Independent Auditor's Report

Plan Administrator
Mote Marine Laboratory, Inc. Retirement Plan
Sarasota, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Employee Benefit Plan of Mote Marine Laboratory, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and December 31, 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024, and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institutions agree to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at Year-End) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Mote Marine Laboratory, Inc. Retirement Plan

Notes to Financial Statements

December 31, 2024

I. Description of Plan

The following description of the Mote Marine Laboratory, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 403(b) plan covering all employees of Mote Marine Laboratory, Inc. (the Company). The Plan was established on March 10, 1983, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan was restated effective January 1, 2021, to change the plan year-end from June 30 to December 31.

Eligibility

The Plan is available to all employees upon the date of employment.

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's matching contributions, and the Plan's earnings and losses charged with an allocation of administrative expenses thereon. Allocations of Plan earnings are based on the participant account balances in Plan investments. The participant is entitled to the benefit provided by the participant's vested account balance.

Contributions

Salary deferral contributions are made by participating employees through payroll deductions in amounts authorized by the employees. Each year, participants may contribute up to the maximum percentage allowable not to exceed the limits of the Internal Revenue Service of \$23,000 of pretax annual compensation for 2024. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The annual catch-up contribution limit was \$7,500 for 2024.

The Company may elect to make matching contributions to eligible participants. Employees are eligible for matching contributions upon the date they began participating in the Plan. Matching contributions are 100% of the participating employee's salary deferral amount up to a maximum percentage of their gross compensation as follows:

Years of Participation	Elective Deferrals Matched
Highly Compensated Employees	5% of Compensation
Non-Highly Compensated Employees:	
0-5	5% of Compensation
6-10	8% of Compensation
10+	10% of Compensation

Vesting

Participants are immediately 100% vested in their voluntary salary deferral contributions plus actual earnings thereon. Participants are vested in employer matching contributions based upon years of service defined in the Plan, as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

I. Description of Plan (Continued)

Investment Options

The Plan is participant-directed under ERISA Section 404(c). Upon enrollment in the Plan, a participant may direct and allocate their contributions to the investment options available. Employer contributions are allocated according to the participant's allocations. The percentage of contributions allocated to each of the investment options is at the discretion of the participant. Participants may change their investment options at any time using the Plan Administrator's website or via telephone, which allows a participant to access their account using a personal identification number.

Administrative Expenses

Reasonable plan administrative expenses may be paid by the Plan to the extent not paid by the employer. Investment expenses attributed to terminated participants shall be allocated among the terminated participants by charging each particular expense to the account balance of the terminated participant responsible for the expense. Investment expenses attributable to active participants shall be allocated among the active participants charging each particular expense to the account balance of the active participant responsible for the expense. For year ended December 31, 2024, the Plan's administrative expenses were \$88,422.

Forfeited Accounts

The Plan specifies that non-vested employer matching contributions (forfeitures) are to be allocated as a reduction in the matching contributions. Forfeitures shall be allocated to eligible participants in the same manner that the employer contributions are allocated. In accordance with ERISA, this amount must be held in suspense until the participant has incurred a 5-year break in service or until they have been paid their entire vested balance. The Plan has an unallocated forfeiture balance of \$602 and \$0, which is included in the investment balance in the financial statements as of December 31, 2024 and 2023, respectively. The Plan also used \$21,180 and \$10,023 in forfeitures to offset employer contributions for the years ended December 31, 2024 and 2023, respectively.

Benefits Paid to Participants

If a participant ceases to be employed by the Company for any reason other than death or total and permanent disability prior to satisfying the age and service requirements for normal retirement (65), the terminated participant may elect, with the consent of his or her spouse, to receive any vested amounts plus the earnings thereon. Withdrawals may be subject to tax withholdings and penalties. If a participant incurs a separation from service at a time when the vested portion of the Participant's account balance is greater than \$0 but not exceeding \$5,000, and the participant does not elect to have such distribution paid directly to an "eligible retirement plan" specified by the participant in a direct rollover or to receive the distribution directly in a single lump-sum distribution, the Administrator shall direct the trustee to rollover the vested portion of the individual's account to an individual retirement plan designated by the Administrator.

Hardship Distributions

Hardship distributions are permitted by the Plan at the discretion of the Company for allowable expenditures.

Notes Receivable from Participants

Effective January 1, 2002, the Plan permitted participant loans. A participant may receive a loan based on the loan program set forth by the Plan. Loans must be a minimum of \$1,000 not to exceed the lesser of \$50,000 or 50% of the participant's vested interest in the Plan. The loans are secured by the balance in the participant's vested account and must be repaid within 5 years unless made to help purchase a principal residence in which case would need to be repaid within 15 years.

Notes to Financial Statements (Continued)

I. Description of Plan (Continued)

Notes Receivable from Participants (Continued)

Interest rates on outstanding notes receivable from participants as of December 31, 2024, range from 4.25% to 9.50%. Plan loans bear interest at a fixed rate equal to the Wall Street Journal Prime Rate (7.50% as of December 31, 2024) plus 1%. Principal and interest are paid at least quarterly to the custodian directly by the participant over the course of the loan term. Interest is credited to the plan at a rate of 1.00% to 3.00%. The difference between the participant's rate and the rate credited to the Plan goes to the custodian, per the loan agreement.

No allowance has been established for uncollectible notes receivable from participants as of December 31, 2024 and 2023. Non-payment of the loan principal and interest within 30 days after the due date will constitute default and if not timely cured, will be considered a deemed distribution. The Plan Administrator retains discretionary authority over the loans to individual participants.

SECURE 2.0 Act of 2022

The SECURE 2.0 Act of 2022 (SECURE 2.0 Act), was signed into law on December 29, 2022, to increase retirement savings, improve retirement rules, and lower employer costs of setting up a retirement plan. Plan amendments required by the SECURE 2.0 Act generally need not be made until the end of the first plan year beginning on or after January 1, 2025; however, plans must be operated in accordance with the effective date of each new provision. The only required provision of the SECURE 2.0 Act to be implemented during the year under audit, was the increase of the required minimum distribution age of 72 to 73, effective January 1, 2023, these provisions did not have a material impact on the financial statements. The Plan elected the optional provisions to increase the involuntary cash-out threshold for distributions to \$7,000 effective July 1, 2024, allow employee certification for hardship distributions effective August 16, 2024 and permit participants to receive a distribution of up to \$22,000 in connection with a qualified federally declared disaster effective July 1, 2024.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right under the Plan document to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts and net assets of the Plan will be distributed to the participants and beneficiaries of the Plan.

2. Summary of Significant Accounting Policies

Financial Statements

The financial statements and notes are representations of the Plan Administrator who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, changes in net assets and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

2. Summary of Significant Accounting Policies (Continued)

Fair Value Measurement

The Company adopted the Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification for fair value measurements of financial assets and financial liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Fair Value Measurements and Disclosures Topic established a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurement. The financial statements reflect the adoption of the Fair Value Measurements and Disclosures Topic.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value based on quoted market prices of the securities held in the funds. Purchases and sales of investments are recorded on the trade date. Income from investments in units of participation is recorded as earned and reinvested. Income earned from investments and gains or losses on disposal of investments are recorded using the accrual method. Dividend income is recognized when earned and recorded on the ex-dividend date.

Net Appreciation in the Fair Value of Investments

The Plan presents, in the statement of changes in net assets available for plan benefits, the net appreciation in the fair value of its investments. This consists of the realized gains and losses and the unrealized appreciation and depreciation of those investments.

Financial Instruments Not Measured at Fair Value

The Plan's financial instruments that are not measured at fair value on the recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature include participant and employer contributions receivable. The Plan's guaranteed interest contract is valued at contract value.

Payment of Benefits

Benefits are recorded when paid.

3. Information Certified and Provided by Corebridge Financial

The following is a summary of the investment and asset information as of December 31, 2024 and 2023 included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certification from Corebridge Financial that the information provided related to the following investment and asset information is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets as of December 31, 2024 and 2023:

	<u>2024</u>		<u>2023</u>
Registered investment companies, at fair value	\$ 22,247,851	\$	21,084,524

Notes receivable from participants	\$ 230,542	\$	261,486

Mote Marine Laboratory, Inc. Retirement Plan

3. Information Certified and Provided by Corebridge Financial (Continued)

The custodian also certified to the completeness and accuracy of \$1,920,171 of net appreciation in fair value of investments and \$794,007, \$203,773 and \$14,763 of interest related to the registered investment companies, guaranteed interest contracts and notes receivable from participants, respectively, for the year ended December 31, 2024.

The net appreciation in the fair value of registered investment companies by category for the year ended December 31, 2024, is as follows:

Registered investment companies - equity:	
Large cap blend	\$ 451,266
Large cap growth	4,296
Large cap value	29,238
Hybrid	819,153
Mid cap blend	234,045
Small cap growth	391,624
International	8,376
Specialty	(705)
Total registered investment companies - equity	<u>1,937,293</u>
Registered investment companies - fixed income	(17,122)
Total	<u>\$ 1,920,171</u>

4. Fair Value Measurements

The Fair Value Measurements and Disclosures Topic provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions.

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Mote Marine Laboratory, Inc. Retirement Plan
Notes to Financial Statements (Continued)
December 31, 2024

4. Fair Value Measurements (Continued)

The asset's fair value measurement level within, the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2024 and 2023:

Registered investment companies: Shares are generally valued at Net Asset Value Per Share (NAVPS) based upon net asset value of underlying portfolio securities and are published on a national exchange valued at the end of each day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents information about the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2024, and indicate the fair value hierarchy of the valuation techniques used to determine such fair value:

5. Guaranteed Interest Contract

The Plan has entered into interest contracts with Corebridge Financial. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. In accordance with accounting principles generally accepted in the United States of America, the guaranteed interest contract is presented at contract value in the financial statements.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The average yield and crediting interest rate was 4.50% for the years ended December 31, 2024 and 2023, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

6. Parties-in-Interest to the Plan

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. The guaranteed interest contract is managed by the custodian. Transactions related to this investment qualify as party-in-interest transactions.

The supplemental Schedule of Assets (Held at End of Year) identifies these investments as of December 31, 2024. Investments held by parties-in-interest represent approximately 22% and 24% of Plan net assets as of December 31, 2024 and 2023, respectively.

7. Tax Status

The Plan has been drafted in reliance on the sample language provided by the Internal Revenue Service, Revenue Procedures 2007-71. The Plan is required to operate in conformity with the Code to maintain the exclusion from tax for plan participants. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has an uncertain tax position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

8. Risks and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.
