Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: GRANT THORNTON LLP

(2) EIN: 36-6055558

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

The Plan Administrator
Mercy University Tax Deferred Annuity Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed audits of the financial statements of Mercy University Tax Deferred Annuity Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter - supplemental schedule required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from

the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Mercy University Tax Deferred Annuity Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Mercy University Tax Deferred Annuity Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was effective September 1, 1965.

General

The Plan is both a defined contribution and a tax-sheltered annuity 403(b) plan covering those employees over the age of 21 of Mercy University (the "University" or "Employer" or "Sponsor") who elect to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments. Teachers Insurance and Annuity Association of America ("TIAA"), College Retirement Equities Fund ("CREF"), and Empower Retirement, LLC ("Empower") serve as the recordkeepers for the Plan. TIAA, TIAA Trust, N.A. and Empower Trust Company, LLC are the custodians of the Plan.

Eligibility and Service Rules for Participation

Participation in the Plan is voluntary. Employees are eligible to contribute to the Plan as of the first of the month following their date of hire.

Participant Contributions

Each year employees decide how much they want to save in the Plan. They may contribute a fixed amount per pay period, or specify a maximum amount for the year. Each pay period, the election that they have made is deducted from their pay and deposited to their Plan account. Their annual contribution cannot exceed the maximum amount allowed under the Internal Revenue Service ("IRS") rules.

Age 50 Catch-Up Contributions

The Plan permits employees of age 50 or older to make additional employee contributions up to the amount allowed under the IRS rules.

Rollover Contributions

The Plan accepts eligible rollover distributions from another employer's 403(b), governmental 457(b), qualified retirement, pension, profit-sharing plan or individual IRA Rollover account.

Participant Accounts

Each participant's account is credited with allocations of (a) the participant's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested immediately upon entering the Plan. As contributions are fully vested, there are no forfeitures in the Plan.

Notes Receivable from Participants

The Plan has two types of loans which are as follows:

Inside the Plan Loans

The Plan allows for participants to borrow money from their accounts with TIAA. The amount that participants may borrow depends on their account balances. If participants obtain a loan, their account balances will be used as security, and they will have to repay the loan with interest. As of December 31, 2024 and 2023, outstanding balances of loans inside the Plan amounted to \$627,954 and \$512,796, respectively, which are included in notes receivable from participants on the accompanying statements of net assets available for benefits and have been certified by TIAA and CREF. The loans are secured by the balance in the participant's account. Loan interest rates are fixed for the duration of the loan and are based on the higher of the Moody's Corporate Bond Yield Average for the calendar month ending two months before the loan is issued or the interest rate credited before the annuity starting date, plus one percent. Rates range from 4.25 percent to 9.50 percent, as determined quarterly by the Plan Administrator, and are generally payable in installments over periods ranging from one to five years (unless the loan is used for the purchase of a primary residence, in which case the repayment period may be over a longer term). Principal and interest are paid ratably through monthly payroll deductions. A loan that is considered in default is reported as a deemed distribution, which may be a taxable event for the participant.

Outside the Plan Loans

The Plan also allows for participants to take loans from outside of the Plan with TIAA. These loan agreements are made separately with TIAA and participant accounts are held as collateral for such loans. As of December 31, 2024 and 2023, such collateral amounted to \$1,874 and \$3,253, respectively, which is included in the investments on the accompanying statements of net assets available for benefits and has been certified by TIAA and CREF.

Hardship Distribution/Withdrawal

A hardship distribution from a participant's elective deferral may be obtained by the participant to satisfy certain immediate and heavy financial need, after the participant has obtained all distributions, other than hardship distributions, and all nontaxable (at the time of the loan) loans currently available under all plans maintained by the employer. Any hardship distribution from elective deferrals will be limited, as of the date of distribution, to the participant's total elective deferrals to date reduced by the amount of any previous distributions made to the participant from a participant's elective deferral account.

Distributions

Participants may receive the full amount in their accounts when their employment terminates. Payments will be made as soon as reasonably possible following the termination of employment unless they make an election to postpone payment to a later date. Participants may take a distribution before age 59½ subject to applicable taxes. Retirement benefits must normally begin no later than April 1 of the calendar year following the year in which the participant attains age 70½ or, if earlier, April 1 following the calendar year in which the participant retires. Failure to begin annuity income by the required beginning date may subject the participant to a substantial federal tax penalty. Changes were made by the Setting Every Community Up for Retirement Enhancement Act ("SECURE"), which was part of the Further Consolidated Appropriations Act, signed by the President on December 20, 2019. Due to changes made by the SECURE Act, if a participant's 70th birthday is July 1, 2019 or later, a required withdrawal is not required until the participant reaches the age of 72, which increased to age 73 effective January 1, 2023.

Participant's Death Before Benefit Payment Date and Age 65

If a participant dies before beginning retirement benefits, the full current value of the annuity accumulation is payable as a death benefit. If a participant is married and benefits commenced before the participant's death, a surviving spouse will continue to receive income that is at least half of the annuity income payable during the joint lives of the participant and spouse (joint and survivor annuity). If a participant dies before annuity income begins, a surviving spouse will receive a benefit that is at least half of the full current value of the participant's annuity accumulation, payable in a single sum or under one of the income options offered by the Plan sponsor (pre-retirement survivor annuity).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value except for the fully benefit-responsive contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy prioritizes observable and unobservable inputs used to measure fair value into three levels, as described in Note 6.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and represents earnings from the Empower Fixed Income General Account and the TIAA Traditional Guaranteed Annuity account. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant's loan balance is reduced, and a benefit payment is recorded. There were \$14,719 deemed distributions for the year ended December 31, 2024.

Mercy University Tax Deferred Annuity Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2024 and 2023

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Plan Servicing Credit

This amount represents a suspense account under the Plan that shall be credited all amounts received by the Plan that do not consist of earnings on Plan investments or Plan contributions and are not specifically attributable to identified participant accounts. This account can be used to pay expenses incurred in connection with the operations of the Plan. Also, at the sole discretion of the Plan Sponsor, all amounts remaining in the account as of the last day of the Plan year may be allocated to the accounts of participants and beneficiaries who have account balances as of the allocation date. Any allocation will be made on either a per capita or pro rata basis. During the year ended December 31, 2024, the Plan received Plan Servicing Credits of \$39,653.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

NOTE 4 - TAX STATUS

On August 7, 2017, the IRS stated that the volume submitter adopted by the Plan, as then designed, qualifies under Internal Revenue Code ("IRC") Section 401 (a). The Plan has not received a determination letter specified to the Plan itself; however, the Plan Administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

NOTE 5 - CERTIFIED FINANCIAL INFORMATION

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF and Empower have certified that the following information in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, fully benefit-responsive investment contract, at contract value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.

- Total investment income and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2024.

NOTE 6 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liabilities; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Traditional Guaranteed Annuity - The TIAA Traditional Annuity is an unallocated fixed-rate guaranteed annuity contract offered by TIAA and CREF, an insurance company. TIAA Traditional Annuity is offered through a variety of contracts, some of which are fully benefit-responsive, such as Retirement Choice Plus Annuity ("RCP"), Supplemental Retirement Annuity ("SRA") and Group Supplemental Retirement Annuity ("GSRA") contracts, while others are not, such as Retirement Annuity ("RA"). The type of contract through which a participant allocates to TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional amounts paid, the degree of liquidity of the participant's accumulation and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional

amounts make up the crediting interest rate. The crediting interest rates for accumulating RA contracts were 5.25% and 6.50% as of December 31, 2024 and 2023, respectively.

The liquidity restrictions of the illiquid contracts (non-benefit-responsive) vary by type of annuity contracts held by the Plan, but generally consist of restrictions as to when lump sum payments are permitted, usually within 120 days following termination, if allowed at all. There are also restrictions on participant-initiated transfers and withdrawals to be paid out in annual installments of either five or 10 years or over 84 monthly installments. Some lump - sum withdrawals are subject to a 2.5% surrender charge. The restrictions on the redemption of TIAA Traditional Annuity accumulations could impact the value realized upon exiting the contract. Guaranteed annuity contracts are not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable.

The non-fully benefit-responsive annuity contracts are valued at fair value. Fair value is determined based upon a discounted cash flow and a theoretical exit value at the transfer date. Risk-adjusted discount rates are used as the significant unobservable inputs for valuation purposes.

TIAA-CREF Funds - The TIAA-CREF Funds are part of a Delaware statutory trust registered with the Securities Exchange Commission ("SEC") under the Investment Company Act of 1940 as an open-end management investment company. Each fund is a separate portfolio with its own investment objective and strategies. Investments in a fund enable a shareholder to acquire shares whose net asset value ("NAV") is calculated each business day. The value of a shareholder's investment is based upon the returns on the underlying assets in the Fund's portfolio. Daily unit values are listed on NASDAQ. To reduce market timing and excessive trading, shareholders will be locked out of a fund for 90 days if a sale/exchange, repurchase and resale/exchange within that fund is made within a 60-day period other than for TIAA-CREF Money Market Fund or TIAA-CREF Short-Term Bond Fund.

Empower Fixed Income General Account - The fund guarantees principal and credited interest for eligible participant-initiated withdrawals and transfers. The values are reported daily based on the valuation method as calculated by the annuity provider using observable inputs of existing contracts and readily available financial information. Guarantees are subject to the terms and conditions of the contract and the claims-paying ability of the insurer. Depending on the terms of the contracts, there may also be investment risks associated with certain plan sponsor actions, including, but not limited to, a termination of the contract that could result in a negative market value adjustment to the proceeds paid to the plan sponsor or an extended payment period.

Self-Directed Brokerage Account - The TIAA-CREF Self Directed Account (the "Self-Directed Account") is a self-directed account that allows participants to invest their account balances in any investment, as permitted by the Plan and in accordance with ERISA. Under this type of arrangement, participants can direct investments into the Self-Directed Account in addition to, or in lieu of, the various investment alternatives offered by the Plan.

Separate Accounts - Empower offers variable investment offerings through separate accounts, which are valued at NAV as a practical expedient, based on the market value of the underlying investments. The NAV is not a publicly-quoted price in an active market. These separate accounts invest in shares of underlying mutual funds. Currently, there are various separate accounts for participants to choose from. There are no redemption restrictions or unfunded commitments. These investments are not intended as vehicles for short-term trading. The underlying funds expressly reserve the right to curtail such short-term trading activity. They are a pooled separate account and a direct filing entity.

TIAA Real Estate Account (“REA”) is a separate account of TIAA and is registered with the SEC under the Securities Act of 1933 and the Securities Exchange Act of 1934. It is a variable annuity. Daily units for the REA are posted at TIAA.org. The REA generally invests in real estate properties and real estate related investments. The REA’s fair value is based on NAV as a practical expedient. The NAV is principally derived from the market value of the underlying real estate holdings or other real estate related investments. The NAV is not a publicly-quoted price in an active market. The value of a participants’ account is based upon the return on the underlying assets in the account, along with the income generated by those assets. They are a pooled separate account and a direct filing entity. There are no redemption restrictions or unfunded commitments, and in the event that the account’s liquidity is not sufficient to meet participant redemption demands, the TIAA General Account will purchase accumulation units issued by the TIAA General or the Real Estate Account in accordance with its liquidity guarantee.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

Purchases of Level 3 investments were \$641,183 for the Plan year ended December 31, 2024.

The following table presents information about significant unobservable inputs related to the Plan's investments in assets categorized as Level 3 in the fair value hierarchy at December 31, 2024 and 2023:

Type	2024 Fair Value	2023 Fair Value	Valuation Technique	Significant Observable Inputs	Range**
TIAA Traditional Annuity Accounts	\$ 11,168,779	\$ 11,163,339	Discounted cash flow	Risk-adjusted discount rate applied*	RA: 3.65% - 6.50% RC: 3.90% - 6.75%

* Unobservable inputs discount rate applied.

Increases (decreases) in the discount rate applied in isolation can result in significantly lower (higher) fair values.

** See Note 6 for definitions.

NOTE 7 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan has a fully benefit-responsive investment contract with TIAA. TIAA maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. The investment contract is included in the financial statements at contract value. Contract value represents contributions made under the contract, plus transfers to the fund and credited interest, less participant withdrawals, transfers out of the fund and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The investment contract does not have any restrictions that impact the ability of the Plan to collect the full contract value. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. TIAA may not terminate the contract at any amount less than the contract value.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2024 and 2023

TIAA is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with TIAA, but may not be less than 1%. Such interest rates are reviewed on a semi-annual basis for resetting. The crediting rate of the product will be established based on current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. These rates are established without the use of a specific formula. For the year ended December 31, 2024, the minimum interest rate was 4.75%.

NOTE 8 - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

All of the Plan investments as of December 31, 2024 and 2023 are managed by TIAA and CREF, and Empower. These entities are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Interest and dividends received by the Plan are net of fees charged by TIAA and CREF, and Empower. Notes receivable from participants also qualify as party-in-interest transactions and are also exempt from the prohibited transaction rules.

Fees paid by the Plan to TIAA for the investment management services and recordkeeping which were netted against investment income amounted to \$198,817 for the year ended December 31, 2024. Fees paid by the Plan to Empower for the year ended 2024 for investment management services and recordkeeping amounted to \$105.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 14, 2025, the date the financial statements were available to be issued.
