality: RP-2000 with blue collar adjustment projected to 2005 with scale AA; blended 80% male/20% female for participants and 20% male/80% female for non-participants.

Interest: 6%
