## **Report of Independent Auditors**

The Participants and Trustee of  
INDUS Technology, Inc Employee Stock Ownership Plan

### **Report on the Audit of the Financial Statements**

#### ***Opinion***

We have audited the financial statements of INDUS Technology, Inc Employee Stock Ownership Plan an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of INDUS Technology, Inc Employee Stock Ownership Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

#### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of INDUS Technology, Inc Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about INDUS Technology, Inc Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of INDUS Technology, Inc Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about INDUS Technology, Inc Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Supplemental Schedule Required by ERISA***

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

***Other Matter***

*Auditor's Report on the 2023 Financial Statements*

The 2023 financial statements of INDUS Technology, Inc Employee Stock Ownership Plan were audited by predecessor auditors whose report dated November 1, 2024, expressed an unmodified opinion on those financial statements.

# INDUS Technology, Inc Employee Stock Ownership Plan

## Notes to Financial Statements

---

### Note 1 – The Plan and Its Significant Accounting Policies

**History and General** – The following description of the INDUS Technology, Inc Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

INDUS Technology, Inc. (the Company) established the Plan, an employee stock ownership plan (ESOP), effective January 1, 2010, for the exclusive benefit of participants and their beneficiaries. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 401(a), 409, 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company and an administrative committee appointed by the Company's Board of Directors. As of August 10, 2022 an independent third-party serves as the Plan's Trustee. Prior to that date, an employee of the Company served as the Plan's Trustee.

The Plan acquired Company common stock using proceeds of notes payable and holds stock in a trust established under the Plan. The stock transactions consisted of the purchase of 1,980,000 shares of Company common stock in 2010, and 519,000 shares of Company common stock in 2017, for which all notes payable have been paid in full. In 2023, the Plan acquired the remaining 2,601,000 shares of Company common stock which were financed through a loan with the Company (see Note 6) to be repaid over a period of 20 years.

**Eligibility** – Employees of the Company who are not covered under collective bargaining agreements and who work 1,000 or more hours annually are eligible to participate in the Plan following the completion of one year of service and the attainment of age 18. Participants who do not have at least 1,000 hours of service or who are not employed on the last day of the plan year are not eligible to receive company contributions or stock allocations for that year, unless the participant did not meet these requirements due to normal retirement, death, or disability during the plan year.

**Employer contributions** – The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. The Company committed to make a contribution of \$891,741 for the year ended December 31, 2024 to fund its loan payment, which is reflected as an employer contribution receivable at December 31, 2024. The Company also made discretionary shareholder distributions to the Plan totalling \$630,000 which are reflected as investment income in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.

**Participant accounts** – Each participant's share of Plan assets is recorded in two accounts: a) the Company stock account, which generally represents the participant's allocable portion of the Company common stock included in Plan assets, and b) the other investment account, which generally represents the participant's share of investments other than Company common stock, net income or loss of the Trust, or cash dividends, if any, Company contributions, and forfeitures in other than Company common stock.

---

Each participant's account is credited with an allocation of: a) the Company's contribution, if any, b) an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts, and b) unrealized appreciation in the value of the Plan's investments. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to the total account balance.

**Vesting** – Participants whose employment with the Company ends due to normal retirement, death, or disability become fully vested in their account when that event occurs. If a participant's employment with the Company ends for any reason other than normal retirement, death, or disability, vesting is based on total years of service. Eligible participants meeting the age and minimum hour requirements begin vesting after two years of service and become 100% vested after six years of service.

**Payment of benefits** – Distributions are made in cash or stock to Plan participants or their beneficiaries upon termination, retirement, disability, or death. In the event of the termination of a participant's employment by reason of retirement, death, or permanent disability, a participant's benefits will be distributed not later than five years after the close of the Plan year. Any distribution of cash will be based on the most recent determination of the fair market value of the Company's stock as determined annually by an independent appraisal. Any distribution of shares will be subject to a put option whereby the former employee may demand payment for shares at fair value.

**Forfeited accounts** – Forfeited nonvested accounts, which account for funds of terminated participants with a consecutive five-year break in service, are allocated to eligible participants annually.

**Diversification** – Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in company stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the balance in their account less all amounts previously diversified. In the sixth year, the percentage increases to 50%.

**Voting rights** – Shares of company stock shall be voted by the trustee as directed by the Administrative Committee. With respect to any corporate matter that involves the voting of such shares at a shareholder meeting, each participant is entitled to direct the trustee as to the voting of shares of company stock allocated to his or her account. The trustee is required to vote any unallocated shares in a manner determined by the trustee to be consistent with ERISA and the IRC.

**Put option** – The Company stock that is held by the Plan and its participants is not readily tradable on an established market, or is subject to trading limitations, and includes a put option upon distribution. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

**Administration** – Under the terms of the Plan, the Board of Directors (the Board) of the Company has appointed an external trustee to control the operation, administration, and investment direction of the Plan. The Company has contracted with Principal Trust Company (Principal) to act as the Plan’s custodian. A third-party administrator, appointed by the Board, processes and maintains the records of participant data. Expenses incurred for administering the Plan are paid by the Plan to the extent they are not paid by the Company.

### Note 2 – Summary of Significant Accounting Policies

**Basis of accounting** – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

**Use of Estimates** – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Investment valuation** – The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

**Income recognition** - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Investment dividends are recorded on the ex-dividend date, and distribution on Company stock are recorded on the date declared. Net appreciation includes the Plan’s gains and losses on investments bought or sold as well as held during the year.

**Payment of benefits** – Benefits are recorded when paid.

**Administrative expenses** – The Company pays the administrative expenses of the Plan.

**Subsequent events** – Subsequent events are events or transactions that occur after the statement of net assets (deficit) available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets (deficit) available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan’s financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets (deficit) available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 15, 2025, which is the date the financial statements were available to be issued.

### Note 3 – Tax Status

The Internal Revenue Service determined and informed the Company by a letter dated September 13, 2017 that the Plan and related trust were designed in accordance with applicable sections of the IRC. The Plan has been amended since that date. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability for an uncertain position if it is not more likely than not that the position would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods since inception of the Plan. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2020.

### Note 4 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

**Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

**Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

## INDUS Technology, Inc Employee Stock Ownership Plan Notes to Financial Statements

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Company common stock:* Valued by an annual independent appraisal utilizing income and market-based approaches. Specifically, the guideline public-company method and discounted cash-flow method were used. Final valuation weighted discounted cash-flow method 75 percent and guideline public-company 25 percent.

The following table sets forth the basic valuation techniques and inputs used in arriving at fair value at December 31, 2024 and 2023:

Description	Valuation Techniques	Unobservable Inputs
Company common stock	Income approach - Discounted Cash Flow	Weighted-average cost of capital Five-year forecast
	Market approach - guideline public companies	EBITDA and equity multiples Discount for lack of marketability

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose by level the fair value hierarchy:

	Fair Value Measurement at December 31, 2024			
	Level 1	Level 2	Level 3	Total
Company common stock	\$ -	\$ -	\$ 13,617,001	\$ 13,617,001

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

	Company Common Stock
BALANCE, beginning of year	\$ 10,710,000
Net realized and unrealized appreciation in fair value of investments relating to Company common stock held at the reporting date	2,907,001
BALANCE, end of year	\$ 13,617,001

### Note 5 – Investments and Parties-in-Interest

The Plan's assets, which consist of Company common stock, are held by the Trustee of the Plan. The Plan has a loan with the Company. Company contributions are held and managed by a Trustee, who invests cash received, interest, and dividend income, and makes benefit payments to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The value of the Plan's investment in Company common stock is determined by an independent appraisal, in the absence of readily ascertainable market values, and was as follows at December 31:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	2,629,050	2,470,950	2,629,050	2,470,950

### Note 6 – Note Payable

In May 2023, the Plan issued notes payable of \$8,000,000 (the Cash ESOP Loan) and \$3,000,000 (the ESOP Note) to the Company for the purchase of the remaining outstanding shares of Company common stock. The ESOP Note was subject to adjustment based on the difference in final working capital, at the close date, compared to target working capital, as defined in the stock purchase agreement. In May 2023, the Company and the Plan agreed to consolidate the Cash ESOP Loan and ESOP Note into one note payable from the Plan to the Company of \$11,000,000 (Consolidated ESOP Loan). In November 2023, the Consolidated ESOP Loan was adjusted based on the final working capital calculation; increasing the outstanding principal by \$1,281,483, to a total of \$12,281,483. The Consolidated ESOP Loan requires annual payments of \$891,741, consisting of principal plus 4.02% interest per annum, through 2042. Principal and interest payments are funded by Company contributions to the Plan. The note is collateralized by unallocated shares of common stock. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released each year is the number of unallocated shares at the beginning of the year multiplied by the ratio of current year's principal and interest payments to the sum of current year's principal and interest payments plus future years' principal and interest payments. There were no shares released and allocated to participants during the year ended December 31, 2024 as the current year loan payment was committed to be made as of December 31, 2024 but not paid until 2025. There was \$891,741 of principal and interest receivable at December 31, 2024, and no principal or interest receivable at December 31, 2023.

The borrowings are collateralized by the unallocated shares of common stock and are guaranteed by the Company. The note holder has no rights against the shares of common stock once they are allocated under the Plan. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, separately presents the assets and liabilities, and changes therein, pertaining to:

- a. the accounts of participants with rights in allocated common stock (allocated), and
- b. common stock not yet allocated to participants (unallocated), including shares that are committed to be released.

Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

The scheduled principal amortization of the ESOP Note for the next five years, and thereafter, is as follows:

Years Ending December 31,

2025	\$ 420,557
2026	438,751
2027	456,388
2028	474,735
2029	492,729
Thereafter	<u>9,405,812</u>
	<u>\$ 11,688,972</u>

The Plan's bank account is held by Eagle Bank. Any transactions in this account, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

The Plan paid expenses related to the Plan's operations and investment management to various service providers. Certain Plan investments are managed by Principal Trust Company (Principal). Principal is the recordkeeper of the Plan, and therefore, transactions with these entities qualify as exempt party-in-interest transactions.

### **Note 7 – Plan Termination or Modification**

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of the Board. Upon termination of the Plan, the Board directs the trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code.

### **Note 8 – Risks and Uncertainties**

The Plan provides for various investment options in any combination of investment securities offered by the Plan. In addition, Company common stock is included in the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets (deficit) available for benefits and the statement of changes in net assets (deficit) available for benefits.

### **Note 9 – Reconciliation to Form 5500**

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
