## **Independent Auditor's Report**

**To the Administrative Committee of  
the Magellan Transport Logistics Cash Balance Pension Plan  
Jacksonville, Florida**

### ***Opinion***

**We have audited the accompanying financial statements of Magellan Transport Logistics Cash Balance Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.**

**In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits and accumulated plan benefits of Magellan Transport Logistics Cash Balance Pension Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits and changes in its accumulated plan benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.**

### ***Basis for Opinion***

**We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Magellan Transport Logistics Cash Balance Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.**

### ***Responsibilities of Management for the Financial Statements***

**Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.**

3711 Cypress St. #2  
West Monroe, LA 71291  
Phone: (318) 397-2472

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Magellan Transport Logistics Cash Balance Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

*Auditor's Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Magellan Transport Logistics Cash Balance Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Magellan Transport Logistics Cash Balance Pension Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

*Supplemental Schedule Required by ERISA*

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets Held (End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

# MAGELLAN TRANSPORT LOGISTICS CASH BALANCE PENSION PLAN

## Notes to the Financial Statements

December 31, 2024 and 2023

### (1) Description of Plan

The following description of the Magellan Transport Logistics (“the Company”) Cash Balance Pension Plan (“the Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

#### (a) General

The Plan is a defined benefit pension plan covering substantially all employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

#### (b) Pension Benefits

Participants with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) in the form of a single life annuity. However, if a participant is married, their benefit will be paid in the form of a Qualified Joint and 50% Survivor Annuity. The Qualified Joint and 50% Survivor Annuity is the actuarial equivalent of the single life annuity. The participants may also choose from the following optional forms of benefit:

- **Single Life Annuity** - an income payable monthly for the participant’s lifetime and ending on their death.
- **Lump Sum Distribution** - a single sum payment of the vested balance of the hypothetical account.
- **Joint and Survivor Annuity** - an income payable monthly during the participant’s lifetime with 50%, 75% or 100% of such monthly benefits to be paid to the participant’s beneficiary for such beneficiary’s lifetime after the participant’s death.
- **Life Annuity with Term Certain** - an income payable monthly during the participant’s lifetime for a specified number of monthly payments. If the participant dies before receiving the specified number of monthly payments, the balance of such specified monthly payments is paid to the participant’s beneficiary. If the participant outlives the specified number of monthly payments, the monthly payments will continue until the participant’s death.
- **Term Certain Only** - an income payable monthly for a specified number of monthly payments without regard to the participant’s lifetime. If the participant dies before receiving the specified number of monthly payments, the balance of such specified monthly payments will be paid to the participant’s beneficiary. If the participant outlives the specified number of monthly payments, the payments will cease after the specified number.

If a participant terminates employment with the Company prior to reaching their early/normal retirement age, participants are eligible to receive a lump sum distribution of the present value of their vested termination benefit. Further, if they terminate employment with the Company prior to reaching their early/normal retirement age, they are eligible to receive their vested termination benefit in the forms of payment available at normal and early retirement subject to any applicable conditions or limitations. The vested termination benefit is the actuarial equivalent of the participant’s vested accrued benefit payable at normal retirement.

## Notes to the Financial Statements

December 31, 2024 and 2023

### (c) Death and Disability Benefits

If retirement benefit payments have not begun at the time of a participant's death, the Plan's death benefit is the actuarial equivalent of the participant's vested accrued benefit. This death benefit is payable in the form of a single life annuity. With the consent of the participant's spouse, death benefits can be payable to any alternate beneficiary that the participant designates. If the participant does not have a spouse, death benefits are payable to any beneficiary the participant designates.

If the participant becomes disabled, the participant is entitled to begin receiving payment of a disability benefit on the participant's disability retirement date. The disability benefit is a temporary benefit equal to early retirement benefit without regard to age or service. Disability benefits will stop on the first to occur of the following:

- the date a participant attains their normal retirement age;
- the date a participant ceases to suffer from a disability;
- the date a participant refuses to submit to a periodic examination by the Company or its agent to determine the existence of a disability; or
- the date the participant dies.

### (2) Summary of Significant Accounting Policies

#### (a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

#### (b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

#### (c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### (d) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated

# MAGELLAN TRANSPORT LOGISTICS CASH BALANCE PENSION PLAN

## Notes to the Financial Statements

December 31, 2024 and 2023

plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an actuary from Aegis Pension Services, Inc, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2024 and 2023 were (a) life expectancy of participants (15E-2015 Applicable Mortality Table for 417(e) (unisex)), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investment return (5.0%). The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

### (e) Payment of Benefits

Benefits payments to participants are recorded upon distribution.

### (f) Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

### (3) Fair Value Measurement

The Plan applies FASB ASC 820, *Fair Value Measurement* ("ASC 820"). ASC 820 provides a framework for measuring fair value and the disclosures about fair value measurements of assets and liabilities. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

# MAGELLAN TRANSPORT LOGISTICS CASH BALANCE PENSION PLAN

## Notes to the Financial Statements

December 31, 2024 and 2023

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

### *Level 1 Fair Value Measurements*

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

### *Level 2 Fair Value Measurements*

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

### *Level 3 Fair Value Measurements*

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

### *Exchange Traded Funds:*

Exchange traded funds (ETFs) are investment funds traded on public stock exchanges that hold a diversified portfolio of assets such as stocks, bonds, or other securities. The fair value of ETFs is based on quoted market prices in active markets (Level 1), representing the net asset value of shares held by the Plan at year-end.

**MAGELLAN TRANSPORT LOGISTICS CASH BALANCE PENSION PLAN**

**Notes to the Financial Statements**

**December 31, 2024 and 2023**

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

<u>December 31, 2024:</u>	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Interest bearing cash	\$ 231,602	231,602	-	-
Exchange traded funds	<u>3,563,989</u>	<u>3,563,989</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 3,795,591</u>	<u>3,795,591</u>	<u>-</u>	<u>-</u>
<u>December 31, 2023:</u>				
Interest bearing cash	\$ 151,611	151,611	-	-
Exchange traded funds	<u>2,470,226</u>	<u>2,470,226</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 2,621,837</u>	<u>2,621,837</u>	<u>-</u>	<u>-</u>

The Plan evaluates the significance of various inputs to assess the appropriate classification of the Plan's investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Transfers between levels are evaluated for their significance based upon the nature of the investments and size of the transfer relative to the net assets available for benefits. For the years ended December 31, 2024 and 2023, there were no transfers between levels within the fair value hierarchy.

**(5) Funding Policy**

The Company's funding policy is to make annual contributions based on the recommendation of the actuarial reports such that all employees' benefits will be fully provided for by the time they retire. The Company's contributions for 2024 and 2023 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Notes to the Financial Statements

December 31, 2024 and 2023

**(6) Plan Termination**

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2024 and 2023 that ceiling is \$7,108 and \$6,750 per month, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

**(7) Tax Status**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 28, 2023, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress

**(8) Risks and Uncertainties**

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

# MAGELLAN TRANSPORT LOGISTICS CASH BALANCE PENSION PLAN

## Notes to the Financial Statements

December 31, 2024 and 2023

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

### (9) Evaluation of Subsequent Events

The Plan has evaluated subsequent events through October 15, 2025, the date which the financial statements were available to be issued.

---

The age reported is the weighted average of the assumed retirement ages for all active participants as of the valuation date based on their funding target or target normal cost should the funding target of the plan be zero rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% of his/her assumed retirement age.
