Independent Auditor's Report

The Plan Administrator
WO Partners Holdings, Inc. Employee Stock Ownership Plan
West Palm Beach, Florida

Opinion

We have audited the financial statements of WO Partners Holdings, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of WO Partners Holdings, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets (deficit) available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of WO Partners Holdings, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about WO Partners Holdings, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of WO Partners Holdings, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about WO Partners Holdings, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i-schedule of assets held at end of year and schedule H, line 4j-schedule of reportable transactions as of or for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following brief description of the WO Partners Holdings, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Effective November 24, 2024 (Freeze Date), the Plan was frozen and converted to a profit share plan.

General

WO Partners Holdings, Inc., and participating employers (the Company) established the Plan effective as of December 1, 2019. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (the ERISA). Effective as of the Freeze Date, the Plan was amended to qualify as a profit sharing plan under Code Section 401(a). The Plan is administered by the ESOP committee of the Company. The trust department of an independent fiduciary services company is the Plan's Trustee. Effective May 24, 2024, Christopher Wray III in his individual capacity was appointed as a new Trustee.

In 2020, the Plan and trust purchased the Company common stock using the proceeds of a note (Note 6) and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under IRC.

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares of stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present the assets and liabilities and changes therein pertaining to:

1. Accounts of employees with vested rights in allocated common stock (allocated).
2. Common stock not yet allocated to employees (unallocated).

Eligibility

Employees are eligible to participate in the Plan if they have completed one year of service and are 21 years of age. A year of service for purposes of eligibility is a consecutive 12-month period during which the employee has 1,000 or more hours of service. Leased employees, union members, independent contractors and non-resident aliens are not eligible to participate in the Plan. Effective the Freeze Date, no new participants are eligible to participate.

Entry Date

Employees may enter the Plan on the first day of the plan year containing the date they satisfy the Plan's eligibility requirements. Effective the Freeze Date, no new participants are eligible to participate.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. Effective the Freeze Date, no additional contributions will be allowed.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Prior to the Freeze Date, participants who were eligible, employed on the last day of the Plan year, and had at least 500 hours of service during the Plan year would receive an allocation. Participants who have terminated before the last day of the Plan year would still be credited with an allocation if due to normal retirement age, death, or disability as well as if the participant was credited with at least 500 hours of service during the Plan year. Only those not terminated as of the last day of the Plan year would share in the allocation of forfeited non-vested accounts. Allocations were based on a participant's eligible compensation, relative to the total eligible compensation. Plan earnings and losses are allocated to each participant's account based on the ratio of the participant's account balance.

WO Partners Holdings, Inc. Employee Stock Ownership Plan

Notes to Financial Statements
December 31, 2024 and 2023

Vesting

As of the Freeze Date, any participant who either 1) is employed by the Company or 2) has terminated employment but either (a) has not received distribution of their account under the Plan or (b) has not incurred five consecutive breaks in service, as defined in the Plan document, shall be 100% vested in their account balances.

Prior to the Freeze Date, vesting was based on years of credited services as set forth in the following table:

Participant's Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

At December 31, 2024 and December 31, 2023, there was no balance in the forfeited non-vested account as all forfeitures are used in the same year they are forfeited. Forfeited accounts are allocated to eligible participants. During the year ended December 31, 2024, no forfeited non-vested shares were allocated to eligible participants. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation for the Plan year.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments as defined in the Plan document upon retirement, termination of service, death or disability. A terminated participant with a balance of less than \$1,000 may be automatically paid out by the Plan upon termination. Any terminated participants with a balance between \$1,000 and \$5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 2 - Significant Accounting Policies and Use of Estimates

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as those held during the year. The Plan sponsor determines the Plan's valuation policies utilizing information provided by advisors.

The classification of investment earnings (losses) reported above and in the statement of changes in net assets (deficit) available for benefits may differ from the classification of earnings (losses) on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefits payments to participants are recorded when paid.

WO Partners Holdings, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net asset available for benefits.

Note 3 - Investments

The Plan's investment in Company common stock as of December 31, 2024 and 2023, is as follows:

	2024		
	Allocated	Unallocated	Total
Number of shares	500,000	-	500,000
Cost	\$ 6,900,000	\$ -	\$ 6,900,000
Fair value	\$ 10,750,000	\$ -	\$ 10,750,000
	2023		
	Allocated	Unallocated	Total
Number of shares	375,000	4,625,000	5,000,000
Cost	\$ 4,600,000	\$ 87,397,988	\$ 91,997,988
Fair value	\$ 4,200,000	\$ 51,800,000	\$ 56,000,000

During 2024, common stock not yet allocated in the amount of 4,500,000 shares were transferred back to the Company in exchange for satisfying remaining outstanding debt (Note 6).

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access.

- Level 2 – Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money Market Mutual Fund– Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Stock: The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities, including certain discounts.

WO Partners Holdings, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and December 31, 2023:

	2024			
	Level 1	Level 2	Level 3	Total
Common stock	\$ -	\$ -	\$ 10,750,000	\$ 10,750,000
Money market mutual fund	3,730	-	-	3,730
Total investments at fair value	\$ 3,730	\$ -	\$ 10,750,000	\$ 10,753,730
	2023			
	Level 1	Level 2	Level 3	Total
Common stock	\$ -	\$ -	\$ 56,000,000	\$ 56,000,000
Money market mutual fund	2,165	-	-	2,165
Total investments at fair value	\$ 2,165	\$ -	\$ 56,000,000	\$ 56,002,165

Changes in Fair Value of Level 3 Assets

There were no transfers in or out and sales of the Plan's Level 3 assets for the year ended December 31, 2024. The exempt loan was cancelled in exchange for the associated unallocated shares.

Note 5 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 22, 2021, the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to the issuance of the determination letter, the Plan was amended. However, the Company, Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and, therefore believe the Plan is qualified and the related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Note Payable

In February 2020, the Plan entered into a \$91,997,988 term loan agreement with the Company, to be repaid over a period of 40 years. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 125,000 shares being released and allocated for the Plan period ended December 31, 2024.

The balance due on the note payable as of December 31, 2024 and 2023, was \$0 and \$87,560,346, respectively. The loan agreement bore interest at 2.15% and provided for the loan to mature on March 15, 2060.

In an agreement dated November 24, 2024, the Company agreed to satisfy the outstanding obligation, plus any accrued interest, of the loan with the unallocated shares in order to terminate the provisions of the ESOP and convert the Plan to a profit sharing plan.

As of December 31, 2024 and 2023, the Plan owed the Company interest of \$0 and \$1,951,930, respectively. For the year ended December 31, 2024, the interest expense totaled \$1,314,925.

Note 7 - Related Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness with or guaranteed by the Company (Note 6). During 2024, in exchange for satisfaction of remaining debt of \$85,987,555, the Company received 4,500,000 unallocated shares. These are related party and party-in-interest transactions.

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 8 - Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Market risks include global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets (deficit) available for benefits.

Note 9 - Right of First Refusal

Company stock that has been distributed to a participant and not immediately repurchased by the Company or Trust, may be subject to a right of first refusal if so, determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company, and then, if refused by the Company, to the Trust at fair market value as determined by an independent appraiser appointed by the Trustee.

Note 10 - Plan Amendments

Effective the Freeze Date, the plan was amended and restated in its entirety and is intended to qualify as a profit-sharing plan under Code Section 401(a). In addition, the Plan does not allow any contributions to the Plan and vesting was updated (Note 1).

Note 11 - Subsequent Event

Effective January 1, 2025, the plan was amended to increase the force out threshold limit to \$7,000.

The Plan sponsor has evaluated subsequent events through October 15, 2025, the date which the financial statements were available to be issued.
