Report of Independent Auditors

To the Management of Western Asset Management Company, LLC

Opinion

We have audited the accompanying financial statements of Western Asset China Bond Fund, L.L.C. (the "Fund"), which comprise the statement of net assets (in liquidation) as of December 31, 2024, the related statement of changes in net assets (in liquidation) for the period from March 1, 2024 to December 31, 2024, and the statements of operations (going concern basis) and of changes in net assets (going concern basis) for the period from January 1, 2024 to February 29, 2024, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (in liquidation) of the Fund as of December 31, 2024, the changes in its net assets (in liquidation) for the period from March 1, 2024 to December 31, 2024, and the results of its operations (going concern basis) and changes in its net assets (going concern basis) for the period from January 1, 2024 to February 29, 2024, in accordance with accounting principles generally accepted in the United States of America applied on the bases described in Note 1 and 2.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of Accounting

As discussed in Note 1 and 2 to the financial statements, the Investment Manager of the Fund approved a plan of liquidation on March 1, 2024, and the Fund determined liquidation is imminent. As a result, the Fund changed its basis of accounting on March 1, 2024 from the going concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements
December 31, 2024
(Expressed in U.S. Dollars)

1. Organization and Investment Objective

Western Asset China Bond Fund, L.L.C. (the “Fund”) was formed on March 31, 2019 as a Limited Liability Company (“LLC”) under the Delaware Limited Liability Company Act. Western Asset Management Company, LLC (“WAM”), a California corporation, is the Fund’s Investment Manager (the “Investment Manager”). Western Asset Management Company Limited (“WAMCL”), Western Asset Management Company Pte. Ltd. (“Western Asset Singapore”), Western Asset Management Company Ltd. (“Western Asset Tokyo”), Western Asset Management Company Distribuidora de Títulos e Valores Mobiliários Limitada (“Western Asset Brazil”), and Western Asset Management Company Pty. Ltd. (“Western Asset Melbourne”) are the sub-investment managers to the Fund. The Bank of New York Mellon, a wholly-owned subsidiary of The Bank of New York Mellon Corporation, is the custodian, transfer agent and administrator to the Fund.

The Fund’s investment objective is to invest primarily in debt securities or money market instruments listed or traded on Stock Exchanges, Inter-Bank Bond Market or other regulated markets in China which are either: (i) issued or guaranteed by local, city, state and national governments in China or their agencies (collectively, “PRC sovereign debt securities”); (ii) issued or guaranteed by corporations domiciled in China; (iii) issued or guaranteed by corporations which conduct the majority of their business in China or the majority of whose value is linked to their Chinese business; or (iv) denominated in China Yuan Offshore. It is not proposed to concentrate investments in any one industry or sector. For the avoidance of doubt, “PRC sovereign debt securities” include securities issued by China’s policy banks, which include the Export-Import Bank of China, the China Development Bank Corp. and the Agriculture Development Bank of China.

The Investment Manager decided to liquidate the Fund due to decreased net asset levels which did not allow the Investment Manager to manage the assets effectively. The liquidation of the Fund was considered imminent as of March 1, 2024 upon the plan of liquidation being approved by the Investment Manager. Additionally, the likelihood of the execution of the plan being blocked or the Fund returning from liquidation was remote and the liquidation was not imposed by other forces. The Fund began liquidation proceedings on March 1, 2024 and ceased investment operations on December 31, 2024. Beginning on December 31, 2024, the Fund expects to complete the liquidation within 180 days.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) for the period January 1, 2024 through February 29, 2024 (Going Concern Basis). In connection with the Fund’s liquidation, the Fund has adopted the liquidation basis of accounting in conformity with U.S. GAAP effective March 1, 2024.

Under the liquidation basis of accounting, assets and liabilities are measured at their estimated settlement amounts. The adoption of the liquidation basis of accounting did not have a material effect on the measurements of the assets and liabilities in liquidation. Assets were measured at

amounts which represent the expected amounts to be received upon disposition. Liabilities were measured at the amounts expected to be paid in carrying out the plan of liquidation, which were estimated based on historical expenses incurred. As of December 31, 2024, the net settlement value of the Fund's assets was equal to their fair value. The Fund intends to distribute any residual cash to the shareholders, upon settlement of the remaining payables.

The Fund is an investment company which follows accounting and reporting guidance in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification 946, Financial Services – Investment Companies.

Use of Estimates

The preparation of financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Cash

Cash consists of cash on deposit with financial institutions.

Cash held in banks periodically exceeds the Federal Deposit Insurance Corporation's (“FDIC”) insurance coverage of \$250,000, and as a result, there is a concentration of credit risk related to amounts in excess of the FDIC insurance coverage.

Security Transactions and Investment Income

Security transactions are accounted for as of trade date. The cost of securities delivered and the net gain or loss on securities sold are determined using the first-in, first-out method. Interest income earned on securities is recorded net of applicable withholding taxes on the accrual basis. Interest income includes accretion of discounts and amortization of premiums which are recorded using the effective yield method. To the extent any issuer defaults or a credit event occurs that impacts the issuer, the Fund may halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default or credit event.

Functional and Presentation Currency

Items included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates. Issuances, redemptions, and valuations of the shares are effected and denominated in the U.S. Dollars (“USD”).

Foreign Currency Translation/Transactions

Investment securities and other assets and liabilities denominated in foreign currencies are translated into USD amounts based upon prevailing exchange rates on the date of valuation. Purchases and sales of investment securities, income and expense items denominated in foreign currencies are

translated into USD amounts based upon prevailing exchange rates on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from fluctuations in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included within the net realized and unrealized gain or loss on investments on the Statement of Operations (Going Concern Basis).

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including exchange gains and losses on the settlement of forward foreign currency contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the USD equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains or losses arise from changes in the fair values of assets and liabilities, other than investments in securities and derivative contracts, on the date of valuation, resulting from changes in exchange rates.

Certain foreign security and currency transactions may involve considerations and risks not typically associated with those of USD denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

Income Taxes

For U.S. federal income tax purposes, the Fund is treated as a partnership. The shareholders are required to report their respective portion of the Fund's taxable income or loss on their own income tax returns and are liable for any related taxes thereon. Accordingly, no provision for federal or state taxes is made in the Fund's financial statements.

The Fund's federal and state income tax returns for the tax years for which the applicable statute of limitations have not expired are subject to examination by the Internal Revenue Service or state departments of revenue. There are currently no examinations being conducted of the Fund by the Internal Revenue Service or any other taxing authority.

The Fund is subject to the authoritative guidance with respect to accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination. Management has analyzed the Fund's tax positions for all open tax years and has concluded that as of December 31, 2024, there are no uncertain tax positions that would require financial statement recognition or disclosure. The Fund's policy is to recognize interest and penalties, if any, related to uncertain tax positions as a component of income tax expense.

2. Summary of Significant Accounting Policies (Continued)

Income Taxes (Continued)

The Fund recognizes interest and penalties related to the underpayment of income taxes in operating expenses within the Statement of Operations (Going Concern Basis). During the year ended December 31, 2024, no such interest and penalties were incurred.

Issuances and Redemptions of Shares of Participation

The net asset value of the Fund is determined on the relevant “Dealing Day”. A Dealing Day is every business day on which federal, state or local banks are open for business in New York and the New York Stock Exchange is open for trading. Issuances and redemptions of Fund shares are made on such days, based upon the closing net asset value.

The Investment Manager, may temporarily suspend the determination of the net asset value of the Fund, and the issuance and redemption of the Fund’s shares, and may postpone the date of payment of redemption proceeds if, among other reasons, during any period when it is not reasonably practicable for the Investment Manager to fairly determine the value of the Fund’s net assets. There were no such occurrences during the year ended December 31, 2024.

Distributions to Shareholders

Net investment income distributions and net realized or unrealized gains distributions will not be declared by the Fund on a regular basis, but may, however, be authorized and paid at such times as may be determined by the Investment Manager. There were no such distributions during the year ended December 31, 2024.

3. Investment Manager Fee

The Investment Manager’s fee is not charged to the Fund, but is paid directly by the shareholders in the Fund to the Investment Manager.

⁽²⁾ Net investment income per share has been calculated based upon average shares outstanding for the period.

⁽³⁾ Total return calculation is based on the value of a single share of participation outstanding throughout the period. It represents the percentage change in the net asset value per share between the beginning and end of the period. The total return is not annualized for periods less than a year.

The above ratios are calculated for the participating shares as a whole. An individual shareholder's total return and ratios may vary from these ratios based on the timing of capital share transactions.

6. Fund Investment Risks

Investment in Emerging Market Issuers

The Fund may invest in emerging market instruments which are subject to certain credit and market risks. The securities and currency markets of emerging market countries are generally smaller, less developed, less liquid and more volatile than the securities and currency markets of the United States and other developed markets. Disclosure and regulatory standards in many respects are less stringent than in other developed markets. There also may be a lower level of monitoring and regulation of securities markets in emerging market countries and the activities of investors in such markets and enforcement of existing regulations may be extremely limited. Political and economic structures in many of these countries may be in their infancy and developing rapidly, and such countries may lack the social, political and economic stability characteristics of more developed countries.

Investment in Non-U.S. Securities

The Fund invests in securities of non-U.S. issuers which present certain special risks, including those resulting from future political, legal, and economic developments, which could include changes in currency exchange rates or exchange control regulations, expropriation of assets, confiscatory taxation, nationalization of assets, imposition of withholding or other taxes, adverse changes in investment capital or exchange control regulations, political changes, diplomatic developments, difficulty in obtaining and enforcing judgments against non-U.S. entities, the possible imposition of the applicable country's governmental laws or restrictions, and the reduced availability of public

6. Fund Investment Risks (Continued)

Investment in Non-U.S. Securities (Continued)

information concerning issuers. Additionally, issuers of non-U.S. securities are not generally subject to uniform accounting, auditing and financial reporting standards or other regulatory practices and requirements comparable to those applicable to U.S. issuers. In the event of nationalization, expropriation or other confiscation of assets, the Fund could lose its entire investment in a security.

The costs associated with investment in debt securities of non-U.S. issuers, including withholding taxes, brokerage commissions and custodial fees, may be higher than those associated with investment in debt securities of U.S. issuers. In addition, non-U.S. securities transactions may be subject to difficulties associated with the settlement of such transactions. Non-U.S. markets have different clearance and settlement procedures which in some markets have at times failed to keep pace with the volume of transactions, thereby creating substantial delays and settlement failures. Delays in settlement could result in temporary periods when assets of the Fund are uninvested and no return is earned thereon. Settlement failures could also adversely affect the Fund's performance. The inability of the Fund to make intended security purchases due to settlement problems could cause it to miss attractive investment opportunities. Inability to dispose of a portfolio security due to settlement problems could result in losses to the Fund due to subsequent declines in value of the portfolio security.

Sovereign Debt Risk

The Fund may invest in sovereign debt instruments which can involve a high degree of risk. The governmental entity that controls the repayment of sovereign debt may not be able or willing to repay the principal and/or interest when due in accordance with the terms of the debt. A governmental entity's willingness or ability to repay principal and interest when due may be affected by, among other factors, its cash flow situation, the extent of its reserves, the availability of sufficient foreign exchange on the date a payment is due, the relative size of the debt service burden to the economy as a whole, the governmental entity's policy toward the International Monetary Fund, the political constraints to which a governmental entity may be subject, and changes in governments and political systems.

Interest Rate Risk

Interest rate risk is the risk that fixed income securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Fund is likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is used primarily as a measure of the sensitivity of a fixed income's market price to interest rate (i.e., yield) movements.

6. Fund Investment Risks (Continued)

Liquidity Risk

The Fund may invest in assets and derivatives that may not be readily available to sell or dispose of, including securities whose disposition is restricted by securities laws. The effect of liquidity risk is particularly pronounced when low trading volume, lack of a market maker, large position size, or legal restrictions (including daily price fluctuation limits or “circuit breakers” or an affiliation with the issuer of a security) limit or prevent the Fund’s ability to initiate a transaction, sell assets, or unwind derivative positions at desirable prices. The Fund is also exposed to liquidity risk when it has an obligation to purchase particular securities (for example, as a result of entering into reverse repurchase agreements, writing a put, or closing out a short position).

Concentration of Risk

To the extent the Fund concentrates its investments in one or more countries, the value of the Fund’s assets will be especially affected by economic, political and other factors affecting such country or countries, and may fluctuate more widely than the value of a fund that invests in a greater number of countries.

7. Contingencies and Commitments

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties, which provide general indemnifications. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. Based on experience, management is of the view that the risk of loss in connection with these potential indemnification obligations is remote; however, there can be no assurance that material liabilities related to such obligations will not arise in the future that could adversely impact the business of the Fund.

8. Subsequent Events

As of March 25, 2025, the date the financial statements were available to be issued, no subsequent events or transactions had occurred that would have materially impacted the financial statements as presented.
