## *Report of Independent Auditors*

To the Pension Committee and Participants of  
the Darling Ingredients Inc. Hourly Employees' Retirement Plan

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed an audit of the financial statements of the Darling Ingredients Inc. Hourly Employees' Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Darling Ingredients Inc. Hourly Employees' Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Darling Ingredients Inc. Hourly Employees' Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Darling Ingredients Inc. Hourly Employees' Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Darling Ingredients Inc. Hourly Employees' Retirement Plan's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Darling Ingredients Inc. Hourly Employees' Retirement Plan's ability to continue as a going concern for a reasonable period of time.

***Auditors' Responsibilities for the Audit of the Financial Statements (continued)***

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter—Supplemental Schedules Required by ERISA***

The supplemental schedules, including the Schedule H, Line 4i— Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule H, Line 4j— Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

***Other Matter—Supplemental Schedules Required by ERISA (continued)***

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**1. Description of Plan**

The following brief description of the Darling Ingredients Inc. Hourly Employees' Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

**General**

Darling Ingredients Inc. ("Darling" or the "Company") previously established a defined benefit retirement plan on January 1, 1973. National By-Products, LLC established the Darling National LLC Pension Retirement Plan on May 1, 1971. Effective January 1, 2008, the Darling National LLC Pension Retirement Plan was merged into the Plan and the Plan was restated. The Plan is subject to the provisions of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Eligible employees include hourly class employees and certain local union members and locations as defined in the plan document. An employee becomes a participant in the Plan on the earlier of January 1 or July 1 following completion of 1,000 hours of service in a consecutive 12-month period. Upon meeting the eligibility requirements, employees are recognized as a participant from the date of commencement of their service with the Company.

Effective December 31, 2011, the Plan was amended and restated to freeze the accrual of service, as defined in the Plan, for hourly class employees. Additionally, effective on this date, no hourly class employees or former hourly class employees can become an active participant.

Effective May 31, 2020, the Plan was amended to freeze entry into the Plan for all union employees and former union employees of the Company's Coldwater location. Effective on this date, no union employee or former union employee employed at this location could become an active participant and no inactive or former participant shall again become an active participant. Additionally, effective on this date, the accrued benefit for participants at this location was frozen and no additional benefits could be accrue.

*Plan Termination*

On November 6, 2023, the Plan Administrator resolved to terminate the Plan. As of the date of the report of independent auditors, the Plan has provided participant with a notice of termination. As part of the termination, participants retained all benefits they would have been entitled to receive prior to the termination. On May 28, 2025, a majority of assets totaling approximately \$13,900,000 were transferred out of the Plan. See Note 9 for further discussion on the Plan's termination.

**Pension Benefits**

The Plan provides an annual pension benefit based upon a benefits formula, as defined in the Plan, which applies a benefit multiple to a participant's length of employment. Any pension payable to a participant under an associated plan reduces the amount payable under the Plan.

**Vesting**

Employees are fully vested upon the earlier of five years of service or when the normal retirement age has been attained during service with the Company.

NOTES TO FINANCIAL STATEMENTS  
*As of December 31, 2024 and 2023, and for the Years then Ended*

---

**1. Description of Plan (continued)**

**Contributions and Funding**

The Plan is funded entirely through contributions by the Company. It is the Company's intention to make contributions to the Plan sufficient to meet the minimum funding requirements prescribed by ERISA. The Company's contributions to the Plan are based upon funding requirements as determined by the actuary. The Plan has met the ERISA minimum funding requirements for the plan years ending December 31, 2024 and 2023. Participants are neither required nor permitted to make contributions to the Plan.

**Administrative Expenses**

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The accompanying financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

**Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The Company determines the Plan's valuation policies using information provided by the investment advisors, custodian, and insurance company. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**Payment of Benefits**

Benefit payments to participants are recorded when paid.

NOTES TO FINANCIAL STATEMENTS  
*As of December 31, 2024 and 2023, and for the Years then Ended*

---

**2. Summary of Significant Accounting Policies (continued)**

**Recently Adopted and New Accounting Principles**

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, and subsequent amendments to the initial guidance, ASU 2019-10. This accounting standard changes the methodology for measuring credit losses on financial instruments and the timing of when such losses are recorded. ASU No. 2016-13 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2022. The Plan adopted the provisions of ASU 2016-13 for the year ended December 31, 2023. The adoption of this standard did not have a material impact on the Plan's financial statements.

**Subsequent Events**

Subsequent events have been evaluated through the date of the report of independent auditors, which is the date these financial statements were available to be issued. Other than the matter discussed in Note 10, there were no material subsequent events that required recognition or additional disclosure in the financial statements.

**3. Information Prepared and Certified by the Asset Custodian (unaudited)**

Certain information related to investments from participants disclosed in the accompanying financial statements and ERISA-required supplementary information, including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, dividends, and other income for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company), the custodian of the Plan.

**4. Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their years of service and a fixed benefit amount as defined in the Plan on the date the benefit information is presented (the valuation date).

The actuarial present value of accumulated plan benefits was determined by the Plan's consulting actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTES TO FINANCIAL STATEMENTS  
*As of December 31, 2024 and 2023, and for the Years then Ended*

**4. Actuarial Present Value of Accumulated Plan Benefits (continued)**

The significant actuarial assumptions used in the January 1, 2024 and 2023 valuations were:

Retirement Age:	Active and inactive participants are assumed to retire at 65.
Mortality:	2024 – Pri-2012 Blue collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2023)
	2023 – Pri-2012 Blue collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2022)
Interest Rate Used to Value Liabilities	4.70% as of January 1, 2024 5.75% as of January 1, 2023
Inflation:	2.40% increase per year as of January 1, 2024 2.40% increase per year as of January 1, 2023
Withdrawal Assumption	2024 – 2003 Society of Actuaries Small Plan Age Table, multiplied by 1.2.
	2023 – 2003 Society of Actuaries Small Plan Age Table, multiplied by 1.2.
Assumed Asset Return:	5.00% for the year ended December 31, 2024 6.15% for the year ended December 31, 2023

Actuarial present values of accumulated benefits were prepared by the actuary as of January 1, 2024 and 2023 for the fiscal years ended December 31, 2024 and 2023, respectively.

The actuarial present values of accumulated plan benefits are as follows at January 1:

	<u>2024</u>	<u>2023</u>
Vested benefits:		
Participants currently receiving payments	\$ 9,670,944	\$ 9,120,820
Inactive participants	7,309,850	6,228,800
Active participants	2,904,377	2,706,521
	<u>19,885,171</u>	<u>18,056,141</u>
Non-vested benefits	24,132	34,950
Total actuarial present value of accumulated plan benefits	<u>\$ 19,909,303</u>	<u>\$ 18,091,091</u>

NOTES TO FINANCIAL STATEMENTS  
*As of December 31, 2024 and 2023, and for the Years then Ended*

---

**4. Actuarial Present Value of Accumulated Plan Benefits (continued)**

The changes in the actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated benefits at January 1, 2023	\$ 18,091,091
Increase (decrease) attributable to:	
Increase for interest due to decrease in the discount period	1,013,861
Benefits paid	(930,460)
Benefits accumulated and plan experience	(271,336)
Change in assumptions	2,006,147
Actuarial present value of accumulated benefits at January 1, 2024	<u>\$ 19,909,303</u>

The actuarial services for the years ended December 31, 2024 and 2023 were provided by the Principal Financial Group. Refer to tables above for changes in actuarial assumptions.

The aforementioned actuarial assumptions are based on the assumptions that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

**5. Fair Value Measurements**

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

NOTES TO FINANCIAL STATEMENTS  
*As of December 31, 2024 and 2023, and for the Years then Ended*

---

**5. Fair Value Measurements (continued)**

- Level 2            Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3            Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Pooled separate accounts:* Valued at the net asset value ("NAV") of the units held by the Plan at year-end based on information reported by the custodian. The NAV, which is used as a practical expedient for fair value, of each of the separate accounts is calculated in a manner consistent with the U.S. GAAP for investment companies and is determinative of their fair value and represent the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded. Investments in these funds can be redeemed daily upon request. There were no significant unfunded commitments as of December 31, 2024 and 2023.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS  
*As of December 31, 2024 and 2023, and for the Years then Ended*

---

**5. Fair Value Measurements (continued)**

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient.

As of December 31, 2024:

<u>Investment</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
Pooled separate accounts	\$18,731,600	N/A	Daily	12 months

As of December 31, 2023:

<u>Investment</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
Pooled separate accounts	\$20,103,286	N/A	Daily	12 months

**6. Income Tax Status**

The Internal Revenue Service (“IRS”) has determined and informed the Company by letter dated February 21, 2018, stating that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (“IRC”). Although the plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

**7. Related Party and Party-in-Interest Transactions**

Certain Plan investments are shares of pooled separate accounts managed by Principal Life Insurance Company, which are members of the Principal Financial Group. Principal Trust Company and Principal Life Insurance Company are, collectively, the custodian of the Plan. Therefore, these transactions qualify as party in interest transactions.

Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. For the years ended December 31, 2024 and 2023, the Plan also made direct payments to the custodian totaling \$145,426 and 98,492, respectively. These costs incurred by the Plan are included in administrative expenses on the statements of changes in net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS  
*As of December 31, 2024 and 2023, and for the Years then Ended*

---

**8. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**9. Plan Termination**

On November 6, 2023, the Board of Directors of Darling Ingredients Inc. approved the termination of the Plan. Benefit accruals under the Plan had previously been frozen for different classes of employees on various dates, as described in Note 1. As a result of the termination resolution, all participants became fully vested in their accrued benefits as of October 31, 2024. The Plan's assets will be used to provide for all benefit liabilities under the Plan, either through the purchase of irrevocable annuity contracts from a third-party insurance company or, for eligible participants, through a one-time lump sum payment. The purchase of annuity contracts and distribution of lump sum payments are expected to occur as soon as administratively feasible following receipt of all required regulatory approvals.

For current retirees, the proposed termination will not affect or reduce monthly benefit amounts or the payment of monthly benefits. Retirees will continue to receive their monthly benefit payments as before.

For active employees and terminated vested employees, the termination will not eliminate or reduce vested pension benefits. As part of the plan termination process, certain participants will be given the option to receive a one-time lump sum payment or to have the plan purchase an annuity contract on their behalf based on their accrued benefit.

The net assets of the Plan will be allocated, as prescribed by the Employee Retirement Income Security Act (ERISA) and its related regulations, generally to provide benefits in the following order:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years, and further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), up to the applicable limitations.
3. All other vested benefits not insured by the PBGC.
4. All nonvested benefits.

NOTES TO FINANCIAL STATEMENTS  
*As of December 31, 2024 and 2023, and for the Years then Ended*

---

**9. Plan Termination (continued)**

The PBGC guarantees certain benefits under the Plan, subject to statutory limits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at the time of plan termination. Upon distribution of plan assets in satisfaction of accrued benefits, either through the purchase of an annuity contract or in another form as permitted by the Plan, all PBGC guarantees of benefits will end.

The Plan's financial statements have been prepared on the going concern basis of accounting as of December 31, 2024. The purchase of annuity contracts, distribution of lump sum payments, and final distribution of assets are expected to be completed in 2025.

**10. Subsequent Events**

Substantially all assets have been distributed of the Plan as of May 28, 2025. See Note 9 for further discussion.

#### Assumptions prescribed by law

Mortality	<a href="#">Before benefit payment period</a> IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
	<a href="#">During benefit payment period</a> IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

#### Assumptions selected by actuary

Inflation	<p>2.40% increase per year.</p> <p>Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.</p>
Asset return	<p>5.00% for the current plan year.</p> <p>The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.</p>
Expected expense	<p>The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.</p>
Retirement	<p>Active and inactive participants are assumed to retire at normal retirement age as defined in <a href="#">Plan provisions</a>.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>
Disability	<p>1987 Commissioner's Group Disability Table, six month elimination period, male and female.</p> <p>We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.</p>
Marriage	<p>75% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>

**Withdrawal** 2003 Society of Actuaries Small Plan Age Table, multiplied by 1.20.  
We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.20 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

**Form of benefit** Participants are assumed to receive their benefits on the normal form at the assumed retirement age.  
This assumption is based on the results of recent experience analysis and anticipated future experience.

#### Methods prescribed by law

**Liability measure** Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.50%.  
Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

**Benefit accrual** All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.  
The portion based on the plan's definition of accrued benefit.  
The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.  
The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

#### Methods selected by plan sponsor

##### Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

##### Yield curve rates

Full yield curve. Use the rates through the month of January.

##### PBGC premium basis

Full yield curve. Use the rates through the month of January.

#### Methods elected by actuary

##### Retirees

Assets and liabilities for current and future retirees are included.

##### Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality** Based on Pri-2012 Blue collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

**Mortality base rates** **Before benefit payment period**  
 Employee amount-weighted, male and female

**During benefit payment period**  
 Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

**Mortality improvement**

Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None <sup>1</sup>

<sup>1</sup>Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality documentation](#) for rationale and additional information.

Interest rate used to value liabilities

4.70%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Explanation of Plan Year  
Darling Ingredients Inc. Hourly Employees' Retirement Plan  
EIN 36-2495346 Plan No. 008

The plan year beginning 01/01/2024 reflects a short plan year ending on the termination date of 10/31/2024.

Schedule SB, Line 2a - Explanation of Assets  
Darling Ingredients Inc. Hourly Employees' Retirement Plan  
EIN 36-2495346 Plan No. 008

Line 2a includes assets allocated for retirees' guaranteed benefits of \$15,077.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age  
 Darling Ingredients Inc. Hourly Employees' Retirement Plan  
 EIN 36-2495346 Plan No. 008

Active participants are expected to retire at the plan's assumed retirement age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

Total			94.1741	6,184.3141
Average				65.67

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 1/16/2017.

#### Plan eligibility

Age	No minimum age.
Service	1,000 hours of service.
Class	Hourly class (paid on an hourly rate basis) and not an office or supervisory employee. Effective 12/31/2011 no employee who is a non-union employee shall become an active participant.

#### Normal retirement benefit

Age	Attained age 65, except for those hired after attained age 60 whose normal retirement date will be the first day of the plan year five years after the participant entered the plan.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	<p>\$10.00 times service prior to January 1, 1998, and \$20.00 times service on and after January 1, 1998, except location 63 which is \$25.00 times service. Service is limited to 30 years. Minimum benefit: Accrued benefit as of December 31, 1993.</p> <p>The calculated amount will be reduced by benefit payable to participant under any other pension or profit sharing plan the employer has contributed to on behalf of the participant after January 1, 1986.</p> <p>Effective 01/01/2008 for all locations (except for Coldwater location, and Local Union 431 &amp; 13573). Accrued benefit as of January 1, 2008 plus \$20 times accrual service after January 1, 2008.</p> <p>Effective 12/31/2011 benefits are frozen for all non-union locations.</p> <p>Coldwater location accrued benefit equals \$25 times all years of service. Service is limited to 30 years. Effective 05/31/2020 benefits are frozen.</p> <p>Local Union 431 and Local Union 13573 accrued benefits equal \$30 times all years of service.</p>

#### Early retirement benefit

Age	Attained age 55.
Service	Five years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 5% for each year that the early retirement date precedes the normal retirement date.

#### Late retirement benefit

Age	No maximum age.
Service	Same as normal retirement benefit.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on normal retirement date increased to recognize that the annuity commences subsequent to normal retirement date. Effective 01/01/2008: Greater of accrued benefit or accrued benefit on normal retirement date increased by late retirement factor.

#### Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

#### Disability benefit

Age	Attained age 60.
Service	20 years of vesting service. Effective 01/01/2008: 10 years of service.
Form	Monthly income payable until normal retirement, death, or recovery and a deferred annuity payable at the normal retirement date.
Amount	Accrued Benefit on normal retirement date assuming his employment and rate of compensation remain unchanged. Effective 01/01/2008: Accrued benefit on date of disability.

#### Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

#### Definitions

Optional forms of benefit payments	<p>The optional forms of benefit payments are:</p> <ul style="list-style-type: none"><li>• Monthly annuity payable for life, or 5, 10, or 45 years certain and life.</li><li>• Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100.</li></ul> <p>The optional form conversion basis is 7.5% interest and the mortality table in Revenue Ruling 95-6 for payments other than lump sums.</p>
------------------------------------	---

#### Changes in Principal Eligibility or Benefit Provisions

The report reflects a short plan year due to the plan termination date of 10/31/2024.

#### Significant Event

The following significant event occurred during the plan year:

The plan terminated effective 10/31/2024.

Schedule SB, Line 24 – Change in Actuarial Assumptions  
Darling Ingredients Inc. Hourly Employees' Retirement Plan  
EIN 36-2495346 Plan No. 008

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 6.15% to 5.00%. This rate is used in the calculation of the actuarial value of plan assets.
