INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Dominion Energy Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Dominion Energy Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for pension benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for pension benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information

prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Merger

As discussed in Note 1 to the financial statements, effective December 31, 2024 (the Merger Date), Dominion Energy Ohio Union Pension Plan and Dominion Energy Kewaunee Union Pension Plan merged into the Plan. The assets and liabilities of the respective plans were transferred into the Plan as of the Merger Date. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its

form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

DOMINION ENERGY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following brief description of the Dominion Energy Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

- a. **General**—The Plan is a defined benefit plan established to provide pension benefits to eligible employees of Dominion Energy, Inc. and certain of its subsidiaries (the Company) and Dominion Energy, Inc. (Dominion Energy) is the designated plan sponsor of the Plan. The plan administrator is Dominion Energy Services, Inc. (DES), a subsidiary of Dominion Energy. The Bank of New York Mellon Trust Company, N.A. (Bank of New York Mellon) is trustee of the Plan effective January 1, 2024. Prior to that date, the Northern Trust Company (Northern Trust) served as the trustee of the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Prior to July 1, 2021, non-union and certain union employees were eligible to participate immediately and vested after three years of service. Certain union employees could participate at the later of six months of service or age 21 and are vested after five years of service. Employees hired or rehired on or after July 1, 2021 are not eligible to participate in the Plan but will instead receive Company contributions under the Dominion Energy 401(k) Plan (formerly Dominion Energy Salaried Savings Plan) regardless of whether they elect to participate in the Dominion Energy 401(k) Plan.

The Plan's investment assets include an insurance contract with Equitable Financial Life Insurance Company (Equitable) and an interest in the Dominion Energy, Inc. Defined Benefit Master Trust (the Master Trust), a master trust established by Dominion Energy and administered by the trustee as defined by the Plan.

During 2024, Dominion Energy completed the sale of certain natural gas distribution utilities to Enbridge, Inc. Upon closing, the natural gas companies ceased to be participating employers in the Plan, which continues to be sponsored by Dominion Energy. All affected participants have been fully vested in their accrued benefits under the Plan upon the closing of the sale. Enbridge assumed a pro rata share of the Plan assets which reduced the Plan assets and accumulated benefit obligations by \$207,786,941 and \$210,801,358, respectively.

Effective December 31, 2024, the Dominion Energy Ohio Union Pension Plan (Ohio Plan) and the Dominion Energy Kewaunee Union Pension Plan (Kewaunee Plan) merged into the Plan. As a result, net assets available for benefits of \$996,042,508 and accumulated benefit obligations of \$268,896,341 were transferred into the Plan. This merger did not affect the participants' pension benefits because the benefit provisions of the merged plans were incorporated into the Plan.

- b. **Pension Benefits**—The Plan provides for retirement and surviving spouse benefits. The Plan's pension benefits are calculated using a variety of final average pay formulas depending upon the plan of origin and the participant's years of service, age at retirement and whether they are a non-union or union employee. Generally

the normal retirement age for the Plan is 65. In addition, the Plan contains a special retirement account (SRA) component that credits 2% of eligible pay each month. Effective May 1, 2022, certain existing participants of the Dominion Energy Pension Plan voluntarily elected to cease receiving compensation credits under the Plan's cash balance formula and instead receive Company contributions under the Dominion Energy 401(k) Plan regardless of whether they elect to participate in the Dominion Energy 401(k) Plan. The Plan permits early retirement beginning at age 55. If the participant is married at his or her benefit commencement date, the benefit can be paid in the form of a 50% joint and survivor annuity. Otherwise, the benefit is paid in the form of a single life annuity. Married participants may elect to receive their pension benefits in the form of a single life annuity, if their spouse consents to such an election, or in the form of a 75% or 100% joint and survivor annuity. The supplemental portion of the benefit may be paid in the form of a lump sum or as part of the monthly annuity.

- c. **401(h) Account - Medical Benefits**—The Plan includes a medical benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligations for certain retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (IRC). Separate accounts have been established and maintained in the Plan for the net assets related to the medical benefit component (401(h) accounts). In accordance with IRC Section 401(h), the Plan's investments in the 401(h) accounts may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Plan participants do not contribute to the 401(h) accounts. Employer contributions or qualified transfers to the 401(h) accounts are determined annually, separate from the funding requirements of the Plan, and are at the discretion of the plan sponsor. Any amounts attributed to forfeited benefits funded through the Plan must be applied to reduce future contributions to the 401(h) accounts. On satisfaction of all medical liabilities, any remaining amounts in the 401(h) accounts must be returned to the plan sponsor. The related obligations for health benefits are not included in this Plan's obligations presented in Note 6, however they are reflected as obligations in the financial statements of the Dominion Energy Retiree Health and Welfare Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a. **Basis of Accounting**—The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).
- b. **Use of Estimates**—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.
- c. **Risks and Uncertainties**—The Plan, through its interest in the Master Trust, utilizes various investment securities as more fully described in Notes 3 and 4. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Market volatility includes global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

- d. **Valuation of Investments**—All investments are at fair value, with the exception of the investment in immediate participation guarantee contracts and a guaranteed insurance contracts (GIC). Investment in the GIC with Equitable as held in the Plan, and investments in the immediate participation guarantee investment contracts with Equitable and Prudential, as held in the Master Trust, were entered into prior to 1992 and therefore grandfathered under applicable accounting guidance and are not subject to fair value measurement. These investments are valued at contract value, which represents aggregate amounts of contributions, interest and/or dividends earned thereon, less benefits paid and expenses. See Note 4 for further information on fair value measurements.
- e. **Income Recognition**—Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.
- f. **Administrative Expenses**—Expenses incurred directly in the administration of the Plan are paid by the Plan. The Master Trust pays investment management fees and other expenses and charges in connection with the purchase, sale, or disposition of securities and investments related to the assets of the Master Trust, which are netted with the net appreciation (depreciation) in fair value of investments reported in Note 3.
- g. **Payment of Benefits**—Benefit payments to participants are recorded upon distribution. Plan management also determined that the Plan made payments of benefits to participants covered by another pension plan sponsored by the Company during 2023 and 2022. Consequently, benefits paid to participants in the Statements of Changes in Net Assets Available for Benefits were decreased by \$50,943 for the year ended 2023. At December 31, 2023, a due from other plan of \$203,773 is recorded in the Statements of Net Assets Available for Benefits which includes \$152,830 related to 2022.
- h. **Actuarial Present Value of Accumulated Plan Benefits**—The actuarial present value of accumulated plan benefits is determined by an independent actuary as discussed in Note 6.

3. INTEREST IN MASTER TRUST

The Master Trust permits commingling of the trust assets of several defined benefit pension plans of Dominion Energy and its subsidiaries for investment and administrative purposes. The Master Trust is used solely for maintaining the assets of those plans, including separate accounts established under IRC Section 401(h). As of December 31, 2024 and 2023, the Plan's interest, including the 401(h) accounts, in the net assets of the Master Trust were approximately 100% and 84.1%, respectively, with varying interests in each of the Master Trust investment accounts. The 401(h) accounts' interests are also reported in the financial statements of the Dominion Energy Retiree Health and Welfare Plan.

Although assets are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating investment gains and losses to the participating plans based on the relationship of the interest of each plan to the total interests of the participating plans. In addition, the trustee maintains supporting records for the purpose of allocating investment gains and losses to the Plan assets designated to pay pension benefits, as well as to the Plan assets designated to pay medical benefits based on the relationship of the designated assets to the Plan's interest including the 401(h) accounts in the Master Trust.

The Asset Management Committee, appointed by the Chief Executive Officer of Dominion Energy, establishes investment guidelines for the Master Trust assets and allocate contributions to the various investment managers. The Administrative Benefits Committee administers the Plan and is made up of employees of DES which were appointed by the Chief Executive Officer of Dominion Energy. The net assets of the Master Trust and the Plan's interest including the 401(h) Accounts in the Master Trust at December 31, 2024, and 2023 are summarized as follows:

	2024		2023

4. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. Fair values are based on assumptions that market participants would use when pricing an asset or liability, including assumptions about risk and the risks inherent in valuation techniques and the inputs to valuations. Fair value measurements assume that the transaction occurs in the principal market for the asset or liability (the market with the most volume and activity for the asset or liability from the perspective of the reporting entity), or in the absence of a principal market, the most advantageous market for the asset or liability (the market in which the reporting entity would

be able to maximize the amount received or minimize the amount paid). The Plan applies fair value measurements to the Plan's investments in accordance with the requirements described below.

Inputs and Assumptions

The Plan maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring the fair value of its investments. Fair value is based on actively-quoted market prices, if available. In the absence of actively-quoted market prices, the Plan seeks price information from external sources, including broker quotes. When evaluating pricing information provided by brokers, the Plan considers whether the broker is willing and able to trade at the quoted price, if the broker quotes are based on an active market or an inactive market and the extent to which brokers are utilizing a particular model if pricing is not readily available. If pricing information from external sources is not available, or if the Plan believes that observable pricing is not indicative of fair value, judgment is required to develop the estimates of fair value. In those cases, the Plan must estimate prices based on available historical and near-term future price information and certain statistical methods that reflect market assumptions.

The inputs and assumptions used in measuring fair value for investments include the following:

- Quoted securities prices and indices
- Securities trading information including volume and restrictions
- Maturity
- Interest rates
- Credit quality

The Plan regularly evaluates and validates the inputs used to estimate fair value by several methods, including review and verification of models, as well as various market price verification procedures such as the use of multiple broker quotes to support the market price of the various investments in which the Plan transacts.

The Plan's interest in the Master Trust is determined based on the fair values of the underlying investments of the Master Trust, which have been determined as follows:

- *Cash and Cash Equivalents*—Represents interest-bearing cash and foreign cash. Interest-bearing cash is valued at cost plus accrued interest. The foreign cash balances are valued at the amount held and translated on the reporting date based on prevailing exchange rates. Cash and cash equivalents held in a variation margin account and with various brokers, are less liquid and therefore have been classified as Level 2. Foreign cash and interest-bearing cash are classified as Level 1.
- *Common and Preferred Stocks*—Investments in common stocks are valued at the closing price reported on the active market on which the individual securities are traded and classified as Level 1. Investments in preferred stocks are classified as Level 2 and are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar instruments, the instrument is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

- *Investment Contract*—Investment Contract with John Hancock was entered into after 1992 and is stated at fair value based on the fair value of the underlying securities as provided by the managers and include investments in U.S. government securities, corporate debt instruments, and state and municipal debt securities.
- *Corporate Debt Instruments*—Investments are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar instruments, the instrument is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available. During 2024, the Master Trust had purchases of \$11,578,917 of corporate debt instruments included in the Level 3 fair value category.
- *Government Securities*—Investments are valued using pricing models maximizing the use of observable inputs for similar securities.
- *Registered Investment Companies*—Includes investments that are valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and transact at that price and are deemed to be actively traded. Such investments are classified as Level 1. Additional investments are privately-held mutual funds that are not actively traded. The net asset values of these funds are calculated on a daily basis and are the values at which purchases, and sales are conducted. As the prices of privately-held funds are not publicly available, they are classified as Level 2.
- *Other Investments*—Investments represent participatory notes that are designated to offer a return linked to a particular underlying equity security and valued daily based on the price of the underlying security. As they are not actively traded, they are classified as Level 2.
- *Common/Collective Trust Funds*—Investments in common/collective trust funds are stated at the NAV as determined by the issuer of the common/collective trust funds and are based on the fair value of the underlying investments held by the fund less its liabilities. The NAV is used as a practical expedient to estimate fair value. The common/collective trust funds do not have any unfunded commitments and do not have any applicable liquidation periods or defined terms/periods to be held. The majority of common/collective trust funds have limited withdrawal or redemption restrictions during the term of the investment.
- *Alternative Investments*—Investments in real estate funds, private equity funds, debt funds and hedge funds are stated at fair value based on the NAV of the Plan's proportionate share of the funds' fair value as determined by reference to audited financial statements or NAV statements provided by the investment manager. The NAV is used as a practical expedient to estimate fair value.

In connection with alternative investments held in the Master Trust, the Master Trust (as a limited partner) makes capital commitments that are called over time as the general partner makes investments. Investment strategies of the alternative investments are real estate, private equity and debt-based and also include hedge

funds related to the debt investments. The typical term of these investments is 10-12 years. The Master Trust has limited withdrawal or redemption rights during the term of the investment. As a general rule, a limited partner's interest can be sold in the secondary markets subject to the approval of the general partner. Secondary markets tend to be illiquid especially during periods of market stress. Funds returned to the Master Trust as income, profits and capital are distributed over the term of the investment.

Presented below are the fair values, unfunded commitments and estimated liquidation periods for alternative investments held by the Master Trust at December 31, 2024 and 2023:

	2024			2023		
	Fair Value of Investments	Unfunded Commitments	Estimated Period of Liquidation (average years)	Fair Value of Investments	Unfunded Commitments	Estimated Period of Liquidation (average years)
Alternative investments:						
Real estate funds	\$ 38,241,740	\$ 59,496,381	3	\$ 74,459,552	\$ 45,635,922	3
Private equity funds	1,409,245,534	664,192,349	8	1,502,559,865	777,932,344	9
Debt funds	205,043,039	79,911,332	6	254,288,037	123,821,378	5
Hedge funds	339,592,327	—	N/A ⁽¹⁾	253,308,298	—	1
Total	\$ 1,992,122,640	\$ 803,600,062	7	\$ 2,084,615,752	\$ 947,389,643	7

(1) Investments in this class are generally comprised of funds with monthly or quarterly redemptions with varying notice periods ranging from 30-90 days. Certain funds have additional lock up provisions based on factors such as minimum time in the fund and maximum redemption amounts per transaction.

Levels

The Plan utilizes the following fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- *Level 1*—Quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access at the measurement date. This primarily includes exchange-listed securities.
- *Level 2*—Inputs other than quoted prices included within Level 1 that are either directly or indirectly observable for the asset, including quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets in inactive markets, inputs other than quoted prices that are observable for the asset, and inputs that are derived from observable market data by correlation or other means. This primarily includes certain Treasury securities, certain common and preferred stock, and corporate, state and municipal debt instruments.
- *Level 3*—Unobservable inputs for the asset, including situations where there is little, if any, market activity for the asset. This primarily includes insurance contracts and certain corporate debt instruments.

The fair value hierarchy gives the highest priority to quoted prices in active markets (Level 1) and the lowest priority to unobservable data (Level 3). In some cases, the inputs used to measure fair value might fall in different levels of the fair value hierarchy. In these cases, the lowest level input that is significant to a fair value measurement in its entirety determines the applicable level in the fair value hierarchy. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset.

Recurring Fair Value Measurements

Fair value measurements are separately disclosed below by level within the fair value hierarchy.

The following table presents the investments held in the Master Trust for the Plan and other employee benefit plans of Dominion Energy and its subsidiaries that are measured at fair value for each hierarchy level as of December 31, 2024 and 2023:

(1) Common/collective trust funds and an investment contract held within the Master Trust of \$1,476,664,458 and \$139,338,417, respectively, are not certified by the trustee as of December 31, 2024. Alternative investments of \$1,873,852,926 and \$1,636,107,515 at December 31, 2024 and 2023, respectively, are not certified.

(2) The 401(h) accounts interest in common/collective trust funds and an investment contract held within the Master Trust of \$93,200,848 and \$8,794,455, respectively, are not certified by the trustee as of December 31, 2024. 401(h) accounts interest in alternative

investments held in the Master Trust of 118,269,714 and \$116,122,470 are not certified by the trustees as of December 31, 2024 and 2023, respectively.

- (3) Net investment income derived from uncertified common/collective trust funds, alternative investments and investment contract held within the Master Trust is not certified. As a result, the Plan's interest in investment income within the Master Trust amounting to \$308,920,164 and \$123,674,850 for the years ended December 31, 2024 and 2023 are not certified.

All investment balances and investment information included in Notes 3 and 4, and supplemental schedule are certified, except for the information related to the Plan's interest in, income from the alternative investments that are part of the net assets of the Master Trust, and their respective unfunded commitments and estimated period of liquidation years. In addition, the fair value hierarchy categorization and leveling in Note 4 has been determined by the plan sponsor and is not certified.

6. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future benefit payments attributable under the Plan's provisions for service that employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected payment dates.

The actuarial present value of accumulated plan benefits presented in the accompanying financial statements is presented using the beginning of the year benefit information date. The actuarial present value of accumulated plan benefits is measured as of January 1, 2024, which is a proxy for December 31, 2023. The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective. Therefore the impact of the amendments described in Note 1 that occurred during 2024 are not reflected in the accumulated plan benefits. There were no amendments effective January 1 recognized in the actuarial present value of accumulated benefits below.

The actuarial present value of accumulated plan benefits as of December 31, 2023 is as follows:

Vested benefits:		
Participants and/or beneficiaries currently receiving benefits	\$	3,703,318,415
Other participants		1,374,853,545
Total vested benefits		5,078,171,960
Non-vested benefits		70,088,649
Total actuarial present value of accumulated plan benefits	\$	5,148,260,609

The changes in the actuarial present value of accumulated plan benefits from the previous valuation date are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2022	\$	5,091,860,611
Increase (decrease) attributable to:		
Benefits accumulated		57,728,831
Increase for interest due to the decrease in the discount period		412,594,045
Actuarial losses		2,323,450
Benefits paid		(416,686,787)
Change of assumptions		440,459
Net increase		56,399,998
Actuarial present value of accumulated plan benefits at December 31, 2023	\$	5,148,260,609

The significant actuarial assumptions used in determining accumulated plan benefits are as follows:

Discount Rate	8.35% compounded annually
Mortality	For non-disabled participants: The PRI-2012 Nondisabled Annuitant Mortality Table, blended 70% white collar and 30% blue collar, projected generationally using Scale MP-2020
Retirement	Annual estimated probability of retirement when eligible, from ages 55 to 70 and over, separated by union and non-union employees, with less than 30 years of service and with 30 or more years of service
SRA Interest Crediting Rate	4.47% for 2024 and 4.00% thereafter
Asset Valuation	Valuation assets are equal to the market value of assets as of the valuation date plus accrued contributions, if any

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may have been applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

7. FUNDING POLICY

The Company's funding policy is to make contributions in accordance with the provisions of ERISA. Contributions to the Plan are conditional on being deductible in the year deemed to have been made under Section 404 of the IRC. The cost of providing benefits is determined by an independent actuary to determine the normal cost and the target liability for retirement, termination and ancillary benefits. In addition to funding pension benefits, the Company also contributes for retiree medical benefits. The Plan met the minimum funding requirements of ERISA as of December 31, 2024 and 2023. The Company made no contribution during 2024 or 2023.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2024 and 2023, and for the years then ended, the Plan invested in a Master Trust managed by Bank of New York Mellon and Northern Trust, the trustees as defined by the Plan, and therefore, the related transactions qualify as exempt party-in-interest transactions. Fees paid by the Master Trust for investment management services are included as a reduction of the return earned on each fund. The Master Trust paid \$1,023,992 and \$1,112,279 to DES, the plan administrator, during 2024 and 2023, respectively, for costs associated with administration the Plan. The Plan paid \$11,779 and \$15,063 to DES, the plan administrator, during 2024 and 2023, respectively, for costs associated with administration of the Plan.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and any applicable collective bargaining agreement. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan Document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, as well as certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee while other benefits may not be provided for at all.

10. FEDERAL INCOME TAX STATUS

The Plan has obtained a determination letter from the Internal Revenue Service (IRS) dated April 8, 2021, in which the IRS determined that the Plan and related trust, at the time of the determination letter application, were designed in accordance with Section 401(a) of the IRC and therefore are exempt from federal income taxes under IRC Section 501(a). While some of the income from the Master Trust is considered exempt function income and therefore is exempt from income taxes, certain investments held in the Master Trust do generate income, as defined in IRC Section 512, that is subject to the unrelated business income tax ("UBIT") at a maximum rate of 37%. Any UBIT paid during the year is included in administrative expenses of the Master Trust.

In December 2016, the IRS began publishing a Required Amendments List (List) for individually designed plans which specifies changes in qualification requirements. The List is published annually and requires plans to be amended for each item on the List, as applicable, to retain its tax-exempt status. The Plan has been amended since applying for the determination letter; however, the plan administrator believes that the Plan and related trust are currently designed, have been amended and are being operated in compliance with the applicable requirements of the IRC and continues to be tax-exempt, except to the extent of any unrelated business income received. Therefore, no provision for income taxes has been included in the Plan's financial statements.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for pension benefits per the financial statements to the Form 5500:

	2024	2023
Net assets available for pension benefits per the financial statements	\$ 7,838,124,398	\$ 7,069,260,963
Net assets held in 401(h) accounts as assets in the Form 5500	494,644,685	501,697,970
Net assets per the Form 5500	\$ 8,332,769,083	\$ 7,570,958,933

The following is a reconciliation of the changes in net assets available for pension benefits per the financial statements to the Form 5500:

For the year ended December 31, 2024	Income from Master Trust	Benefits paid to participants	Transfer as part of sale
Amount per financial statements	\$ 408,787,793	\$ 422,659,811	\$ 207,786,941
Plus: amount related to 401(h) accounts	21,501,422	17,316,388	11,238,319
Amount per Form 5500	\$ 430,289,215	\$ 439,976,199	\$ 219,025,260

The net assets of the 401(h) accounts included in Form 5500 are not available to pay pension benefits, but can be used only to pay retiree health benefits. Likewise, the net assets available for pension benefits are not available to pay retiree health benefits, but can be used only to pay pension benefits.

12. SUBSEQUENT EVENTS

For the year ended December 31, 2024, subsequent events were evaluated through October 15, 2025, the date the financial statements are available to be issued. No events occurred that require additional disclosure or adjustments to the Plan's financial statements.

Form of Payment

For benefits other than the SRA, the cash balance formula, and the Part A formula for legacy Questar employees, 50% of participants are assumed to elect a single life annuity and 50% of participants are assumed to elect a 100% joint and survivor annuity.

For the Part A formula of legacy Questar employees, 60% of participants are assumed to take a lump sum payment at retirement, and of the remaining 40% of participants, married participants take 50% joint and survivor annuities and single participants take life annuities.

Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d)-1(f) (4) without application of generational mortality and without recognition of phase in of IRC §417(e)(3).

Percent married

For legacy Dominion, it is assumed that 75% of active male participants and 50% of active female participants are married to an eligible spouse.

For legacy Questar, it is assumed that 80% of males and 60% of females are married to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age

For legacy Dominion, males are assumed to be two years older than females.

For legacy Questar, males are assumed to be three years older than females.

Covered pay	Compensation assumed paid in the current year beginning on the valuation date is the current annual rate of pay
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the 100% Joint and Survivor form of payment for the Final Average Pay benefits and lump sum form of payment for the Cash Balance benefits.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS

Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Dominion Energy, Inc. regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Dominion Energy, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator Alight Solutions, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the plan sponsor, assumptions were made for missing or apparently inconsistent data elements as documented in the data question deliverables dated May, July and August 2024, and further summarized in the 2024 Data Process Report.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount Rate The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash Balance Interest Crediting Rate The plan credits interest to accounts on a daily basis using a rate annually equivalent to the 30-year Treasury rate for September of the previous year. The long-term estimate of the 30-year Treasury rate is 4.00% based on current conditions and future economic expectations.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Plan-related Expenses As required by regulations, plan-related expenses are calculated by estimating the expenses expected to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumed Return for Asset Smoothing The assumed return of 5.74% used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor's investment policy, we believe the rate to be above the third segment rate.

Rates of Increase in:

- **Compensation** The assumed compensation increases represent Dominion Energy's best estimate of future experience. The age-based assumed compensation increases for non-union participants and service-based assumed compensation increases for union participants are based on plan sponsor expectations informed by an experience study in 2021.

For the reasons described above, we believe that the assumption chosen does not significantly conflict with what would be reasonable.

- **National Average Wages (NAW) (e.g., Social Security Wage Bases)** The assumed NAW is based on assumed CPI as described below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on forecasts by

economists. The assumption is based on observations of current market data as well as future expectations.

We believe the assumption does not significantly conflict with what would be reasonable.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for plan funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for plan funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on the 2021 experience study factoring in future expectations of participant behavior.
Retirement	Retirement rates were based on the 2021 experience study factoring in future expectations of participant behavior.

Source of Prescribed Methods

Funding Methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Change in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430. The mortality table was updated to include one additional year of projected mortality improvement as required by guidance issued by IRS under IRC §430.
Change in methods since prior valuation	The target normal cost for the year was adjusted to reflect the effects of spin-offs of active employees to Enbridge.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Name	Dominion Energy Pension Plan
Valuation Date	January 1, 2024
Enrolled Actuary	Robert D. Winn
Enrollment Number	23-06988

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

- Cash balance and Special Retirement Account (SRA) interest crediting rate 4.47% for 2024; 4.00% thereafter. 2024 uses the actual 30-year Treasury rate with a September 2023 lookback

Plan-related expenses Assume 0.2% of market value of assets, not including any receivable contributions, plus the PBGC variable-rate premium due for the year. The amount included this year is \$14,138,686.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

Form of Payment

For benefits other than the SRA, the cash balance formula, and the Part A formula for legacy Questar employees, 50% of participants are assumed to elect a single life annuity and 50% of participants are assumed to elect a 100% joint and survivor annuity.

For the Part A formula of legacy Questar employees, 60% of participants are assumed to take a lump sum payment at retirement, and of the remaining 40% of participants, married participants take 50% joint and survivor annuities and single participants take life annuities.

Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d)-1(f) (4) without application of generational mortality and without recognition of phase in of IRC §417(e)(3).

Percent married

For legacy Dominion, it is assumed that 75% of active male participants and 50% of active female participants are married to an eligible spouse.

For legacy Questar, it is assumed that 80% of males and 60% of females are married to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age

For legacy Dominion, males are assumed to be two years older than females.

For legacy Questar, males are assumed to be three years older than females.

Covered pay	Compensation assumed paid in the current year beginning on the valuation date is the current annual rate of pay
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the 100% Joint and Survivor form of payment for the Final Average Pay benefits and lump sum form of payment for the Cash Balance benefits.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS

Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Dominion Energy, Inc. regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Dominion Energy, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator Alight Solutions, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the plan sponsor, assumptions were made for missing or apparently inconsistent data elements as documented in the data question deliverables dated May, July and August 2024, and further summarized in the 2024 Data Process Report.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount Rate The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash Balance Interest Crediting Rate The plan credits interest to accounts on a daily basis using a rate annually equivalent to the 30-year Treasury rate for September of the previous year. The long-term estimate of the 30-year Treasury rate is 4.00% based on current conditions and future economic expectations.

For the reasons discussed above, we believe the assumptions selected do not significantly conflict with what would be reasonable.

Plan-related Expenses As required by regulations, plan-related expenses are calculated by estimating the expenses expected to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumed Return for Asset Smoothing The assumed return of 5.74% used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor's investment policy, we believe the rate to be above the third segment rate.

Rates of Increase in:

- **Compensation** The assumed compensation increases represent Dominion Energy's best estimate of future experience. The age-based assumed compensation increases for non-union participants and service-based assumed compensation increases for union participants are based on plan sponsor expectations informed by an experience study in 2021.

For the reasons described above, we believe that the assumption chosen does not significantly conflict with what would be reasonable.

- **National Average Wages (NAW) (e.g., Social Security Wage Bases)** The assumed NAW is based on assumed CPI as described below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on forecasts by

economists. The assumption is based on observations of current market data as well as future expectations.

We believe the assumption does not significantly conflict with what would be reasonable.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for plan funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for plan funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on the 2021 experience study factoring in future expectations of participant behavior.
Retirement	Retirement rates were based on the 2021 experience study factoring in future expectations of participant behavior.

Source of Prescribed Methods

Funding Methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Change in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430. The mortality table was updated to include one additional year of projected mortality improvement as required by guidance issued by IRS under IRC §430.
Change in methods since prior valuation	The target normal cost for the year was adjusted to reflect the effects of spin-offs of active employees to Enbridge.

Schedule SB, Line 25 Change in Method

As a result of spin-offs of active employees on March 6, 2024 and May 31, 2024, the 2024 Target Normal Cost (TNC) was determined as the sum of the following:

- 1) Benefit accruals for the full year attributable to the retained population, determined as of the January 1, 2024 valuation; plus
- 2) Benefit accruals for the January 1, 2024 to March 6, 2024 partial year attributable to the first spun-off group (representing benefits expected to accrue for the pre-spin period). The partial year TNC for March spin-off participants is based on the methods used to determine the full year TNC in the January 1, 2024 valuation, with adjustments to reflect the period of accrual prior to spin-off, timing of salary increases and the effect of the service-based cash balance formula; plus
- 3) Benefit accruals for the January 1, 2024 to May 31, 2024 partial year attributable to the second spin-off group (representing benefits expected to accrue for the pre-spin period). The partial year TNC for May spin-off participants is based on the methods used to determine the full year TNC in the January 1, 2024 valuation, with adjustments to reflect the period of accrual prior to spin-off, timing of salary increases and the effect of the service-based cash balance formula; plus
- 4) Plan expenses for the full year were retained by DEPP.

Schedule SB, Part V Summary of Plan Provisions

The Dominion Pension Plan was originally effective July 1, 1945. The Dominion Questar Corporation Retirement Plan was originally effective January 1, 1936. The Dominion Pension Plan merged into the Dominion Questar Corporation Retirement Plan effective December 30, 2017, at which time the plan was amended and restated. The following plan provisions are based on the most recent restatement as of January 1, 2024.

This appendix provides a summary of plan provisions in sections aligned to supplemental schedules of the plan:

- Traditional plan salaried and union employees of Dominion Energy not eligible under other supplements described below (section B.1);
- Employees at the Millstone Power Station on the date Dominion Energy acquired the station, March 30, 2001 (section B.2);
- CNG employees who participated in the Pension Plan for Certain Acquired Operations Plan of Dominion merged into the Dominion Pension Plan on December 31, 2002 (section B.3);
- Cash balance plan non-union employees hired on or after January 1, 2008 and cash balance union employees hired on or after January 1, 2017 (section B.4);
- Participants in the Dominion Peoples Gas Union Pension Plan on the date it was merged into the Dominion Pension Plan, December 31, 2010 (section B.5);
- Participants in the Questar Corporation Retirement Plan (QCRP) prior to the merger with the Dominion Pension Plan, December 30, 2017 (section B.6);
- Participants eligible for benefits under the Transmission Union Employee Supplement, merged into the Dominion Energy Pension Plan on December 31, 2020 (section B.7)

Other provisions may apply to legacy populations within the plan.

Payment Options:

- Immediate lump sum – equal to the account balance;
- Immediate annuity; or
- Deferred annuity – paid in same form and beginning at the same time as the Old Plan or New Plan retirement benefit.

Annuity Options:

- Retirement-eligible terminated participant – Same as payment options for remaining retirement benefit.
- Deferred vested terminated participant – single life annuity or 50% joint and survivor annuity, if paid as an immediate annuity. Same as payment options for remaining retirement benefit, if paid as a deferred annuity.

Annuity Conversion Basis: The SRA is converted from an account balance to a single life annuity at benefit commencement age using the section 417(e) applicable mortality table and the 30-year Treasury bond rate used for interest crediting in the year of benefit commencement. All other payment options are converted using the Plan's actuarial equivalence basis for payment options.

Monthly preretirement death benefit

Old Plan: For participants who die while actively employed, the surviving spouse will receive an immediate monthly income under the Old Plan payable for life equal to 50% of the participant's accrued benefit at the date of death. For terminated vested participants who die, the surviving spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option. The spouse may elect to defer the survivor benefit until normal retirement date.

New Plan: For non-union participants who were in the plan on December 31, 2000 and who die while actively employed, the surviving spouse will receive an immediate monthly income payable for life equal to 50% of the participant's accrued benefit at the date of death under the New Plan formula valued under the 50% joint and survivor option and with the a) and the b) pieces of the New Plan formula reduced for early retirement using the active

Ages	Yearly Reduction %
35-55	3.000%
30-35	0.500%
<30	0.333%

For non-union employees who become participants on or after January 1, 2001 and who die while actively employed, the surviving spouse will receive a monthly retirement income under the New Plan formula payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option. The spouse may elect to defer the survivor benefit until normal retirement date.

The SRA is payable to the surviving spouse of an active vested participant who dies, as either:

- a) an immediate lump sum;
- b) an immediate annuity payable for the spouse's lifetime; or
- c) an annuity deferred to the date of benefit commencement for the remaining death benefit and payable for the spouse's remaining lifetime.

For terminated vested participants who die, the surviving spouse will receive a monthly retirement income under the Old Plan formula and the a) and the b) pieces of the New Plan formula payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option. The same SRA payment options apply to surviving spouses of deceased vested terminated participants as summarized above for spouses of deceased active participants.

Early retirement

The monthly pension benefit determined as of the early retirement date under the normal retirement formula with the following reductions:

Old Plan: The benefit is unreduced upon attainment of age 60 and completion of 30 years of credited service.

Otherwise, the benefit amount based on final average pay in part (a) above is reduced 1/4% for each month by which the participant's 60th birthday or early retirement date, if later, precedes his unreduced retirement date, plus 1/2% for each of the next sixty months by which the benefit commencement date precedes age 60; and the benefit amount based on the Social Security benefit in part (b) above is reduced 5/9% for each month within the first sixty months, and 5/18% for each month within the next sixty months by which the benefit commencement date precedes NRD.

New Plan: The benefit is unreduced upon attainment of age 60.

Otherwise, the benefit is reduced 1/4% for each month within the first 24 months by which the participant's benefit commencement date precedes age 60, plus 1/2% for each month within the next 36 months by which the benefit commencement date precedes age 58.

SRA: The SRA as of the early retirement date is payable as an immediate lump sum or immediate annuity taken in the same optional form as the monthly pension benefit.

Temporary Supplementary Early Retirement Allowance

Monthly benefit payable to age 62, starting at the later of benefit commencement age or age 55, in an amount equal to credited service (not to exceed 30 years) multiplied by \$5.

Additional Supplementary Early Retirement Allowance

Monthly benefit payable to age 62, starting at the later of benefit commencement age or age 55, in an amount equal to credited service earned before December 31, 2002 (not to exceed 30 years) multiplied by \$15.

Postponed retirement

The late retirement income will be the normal retirement benefit calculated using credited service, final average earnings, Social Security benefit, and SRA compensation and interest credits as of the late retirement date.

Deferred vested termination

Union Participants or Non-Union Participants prior to January 1, 2001: The termination benefit for vested Union participants or vested non-union participants who terminate prior to January 1, 2001 is equal to the accrued benefit. The benefit is payable any time after attainment of age 55 reduced as an early retirement benefit, or at age 65. In the case of early retirement benefits for terminated vested participants, the unreduced retirement date is the normal retirement date.

Non-Union Participants on or after January 1, 2001: The termination benefit for vested non-union participants who terminate on or after January 1, 2001 is equal to the accrued benefit. The benefit is payable any time after attainment of age 55 with the Old Plan benefit reduced as an early retirement benefit, or at age 65. In the case of early retirement benefits for terminated vested participants, the unreduced retirement date is the normal retirement date. The a) and the b) pieces of the New Plan benefit are reduced in accordance with the table of factors below, or are payable without reduction at age 65.

New Plan: The accrued benefit payable at normal retirement date under the Old Plan and New Plan formulas based on final average earnings and Social Security amount at the date of disability. Vesting and credited service continue to accrue until the earlier of recovery from disability and normal retirement date.

The SRA is available as an immediate lump sum or immediate annuity at disability. No further compensation credits are granted to the SRA after disability. If an immediate lump sum or immediate annuity is not elected, the disabled participant may take a deferred annuity reflecting additional interest credits after disability at the same time and in the same form as the remaining retirement benefit.

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are as follows:

- 50% joint and survivor annuity
- 75% joint and survivor annuity
- 100% joint and survivor annuity
- Social Security leveling option to age 62

Forms of payment available for the SRA are described above.

Pension Increases

Old Plan: Benefits in payment will be increased by $\frac{1}{2}$ of the first five percentage points increase in the Consumer Price Index each year. For Union participants, the cost-of-living adjustment applies only to benefits based on credited service earned before January 1, 2003

Annuity Options:

- Retirement-eligible terminated participant – Same as payment options for remaining retirement benefit.
- Deferred vested terminated participant – single life annuity or 50% joint and survivor annuity, if paid as an immediate annuity. Same as payment options for remaining retirement benefit, if paid as a deferred annuity.

Annuity Conversion Basis: The SRA is converted from an account balance to a single life annuity at benefit commencement age using the section 417(e) applicable mortality table and the 30-year Treasury bond rate used for interest crediting in the year of benefit commencement. All other payment options are converted using the Plan's actuarial equivalence basis for payment options.

Monthly preretirement death benefit

The surviving spouse will receive an immediate monthly income payable for life equal to 50% of the participant's accrued benefit at the date of death valued under the 50% joint and survivor option with the Old Plan benefit and the a) and the b) pieces of the New Plan benefit reduced for early retirement using the active early retirement factors. For benefit commencement before the participant's earliest retirement date, benefits are further reduced for ages below 55 as follows:

Ages	Yearly Reduction %
35-55	3.000%
30-35	0.500%
<30	0.333%

The spouse may elect to defer the survivor benefit until normal retirement date.

The SRA is payable to the surviving spouse of an active vested participant who dies as either:

- a) an immediate lump sum;
- b) an immediate annuity payable for the spouse's lifetime; or
- c) an annuity deferred to the date of benefit commencement for the remaining death benefit and payable for the spouse's remaining lifetime.

B.6. Questar

Plan Provisions

The term "Old Plan" in this section describes the plan provisions for legacy Questar employees for service earned through December 31, 2017. The term "New Plan" describes the plan provisions for service earned on or after January 1, 2018.

Covered employees

Employees who were eligible to participate in the Dominion Questar Corporation Retirement Plan as of December 30, 2017. Legacy Questar employees hired or rehired on or after July 1, 2010 are not eligible for the benefits described in this section.

Participation date

Date of becoming a covered employee.

Definitions

Vesting service

Old Plan: A year of Vesting Service is granted for each 12-month period measured from date hire (or anniversary of date of hire) during which an employee works 1,000 hours.

New Plan: Based on elapsed time from January 1, 2018.

Credited service

Old Plan: A year of Credited Service is granted for each 12-month period measured from date hire (or anniversary of date of hire) through December 31, 2017 during which a participant works 2,080 hours. Fractional service is granted for participants who work over 1,000 hours but less than 2,080 hours. For the final partial year of employment, fractional service is granted based on 1,000 hours rather than 2,080, provided that the termination is due to death, normal/early retirement, or to receive an enhanced benefit.

New Plan: Based on elapsed time from January 1, 2018. Service is awarded for each calendar month in which at least one hour of service is worked.

Compensation

Old Plan: Wages for purposes of income tax withholding, including base salary, overtime, bonuses, commissions and shift differential. Compensation also includes deemed compensation for qualifying periods of military service and salary reduction contributions to the Dominion Questar Employee Investment Plan, Cafeteria Plan, and IRC Section 132(f)(4) transportation benefits.

Compensation does not include reimbursements or other expense allowances, fringe benefits, income from stock options, moving expenses, nonqualified deferred compensation, cash or stock signing/retention bonuses after January 1, 2003, or loan

forgiveness. Compensation also does not include welfare benefits such as vacation sales, payment at termination for unused vacation or paid leave, and severance payments.

For 2018 and later, Old Plan compensation is 120% of New Plan compensation.

New Plan: Actual base salary paid including any amounts deferred under Code sections 125, 132(f)(4) and 401(k), plus merit lump sum payments.

Final average compensation

Old Plan: The annual average of the highest 72 consecutive semi-monthly periods (or 36 consecutive months, if applicable) of compensation out of the last 120 months of employment.

New Plan: The annual average of the highest 60 consecutive months of compensation out of the last 120 months of employment.

Covered Compensation

The average (without indexing) of the contribution and benefit bases in effect under Section 230 of the Social Security Act for each year in the 35-year period ending in the calendar year in which the employee attains (or will attain) Social Security Retirement Age.

Social Security wage base

The projected amount of the participant's primary Social Security benefit according to the law in effect at the date of termination of employment assuming no future earnings.

Normal Retirement Date (NRD)

First of the month coinciding with or next following the attainment of age 65.

Monthly pension benefit

The Old Plan benefit for service prior to January 1, 2018, plus the New Plan benefit for service on or after January 1, 2018, plus the Special Retirement Account benefit.

Old Plan: One-twelfth of

- a) Basic Benefit: 1.3% of final average compensation times credited service up to 25 years, plus 0.5% of final average compensation times credited service in excess of 25 years, plus
- b) Permanent supplement: The excess of final average compensation over Covered Compensation times credited service up to 25 years times a Supplemental Factor based on retirement age and year of birth and summarized in the table below:

September of the preceding year, subject to a minimum rate of 1.5%.

Payment Options:

- Immediate lump sum – equal to the account balance;
- Immediate annuity; or
- Deferred annuity – paid in same form and beginning at the same time as the Old Plan or New Plan retirement benefit.

Annuity Options:

- Retirement-eligible terminated participant – Same as payment options for remaining retirement benefit.
- Deferred vested terminated participant – single life annuity or 50% joint and survivor annuity, if paid as an immediate annuity. Same as payment options for remaining retirement benefit, if paid as a deferred annuity.

Annuity Conversion Basis: The SRA is converted from an account balance to a single life annuity at benefit commencement age using the section 417(e) applicable mortality table and the 30-year Treasury bond rate used for interest crediting in the year of benefit commencement. All other payment options are converted using the Plan's actuarial equivalence basis for payment options.

Monthly preretirement death benefit

Old Plan: For participants who are eligible for normal or early retirement or have 25 years of service, the spousal annuity is the spousal portion of the 50% Survivor Annuity Option. The Basic Benefit portion of the death benefit is reduced by 2.5% per year for benefit commencement prior to age 62.

For participants who die before meeting the above requirements, the spousal benefit is the spousal portion of the Qualified Joint and Survivor Annuity (actuarially reduced 50% Survivor Annuity Option). The Basic Benefit portion of the death benefit is reduced by 3% per year (for actives) or 6% per year (for terminated vested participants) for benefit commencement prior to age 65.

New Plan: For employees who die while actively employed, the surviving spouse will receive an immediate monthly income payable for life in an amount equal to 50% of the participant's accrued benefit at the date of death under the New Plan formula valued under the 50% joint and survivor option and with the a) and b) pieces of the New Plan formula reduced for early retirement using the active early retirement factors. For benefit commencement before the participant's earliest retirement date,

the benefit under the a) and b) pieces of the New Plan formula is further reduced for ages below 55 as follows:

Ages	Yearly Reduction %
35-55	3.000%
30-35	0.500%
<30	0.333%

The spouse may elect to defer the survivor benefit until normal retirement date.

The SRA is payable to the surviving spouse of an active vested participant who dies, as either:

- a) an immediate lump sum;
- b) an immediate annuity payable for the spouse's lifetime; or
- c) an annuity deferred to the date of benefit commencement for the remaining death benefit and payable for the spouse's remaining lifetime.

For unmarried vested participants who die while in active service or after termination, the SRA is payable as an immediate lump sum to the named beneficiary.

For terminated vested participants who die, the surviving spouse will receive a monthly retirement income under the Old Plan formula and the a) and the b) pieces of the New Plan formula payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option. The same SRA payment options apply to surviving spouses of deceased vested terminated participants as summarized above for spouses of deceased active participants.

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are as follows:

- 50% joint and survivor annuity
- 75% joint and survivor annuity
- 100% joint and survivor annuity
- Social Security leveling option to age 62

Forms of payment available for the SRA are described above.

Description of Weighted Average Retirement Age
as of January 1, 2024

See Schedule SB, Part V – Statement of Actuarial Assumptions/Methods for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

Schedule SB, Line 25 Change in Method

As a result of spin-offs of active employees on March 6, 2024 and May 31, 2024, the 2024 Target Normal Cost (TNC) was determined as the sum of the following:

- 1) Benefit accruals for the full year attributable to the retained population, determined as of the January 1, 2024 valuation; plus
- 2) Benefit accruals for the January 1, 2024 to March 6, 2024 partial year attributable to the first spun-off group (representing benefits expected to accrue for the pre-spin period). The partial year TNC for March spin-off participants is based on the methods used to determine the full year TNC in the January 1, 2024 valuation, with adjustments to reflect the period of accrual prior to spin-off, timing of salary increases and the effect of the service-based cash balance formula; plus
- 3) Benefit accruals for the January 1, 2024 to May 31, 2024 partial year attributable to the second spin-off group (representing benefits expected to accrue for the pre-spin period). The partial year TNC for May spin-off participants is based on the methods used to determine the full year TNC in the January 1, 2024 valuation, with adjustments to reflect the period of accrual prior to spin-off, timing of salary increases and the effect of the service-based cash balance formula; plus
- 4) Plan expenses for the full year were retained by DEPP.

Schedule SB, Part V Summary of Plan Provisions

The Dominion Pension Plan was originally effective July 1, 1945. The Dominion Questar Corporation Retirement Plan was originally effective January 1, 1936. The Dominion Pension Plan merged into the Dominion Questar Corporation Retirement Plan effective December 30, 2017, at which time the plan was amended and restated. The following plan provisions are based on the most recent restatement as of January 1, 2024.

This appendix provides a summary of plan provisions in sections aligned to supplemental schedules of the plan:

- Traditional plan salaried and union employees of Dominion Energy not eligible under other supplements described below (section B.1);
- Employees at the Millstone Power Station on the date Dominion Energy acquired the station, March 30, 2001 (section B.2);
- CNG employees who participated in the Pension Plan for Certain Acquired Operations Plan of Dominion merged into the Dominion Pension Plan on December 31, 2002 (section B.3);
- Cash balance plan non-union employees hired on or after January 1, 2008 and cash balance union employees hired on or after January 1, 2017 (section B.4);
- Participants in the Dominion Peoples Gas Union Pension Plan on the date it was merged into the Dominion Pension Plan, December 31, 2010 (section B.5);
- Participants in the Questar Corporation Retirement Plan (QCRP) prior to the merger with the Dominion Pension Plan, December 30, 2017 (section B.6);
- Participants eligible for benefits under the Transmission Union Employee Supplement, merged into the Dominion Energy Pension Plan on December 31, 2020 (section B.7)

Other provisions may apply to legacy populations within the plan.

B.1. Salaried and Hourly (Traditional Pension)

Plan Provisions

The term "Old Plan" in this section describes the plan provisions for non-union participants for service earned before January 1, 2001. "New Plan" describes the plan provisions for service earned on or after January 1, 2001 for non-union participants hired before January 1, 2008. Union participants hired before January 1, 2017 generally participate in Old Plan provisions, except as noted.

Covered employees

Old Plan: Non-Union participants hired before January 1, 2001, and Union participants hired before January 1, 2017.

New Plan: Effective January 1, 2001 for non-Union participants hired before January 1, 2008.

Participation date

Old Plan: Employees became eligible to participate in the plan on the first day of the month coincident with or next following the later of age 21 and six months of employment.

New Plan: Non-Union employees became eligible to participate in the plan as of the later of date of hire and attainment of age 18. Those Non-Union employees ineligible to participate under the Old Plan as of December 31, 2000 were eligible to participate on January 1, 2001 if they were at least age 18 on that date.

Definitions

Vesting service

Old Plan: Total number of plan years during which the employee has completed at least 1,000 hours of service and has attained age 18 or older.

New Plan: Based on elapsed time from date of hire.

Credited service

Service prior to December 31, 2000 determined under provisions of the Old Plan for both salaried and union. Service after January 1, 2001 based on elapsed time from date of hire. Service is awarded for each calendar month in which at least one hour of service is worked and union participants receive one year upon completion of at least 1,000 hours of service.

Compensation

Compensation for periods period to January 1, 2001 determined under prior plan provisions.

For hourly union, the basic annual rate of pay including any amounts deferred under Code sections 125, 132(f)(4) and 401(k), plus differential wage payments and merit lump sum payments.

SCHEDULE SB ATTACHMENTS

For salaried, actual base salary paid including any amounts deferred under Code sections 125, 132(f)(4) and 401(k), plus differential wage payments and merit lump sum payments.

Final average earnings

For hourly union, the annual average of the highest 60 consecutive months of compensation. For salaried, the annual average of the highest 60 consecutive months of compensation out of the last 120 months of employment.

Social Security benefit

The projected amount of the participant's primary Social Security benefit according to the law in effect at the date of termination of employment assuming no future earnings.

Normal Retirement Date (NRD)

First of month coinciding with or next following the attainment of age 65.

Monthly pension benefit

Hourly Union receive the Old Plan benefit for all service, plus the Special Retirement Account benefit. Salaried receive the Old Plan benefit for service prior to January 1, 2001, plus the New Plan benefit for service on or after January 1, 2001, plus the Special Retirement Account benefit.

Old Plan: One-twelfth of

- a) 2.03% (2.00% for union employees) of final average earnings times credited service up to 30 years, minus
- b) 2.00% of the Social Security benefit times credited service up to 30 years.

New Plan: One-twelfth of

- a) 1.80% of final average earnings times credited service up to 30 years (30 year service cap includes credited service under the Old Plan formula), minus
- b) 1.50% of the Social Security benefit times credited service up to 30 years (30 year service cap includes credited service under the Old Plan formula)

Special Retirement Account (SRA)

Pay Credits: 2.00% of compensation, beginning January 1, 2001 for salaried participants and January 1, 2003 for union participants.

Payment Options:

- Immediate lump sum – equal to the account balance;
- Immediate annuity; or
- Deferred annuity – paid in same form and beginning at the same time as the Old Plan or New Plan retirement benefit.

Annuity Options:

- Retirement-eligible terminated participant – Same as payment options for remaining retirement benefit.
- Deferred vested terminated participant – single life annuity or 50% joint and survivor annuity, if paid as an immediate annuity. Same as payment options for remaining retirement benefit, if paid as a deferred annuity.

Annuity Conversion Basis: The SRA is converted from an account balance to a single life annuity at benefit commencement age using the section 417(e) applicable mortality table and the 30-year Treasury bond rate used for interest crediting in the year of benefit commencement. All other payment options are converted using the Plan's actuarial equivalence basis for payment options.

Monthly preretirement death benefit

Old Plan: For participants who die while actively employed, the surviving spouse will receive an immediate monthly income under the Old Plan payable for life equal to 50% of the participant's accrued benefit at the date of death. For terminated vested participants who die, the surviving spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option. The spouse may elect to defer the survivor benefit until normal retirement date.

New Plan: For non-union participants who were in the plan on December 31, 2000 and who die while actively employed, the surviving spouse will receive an immediate monthly income payable for life equal to 50% of the participant's accrued benefit at the date of death under the New Plan formula valued under the 50% joint and survivor option and with the a) and the b) pieces of the New Plan formula reduced for early retirement using the active

early retirement factors. For benefit commencement before the participant's earliest early retirement date, the benefit under the a) and b) pieces of the New Plan formula is further reduced for ages below 55 as follows:

Ages	Yearly Reduction %
35-55	3.000%
30-35	0.500%
<30	0.333%

For non-union employees who become participants on or after January 1, 2001 and who die while actively employed, the surviving spouse will receive a monthly retirement income under the New Plan formula payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option. The spouse may elect to defer the survivor benefit until normal retirement date.

The SRA is payable to the surviving spouse of an active vested participant who dies, as either:

- a) an immediate lump sum;
- b) an immediate annuity payable for the spouse's lifetime; or
- c) an annuity deferred to the date of benefit commencement for the remaining death benefit and payable for the spouse's remaining lifetime.

For terminated vested participants who die, the surviving spouse will receive a monthly retirement income under the Old Plan formula and the a) and the b) pieces of the New Plan formula payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option. The same SRA payment options apply to surviving spouses of deceased vested terminated participants as summarized above for spouses of deceased active participants.

Early retirement

The monthly pension benefit determined as of the early retirement date under the normal retirement formula with the following reductions:

Old Plan: The benefit is unreduced upon attainment of age 60 and completion of 30 years of credited service.

Otherwise, the benefit amount based on final average pay in part (a) above is reduced 1/4% for each month by which the participant's 60th birthday or early retirement date, if later, precedes his unreduced retirement date, plus 1/2% for each of the next sixty months by which the benefit commencement date precedes age 60; and the benefit amount based on the Social Security benefit in part (b) above is reduced 5/9% for each month within the first sixty months, and 5/18% for each month within the next sixty months by which the benefit commencement date precedes NRD.

New Plan: The benefit is unreduced upon attainment of age 60.

Otherwise, the benefit is reduced 1/4% for each month within the first 24 months by which the participant's benefit commencement date precedes age 60, plus 1/2% for each month within the next 36 months by which the benefit commencement date precedes age 58.

SRA: The SRA as of the early retirement date is payable as an immediate lump sum or immediate annuity taken in the same optional form as the monthly pension benefit.

Temporary Supplementary Early Retirement Allowance

Monthly benefit payable to age 62, starting at the later of benefit commencement age or age 55, in an amount equal to credited service (not to exceed 30 years) multiplied by \$5.

Additional Supplementary Early Retirement Allowance

Monthly benefit payable to age 62, starting at the later of benefit commencement age or age 55, in an amount equal to credited service earned before December 31, 2002 (not to exceed 30 years) multiplied by \$15.

Postponed retirement

The late retirement income will be the normal retirement benefit calculated using credited service, final average earnings, Social Security benefit, and SRA compensation and interest credits as of the late retirement date.

Deferred vested termination

Union Participants or Non-Union Participants prior to January 1, 2001: The termination benefit for vested Union participants or vested non-union participants who terminate prior to January 1, 2001 is equal to the accrued benefit. The benefit is payable any time after attainment of age 55 reduced as an early retirement benefit, or at age 65. In the case of early retirement benefits for terminated vested participants, the unreduced retirement date is the normal retirement date.

Non-Union Participants on or after January 1, 2001: The termination benefit for vested non-union participants who terminate on or after January 1, 2001 is equal to the accrued benefit. The benefit is payable any time after attainment of age 55 with the Old Plan benefit reduced as an early retirement benefit, or at age 65. In the case of early retirement benefits for terminated vested participants, the unreduced retirement date is the normal retirement date. The a) and the b) pieces of the New Plan benefit are reduced in accordance with the table of factors below, or are payable without reduction at age 65.

Age	Reduction %	Age	Reduction %
55	55%	60	35%
56	52%	61	30%
57	48%	62	23%
58	44%	63	16%
59	40%	64	9%

plus

For participants who have an SRA balance, either:

- SRA determined as of termination date payable as an immediate lump sum or an immediate annuity; or
- SRA determined as of retirement date payable as an annuity in the same form as the remaining retirement benefit.

Preretirement spouse benefit

The monthly preretirement death benefit payable on behalf of an active or terminated vested employee is as described in the section above.

Disablement

Old Plan: The accrued benefit payable immediately based on credited service, final average compensation and Primary Insurance Amount at the date of disability.

New Plan: The accrued benefit payable at normal retirement date under the Old Plan and New Plan formulas based on final average earnings and Social Security amount at the date of disability. Vesting and credited service continue to accrue until the earlier of recovery from disability and normal retirement date.

The SRA is available as an immediate lump sum or immediate annuity at disability. No further compensation credits are granted to the SRA after disability. If an immediate lump sum or immediate annuity is not elected, the disabled participant may take a deferred annuity reflecting additional interest credits after disability at the same time and in the same form as the remaining retirement benefit.

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are as follows:

- 50% joint and survivor annuity
- 75% joint and survivor annuity
- 100% joint and survivor annuity
- Social Security leveling option to age 62

Forms of payment available for the SRA are described above.

Pension Increases

Old Plan: Benefits in payment will be increased by $\frac{1}{2}$ of the first five percentage points increase in the Consumer Price Index each year. For Union participants, the cost-of-living adjustment applies only to benefits based on credited service earned before January 1, 2003

New Plan: None.

remaining retirement benefit, if paid as a deferred annuity.

Annuity Conversion Basis: The SRA is converted from an account balance to a single life annuity at benefit commencement age using the section 417e applicable mortality table and the 30-year Treasury bond rate used for interest crediting in the year of benefit commencement. All other payment options are converted using the Plan's actuarial equivalence basis for payment options.

Monthly preretirement death benefit

The surviving spouse will receive a monthly retirement income under the Old Plan formula and the a) and the b) pieces of the New Plan formula payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option.

The spouse may elect to defer the survivor benefit until normal retirement date.

The SRA is payable to the surviving spouse of an active vested participant who dies as either:

- a) an immediate lump sum;
- b) an immediate annuity payable for the spouse's lifetime; or
- c) an annuity deferred to the date of benefit commencement for the remaining death benefit and payable for the spouse's remaining lifetime.

For unmarried vested participants who die while in active service or after termination, the SRA is payable as an immediate lump sum to the named beneficiary.

- Deferred vested terminated participant – single life annuity or 50% joint and survivor annuity, if paid as an immediate annuity. Same as payment options for remaining retirement benefit, if paid as a deferred annuity.

Annuity Conversion Basis: The SRA is converted from an account balance to a single life annuity at benefit commencement age using the section 417(e) applicable mortality table and the 30-year Treasury bond rate used for interest crediting in the year of benefit commencement. All other payment options are converted using the Plan's actuarial equivalence basis for payment options.

Monthly preretirement death benefit

For participants who were in the plan on December 31, 2005 and who die while actively employed, the surviving spouse will receive an immediate monthly income payable for life equal to 50% of the participant's accrued benefit at the date of death valued under the 50% joint and survivor option and with the Old Plan benefit, the a) and the b) pieces of the New Plan benefit and the Permanent Supplement reduced for early retirement using the active early retirement factors. For benefit commencement before the participant's earliest retirement date, this benefit is further reduced for ages below 55 as follows:

Ages	Yearly Reduction %
35-55	3.000%
30-35	0.500%
<30	0.333%

For employees who become participants on or after January 1, 2006, the surviving spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option. The spouse may elect to defer the survivor benefit until normal retirement date.

The SRA is payable to the surviving spouse of an active vested participant who dies as either:

- an immediate lump sum;
- an immediate annuity payable for the spouse's lifetime; or
- an annuity deferred to the date of benefit commencement for the remaining death benefit and payable for the spouse's remaining lifetime.

B.6. Questar

Plan Provisions

The term "Old Plan" in this section describes the plan provisions for legacy Questar employees for service earned through December 31, 2017. The term "New Plan" describes the plan provisions for service earned on or after January 1, 2018.

Covered employees

Employees who were eligible to participate in the Dominion Questar Corporation Retirement Plan as of December 30, 2017. Legacy Questar employees hired or rehired on or after July 1, 2010 are not eligible for the benefits described in this section.

Participation date

Date of becoming a covered employee.

Definitions

Vesting service

Old Plan: A year of Vesting Service is granted for each 12-month period measured from date hire (or anniversary of date of hire) during which an employee works 1,000 hours.

New Plan: Based on elapsed time from January 1, 2018.

Credited service

Old Plan: A year of Credited Service is granted for each 12-month period measured from date hire (or anniversary of date of hire) through December 31, 2017 during which a participant works 2,080 hours. Fractional service is granted for participants who work over 1,000 hours but less than 2,080 hours. For the final partial year of employment, fractional service is granted based on 1,000 hours rather than 2,080, provided that the termination is due to death, normal/early retirement, or to receive an enhanced benefit.

New Plan: Based on elapsed time from January 1, 2018. Service is awarded for each calendar month in which at least one hour of service is worked.

Compensation

Old Plan: Wages for purposes of income tax withholding, including base salary, overtime, bonuses, commissions and shift differential. Compensation also includes deemed compensation for qualifying periods of military service and salary reduction contributions to the Dominion Questar Employee Investment Plan, Cafeteria Plan, and IRC Section 132(f)(4) transportation benefits.

Compensation does not include reimbursements or other expense allowances, fringe benefits, income from stock options, moving expenses, nonqualified deferred compensation, cash or stock signing/retention bonuses after January 1, 2003, or loan

forgiveness. Compensation also does not include welfare benefits such as vacation sales, payment at termination for unused vacation or paid leave, and severance payments.

For 2018 and later, Old Plan compensation is 120% of New Plan compensation.

New Plan: Actual base salary paid including any amounts deferred under Code sections 125, 132(f)(4) and 401(k), plus merit lump sum payments.

Final average compensation

Old Plan: The annual average of the highest 72 consecutive semi-monthly periods (or 36 consecutive months, if applicable) of compensation out of the last 120 months of employment.

New Plan: The annual average of the highest 60 consecutive months of compensation out of the last 120 months of employment.

Covered Compensation

The average (without indexing) of the contribution and benefit bases in effect under Section 230 of the Social Security Act for each year in the 35-year period ending in the calendar year in which the employee attains (or will attain) Social Security Retirement Age.

Social Security wage base

The projected amount of the participant's primary Social Security benefit according to the law in effect at the date of termination of employment assuming no future earnings.

Normal Retirement Date (NRD)

First of the month coinciding with or next following the attainment of age 65.

Monthly pension benefit

The Old Plan benefit for service prior to January 1, 2018, plus the New Plan benefit for service on or after January 1, 2018, plus the Special Retirement Account benefit.

Old Plan: One-twelfth of

- a) Basic Benefit: 1.3% of final average compensation times credited service up to 25 years, plus 0.5% of final average compensation times credited service in excess of 25 years, plus
- b) Permanent supplement: The excess of final average compensation over Covered Compensation times credited service up to 25 years times a Supplemental Factor based on retirement age and year of birth and summarized in the table below:

- Deferred vested terminated participant – single life annuity or 50% joint and survivor annuity, if paid as an immediate annuity. Same as payment options for remaining retirement benefit, if paid as a deferred annuity.

Annuity Conversion Basis: The SRA is converted from an account balance to a single life annuity at benefit commencement age using the section 417(e) applicable mortality table and the 30-year Treasury bond rate used for interest crediting in the year of benefit commencement. All other payment options are converted using the Plan's actuarial equivalence basis for payment options.

Supplemental Retirement Allowance

All employees who were participants on December 31, 2002 will receive \$440 per month payable from date of retirement until age 62.

Monthly preretirement death benefit

For participants who were in the plan on December 31, 2002 and who die while actively employed, the surviving spouse will receive an immediate monthly income payable for life equal to 50% of the participant's accrued benefit at the date of death valued under the 50% joint and survivor option and with the Old Plan benefit, the a) and the b) pieces of the New Plan benefit and the Permanent Supplement reduced for early retirement using the active early retirement factors. For benefit commencement before the participant's earliest retirement date, this benefit is further reduced for ages below 55 as follows:

Ages	Yearly Reduction %
35-55	3.000%
30-35	0.500%
<30	0.333%

For employees who become participants on or after January 1, 2003, the surviving spouse will receive a monthly retirement income payable for life in an amount equal to 50% of the amount the participant would have received if he had survived and elected to commence receiving a retirement income at the earliest date allowed under the plan, payable under the 50% joint and survivor option.

The spouse may elect to defer the survivor benefit until normal retirement date.

The SRA is payable to the surviving spouse of an active vested participant who dies as either:

- a) an immediate lump sum;
- b) an immediate annuity payable for the spouse's lifetime; or

Benefits Paid Upon the Following Events

Normal retirement

The monthly pension benefit determined as of NRD

Early retirement

Old Plan: The benefit is determined under the normal retirement formula reduced 1/4% for each month within the first 24 months by which the participant's benefit commencement date precedes age 62 plus 5/12% for each month within the next 60 months by which the benefit commencement date precedes age 60. The Permanent Supplement is unreduced for early retirement from active status.

New Plan: The benefit is determined under the normal retirement formula with the a) and the b) pieces of the New Plan formula reduced 1/4% for each month within the first 24 months by which the participant's benefit commencement date precedes age 60 plus 1/2% for each month within the next 36 months by which the benefit commencement date precedes age 58. The SRA as of the early retirement date is payable as an immediate lump sum or immediate annuity in the same optional form as the remaining retirement benefit.

Postponed retirement

The late retirement income will be the normal retirement benefit calculated using credited service, final average compensation, Primary Insurance Amount, and SRA compensation and interest credits, and/or cash balance compensation and interest credits as of the late retirement date, as appropriate.

Deferred vested termination

The termination benefit is equal to the accrued benefit. The benefit is payable any time after attainment of age 55 with the Old Plan benefit, the a) and the b) pieces of the New Plan benefit, and the Permanent Supplement reduced in accordance with the table of factors below, or without reduction at age 65.

plus,

For participants who have an SRA balance, either:

- SRA determined as of termination date payable as an immediate lump sum or an immediate annuity; or
- SRA determined as of retirement date payable as an annuity in the same form as the remaining retirement benefit.

Preretirement spouse benefit

The monthly preretirement death benefit payable on behalf of an active or terminated vested employee is as described in the section above.

Disability

For participants who become disabled prior to January 1, 2003, benefit accrued to date of disability without reduction.

For participants who become disabled after December 31, 2002, the accrued benefit payable at normal retirement date under the Old Plan and New Plan formulas based on final average compensation and Primary Insurance Amount at the date of disability, and credited service accrued to the earlier of recovery from disability and normal retirement date. The SRA is available as an immediate lump sum or an immediate annuity at disability. No further compensation credits are granted after disability. If an immediate lump sum or immediate annuity is not elected, the disabled participant may take a deferred annuity reflecting additional interest credits after disability at the same time and in the same form as the remaining retirement benefit. The Permanent Supplement is also available to disabled participants at normal retirement.

Other Plan Provisions

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are as follows:

- 50% joint and survivor annuity
- 75% joint and survivor annuity
- 100% joint and survivor annuity
- Social Security leveling option to age 62

Forms of payment available for the SRA are described above.
