INDEPENDENT AUDITORS' REPORT

To the Administrator
Hawaiian Electric Industries Retirement Savings Plan and
Audit & Risk Committee and Pension Investment Committee of
Hawaiian Electric Industries, Inc.

Opinion

We have audited the accompanying financial statements of the Hawaiian Electric Industries Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Delinquent Participant Contributions for the year ended December 31, 2023 and Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Hawaiian Electric Industries Retirement Savings Plan Notes to Financial Statements December 31, 2024 and 2023

1. Plan Description

The Hawaiian Electric Industries Retirement Savings Plan (the “Plan” or “HEIRS Plan”) was established by Hawaiian Electric Industries, Inc. (the “Company” or “HEI”) effective April 1, 1984. The Plan is a defined contribution 401(k) plan that provides certain tax-qualified retirement benefits to eligible employees. As of December 31, 2024, the participating employers in the Plan were HEI, Hawaiian Electric Company, Inc. (“Hawaiian Electric”), Maui Electric Company, Limited (“Maui Electric”), Hawaii Electric Light Company, Inc. (“Hawaii Electric Light”), and Pacific Current, LLC (“Pacific Current”) (collectively, the “Participating Employers”).

The following description of the Plan provides only general information. Participants should refer to the Plan document for its detailed provisions, which are also summarized in the most recent prospectus for the Plan and in the summary plan description:

a. Plan Administration

HEI is the Administrator of the Plan. The board of directors of HEI has established the Hawaiian Electric Industries, Inc. Pension Investment Committee (the “PIC”) to oversee the administration of the Plan and the investment options offered under the Plan. The PIC has appointed an administrative committee (the “Administrative Committee”) to oversee the day-to-day administration of the Plan, which includes the discretionary authority to interpret the Plan’s provisions. The PIC has also appointed an investment committee (the “Investment Committee”) to oversee the day-to-day financial affairs of the Plan. The members of the Administrative Committee and the Investment Committee are employees of HEI and its subsidiaries, and these committees are chaired by a member of the PIC.

The Participating Employers and the Plan currently pay the Plan’s administrative fees. The Plan’s trustee and certain of the mutual funds offered under the Plan provide revenue credits to the Plan, which are used to pay for Plan administration, including recordkeeping. Participants are currently charged fees to initiate and maintain Plan loans and for certain distributions. Participants may also be charged fees for other activities that they, their spouses or other beneficiaries initiate, such as determinations with respect to domestic relations orders and the administration of qualified domestic relations orders.

b. Eligibility

Subject to the Plan’s eligibility rules with respect to certain part-time employees, all non-union employees of the Participating Employers (other than leased employees or contract employees hired for specific tasks or assignments) are eligible to participate in the Plan upon performing one hour of service. Bargaining unit employees are eligible to participate in the Plan upon becoming “regular” employees under the terms of the applicable collective bargaining agreement (and subject to any future changes therein).

The Plan includes an automatic enrollment feature under which eligible employees are automatically enrolled in the Plan unless they make an affirmative election otherwise. Eligible employees are given a 60-day election period to opt-out of automatic enrollment or to make an affirmative salary reduction (401(k)) election. If an employee is automatically enrolled, the employee is deemed to have elected a pre-tax 3% salary reduction (401(k)) contribution. Automatic enrollment does not apply to regular under 20-hours non-union part-time employees.

c. 401(k) Contributions

Employees participate in the Plan by making 401(k) contributions of up to 30% of compensation as defined below, subject to a federal tax limit of \$23,000 in 2024.

Participants who are age 50 or older, or who attain age 50 during the year, may elect to make catch-up 401(k) contributions, subject to a federal tax limit of \$7,500 in 2024.

For purposes of calculating contributions to the Plan, compensation is defined as Box 1, W-2 earnings, modified to (a) exclude discretionary bonuses, fringe benefits, employer nonelective contributions to a cafeteria plan, reimbursements, moving and other expense allowances and special executive compensation; and (b) include pre-tax elective contributions made by a Participating Employer to the Plan, a cafeteria plan or a transportation spending plan. Special executive compensation is noncash compensation and/or nonqualified deferred compensation, available only to a select group of management employees.

Federal tax law limits the amount of annual compensation that may be taken into account in determining contributions to the Plan. The maximum limit was \$345,000 in 2024.

A participant may designate all or a portion of the participant's 401(k) contributions as Roth after-tax contributions. To the extent a participant does not affirmatively designate a contribution as a Roth contribution, such contribution will constitute a pre-tax contribution.

d. Rollover Contributions

A participant or an eligible employee (whether or not a participant) may make a direct rollover to the Plan of an eligible rollover distribution from another qualified defined benefit or defined contribution plan. The Plan may accept direct rollovers of after-tax amounts from qualified retirement plans. The Administrative Committee may consider traditional rollovers by eligible employees. To protect the tax-qualified status of the Plan, the Administrative Committee may ask the eligible employee to provide an opinion of counsel or other evidence to establish that the requirements for a traditional rollover have been satisfied.

e. Matching Contributions

The Participating Employers match the 401(k) contributions of their respective eligible participants who were first employed (or deemed to be new employees under Section 1.2 of the Retirement Plan for Employees of Hawaiian Electric Industries, Inc. and Participating Subsidiaries) after April 30, 2011. The amount of the match is 50% of the first 6% of annual compensation deferred by the participant (i.e., maximum matching contribution of 3% of the participant's annual compensation). Participants who were first employed by a Participating Employer prior to May 1, 2011, or after December 31, 2021, are not eligible for matching contributions.

f. Non-Elective Contributions

Effective January 1, 2022, the Plan was amended to provide for non-elective contributions to participants hired on or after January 1, 2022, and to preserve matching contributions only for participants hired between May 1, 2011, and December 31, 2021. Under this amendment, participants who become new employees (or are deemed to be new employees under the terms of the Plan) on or after January 1, 2022, are eligible to receive non-elective contributions equal to 10% of annual participant compensation. Non-elective contributions are subject to a six-year graded vesting schedule.

**Hawaiian Electric Industries
Retirement Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023**

g. Participant Accounts

Each participant has an individual account in the Plan, which may include one or more subaccounts. Participants are at all times 100% vested in their 401(k) and rollover contribution subaccounts. Matching contribution and non-elective contribution subaccounts are subject to a graded vesting schedule, as described further below. A participant's Plan benefit equals the vested balance in the participant's account at the time of distribution. Each participant's account is credited with the participant's elective (401(k)) contributions, matching, non-elective and rollover contributions, if applicable, and allocations of Plan earnings, gains or losses (whether realized or unrealized), and may be charged with an allocable share of any administrative expenses paid by the Plan or charged directly to the participant's account. Administrative expenses, such as recordkeeping expenses, are partially paid through investment level fees borne by participants relative to certain designated investment options that generate revenue credits for the Plan. Individual expenses, such as fees associated with loans and distributions, are charged directly to a participant's individual account. Participant accounts are valued at the end of each day that the New York Stock Exchange is open.

The Plan is intended to be an Employee Retirement Income Security Act ("ERISA") Section 404(c) plan, under which the fiduciaries of the Plan are relieved of liability for any losses that are the direct and necessary result of a participant's or beneficiary's exercise of control over the investments in his or her individual account. Participants are responsible for directing the investment of all amounts in their accounts using investment options offered under the Plan and for the performance of such investments. As of December 31, 2024 and 2023, the Plan offered various mutual funds, common collective trust funds and directed investments in HEI common stock. Participants may change their investment elections at any time. If a participant does not choose an investment option for any portion of the participant's account, such amounts are automatically invested in the age-appropriate Fidelity Freedom Index Fund or such other investment as the PIC may direct, pending other direction by the participant.

The portion of the Plan that is invested in HEI common stock is designated as an employee stock ownership plan ("ESOP"). Amounts contributed to the Plan for investment in HEI common stock or transferred to investments in HEI common stock from other investment options become part of the ESOP component of the Plan.

Participants are not required to make any investment in HEI common stock, and there are two limitations on the amount a participant may invest in HEI common stock. First, a participant may not direct more than 20% of any contribution to HEI common stock. Second, participants and beneficiaries are prohibited from making transfers or exchanges from other investment options into HEI common stock if the transfer or exchange would cause the participant's or beneficiary's investment in HEI common stock to exceed 20% of the participant's or beneficiary's total account balance.

h. Distributions

Distributions from participants' accounts are generally made upon retirement, death, permanent disability or other termination of employment. Distributions may be made in a single lump sum, or a retired or terminated participant may elect to receive partial distributions (once per year) until the participant's account has been distributed in full or the participant elects to receive a single-sum distribution of the remaining account balance. Retired participants may also receive required minimum distributions from the Plan, as mandated by the Internal Revenue Code (the "Code").

**Hawaiian Electric Industries
Retirement Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023**

Account balances of \$7,000 or less are automatically distributed upon termination of employment. Any automatic distribution of more than \$1,000 (but not more than \$7,000) is made in the form of an automatic direct rollover to an Individual Retirement Account ("IRA") designated by the Administrative Committee, unless the participant requests a cash distribution or a direct rollover to an IRA or tax-qualified retirement plan of the participant's choosing.

Distributions with respect to HEI common stock are made in HEI common stock, unless requested in cash.

The participant's account will be reduced by any unpaid note balance at the time of distribution. However, unless rolled over, the balance of the unpaid note will be taxable to the participant.

i. Death Benefits

Upon the death of a participant, the full value of the participant's vested account balance (reduced by any outstanding loans) is payable as a death benefit to the participant's designated beneficiary.

j. Withdrawals While Employed

Prior to termination of employment, 401(k) and certain other contributions (and the associated investment earnings) may be withdrawn in the event of hardship.

Upon request, a participant may withdraw certain contributions (and the associated investment earnings), including certain tax-deductible (IRA) and voluntary after-tax contributions no longer permitted under the Plan and after-tax and Roth rollover contributions.

Participants who elect to invest in HEI common stock (the ESOP component of the Plan), may elect to receive cash distributions of periodic dividends attributable to such investments or may elect to have such dividends reinvested through the Plan. If the dividends are reinvested, they are fully vested.

A participant who is age 59½ or older may elect to receive an in-service distribution from his or her vested account balance once per year. In-service distributions are not permitted from a participant's matching contribution or non-elective contribution subaccount.

k. Notes Receivable from Participants

Participants may borrow from their accounts. All loans must be on commercially reasonable terms and be evidenced by a note. The minimum note amount is \$1,000, and the maximum amount of all notes under the Plan is limited to the lesser of \$50,000, reduced by the highest outstanding note balance during the prior 12 months minus the outstanding note balance from the Plan on the date the note is made, or 50% of the participant's vested account balance. The term of a note generally may not exceed 5 years, except that a note used to purchase a principal residence may have a term of up to 15 years. The interest rate on a note is set at the time a participant applies for the note. The interest rate for 2024 and 2023 was 2 percentage points above the Federal Reserve prime rate of interest as of the last working day of the month preceding the month the note was made. All outstanding notes are collateralized by 50% of the participant's vested account balance, determined when a note is approved. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. If a participant ceases to make loan repayments and the Plan Administrator deems the participant

**Hawaiian Electric Industries
Retirement Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023**

loan to be in default, the default will be a deemed distribution. However, the participant's account will not be reduced until a distributable event occurs under the terms of the Plan. Notes outstanding as of December 31, 2024, bear interest at various rates ranging from 4.25% to 10.5%. Principal and interest payments are made ratably through payroll deductions. Participants are allowed up to two notes outstanding at any one time from the Plan.

I. Vesting

The Code section 401(k) contributions (elective deferral contributions), including catch-up contributions, are fully vested when made. Matching contributions for participants first employed after April 30, 2011, through December 31, 2021, and non-elective contributions for participants first employed after December 31, 2021, are subject to a six-year graded vesting schedule as set forth below. Notwithstanding the vesting schedule, matching contributions and non-elective contributions become fully vested upon attainment of age 65, provided the participant is still employed as of such date by a Participating Employer or another subsidiary of HEI that is not a Participating Employer.

Years of Vesting Service	Vested Percentage
Less than 2 years	0 %
2 years	20 %
3 years	40 %
4 years	60 %
5 years	80 %
6 or more years	100 %

m. Forfeitures

Plan forfeitures are used to pay Plan administrative expenses and to reduce Participating Employers' contributions. Forfeitures of terminated nonvested account balances used for the year ended December 31, 2024 totaled approximately \$377,000. The ending balances in the forfeiture accounts as of December 31, 2024 and 2023 were approximately \$359,000 and \$264,000, respectively.

n. Collective Bargaining Agreement

As of December 31, 2024 and 2023, approximately 45% and 46% of the electric utilities' employees were members of the International Brotherhood of Electrical Workers, AFL-CIO, Local 1260, which is the only union representing employees of the electric utilities.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The Plan prepares its financial statements under the accrual method of accounting in accordance with U.S. generally accepted accounting principles.

b. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Hawaiian Electric Industries
Retirement Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023**

c. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The PIC is responsible for the Plan's valuation principles and utilizes information provided by the Plan's investment advisors and trustee. See Note 3 for a discussion of fair value measurements. Net appreciation or depreciation in the fair value of investments includes realized and unrealized changes in the values of investments bought, sold and held during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

d. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is treated as a deemed distribution. However, the participant's account will not be reduced until a distributable event occurs under the terms of the Plan.

e. Payment of Benefits

The Plan records benefits when they are paid. There were no participant elections to withdraw funds that remained unexecuted as of December 31, 2024 and 2023.

f. Expenses

Certain expenses of maintaining the Plan, such as recordkeeping, consulting, legal and audit fees, may be paid directly by the Participating Employers. If so, they are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in the current year's net change in fair value of investments.

g. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2024 and 2023, approximately 2% and 4%, respectively, of the Plan's net assets available for benefits consisted of HEI common stock.

h. Subsequent Events

The Plan Administrator has evaluated subsequent events through September 5, 2025, the date the financial statements were issued, and determined that the Plan did not have any subsequent events requiring adjustment to the financial statements or disclosure in the notes to the financial statements, except as noted in Note 4 below.

3. Fair Value Measurements

a. Fair Value of Financial Instruments

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds

Valued using a market approach based on the daily closing price as reported on the active market in which the fund is traded. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

HEI Common Stock

Valued using a market approach based on the daily closing price as reported on the active market in which the stock is traded. The HEI common stock held by the Plan is deemed to be actively traded.

Common Collective Trust (“CCT”) Funds

The Plan’s investment in the T. Rowe Price Stable Value Common Trust Fund K (the “SV Fund”) is a CCT comprised primarily of fully benefit-responsive synthetic investment contracts (“SIC”) and is valued using NAV as a practical expedient to estimate fair value as reported by the fund manager. SIC consists of units of a collective investment trust and/or a portfolio of underlying assets owned by the trust and a wrap contract issued by a financially responsible third party. Units in the SV Fund are not publicly traded, but rather are redeemable only by the issuer, and do not have a readily determinable fair value. The SV Fund allows for daily redemption of participant-initiated withdrawals. The Plan is required to provide 12 months advance written notice to the trustee prior to redemption of trust units; however, the notice period may be shortened or waived at the trustee’s discretion. The value of the Plan’s investment in the SV Fund represents the value of the Plan’s interest in the overall value of the SV Fund. The NAV is based on the fair value of the underlying investments held by the fund less liabilities and an adjustment from fair value to contract value for fully benefit-responsive investment contracts.

The Plan’s investment in the Fidelity Freedom Index Funds (the “Index Funds”) are CCT funds in which the underlying holdings are comprised of primarily marketable equity and fixed income securities and are valued using NAV as a practical expedient to estimate fair value as reported by the fund manager as of the valuation date. NAV per unit is determined on a daily basis. There are no restrictions in place related to either participant or plan sponsor-directed redemption; however, if the Plan were to initiate a significant transaction, either into or out of the Index Funds, the fund manager reserves the right to request a reasonable period of notice.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values, which may be materially affected by market conditions and other circumstances. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Hawaiian Electric Industries
Retirement Savings Plan
Notes to Financial Statements
December 31, 2024 and 2023**

b. Fair Value Hierarchy

Accounting Standards Codification 820, Fair Value Measurements and Disclosures, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The following are the three levels of the fair value hierarchy under this standard:

Level 1 Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 Inputs are quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level of input that is significant to the fair value measurement in its entirety.

4. Interest in Master Trust

All the invested assets of the HEIRS Plan were held together with all the invested assets of the ASB 401(k) Plan in a master trust (the "Master Trust") pursuant to a Master Trust Agreement among HEI and American Savings Bank, F.S.B. and Fidelity Management Trust Company ("FMTC") (the "Trustee"). Each participating plan had a divided interest in the mutual funds, the CCT funds and HEI common stock in the Master Trust. Effective January 1, 2025, all the invested assets of the ASB 401(k) Plan were transferred into a new single-plan trust, and the Master Trust Agreement was amended and restated into a single-plan trust agreement exclusively for the HEIRS Plan. Fidelity remains the Trustee of the Master Trust and is also the trustee of the new single-plan trust.

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions, transfers and allocated investment income or loss, less actual distributions and allocated administrative expenses. Investment income or loss and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the daily valuation of the balances invested by each plan.

There were no Level 3 investments held by the Master Trust as of December 31, 2024 or 2023.

5. Discontinuance of Contributions and Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan and applicable law to discontinue contributions (other than corrective contributions) at any time and to terminate the Plan, and each Participating Employer has the right to discontinue contributions (other than corrective contributions) and terminate its participation in the Plan. In the event of Plan termination, affected participants become 100% vested in their accounts to the extent then funded.

6. Federal Income Taxes

The Plan and Master Trust are qualified under the Code and are exempt from federal income taxes under Sections 401(a) and 501(a) of the Code. On January 16, 2015, the Internal Revenue Service ("IRS") issued the latest favorable determination letter covering the Plan. This latest determination letter does not cover amendments made to the Plan since January 1, 2013. On October 6, 2022, the Plan was restated to incorporate all amendments adopted on and after January 1, 2013. Because of changes in the IRS's determination letter program, the Company is currently unable to apply for periodic determination letters. If the IRS changes these rules in the future, to the extent the Company is able to apply for periodic determination letters, it will exercise its discretion as to whether to file such an application, consistent with the best interests of the Plan

and Plan participants. The Company and its outside ERISA/tax counsel believe that the October 6, 2022 Plan restatement satisfies the plan document requirements of applicable federal tax laws (i.e., Code Section 401(a)).

The Company is not aware of any Code or ERISA violations that would jeopardize the Plan's tax-exempt status. As of December 31, 2024 and 2023, the Company has concluded that there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is periodically audited by the IRS and the U.S. Department of Labor (DOL). The DOL commenced a routine audit of the Plan by letter on June 12, 2024, for the period January 2021 through June 2024. The Company has complied with all DOL's request for documents and information pertaining to the Plan to date, and expects a favorable closing letter from the DOL in due course. The Company is informed and believes that the Plan is no longer subject to income tax examinations for tax years prior to 2021.

7. Party-in-Interest Transactions

Certain Plan investments represent shares of mutual funds managed by Fidelity Management and Research Company ("FMR") and the Index Funds managed by Fidelity Institutional Asset Management Trust Company ("FIAM"). FMTC, an affiliate of FMR and FIAM, is the Trustee of the Plan, and therefore, transactions with FMR and FIAM qualify as party-in-interest transactions under the prohibited transaction rules of ERISA for which a prohibited transaction exemption exists.

Effective April 2024, Fidelity's Personalized Planning & Advice at Work service (the "Managed Account Service") was added to the Plan. Fidelity Personal and Workplace Advisors, LLC ("FPWA") and Fidelity Strategic Advisors, LLC ("FSA") provide services under the Managed Account Service and are affiliated with FMR, FIAM and FMTC, under which party-in-interest transactions are exempt pursuant to a prohibited transaction class exemption. During the year ended December 31, 2024, transactions related to the Managed Account Service were not significant.

Effective January 1, 2012, a revenue credit program ("RCP") for the Plan was implemented by FMTC under which credits are provided for the payment of expenses. Certain recordkeeping, consulting, legal and audit fees incurred by the Plan may be included as administrative expenses in the Statement of Changes in Net Assets Available for Benefits because they are paid through the RCP. During the year ended December 31, 2024, the RCP credits used to pay expenses amounted to approximately \$429,000. During the year ended December 31, 2024, the RCP credits used to pay for services provided by Fidelity Investments Institutional Operations Company, Inc., an affiliate of FMR, FIAM and FMTC, amounted to approximately \$247,000. If there are amounts owing in excess of the revenue credits, they will be paid by the Participating Employers.

Plan participants may elect to invest in HEI common stock. Since HEI is the Plan sponsor, investments in HEI common stock are party-in-interest transactions under the prohibited transaction rules of ERISA for which a statutory exemption exists. During the year ended December 31, 2024, the Plan made purchases of approximately 211,000 shares of HEI common stock for a total purchase price of approximately \$2.3 million and sales of approximately 209,000 shares of HEI common stock for total sales proceeds of approximately \$2.5 million.

Notes receivable from Plan participants are considered party-in-interest transactions under the prohibited transaction rules of ERISA, for which a statutory exemption exists.
