INDEPENDENT AUDITOR'S REPORT

Pactiv Evergreen Employee Benefits Administration Committee
Pension Plan for Pactiv Evergreen
Lake Forest, Illinois

Opinion

We have audited the financial statements of Pension Plan for Pactiv Evergreen (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

(Continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Pension Plan for Pactiv Evergreen (the Plan) is provided for general information only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined benefit plan that provides tax-deferred pension, death, and disability benefits to certain hourly employees at the Pennsylvania location of Fabri-Kal Corporation (the Corporation) and certain hourly and salaried former employees of Pactiv LLC who have met the service requirements as defined in the Plan document. The Plan Sponsor of the Plan is Pactiv LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective December 1, 2005, the Plan was closed to employees hired after December 1, 2005. The Plan has remained in effect only for those retirees currently receiving benefits under the Plan, active employees who were hired before December 2, 2005, and former employees who were employed on December 1, 2005, and have vested benefits.

Effective December 31, 2011, the Plan was amended to cease future accruals of benefits. Benefits earned prior to this date will not be reduced.

On October 1, 2021, Two Mitts, Inc. (parent company of the Corporation) sold the Corporation to a subsidiary of Pactiv Evergreen Inc. Through June 2022, the Plan was not impacted by the sale and all obligations of the Corporation and Plan carried forward under the ownership transfer. In June 2022, the Pactiv Evergreen Employee Benefits Administration Committee assumed administration of the Plan. Effective December 15, 2022, the Plan and the Pension Plan for Salaried Employees of Fabri-Kal Corporation (the Salaried Plan) began participating in the Pactiv General Employee Benefit Trust (the GEBT), and all assets of the Plan were transferred to the GEBT. Effective December 31, 2022, the net assets of the Pactiv Evergreen Pension Plan (the PEPP) merged into the Plan. The participants that merged into the Plan maintained the original provisions from PEPP which can be found in the PEPP Plan Document.

Effective March 6, 2023, Pactiv Evergreen Inc. announced the closing of their Canton, North Carolina and Olmsted Falls, Ohio locations. Effective December 31, 2023, the Plan was amended to cease future accruals of benefits for all participants who became a participant to the plan effective January 1, 2014 from PACE Industry Union-Management Pension Fund (Former PIUMPF Participants).

Effective December 31, 2023, certain Blue Ridge Paper Products Inc. collectively bargained employees had their defined benefit frozen. However, the Company continued to count service for the purposes of vesting and eligibility. No new entrants or additional benefit accrual occurred after December 31, 2023.

Effective July 1, 2024, the Plan offered a lump-sum window to those participants who had terminated employment on or before February 29, 2024, and remained active, had a vested benefit, and were not otherwise excluded from the Lump-Sum Opportunity under the terms of the Plan. Only those participants who were eligible and completed a valid window election received their benefit as of November 1, 2024. Approximately \$104 million of benefits were paid out, and the Plan's benefit obligation was reduced by approximately \$105 million (unaudited), as a result of the Lump-Sum Opportunity.

Effective September 30, 2024, the Pension Plan for Salaried Employees of Fabri-Kal Corporation (Salaried Plan) merged into the Plan. As a result of the merger, net assets totaling approximately \$8.7 million and accumulated plan benefit obligation totaling approximately \$12.0 million (unaudited) transferred into the Plan.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Effective October 1, 2024, the facilities at the Pine Bluff, Arkansas, Cadron Creek, Arkansas and Waynesville, North Carolina locations were sold to Suzano Packaging LLC. Any Employee who terminates from such locations shall no longer be considered Active or eligible to accrue benefit under the Plan.

Effective December 31, 2024, entry into the Plan was frozen for an Employee who is a member of USW Local 819 and who is employed at the Turlock, California location. Any Employee shall no longer be considered Active or become an Active Participant. No additional Credited Service shall be granted after such date.

Pactiv General Employee Benefit Trust: A portion of the Plan's investments are in the GEBT, which was established for the investment of assets of other defined benefit pension plans sponsored by Pactiv LLC (the Company) or its affiliates. The net assets of the GEBT are held by The Northern Trust Company (the GEBT Trustee). Net assets, investment income (loss), and administrative expenses are allocated to the individual plans by the GEBT Trustee based upon the terms of the Master Trust agreement.

As of December 31, 2023, and for the year then ended, the GEBT was comprised of the assets of the Plan and the Salaried Plan. From January 1, 2024 to September 30, 2024, the Plan and the Salaried Plan were participating in the GEBT. As of December 31, 2024, and for the period from October 1, 2024 through December 31, 2024, the Plan was the only plan participating in the GEBT.

Payment of Benefits: Under the Plan, participants who have reached age 65 are entitled to monthly pension benefits equal to their accrued benefit. A participant who has attained age 60 with five years of benefit service may retire early and receive monthly benefits equal to the accrued benefit reduced by 0.6% for each full month by which the early retirement date precedes the participant's normal retirement date. Participants may elect to receive benefits in the form of a joint and survivor annuity, a single lump sum payment or other optional forms of annuity payments. Death and disability payments are also available to participants and their beneficiaries.

Vesting: The participants' portion of the accrued benefits are fully vested after five years. There is no vesting prior to five years of service.

Funding Policy: The Plan sponsor has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. Minimum funding amounts of ERISA have been met.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits and the fair values of the Plan's interest in the GEBT.

Investment Valuation and Income Recognition: Investments in the Plan's interest in the GEBT and the Plan's other investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The oversight committee of the Plan sponsor determines the Plan's valuation policies utilizing information provided by the trustee. Purchases and sales of securities are recorded on a trade-date basis.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net investment gain from the GEBT includes the GEBT's gains and losses on investments bought and sold, as well as held during the year.

Interest income is recorded on the accrual basis. Net investment income of the GEBT is allocated to the Plan based upon its interest in net assets of the GEBT. Interest income on the investment contract is recorded as earned. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties: The Plan and GEBT invests in various investments. Investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks, as well as risks associated with global events. Due to the level of risk associated with certain investments, it is at least reasonably possible changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Payment of Benefits: Benefits are recorded when paid.

Plan Expense: The investment management fees are paid by the GEBT and are reflected in the financial statements of the GEBT as a reduction of investment return and included in the investment income (loss) reported by the GEBT. Certain expenses are paid by the Plan, such as actuarial and audit fees and Pension Benefit Guarantee Corporation (PBGC) premiums. During 2024 and 2023, respectively, approximately \$5.8 million and \$5.7 million of expenses were paid by the Plan. Certain expenses of the Plan are paid by the Corporation or the Company.

NOTE 3 – INVESTMENTS

Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset. The Plan utilizes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, other inputs that are observable, or can be corroborated by observable market data.

Level 3 – Inputs to the valuation methodology are both significant to the fair value measurement and unobservable.

NOTE 3 – INVESTMENTS (Continued)

The following valuation methods and assumptions used by the Plan to estimate the fair value of investments apply to investments held directly by the Plan and those held as underlying investments of the Master Trust:

Plan's Interest in the GEBT: The fair value of the Plan's interest in the GEBT reflects the Plan's interest in the fair value of the underlying net assets of the GEBT.

Exchange Traded Fund and Mutual Funds – The fair values of the exchange traded fund and mutual funds are determined by obtaining quoted prices on nationally and internationally recognized securities exchanges (Level 1 inputs).

Interest Bearing Funds – The fair value of interest-bearing funds is determined based upon the deposit account balance, with no discounts for credit quality or liquidity restrictions (Level 1 inputs).

Corporate Bonds – Corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings (Level 2 inputs). When quoted prices are not available for identical or similar bonds, the bond is valued using matrix pricing, a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

Limited Partnership – The investment in the limited partnership is valued at net asset value based on undistributed partners' capital as audited by the limited partnership's independent auditors. The fair value is calculated based on the fair value of underlying securities, which include investments in real estate funds. In general, fair values of publicly traded companies are based on the closing price quoted on a public exchange as of the last day of the reporting period. Fair values of privately held companies are based on reviewing the price of recent transactions or by calculating the fair value using a variety of industry-accepted techniques. The investment objective of the real estate partnership is to actively manage a core portfolio of primarily real estate investments located in the United States. The real estate partnership provides for quarterly redemptions by the GEBT with a 60-day advance notice requirement.

Collective Trust and Pooled Separate Account – The fair value of participation units owned by the GEBT for a collective trust and a pooled separate account are based on the net asset values per unit as reported by the fund managers as of the Plan's financial statement dates and recent transaction prices. The short-term collective trust and the pooled separate account provide for daily redemptions at reported net asset value per share, with no advance notice requirements.

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan's management believes that the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the methodologies used for the years ended December 31, 2024 and 2023.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those future benefit payments attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following significant actuarial assumptions were used in the actuarial calculation as of December 31, 2023 and 2022 are as follows:

Interest rate	2023: 5.03% using the settlement rate method 2022: 5.22% using the settlement rate method
Retirement rates	2023: Beginning at age 55 with 100% expected to retire by Age 70 for active participants. Beginning at age 60 with 100% expected to retire by Age 65 for eligible terminated vested participants. 2022: Beginning at age 55 with 100% expected to retire by Age 70 for active Legacy Evergreen and other participants. Beginning at age 60 with 100% expected to retire by Age 65 for eligible terminated vested participants.
Mortality rates	Amounts-weighted aggregate rates from the Pri-2012 Mortality Study mortality rates projected generationally from 2012 using Scale MP-2021 as adjusted in: 2023: November 2024 to reflect anticipated near-term and long-term endemic effect from COVID-19 2022: November 2023 to reflect anticipated near-term and long-term endemic effect from COVID-19
Cash balance account interest rates	2023: 4.17% to 5.20% based on employee group 2022: 2.90% to 4.00% based on employee group

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

At December 31, 2023, the actuarial present value of accumulated plan benefits is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 307,899,492
Participants with deferred benefits	615,815,046
Nonvested benefits	<u>4,166,079</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 927,880,617</u>

Changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2023, are as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2022	\$ 899,043,248
Increase (decrease) during the year attributable to:	
Interest	45,998,630
Assumption changes	18,895,931
Other changes	89,473
Benefits paid	<u>(36,146,665)</u>
Net increase	<u>28,837,369</u>
Actuarial present value of accumulated plan benefits as of December 31, 2023	<u>\$ 927,880,617</u>

The actuarial present value of the accumulated plan benefits at December 31, 2024 is not available as of the report issuance date.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

Certain investments held in the GEBT qualify as party-in-interest transactions as these investments are issued by the GEBT Trustee or affiliates of the GEBT Trustee and investment managers of the GEBT. The investment contract held by the Plan and issued by Equitable Life Insurance Society of the United States also qualifies as a party-in-interest investment.

Accounting, actuarial, and administrative services were rendered in the normal course of business by parties-in-interest, and the related fees were paid by the Plan. Trustee fees and investment advisory fees paid to The Northern Trust Company by the Plan are also party-in-interest transactions. An affiliate of the Company and Corporation provides certain investment, accounting and administrative services to the GEBT which are reimbursed by the GEBT at cost. These transactions qualify as party-in-interest and related party transactions.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in order of priority determined, in accordance with ERISA, applicable regulations thereunder, and the Plan document. In addition, different actuarial assumptions and factors may be applicable.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

NOTE 8 – INCOME TAX STATUS

The Plan received a determination letter dated October 19, 2021, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and tax exempt.

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

Schedule SB, line 24 — Change in Actuarial Assumptions

The plan reporting valuation reflects the following non-prescribed assumption changes:

- A change in the cash balance interest crediting rate for legacy Pactiv from 2.90 percent to 4.17 percent.
- A change in the cash balance interest crediting rate for legacy SIG from 4.00 percent to 5.20 percent.
- An update from the 417(e) 2023 mortality table to the 417(e) 2024 mortality table for optional form conversion factors that utilize the 417(e) basis.

The assumption changes were made to better reflect the anticipated plan experience. In aggregate, these changes did not reduce the funding shortfall by more than the thresholds stated in Internal Revenue Code Section 430(h)(5). Therefore, approval of the Commissioner is not required.
