## Independent Auditors' Report

To the Administrative Committee and Audit Committee of the  
**Epsilon Systems Solutions, Inc. Employee Stock Ownership Plan and Trust:**

### **Opinion**

We have audited the financial statements of Epsilon Systems Solutions, Inc. Employee Stock Ownership Plan and Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## ***Other Matter - Supplemental Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

### (1) Description of the Plan

The following description of the Epsilon Systems Solutions, Inc. Employee Stock Ownership Plan and Trust (“ESOP” or “Plan”) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan’s provisions, which are available from the Plan Administrator.

#### *General*

The Plan is a defined contribution plan sponsored by Epsilon Systems Solutions, Inc. (“Company” or “Plan Sponsor”) for the benefit of its full-time employees. The Plan was established on January 1, 2018 after spinning off from the Epsilon Systems Solutions 401(k) Plan (“401(k) Plan”), formerly known as the Epsilon Systems Solutions 401(k) Stock Ownership Plan and Trust (“KSOP”). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (“IRC”) of 1986, as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Company’s Benefits Committee (“Committee”). The trust department of an independent third-party, Argent Trust Company, is the Plan’s trustee (“Trustee”).

On December 28, 2017, the KSOP purchased 6,153,039 shares of Company stock from the Company for \$25,842,763 (\$4.20 per share as valued in an independent valuation), which was financed with a note payable bearing interest at 2.66% requiring monthly payments of principal and interest. Effective January 1, 2018, the note payable was transferred from the KSOP to the Plan. The loan was refinanced on February 6, 2018. The note payable is to be repaid over a period of twenty-five years by Company contributions. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees’ accounts in accordance with applicable regulations under the IRC. Allocated shares are subject to vesting.

The note payable is collateralized by unallocated shares of Company stock and is guaranteed by the Company. The lender has no rights against shares of Company stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the years then ended present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated Company stock (allocated) and Company stock not yet allocated to employees (unallocated).

#### *Eligibility*

Employees who have completed one hour of service and are age 21 or older are eligible to participate in the Plan. Participants who have completed at least 1,000 hours of service during the Plan year and are actively employed on the last working day of the Plan year are generally eligible for an allocation of Company contributions for such year.

### (1) Description of the Plan, Cont'd

#### *Contributions*

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

#### *Payment of benefits*

Distributions on account of death, disability or retirement are made in a lump sum or substantially equal annual installments over a period not to exceed five years, provided that such installments are for an amount greater than \$1,000, in the Plan year following the event. Distributions for other separations from service, such as resignation or dismissal, shall commence no later than one year after the end of the fifth Plan year following the separation from service and are made in five annual installments. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or in the form of whole or fractional shares of Company common stock, which is determined at the discretion of the Plan Administrator. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

#### *Administrative expenses*

As provided in the Plan document, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

#### *Voting rights*

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

#### *Participant accounts*

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account, comprised of an ESOP Stock account and ESOP Cash account, is credited as of the last day of each Plan year with an allocation of shares of the Company's stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts or cash. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

### (1) Description of the Plan, Cont'd

#### *Vesting*

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, they will vest in the balances in their account based on total years of service. Employer contributions are subject to the following vesting schedule:

<u>Credited Service</u>	<u>Vested %</u>
1	33%
2	66%
3	100%

#### *Put option*

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

#### *Diversification*

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55, and has been a participant, including periods of participation in the KSOP, for at least 10 years, may elect to diversify up to 25% (50% in the case of the participants last year of the qualified election period) of the number of post-1986 shares allocated to the participants ESOP Stock account that are eligible for diversification, less any shares previously diversified by transferring such amount to a qualified defined contribution plan of the Company that offers at least three investment options. Participants who elect to diversify receive a cash distribution, in which case, shares are distributed. The election to diversify is made subsequent to year-end within a 90-day period based upon the shares of employer stock in the participant's account at year-end.

#### *Purchase price protection*

For shares allocated prior to the 2017 ESOP purchase of 6,153,039 shares, qualifying participants requesting a qualified distribution, as of January 1, 2018 and through December 31, 2024, shall be paid a per share amount equal to the greater of the per share fair value as determined by the most recent valuation of the Company common stock held in the Plan and the price protected value as defined in the ESOP agreement.

### (1) Description of the Plan, Cont'd

#### *Forfeitures*

Any portion of the final balances in a participant's accounts which is not vested will become a forfeiture as of the allocation date of the Plan year in which the participant incurs five-consecutive-year breaks in service. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. There were 14,544 and 55,472 forfeited shares allocated to participants during December 31, 2024 and 2023, respectively. There are no forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2024 and 2023.

### (2) Summary of Significant Accounting Policies

#### *Basis of accounting*

The financial statements of the Plan are prepared on the accrual method of accounting.

#### *Use of estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

#### *Allocations*

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

#### *Investment valuation and income recognition*

The shares of Company stock are valued at fair value. See Note 4 for discussions of fair value measurements. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### *Payment of benefits*

Benefits are recorded when paid.

### (4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

### (4) Fair Value Measurements, Cont'd

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Investments valued at fair value:				
Company common stock	\$ -	\$ -	\$ 122,732,094	\$ 122,732,094
Total investments valued at fair value	\$ -	\$ -	\$ 122,732,094	\$ 122,732,094
Investments valued at NAV (a) (b):				
Money Market Fund				\$ 3,520,053
Total investments at NAV				\$ 3,520,053

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2023:

	Level 1	Level 2	Level 3	Total
Investments valued at fair value:				
Company common stock	\$ -	\$ -	\$ 113,754,584	\$ 113,754,584
Total investments valued at fair value	\$ -	\$ -	\$ 113,754,584	\$ 113,754,584
Investments valued at NAV (a) (b):				
Money Market Fund				\$ 1,382,398
Total investments at NAV				\$ 1,382,398

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value (NAV) per share (or its equivalent) have not been classified in the fair value hierarchy.
- (b) The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefit.

### (4) Fair Value Measurements, Cont'd

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

<b>Changes in Fair Value of Level 3 Assets and Related Gains and Losses</b>	
	<b>Company Common Stock</b>
Balance, beginning of the year	\$ 113,754,584
Realized and unrealized appreciation in fair value	17,268,193
Retired shares, sales and diversity transfers	(6,555,251)
Pending distributions	(1,735,432)
Balance, end of year	\$ 122,732,094

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Money market fund:* Valued at the closing price reported on the active market on which the individual securities are traded.

*Company common stock:* The Company common stock held by the Plan is valued at fair value, as determined by the Trustee, after taking into consideration a valuation from an independent appraiser. This appraisal was based upon a combination of valuation techniques including a discounted cash flow method under the income approach and guideline public company method under the market approach. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

### (4) Fair Value Measurements, Cont'd

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs, and the ranges of values for those inputs as of December 31, 2024:

Instrument	December 31, 2024 Fair Value	December 31, 2023 Fair Value	Valuation Technique	Unobservable Inputs
Company common stock	\$122,732,094	\$113,754,584	Income	EBITDA Net income Weighted average cost of capital Discount Discount for lack of marketability
			Market	Public comparable Revenue multiple EBITDA multiple Discount for lack of marketability

The valuation process involves Plan management's selection of an independent appraiser nominated by the Trustee. Plan management accumulates the data for the audited financial statements of the Company. The appraiser prepares a preliminary report which plan management, along with the Trustee, reviews in detail, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

### (5) Employee Stock Ownership Plan

During 2017, the ESOP component of the KSOP entered into an approximately \$12,099,000 note payable agreement with the Company and approximately \$13,744,000 of promissory notes. The proceeds of the note payable and promissory notes, collectively the Loan ("Loan"), were used to purchase 6,153,039 shares of common stock from certain shareholders.

### (5) Employee Stock Ownership Plan, Cont'd

In February 2018, the Loan was refinanced requiring the ESOP to make two installment payments of principal and interest for \$5,812,120, which was paid in September 2018, plus 24 annual installments of principal and interest in the amount of approximately \$842,000 to be paid through the maturity date of December 2042. The loan bears interest of 2.66%.

The outstanding balance of the loan at December 31, 2024 was approximately \$11,786,049.

Future minimum principal payments on the note payable are as follows:

<i>Year Ending December 31,</i>		Total
2024	\$	521,686
2025		445,080
2026		551,307
2027		565,972
2028		581,027
Thereafter		9,120,977
Total	\$	11,786,049

The Loan is collateralized by the unallocated shares of the Company's common stock. There were 2,905,943 unallocated shares at December 31, 2024 with a fair value of \$55,765,050. The Company has no rights against shares once they are allocated under the Plan.

### (6) Related-Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. The Plan invests in certain investment vehicles held by the Trustee. The Plan's Committee is comprised of employees who participate in the Plan. These are related party and party-interest transactions. As described in Note 1, the Company pays all plan expenses. The Plan has a number of service providers. Such service providers are parties in interest under ERISA.

### (7) Plan Termination

Although it has not expressed any intent to do so the Company reserves the right to terminate the Plan at any time, subject to the Plan provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

### **(8) Tax Status**

The Internal Revenue Service (“IRS”) has determined and informed the Company by letter dated March 12, 2020 that the Plan is designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan’s tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### **(9) Risks and Uncertainties**

The Plan’s investments consist primarily of the Company’s common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the values of the common stock will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

### **(10) Pending Distributions**

There were \$1,735,434 of Pending Distributions allocated to participants who had elected to withdraw from the Plan as of December 31, 2024.

### **(11) Transfer to/from 401(k)**

The Plan remitted diversification transfers of \$337,407 to the 401(k) Plan during 2024.

### **(12) Subsequent Events**

The Plan has evaluated events that have occurred subsequent to the year ended December 31, 2024, through October 15, 2025, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
