Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **DELOITTE & TOUCHE LLP**

(2) EIN: **13-3891517**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Williston Basin Interstate Pipeline Company Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Williston Basin Interstate Pipeline Company Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we

have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Williston Basin Interstate Pipeline Company Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 1 - Description of Plan

The following brief description of the Williston Basin Interstate Pipeline Company Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a noncontributory qualified defined benefit pension plan established effective July 1, 1985. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is a participant in the MDU Resources Group, Inc. Master Trust (the Master Trust) under a trust agreement dated June 14, 1985. MDU Resources Group, Inc. (MDU) manages the operation and administration of the Plan. Delaware Charter Guarantee & Trust Company, conducting business as Principal Trust Company or Principal Bank, is the Trustee/Custodian of the Master Trust.

Eligibility

Prior to January 1, 2006, substantially all non-bargaining and bargaining unit employees of WBI Energy Transmission, Inc., Prairielands Energy Marketing, Inc. and WBI Holdings, Inc. along with certain identified employees of WBI Energy Midstream, LLC and Fidelity Exploration & Production Company (collectively, the "Company") were eligible to participate in the Plan. Employees hired on or after January 1, 2006, are not eligible. In addition, effective January 1, 2006 an employee who transfers to the Company cannot participate in the Plan unless the employee was eligible to participate in certain other MDU-sponsored defined benefit plans immediately prior to such transfer. Employees had to be age 21 or older to participate in the Plan. Employees had to complete one year of eligibility service in order to participate in the Plan. However, the participant received service credit for this time period.

Vesting

Plan participants who have five or more years of employment and at least 1,000 hours per year are eligible to receive pension benefits regardless of continuing employment with the Company. Upon retirement, each participant is entitled to pension benefits, payable for life, from the assets of the Plan held in the Master Trust.

Pension Benefits

The amount of the monthly pension benefit, subject to certain adjustments, is calculated by multiplying the years of service (maximum of 35 years) as a participant by the sum of 1.1 percent of the participant's 60 highest consecutive months' average earnings in the last 120 months of employment (not to exceed the maximum compensation allowable) up to the integration level of \$3,115 and 1.45 percent for any amount over that level. For participants who were at least 40 years of age on February 28, 1990, the monthly pension benefit will be the greater of the above formula or the participant's aggregate pension credits, as defined in the Plan document. The Plan contains provisions for normal retirement, early retirement and vested termination forms of pension benefits.

Effective January 1, 2010, all benefit and service accruals of the Plan were frozen. Certain participants of the Plan are eligible to receive additional defined contribution plan benefits.

Joint and Survivor and Preretirement Survivor Benefits

The Plan contains provisions for joint and survivor and preretirement survivor benefits.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; the disclosure of contingent assets and liabilities, if any; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan is a participant in the Master Trust. The Master Trust's investments are reported at fair value as reported by the Trustee, and as further discussed in Note 6. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for description of valuation methods.

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual benefit payments and allocated administrative expenses. Allocated investment income consists of net appreciation in the fair value of investments and interest and dividend income. Net appreciation includes realized gains and losses on investments sold during the year and unrealized gains and losses on investments held at year-end. Security transactions are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date.

The Plan also had a previous investment in a pooled separate account under a group annuity contract that was liquidated on December 11, 2023 and therefore did not have a fair value to report at December 31, 2024. Interest income from this investment was recorded on an accrual basis for the year ended December 31, 2023.

Administrative Expenses

The Plan pays all investment fees related to the Plan and most other administrative costs, such as actuarial, audit, and trust administration fees, as provided in the Plan document. Certain management and administrative services are provided by MDU and the Company to the Plan without a charge.

Risks and Uncertainties

The Plan invests in various investment securities, which are, in general, exposed to various risks, such as interest rate, credit and overall market volatility risk. Market risks include global events which could impact the value of investment securities, such as pandemics or international conflict. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments could occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Concentration of Investment Risk

The following presents investments that represent 10 percent or more of the Master Trust's net assets as of December 31. A significant decline in the market value of these investments would significantly affect the net assets available for benefits.

	2024	2023
PRU Long Duration Credit Fund	\$ 37,323,538	\$ 27,799,938
Capital Group Long Duration Credit	34,535,296	38,569,813
Wilmington TR Coll Invt Multi MA 1	27,884,246	29,104,375

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are the liability for future payments for pension benefits that have accrued on the basis of each plan participant's salary and service history as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of deceased employees and (3) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on each employee's average monthly salary in effect during the five-year period immediately preceding the valuation date. Only years of service and compensation earned prior to January 1, 2010, the date benefit and service accruals of the Plan were frozen, are considered in the accumulated plan benefits. Benefits payable, such as for retirement, death and vested termination of employment, are included to the extent that they are determined to be attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by a third-party actuarial firm. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used by the firm in the valuations for 2023 and 2022 were as follows:

Discount rate	2023 and 2022	6.00% and 4.75%, respectively
Mortality basis	2023 and 2022	The life expectancy of participants was determined by reference to the Pri-2012 Base Mortality Table with Generational Projection Scale MP-2021.
Average retirement age	2023 and 2022	63
Actuarial cost method	2023 and 2022	Traditional unit credit actuarial cost method.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

The effect of plan amendments on accumulated plan benefits are recognized during the year in which such amendments are adopted. There were no amendments effective January 1, 2024 recognized in the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of the accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, there would be no material differences. Accumulated plan benefit information as of December 31 was as follows:

	2023
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants and/or beneficiaries currently receiving payments	\$ 27,353,792
Other participants	8,634,464
Total actuarial present value of accumulated plan benefits	\$ 35,988,256

The change in the actuarial present value of accumulated plan benefits was attributed to the following for the year ended December 31:

	2023
Actuarial present value of accumulated plan benefits at beginning of year	\$ 40,713,556
Plan experience	20,843
Change in actuarial assumptions *	(3,903,031)
Interest	1,870,200
Benefits paid	(2,713,312)
Actuarial present value of accumulated plan benefits at end of year	\$ 35,988,256

* Change in actuarial assumptions is primarily driven by a change in the discount rate.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Note 3 - Funding Policy

The Company's funding policy is to contribute the amount necessary to meet the minimum required contribution under the Internal Revenue Code (the Code). In addition, at its discretion, the Company may choose to contribute amounts above the minimum required contribution depending on its cash and tax position. The Company's minimum required contribution relating to the 2024 plan year was \$242,586, of which \$69,771 was contributed in 2024 and \$85,488 was contributed in 2025. The remaining \$87,327, which represented the Company's first quarter 2024 estimated contribution, was contributed in April 2024 and elected to be applied to the 2023 plan year. The Company's minimum required contribution relating to the 2023 plan year was \$356,000 and was contributed in April 2023.

The Company has elected a funding policy, in addition to the minimum required contribution, to contribute the amounts necessary for the Plan to sustain a funded status of at least 80 percent on a non-stabilized interest rate basis. No contribution was necessary from the Company for the 2024 and 2023 plan years to maintain an 80 percent funded status.

Note 4 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, its net assets available for benefits will be allocated for benefits as prescribed by the plan document and ERISA, generally in the following order:

- (a) With respect to participants or beneficiaries who have been receiving (or who were eligible to elect to receive) Plan benefits in the form of annuities during the entire three-year period ending on the Plan's termination date, the amount of accrued benefit based on the Plan's provisions that were in effect during the five-year period ending on the Plan's termination date and under which such benefit would be the least, and for participants or beneficiaries who have been receiving benefits during such three-year period, not more than the lowest benefit in pay status during such period.
- (b) Other benefits that are or would be guaranteed under ERISA, if such guaranteed amounts were determined without regard to the provisions of Sections 4022(b)(5) and 4022(b)(6) of ERISA.
- (c) All other accrued annuity benefits to which an allocation has not been made pursuant to the above priorities.
- (d) All other benefits under the Plan.

To the extent there are unfunded vested benefits other than benefits becoming vested by virtue of the termination of the Plan, ERISA provides that such benefits are payable to participants by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency), which guarantees most, but not all, vested retirement benefits and certain disability and survivors' pensions, up to a maximum monthly benefit.

Note 5 - Certification by Trustee and Qualified Institution

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, Principal Trust Company, or Principal Bank, as the case may be, the Trustee/Custodian of the Master Trust, has certified to the completeness and accuracy of all investments held by the Master Trust that are reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 and 2023. Principal Life Insurance Company, previously a qualified institution of the Plan, certified to the completeness and accuracy of the investment held outside the Master Trust that was reported in the investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2023.

Note 6 - Interest in Master Trust

The assets of the Plan are held by the Master Trust for purposes of collectively investing the assets of the Plan and several other MDU-sponsored defined benefit plans. The Plan is a participant in the Master Trust and its investment in the Master Trust is stated at the Plan's proportionate share in the net assets of the Master Trust at December 31, 2024 and 2023.

The Master Trust accounts for balances and activity on a unitized basis, which results in each participating plan in the Master Trust having an allocated number of units. Each participating plan's share of the Master Trust's investment balance, investment income net of investment expenses and certain administrative expense is determined by how many units the participating plan holds. Certain administrative expenses were directly paid by the participating plans and reported separately on the statements of changes in net assets available for benefits.

The Plan includes its proportionate share in the net investment income of the Master Trust in the statements of changes in net assets available for benefits. The Plan was a 14.0 percent participant in the Master Trust at both December 31, 2024 and 2023.

The following table presents the net assets of the Master Trust and the Plan's proportionate share in the Master Trust at December 31, 2024:

	Master Trust Balance	Plan's Interest in Master Trust Balance

Net assets	\$ 248,558,270	\$ 34,819,224

* A change to the asset description for investment measured at NAV has been made in the prior year disclosure to conform to current year presentation.

Investment income for the Master Trust was as follows:

Years ended December 31,	2024	2023
Net appreciation in fair value of investments	\$ 2,016,347	\$ 19,647,172
Interest	731,419	2,333,184

Less administrative expenses	458,953	489,973
Total investment income	\$ 2,589,892	\$ 23,232,724

Note 7 - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The FASB Codification establishes a hierarchy for grouping assets and liabilities, based on the significance of inputs. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There are three levels of inputs that may be used to measure fair value:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date;

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; or

Level 3 – unobservable inputs for the asset or liability.

Following is a description of the specific valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

Collective trust funds - Collective trust funds with readily determinable fair value are valued at the daily closing price as reported or published by the collective trust fund. The collective trust funds have been determined to have a readily determinable fair value based on the published price, transact at that price, and are deemed to be actively traded. The collective trust funds are not exchange-traded funds, however, the prices per unit are published and represent the actual price at which the units held in the fund can be bought or sold. The Master Trust's common collective funds with readily determinable fair value are included in the Level 2 fair value hierarchy.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

U.S. Government securities - Valued based on quoted prices on an active market. The estimated fair value of the Master Trust's U.S. Government securities is valued mainly using other observable inputs, including benchmark yields, reported trades, broker/dealer quotes, bids, offers, to be announced prices, future cash flows and other reference data.

All investments measured at net asset value in the table that follows are invested in a common/collective trust which does not have publicly quoted prices. The fair value of the common/collective trust is determined based on the net asset value of the underlying investments. The fair value of the underlying investments held by the common/collective trust is generally based on quoted prices in active markets. There are no restrictions on redemptions and the notice period to redeem is daily. There are no unfunded commitments.

Though MDU believes the methods used to estimate fair value are consistent with those used by other market participants, the use of other methods or assumptions could result in a different estimate of fair value.

The fair value of the Master Trust's assets were as follows:

	Fair Value Measurements at December 31, 2024, Using			Balance at December 31, 2024
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Note 8 - Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated November 16, 2017, that the Plan and related trust are designed for qualification as exempt from federal income taxes in accordance with applicable sections of the Code. Although the Plan has been amended since the determination letter application was filed, the Company believes that the Plan is designed and is being operated in compliance with the applicable requirements of the Code, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan. The effects of an uncertain tax position are recognized in the financial statements when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken and no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Reconciliation of Financial Statements to Form 5500

A reconciliation of amounts reported in the Plan's financial statements to amounts reported in the Form 5500 is required by ERISA.

The Plan sponsor made an elective employer contribution of \$634,389 on July 1, 2025, which was applied to the year ended December 31, 2024, for Form 5500 purposes. For GAAP, the employer contribution of \$634,389 will be reflected in the Plan's financial statements for the year ended December 31, 2025.

A reconciliation of net assets available for benefits per the financial statements to the Form 5500 is as follows:

As of December 31,	2024	2023
Net assets available for benefits per the financial statements	\$ 32,346,219	\$ 34,906,551
Employer contributions made in subsequent plan year and allocated to current plan year	634,389	—
Net assets available for benefits per Form 5500	\$ 32,980,608	\$ 34,906,551

A reconciliation of the changes in net assets for benefits per the financial statements to the Form 5500 were as follows:

For the year ended December 31,	2024	2023
Net (decrease) increase in net assets available for benefits per financial statements	\$ (2,560,332)	\$ 547,080
Employer contributions made in subsequent plan year and allocated to current plan year	634,389	—
Net (decrease) increase in net assets available for benefits per Form 5500	\$ (1,925,943)	\$ 547,080

Note 10 - Plan Amendments

Effective April 1, 2024, the Plan was amended to allow for lump sum payments to participants after termination of employment in the amount of \$7,000 or less, if the participant's termination benefit does not exceed \$7,000.

Note 11 - Subsequent Events

The Plan has evaluated subsequent events for matters requiring adjustment or disclosure in these financial statements through October 14, 2025, the date on which these financial statements were available to be issued.

Assumptions prescribed by law

Mortality

Before benefit payment period
 IRS Prescribed Mortality - Generational Non-annuitant, male and female.

During benefit payment period
 IRS Prescribed Mortality - Generational Annuitant, male and female.

Assumptions selected by actuary

Asset return 6.50% for the current plan year.
 The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability None.

Marriage	<p>80% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>
Withdrawal	<p>2003 Society of Actuaries Basic Age Table, multiplied by 0.50.</p> <p>We rely on a publicly published table due to the limited size of the plan. The SOA Basic Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.50 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.</p>
Form of benefit	<p>Life annuity. Retirement benefit loaded 6.4% for subsidized option factor. Withdrawal benefits are assumed to be paid as a lump sum for participants hired on or before January 1, 2004, otherwise they are assumed to be paid as a life annuity commencing at the participant's early retirement date.</p> <p>Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption study performed by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.</p>
Methods prescribed by law	
Liability measure	<p>Funding target is the present value of the benefits accrued on the valuation date.</p> <p>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
Lump sum payments	<p>Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.</p>

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality Based on Pri-2012 Total dataset base rate mortality table projected generationally using MP-2021.

Mortality base rates

Before benefit payment period
Employee amount-weighted, male and female

During benefit payment period
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement MP-2021 is the most recent improvement scale published by the SOA in October 2021.

In selecting this assumption, we considered the other parameters available in the MIM-2021-v4 application tool issued by the SOA in October 2023 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

Interest rate used to value liabilities 6.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Basis for lump sums

Interest rate

Based on the three segment yield curve: 3.55%/3.95%/4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

Mortality

We have selected the same [mortality](#) assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Schedule SB, Line 2a - Explanation of Assets
Williston Basin Interstate Pipeline Company Pension Plan
EIN 45-0372309 Plan No. 001

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$87,327 contributions received after the plan year end with a discounted value of \$86,066.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 Williston Basin Interstate Pipeline Company Pension Plan
 EIN 45-0372309 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan restatement effective 12/01/2016 including amendments through 04/01/2024, signed 02/09/2024.

Plan eligibility

Age	Attained age 21.
Service	One year of service in which at least 1,000 hours worked.
Class	All employees of WBI Energy Transmission, Inc. Frozen if hired after 12/31/2005.

Normal retirement benefit

Age	Attained age 65 and the earlier of the 5 th anniversary of entry or completion of 5 years of vesting service.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	1.1% of average compensation not in excess of integration level, plus 1.45% of average compensation in excess of integration level, multiplied by accrual service (not to exceed 35 years). Frozen effective 12/31/2009.

Early retirement benefit

Age	Attained age 55.
Service	Completed 5 years of vesting service.
Form	Same as normal retirement benefit.
Amount	Active Participants: Accrued benefit on early retirement date reduced by .25% for each month that the early retirement date precedes age 60. Inactive Participants prior to age 55: Accrued benefit on early retirement date reduced by .25% for each month that the early retirement date precedes age 62. Coal Operations: If a participant was employed by the company at either R.M. Heskett Station or Lewis & Clark Station as of the last day of coal operations and attained age 55 as of such date, the accrued benefit will not be reduced.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on late retirement date.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Eligibility	Approved as totally and permanently disabled by the Social Security Administration and 10 years of vesting service.
Form	Monthly income payable until normal retirement, death, or recovery and a deferred annuity payable at the normal retirement date.
Amount	Accrued benefit on disability retirement date.
Amount	The immediate benefit payable is equal to the accrued benefit on date of disability reduced to reflect payments made prior to normal retirement date. The full accrued benefit is then payable at normal retirement date.

Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Definitions

Optional forms of benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable for life or 10 years certain and life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100.
- 66 2/3 Joint and either survivor life annuity
- Single sum for participants whose employment commencement date was before 01/01/2004 and not eligible for early retirement.

The optional form conversion basis is 7.00% interest and the 1971 Group Annuity Mortality table with ages set back one year for all participants and 5 years for all joint and co-annuitants.

Lump sum provisions

Small amount force out (SAFO) – allowed up to \$7,000.

Lump sums in excess of SAFO - are allowed at termination of employment and retirement.

Conversion – greater of the deferred or immediate rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Williston Basin Interstate Pipeline Company Pension Plan
EIN 45-0372309 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has increased from 5.25% to 6.50%. This rate is used in the calculation of the actuarial value of plan assets.
