Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Participants and Trustees of
International Foundation
Employees Retirement Plan

Opinion

We have audited the financial statements of International Foundation Employees Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of International Foundation Employees Retirement Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of December 31, 2023, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Responsibilities of Management for the Financial Statements (continued)

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed;
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements; and
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Method of Accounting - The accompanying financial statements of International Foundation Employees Retirement Plan (the Plan) have been prepared using the accrual basis of accounting.

Investments - The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell that asset (or paid to transfer a liability) in an orderly transaction between market participants at the measurement date (the exit price). Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Purchases and sales of the investments are reflected on a trade-date basis.

Dividend income is recorded on the ex dividend date. Interest income is recorded on the accrual basis. Capital gain distributions on mutual funds are recorded as dividends.

Contributions Receivable - Employer contributions due and not paid prior to the year end are recorded as contributions receivable. An allowance for uncollectible accounts is considered unnecessary and is not provided.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service which employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Payment of Benefits - Benefit payments to participants are recorded upon distribution. Pension benefit checks issued prior to the corresponding benefit month are recorded as prepaid benefits.

Expenses - Certain investment related expenses are included in net appreciation in fair value of investments.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 1. Summary of Significant Accounting Policies (continued)

Subsequent Events - Subsequent events have been evaluated through October 13, 2025, which is the date the financial statements were available to be issued.

Note 2. Description of the Plan

The Plan, adopted January 1, 1984 by the International Foundation of Employee Benefit Plans, Inc. (the Foundation), provides retirement, death and disability benefits for eligible participants. The Plan is primarily funded by employer contributions. The Plan is administered by the Foundation on behalf of the Board of Trustees, which is constituted of the current officers of the Foundation. The Board of Trustees has overall responsibility for the operations and administration of the Plan. The Plan is a single employer defined benefit pension plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan includes all employees of the Foundation, who are not leased employees, student interns or nonresident aliens, who have attained the age of 21 and have completed one year of service. A participant who meets the eligibility requirements enters the Plan on the first day of the calendar month after the completion of the year of eligibility service. A year of vesting service is earned for each 12-month consecutive period in which the employee worked at least 1,000 hours.

Benefits under the Plan accrue on a prorated basis for participants who are not fully vested. Benefits are subject to cliff vesting and a participant is 100% vested after five qualified years of service. Under current provisions of the Plan, an employee is eligible for a normal retirement pension upon attaining age 65 with five years of pension credits. The Plan also contains provisions for early retirement, late retirement and benefits for surviving spouses.

Participants should refer to the summary plan description for more complete information.

Note 3. Priorities upon Termination

It is the intent of the Trustees to continue the Plan in full force and effect; however, the right to discontinue the Plan is reserved to the Trustees. Termination shall not permit any part of the Plan to be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries and participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by ERISA and its related regulations. Whether or not a particular participant will receive full benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at that time and the priority of those benefits.

Note 3. Priorities upon Termination (continued)

In addition, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of plan amendments in effect for less than five years. Some benefits may be fully or partially provided while other benefits may not be provided at all.

Note 4. Tax Status

The Plan's latest determination letter is dated May 14, 2018, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements under Section 401(a) of the Internal Revenue Code and was therefore, exempt from federal income taxes under provisions of Section 501(a). The Plan has been amended since receiving the determination letter. The Plan's administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in accordance with the applicable requirements of the Internal Revenue Code, and therefore believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. The Plan is subject to tax, however, on the flow-through of partnership income through its investments structured as limited partnerships. For the years ended December 31, 2024 and 2023, the Plan incurred \$1,610 and \$377 respectively, in unrelated business income taxes.

Accounting principles generally accepted in the United States of America require the Plan to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by tax authorities. The Plan's administrator and the Plan's legal counsel are not aware of any uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5. Actuarial Information

An actuarial valuation of the Plan was made by Milliman as of December 31, 2023. Information shown in the report included the following:

Actuarial present value of accumulated plan benefits:	
Vested benefits	
Participants currently receiving payments	\$ 29,945,459
Other participants	<u>9,107,133</u>
Total vested benefits	39,052,592
Nonvested benefits	<u>974,251</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 40,026,843</u>

Note 5. Actuarial Information (continued)

As reported by the actuary, the changes in the present value of accumulated plan benefits during the year ended December 31, 2023 were as follows. Amounts for benefits paid include benefit checks issued before the corresponding benefit month that were recorded as prepaid pension benefits in the accompanying financial statements.

Actuarial present value of accumulated plan benefits at beginning of year		\$ 39,457,091
Increase (decrease) during the year attributable to:		
Reduction in discount period	\$ 2,653,116	
Benefits accumulated plus actuarial loss	1,081,024	
Benefits paid	<u>(3,164,388)</u>	
Net increase		<u>569,752</u>
Actuarial present value of accumulated plan benefits at end of year		<u>\$ 40,026,843</u>

The actuarial valuation was made using the unit credit cost method. Some of the more significant actuarial assumptions used in the valuation were as follows:

- Life expectancy of participants:
Pri-2012 Mortality Table using Projection Scale MP-2021 with employee rates before benefit commencement and retiree and contingent survivor rates after benefit commencement
- Retirement age assumptions:
50% of participants are assumed to retire at age 62, grading to 100% by age 68
- Investment rate of return:
7.00% compounded annually, net of investment expenses
- Administrative expenses:
\$65,000 plus .50% of the fair value of assets, paid at the beginning of the year.

The aforementioned actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results. Pension benefits in excess of the present assets of the Plan are dependent upon contributions received and income from investments.

Since information on the accumulated plan benefits at December 31, 2024, and the changes therein for the year then ended are not included above, these financial statements do not purport to present a complete presentation of the financial status of the Plan as of December 31, 2024, and the changes in its financial status for the year then ended, but a presentation of the net assets available for benefits and the changes therein as of and for the year ended December 31, 2024. The complete financial status is presented as of December 31, 2023.

Note 5. Actuarial Information (continued)

On August 17, 2006, the Pension Protection Act (the PPA) was signed into law. Included in its many provisions are numerous revisions surrounding new funding rules for defined benefit plans that may significantly increase required contributions for underfunded plans. The PPA establishes minimum funding standards and limits benefit increases and accruals for underfunded plans. Plans with a funding percentage below 80 percent will be required to implement certain benefit limitations such as restricting lump sum payments and restricting the Plan from amending to enhance benefits. Further limitations such as freezing the accrual of all future benefits will be required for plans that are underfunded by more than 60 percent until such time as the percentage increases above 60 percent. Additionally, pursuant to the PPA, each year actuaries are required to certify to a plan's funded percentage. The Plan received such certification for the Adjusted Funding Target Attainment Percentage (AFTAP), which is one way of measuring the funded status of a Plan using actuarial assumptions mandated by the IRS. The actuary has determined that the AFTAP for the Plan was 109.36% as of January 1, 2024.

Note 6. Funding Policy

The Foundation contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet benefits to be paid to Plan participants.

The Plan's actuary has advised that the minimum funding requirements of ERISA are being met as of January 1, 2024.

Note 7. Related Organizations

The Plan has several related entities which include the following: the Foundation, three other nonprofit corporations, a defined contribution retirement plan and a health and welfare plan. All are separate tax-exempt entities. The Foundation is the Plan sponsor and makes contributions into the Plan.

Note 8. Fair Value Measurements

The *Fair Value Measurements and Disclosures* Topic of the FASB Accounting Standards Codification established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows.

Note 8. Fair Value Measurements (continued)

Basis of Fair Value Measurement

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities
Level 2	Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2024 and 2023. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. In accordance with generally accepted accounting principles, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the following tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

	<u>Total</u>	<u>Fair Value Measurement at 12/31/24 Using</u>		
		<u>Quoted Prices</u> in Active Markets for Identical Assets (Level 1)	<u>Significant</u> Other Observable Inputs (Level 2)	<u>Significant</u> Unobservable Inputs (Level 3)
Group annuity contract	\$ 1,289,394	\$ -	\$ 1,289,394	\$ -
Investments measured at net asset value:				
Common trusts	39,490,587			
Alternative investments funds	<u>9,472,593</u>			
Total	<u>\$ 50,252,574</u>			

Note 8. Fair Value Measurements (continued)

	Total	Fair Value Measurement at 12/31/23 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Group annuity contract	\$ 1,853,197	\$ -	\$ 1,853,197	\$ -
Investments measured at net asset value:				
Mutual fund	5,657,953			
Common trusts	25,622,332			
Alternative investments funds	16,247,121			
Total	<u>\$ 49,380,603</u>			

Level 2 Measurements

The group annuity contract is carried at contract value as determined by the insurance carrier, which approximates fair value. Contract value represents contributions made under the contract, plus credited interest, less benefit payments and administrative expenses.

Measurements Using Net Asset Value as a Practical Expedient

Certain investments are valued by the respective investment managers, without further adjustment, using the net asset value per share as a practical expedient to estimate fair value. The net asset values are based on the fair values of the underlying investments held by the funds less their liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

The fair value of the mutual fund is determined by reference to the fund's underlying assets, which are principally marketable fixed income securities. Redemptions are available daily with no required notice period.

The common trusts are common collective trust funds and a 103-12 investment entity and are direct filing entities (DFEs) that file a Form 5500 annual report with the U.S. Department of Labor. The Plan is not required to disclose the investment strategies of DFE investments. Redemptions are generally available daily; however, two of the DFEs, with a fair value of \$3,959,678 and \$4,045,629 at December 31, 2024 and 2023, respectively, are restricted to only allow for quarterly redemptions, and one of those investments with a fair value of \$2,377,938 and \$2,469,887 at December 31, 2024 and 2023, respectively, requires a 45-day notice period. One common collective trust is a real estate investment fund with a fair value of \$1,581,740 and \$1,575,742 at December 31, 2024 and 2023, respectively. In May 2023, all redemptions from this fund were restricted pending the implementation of a three-phase strategy to stabilize, reposition and grow its portfolio in light of economic, interest rate and liquidity challenges. The fund manager stated that it cannot predict the duration of this restriction on redemptions. An adjustment to the fund's net asset value was not considered necessary as of either December 31, 2024 or 2023.

Note 8. Fair Value Measurements (continued)

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits. The current economic environment has increased the degree of uncertainty.

The Plan holds several alternative investments in which the general partner or investment manager is generally required to value the Plan's underlying investments at estimated fair values using various subjective techniques. In addition, the Plan has ownership interest in a real estate investment fund. The estimated fair values of these funds, as determined by the investment manager, may vary significantly from the prices at which the real estate investments within the fund would sell, and the amounts could be material.

Due to inherent uncertainties involved in the valuations of investments that are not publicly traded, estimated fair values may differ materially from the values that would have been used had a ready market for the underlying securities existed.

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10. Concentration of Plan Investments

The Plan had a significant portion of its assets invested in long duration fixed income collective investment trusts in 2024. These investments represented approximately 40% of the Plan's net assets available for benefits as of December 31, 2024. The Plan had a significant portion of its assets invested in an S&P 500 mutual fund in 2023. This investment represented approximately 23% of the Plan's net assets available for benefits as of December 31, 2023.

It is at least reasonably possible that a significant decline in the fair value of those investments during the next year could occur and that a change in the assumed rates of return used to calculate the present value of accumulated plan benefits would be needed.

Report of Independent Auditors on Supplemental Schedules Required by ERISA

To the Participants and Trustees of
International Foundation
Employees Retirement Plan

We have audited the financial statements of International Foundation Employees Retirement Plan (the Plan) as of and for the years ended December 31, 2024 and 2023, and our report thereon dated October 13, 2025, which expressed an unmodified opinion on those financial statements, appears on pages 1 and 2. Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Appendix C – Summary of Principal Plan Provisions

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

Effective Date

Originally effective January 1, 1973, amended several times.

Eligible Employee

Hourly (employed under a collective bargaining agreement with the company) and Salaried (all other employees) Employees.

Participants

Eligible employees who have completed 12 months of employment with at least 1,000 hours worked and are at least age 18 will participate on the first day of the next month.

Normal Retirement

Eligibility: Later of age 65 or the fifth anniversary of participation in the plan.

Benefits: Prior to April 1, 2010 (June 1, 2010 for certain participants), 1.80% of benefit salary per year of benefit service plus 0.45% of benefit salary in excess of covered compensation per year of benefit service (salaried only). Compensation limited to \$60,000 on accruals after August 1, 2009. Payable on a Straight Life Annuity.

On or after April 2010 (June 1, 2010 for certain participants), a pension benefit amount is credited during each calendar year equal to 1.65% of compensation for that calendar year plus 0.65% of compensation in excess of the participant's covered compensation for that calendar year (credited amounts in 2010 reflect compensation paid after April 1, 2010 or June 1, 2010 as applicable). These amounts are added to the accrued benefit at April 1, 2010 or June 1, 2010 as applicable. The 0.65% of "excess compensation" only applies for the first 35 calendar years of employment.

Early Retirement

Eligibility: Age 55 and 10 years of vesting service.

Benefits: One-fourth of 1% for each month on accrued benefit as of April 1, 2010 (June 1, 2010 for certain participants). One-half of 1% for each month on pension earned after April 1, 2010 or June 1, 2010 as applicable. The accrued pension is unreduced if age 62 and 25 years of vesting service. Eligible active participants were allowed to retire in the 4th quarter of 2020 without a reduction for early retirement.

Vesting

Eligibility: Any member who terminated after 5 years of vesting service is entitled to 100 percent of his Accrued Benefit.

Death Benefits

Eligibility: Payable upon death.

Benefits: 50% of reduced E.R.B. payable in J&S form.

Disability Benefits

Eligibility: 10 years of vesting service.

Benefits: Projected NRB calculated with current earnings and projected service. Benefit commences at age 65.

Appendix A – Summary of Actuarial Methods

The ultimate or true cost of a pension plan will be equal to the excess of benefits actually paid and the expenses incurred in its administration over investment income earned on monies set aside for its funding. Thus, the ultimate cost of a plan cannot be known until the last payment thereunder has been made to its last participant. The actuarial cost method is a particular technique used by the actuary for establishing the amount and incidence of annual actuarial costs. The actuarial cost method determines the portion of the ultimate cost of a pension plan which should be allocated to each plan year (known as the normal cost). The cost method is thus a budgeting tool which helps to ensure that the pension plan will be adequately and systematically funded.

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's normal cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits.

Asset Valuation Method

The Actuarial Value of Assets is equal to the average of the market value of assets on the valuation date and the two prior valuation dates. The values as of the prior two valuation dates are adjusted with contributions, benefit payments, administrative expenses, and expected earnings from each valuation date to the current valuation date. Expected earnings are calculated using an expected rate of return limited to the third segment rate for each period.

PBGC Variable-Rate Premium Method

The alternative method is used for the PBGC variable-rate premium calculation (adopted January 1, 2020).

Amortization Method

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen-year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

Changes in Actuarial Methods Since Prior Valuation

None.

Appendix B – Summary of Actuarial Assumptions

ECONOMIC ASSUMPTIONS

Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor’s interest rate election. The PBGC interest rates are based on the Plan Sponsor’s elected method for determining the premium funding target.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0–5 years)	4.75%	3.62%	3.62%
Segment 2 (5–20 years)	4.87%	4.46%	4.46%
Segment 3 (20+ years)	5.59%	4.52%	4.52%
Effective Interest Rate	5.15%	4.44%	4.44%

ERISA minimum funding: 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Maximum Deductible Contribution: 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization.

PBGC premium: 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization. The alternative method (adopted January 1, 2020) is used for the PBGC variable rate premium calculation.

FASB ASC Topic 960: 7.00% (adopted January 1, 2021) per year. This is the assumed rate of return for the Plan’s entire portfolio of assets, net of investment expenses and including assumed inflation rate of 2.30%. It is based on the Plan’s investment policy, including target asset allocation, and Milliman’s capital market expectations.

Asset Returns

ERISA minimum funding and Maximum Deductible Contribution: 7.00% (adopted January 1, 2021) per year. It is based on the Plan’s investment policy, including target asset allocation, and Milliman’s capital market expectations.

Administrative Expenses

\$65,000 plus 0.50% of Fair Market Value of Assets (adopted January 1, 2020) assumed to be paid at beginning of year.

DEMOGRAPHIC ASSUMPTIONS

Except where noted, all demographic assumptions are based on the actuary’s judgment and continual review of experience.

Mortality

ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium: Statutory generational mortality tables for 2024 based on Pri-2012 Mortality Table, with separate rates for non-annuitants and annuitants, adjusted from base year 2012 with projections to anticipate greater future longevity using the 2024 Adjusted Scale MP-2021.

FASB ASC Topic 960: Pri-2012 Mortality Table with Projection Scale MP-2021 with employee rates before benefit commencement and retiree and contingent survivor rates after benefit commencement. As a generational table, it reflects mortality improvements both before and after the measurement date.

Retirement Rates (Adopted January 1, 2016)

The following retirement rates are used:

Age	Rate
62	50%
63-64	20
65	50
66-67	20
68+	100

Withdrawal Rates (Adopted prior to January 1, 2009)

Special Table, see below. Example of Rates Used:

Number Separating Per 100 Active Lives		
Age	Male	Female
25	11.1	17.4
30	6.5	10.0
35	4.7	7.7
40	3.5	5.8
45	2.0	4.2
50	0.0	2.1
55	0.0	0.0

Disability Rates (Adopted January 1, 2012)

Special Table, see below. Example of Rates Used:

Number Becoming Disabled per 100 Active Lives		
Age	Male	Female
20	.015	.015
25	.015	.015
30	.015	.020

Number Becoming Disabled per 100 Active Lives		
Age	Male	Female
35	.020	.035
40	.040	.065
45	.080	.120
50	.165	.200
55	.345	.320
60	.575	.450

Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

Form of Payment

Life annuity.

Marital Characteristics

For participants not in pay status: 100% of participants are assumed to be married to a spouse of the opposite sex. Males are assumed to be same age as females.

For participants in pay status: Actual birth dates of spouses are included in the census data, where relevant.

Weighted Average Retirement Age

The weighted average retirement age for active participants is 64. This equals the sum, over all retirement ages, of the retirement age multiplied by the probability of retiring at that age, as shown below.

(A) Age	(B) Rate	(C) Weight	(A) * (C) Product
62	50%	0.5000	31.00
63	20%	0.1000	6.30

65	50%	0.1600	10.40
66	20%	0.0320	2.11
67	20%	0.0256	1.72
68	100%	0.1024	6.96
Weighted Average Retirement Age:			63.61
Rounded to Nearest Age:			64

CHANGES IN ACTUARIAL ASSUMPTIONS SINCE PRIOR VALUATION

Interest rates for ERISA Minimum Funding: Effective January 1, 2024, the interest rates used to determine the minimum funding requirements were updated based on the applicable 24-month average segment rates with a four-month lookback from the valuation date, adjusted to reflect the applicable segment rate stabilization corridor. The interest rates were updated to comply with IRS requirements.

Interest rates for Maximum Deductible Contribution: Effective January 1, 2024, the interest rates used for maximum deductible purposes were updated as noted above, but not adjusted to reflect segment rate stabilization. The interest rates were updated to comply with IRS requirements.

Interest rates for PBGC premiums: Effective January 1, 2024, the interest rates used for PBGC variable rate premium purposes were updated to the segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization. The interest rates were updated to comply with PBGC requirements.

Mortality for ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium: The mortality assumption was updated to the Statutory generational tables for 2024.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
