To the plan administrator and participants of
Charles R. Drew University Defined Contribution Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Charles R. Drew University Defined Contribution Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the Statements of Net Assets Available for Benefits as of June 30, 2024 and 2023, the related Statement of Changes in Net Assets Available for Benefits for the Year Ended June 30, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of June 30, 2024 and 2023, and for the year ended June 30, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts or custodial accounts issued to current or former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2g to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts or custodial accounts issued to current or former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts or custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of June 30, 2024, and Schedule H, line 4a—Schedule of Delinquent Participant Contributions for the Year Ended June 30, 2024, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on these supplemental schedules.

Charles R. Drew University Defined Contribution Plan

Notes to Financial Statements
For the Year Ended June 30, 2024

1. Plan Description

The following description of Charles R. Drew University Defined Contribution Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

a. General

The Plan, originally effective January 1, 1975, and restated July 1, 2018, is a defined contribution plan organized under Section 403(b) of the Internal Revenue Code (IRC) covering all employees of Charles R. Drew University of Medicine and Science (the Employer), excluding certain classes of employees as set forth in the plan document such as federal work study and temporary employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions

Participants may contribute up to 100 percent of annual compensation in pre-tax or Roth deferrals, as defined in the plan document and allowed by law. Participants may also roll over amounts representing distributions from other qualified plans. The Plan permits catch-up contributions for participants who have attained age 50 by the end of the plan year. In addition, the Plan permits special Internal IRC Section 403(b) catch-up contributions for employees who have completed 15 years of service with the Employer. The Plan provides for automatic election of deferrals at a rate of 3 percent for all new participants. Employer contributions are discretionary. Participants who have attained the age of 18 and have completed one year of credited service are eligible to receive employer contributions. For the year ended June 30, 2024, employer contributions totaled \$2,567,643.

c. Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Employer's contribution, if applicable, and the Plan's earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts into various investment options offered by the Plan.

d. Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

e. Distribution of Benefits

Upon termination of employment due to termination of service, death, disability, or retirement, participants may elect to receive the value of their vested account balance in an annuity, partial withdrawals, installments, or lump-sum distribution. In-service withdrawal options are available to participants under certain circumstances.

Notes to Financial Statements
For the Year Ended June 30, 2024

f. Notes Receivable from Participants and Loans to Participants

Participants may borrow the lesser of \$50,000 (reduced by the participant's highest outstanding loan balance during the 12-month period ending on the date of the loan) or 50 percent of their vested account balance. Loan terms range up to five years but may be extended if the proceeds are to be used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bears interest at rates ranging from 4.25 to 9.50 percent.

Prior to July 1, 2020, loans were issued directly from Teachers Insurance and Annuity Association of America (TIAA) assets and loan principal was not advanced from participant accounts. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.29 to 7.56 percent. A total of \$39,311 and \$138,301 in participant account balances held in the TIAA Traditional Benefit Responsive investment option served as collateral for these loans at June 30, 2024 and 2023, respectively.

Principal and interest for all loans are paid ratably on a payment schedule established when the loan is originated. Participants make payments directly to TIAA and College Retirement Equities Fund (CREF).

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Except as noted below, investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investments in fully benefit-responsive investment contracts are reported at contract value. Contract value, also referred to as book value, is equal to total contributions allocated to the investment, less withdrawals and expenses, plus accrued interest.

Charles R. Drew University Defined Contribution Plan

Notes to Financial Statements
For the Year Ended June 30, 2024

c. Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are generally recorded on a trade-date basis. As permitted by Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962-325, *Plan Accounting—Defined Contribution Plans: Investments—Other*, settlement-date basis may be used when (a) the settlement date is after the financial statement date, (b) the fair value of the securities purchased or sold did not change significantly from the trade date to the financial statement date, and (c) the purchases or sales do not significantly affect the composition of the plan's net assets available for benefits.

Under a group annuity contract with TIAA and CREF, the Plan offers variable annuities, which provide participants with a menu of investment options offering variable returns. These investment options correspond with pooled separate accounts, or subaccounts thereof, whose investment returns vary based on the performance of underlying investments. Invested assets are held in legally separate accounts, which are nominally owned by the Insurers but beneficially owned by participating plans and protected from the claims of the Insurers' general creditors. These investments are reflected as pooled separate accounts in the Plan's financial statements, because the unit of account is a unit of interest in separate accounts of the Insurer under the variable annuity provisions of the group annuity contract.

Some of the variable annuity investment offerings have the legal form of both legally separate assets of an insurance company and portfolio offerings of a registered investment company. In such cases, these investments have been presented as pooled separate accounts in the financial statements.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Plan Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Plan expenses include fees for certain participant-initiated transactions that are charged directly to the account of the participant who incurred them. Investment-related expenses are included in net realized and unrealized appreciation in fair value of investments.

e. Payment of Benefits

Benefits are recorded when paid.

Charles R. Drew University Defined Contribution Plan

Notes to Financial Statements
For the Year Ended June 30, 2024

f. Notes Receivable from Participants and Loans to Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. These are referred to as participant loans in the Form 5500 and related supplemental schedules. Delinquent loans are treated as distributions based upon the terms of the plan document.

For loans to participants issued directly from TIAA, repayments are made to TIAA and not the Plan. Accordingly, loans to participants are not included in plan assets. The amount of loans to participants that are secured by the plan assets is disclosed (see Note 1f).

g. Excluded Contracts and Accounts

The Plan administrator has elected to exclude certain contracts and accounts from plan assets in accordance with the Department of Labor's Field Access Bulletin (FAB) 2009-02 due to the fact that

- the contract or account was issued to a current or former employee before January 1, 2009;
- the Employer ceased to have any obligation to make contributions (including employee salary reduction contributions) and, in fact, stopped making contributions to the contract or account before January 1, 2009;
- all the rights under the contract or account are legally enforceable against the insurer or Insurer by the individual owner of the contract or account without any involvement by the Employer;
- the individual owner of the contract is fully vested in the contract or account.

The Plan's financial statements were prepared based on available records to the exclusion of the above described contracts. The amounts of the balances and transactions associated with these excluded contracts and, therefore, the effect of their exclusion on these financial statements was indeterminate due to the lack of availability of related records.

h. Subsequent Events

The Plan has evaluated the subsequent events through October 15, 2025, the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Charles R. Drew University Defined Contribution Plan

Notes to Financial Statements
For the Year Ended June 30, 2024

3. Risks and Uncertainties (Continued)

The Employer has identified potential issues with respect to exclusions of certain classes of employees that may require corrections, including additional contributions to the Plan. The Employer has engaged an ERISA attorney to assist in evaluating the issues in accordance with the Employee Plan Compliance Resolution System and intends to file an application under the Internal Revenue Service (IRS) Voluntary Correction Program (VCP). As of the financial statement issue date, the amount of any required corrections, if any, was not reasonably estimable and no related amounts have been accrued in these financial statements.

4. Fair Value Measurement

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Charles R. Drew University Defined Contribution Plan

Notes to Financial Statements
For the Year Ended June 30, 2024

4. Fair Value Measurement (Continued)

Pooled separate accounts: Carried at fair value using NAV as a practical expedient. Valued at the NAV of units held by the Plan at year-end, which is considered by plan management to be the best approximation of fair value. The unit values are calculated based on the collective values of the underlying investments. Funds held in pooled separate accounts may be redeemed daily without restriction, with the exception of the TIAA Real Estate Account. Funds held in the TIAA Real Estate Account are limited to one transfer out per calendar year. Although most of the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the TIAA Real Estate Account with a liquidity guarantee ensuring that funds are available to meet participant redemption, transfer or withdrawal requests.

The Plan has identified the following classes of investment for its pooled separate accounts based on the nature and risks of the underlying investments. The fair values for each major class of investment are disclosed in the tables below. The following describes the significant investment strategies of each major class of investment.

- U.S. equity: Funds are invested directly and/or indirectly in a diversified portfolio of domestic stocks to achieve a variety of investment goals including capital appreciation, current income, specific industry exposure (TIAA Access Real Estate Securities T4), or index replication. The CREF Social Choice fund invests primarily in domestic stocks to achieve a long-term favorable rate of return comparable to the performance of the broader financial markets while giving special consideration to certain social criteria.
- International equity: Funds are invested in a diversified portfolio of stocks of companies internationally to achieve long-term returns through capital appreciation and/or current income.
- Balanced: Funds are invested in actively managed portfolios of stocks, bonds, other debt securities, money market instruments, and/or other investments, both domestically and internationally, with the goal of achieving a targeted balance of capital preservation, capital appreciation, and current income.
- Fixed income: Some funds in this category are primarily invested in U.S. treasury and government agency securities, commercial paper and certificates of deposit with the goal of capital preservation and liquidity. The CREF Inflation-Linked Bond fund invests in U.S. treasury inflation-linked securities or other inflation-linked bonds with the goal of outpacing inflation. Other funds invest in U.S. treasury and government agency securities, corporate bonds, and mortgage-backed or other asset-backed securities with the goal of current income and capital preservation.
- Real Estate: The TIAA Real Estate Account invests primarily in real estate or real estate related investments with the goal of providing favorable long-term returns through rental income and capital appreciation.

Non-benefit-responsive investment contracts: Valued at fair value by discounting the related cash flows by a risk-adjusted discount rate which correlates closely with the investment contract's historical crediting rates. The fair value calculated using the risk-adjusted discount rate does not differ materially from contract value. As such, the investment contracts are reported at contract value, which is considered by plan management to be a reasonable and materially accurate approximation of fair value. Contract value equals the total cash contributions, transfers, and interest credited to the contract, less the total of withdrawals, transfers and administrative expenses deducted from the contract (see Note 9).

4. Fair Value Measurement (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2024 and 2023.

Assets at Fair Value as of June 30, 2024				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 17,181,987	\$ -	\$ -	\$ 17,181,987
Non-benefit-responsive investment contracts	-	-	5,868	5,868
Total assets in the fair value hierarchy	17,181,987	-	5,868	17,187,855
Investments measured at NAV as a practical expedient (1)	-	-	-	24,172,336
Investments, at fair value	<u>\$ 17,181,987</u>	<u>\$ -</u>	<u>\$ 5,868</u>	<u>\$ 41,360,191</u>
Assets at Fair Value as of June 30, 2023				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 14,158,798	\$ -	\$ -	\$ 14,158,798
Non-benefit-responsive investment contracts	-	-	6,057	6,057
Total assets in the fair value hierarchy	14,158,798	-	6,057	14,164,855
Investments measured at NAV as a practical expedient (1)	-	-	-	18,887,772
Investments, at fair value	<u>\$ 14,158,798</u>	<u>\$ -</u>	<u>\$ 6,057</u>	<u>\$ 33,052,627</u>

(1) In accordance with FASB ASC 820, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the tables above are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

4. Fair Value Measurement (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended June 30, 2024.

		Non-benefit- responsive investment contracts
Balance, beginning of year	\$	6,057
Purchases		292
Sales		(481)
Balance, end of year	\$	<u>5,868</u>

The following tables present information about significant unobservable inputs related to the Plan's investment in assets categorized as level 3 in the FASB ASC 820 fair value hierarchy at June 30, 2024 and 2023.

Significant Unobservable Inputs Related to Level 3 Assets at June 30, 2024

<u>Type</u>	<u>Fair value</u>	<u>Valuation technique</u>	<u>Significant unobservable inputs</u>	<u>Range</u>
Non-benefit- responsive investment contracts	\$5,868	Discounted cash flow	Risk-adjusted discount rate	3.00% to 6.50%
			Current rate	6.50%

Significant Unobservable Inputs Related to Level 3 Assets at June 30, 2023

<u>Type</u>	<u>Fair value</u>	<u>Valuation technique</u>	<u>Significant unobservable inputs</u>	<u>Range</u>
Non-benefit- responsive investment contracts	\$6,057	Discounted cash flow	Risk-adjusted discount rate	3.00% to 6.00%
			Current rate	6.00%

TIAA develops an estimate of fair value for the level 3 investments and provides information on the assumptions underlying the estimate as well as information regarding the unobservable inputs used in the valuation process. The plan sponsor's audit committee reviews information provided by the TIAA on an annual basis and considers whether any additional adjustments are necessary. At June 30, 2024 and 2023, the plan administrator used the TIAA's fair value estimates without adjustment.

5. Tax Exempt Status

The Plan has adopted a volume submitter plan subject to a favorable opinion letter from the IRS dated August 7, 2017. The plan administrator believes the Plan has been operated in accordance with the applicable provisions of the IRC. The Employer routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plan Compliance Resolution System. Accordingly, the plan administrator believes that the Plan and related trust are designed in accordance with applicable sections of the IRC and, accordingly, are exempt from income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of June 30, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Certified Investment Information

Management has elected to have the audits of the Plan performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, the Insurers of the Plan, have certified that the following investment information is complete and accurate:

- Fair value and contract value of investments and the carrying amount of notes receivable from participants as reflected in the Statements of Net Assets Available for Benefits as of June 30, 2024 and 2023.
- Investment income and interest income on notes receivable from participants as reflected in the Statement of Changes in Net Assets Available for Benefits for the Year Ended June 30, 2024.
- Investment information as reflected in Note 4 to these financial statements.
- Investment information reflected in the Schedule H, line 4i—Schedule of Assets (Held at End of Year) as of June 30, 2024.

As permitted by ERISA Section 103(a)(3)(C), the audit need not extend to any statements or information related to the certified investment information.

7. Party-in-Interest Transactions

TIAA and CREF are the Insurers of the Plan and hold and manage investments. Transactions with TIAA and CREF are exempt party-in-interest transactions, as defined by ERISA.

Charles R. Drew University Defined Contribution Plan

Notes to Financial Statements
For the Year Ended June 30, 2024

8. Plan Termination

The Employer has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are already 100 percent vested in their accounts.

9. Investment Contract with Insurance Company

The Plan holds a fully benefit-responsive investment contract with TIAA. TIAA holds the contributions in its general account. The contract is credited with interest at a guaranteed minimum rate of 3 percent and any additional amounts as declared by the TIAA Board of Trustees. The guaranteed investment contract issuer is contractually obligated to repay the principal and interest at the guaranteed rate to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by the Insurer, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

10. Non-Exempt Transactions

Certain of the participant contributions were not remitted within the maximum period of time permitted by the Department of Labor's Rules and Regulations and, therefore, constitute the lending of monies from the Plan to the Employer. These non-exempt transactions are detailed in the attached supplemental schedule, Schedule H, line 4a—Schedule of Delinquent Participant Contributions for the Year Ended June 30, 2024.

During 2025, the plan sponsor corrected the non-exempt transactions by allocating lost earnings to affected participants.
