INDEPENDENT AUDITOR'S REPORT

The Plan Administrator of
The Hyster-Yale Materials Handling, Inc. Combined Pension Plan
Mayfield Heights, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Hyster-Yale Materials Handling, Inc. Combined Pension Plan (f/k/a Hyster-Yale Group, Inc. Combined Pension Plan) (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2023 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Hyster-Yale Materials Handling, Inc Combined Pension Plan (f/k/a Hyster-Yale Group, Inc. Combined Pension Plan) (the “Plan” or “Legacy Union Plan”) provides only general information. Reference should be made to the Plan document for a more complete description of the Plan’s provisions.

General: The Plan (as amended and restated as of January 1, 2020), is sponsored by Hyster-Yale Materials Handling, Inc. (f/k/a Hyster-Yale Group, Inc.) (the “Company”), and is a defined benefit pension plan within the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) (as amended).

The Plan is frozen for purposes of eligibility and benefit accruals.

Effective January 1, 2024, Hyster-Yale Group, Inc. was renamed to Hyster-Yale Materials Handling, Inc. and the Plan was renamed to The Hyster-Yale Materials Handling, Inc. Combined Pension Plan.

Plan Administration: The Company is the Plan sponsor and Plan administrator. Vanguard Fiduciary Trust Company (“prior-Trustee”) was the trustee of the Plan as of December 31, 2023 and for the period of January 1, 2023 to October 31, 2024 and U.S. Bank National Association (“current-Trustee”) was the trustee of the Plan as of December 31, 2024 for the period of November 1, 2024 to December 31, 2024. Plan assets were transferred from the prior-Trustee to the current-Trustee on October 31, 2024. Investment decisions are made by the Hyster-Yale Materials Handling, Inc. Retirement Funds Investment Committee.

Vesting: Plan participants are 100% vested in their benefits under the Plan.

Contributions: The Company intends to contribute, at a minimum, amounts necessary to provide the Plan with sufficient assets to meet or exceed the minimum funding requirements under ERISA. Company contributions made for the 2024 and 2023 plan years met or exceeded the ERISA minimum funding requirements.

Legacy Union Plan Benefits: Participants are eligible for benefits upon reaching age 65 or beginning at age 55 with at least 15 years of service, as defined. Certain Danville employees are eligible for a special early retirement pension upon completion of 30 years of service. In general, benefits are computed on the basis of a fixed amount per month for each year of service during which the participant was an active participant of the Plan.

Various disability pre-retirement and post-retirement benefits are payable under the Plan. In general, benefits are distributed in the form of monthly payments.

Legacy Non-Union Plan Benefits: Participants are eligible for benefits upon reaching age 65, or beginning at age 55 with at least 15 years of service, as defined. Plan benefits are equal to the sum of prior plan benefits plus cash pension benefits. Under the cash balance formula, a separate account was established for each participant in the Plan. The interest credited to the cash balance accounts is indexed to the one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year, subject to a 12% maximum. Various minimum benefits and prior plan benefits also apply.

Various disability pre-retirement and post-retirement benefits are payable under the Plan. In general, benefits are distributed in the form of monthly payments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Expenses: Certain expenses of administering the Plan, principally actuarial fees, accounting fees and some investment management fees are paid by the Plan. These costs are reflected on the accompanying financial statements. Other administrative expenses, such as legal fees and miscellaneous costs, are paid by the Company and are not reflected in the accompanying financial statements. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Benefit Payments: Benefits are recorded when paid.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Market risks include risks associated with ongoing global events. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

(Continued)

THE HYSTER-YALE MATERIALS HANDLING, INC.
COMBINED PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs for the asset or liability. Level 3 inputs include the Plan's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions are of the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Money Market Fund: The fair value of the money market fund investment is based on the value per unit as published daily by the investment manager and represent the net asset value of units held by the Plan at year end (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis using quoted prices in active markets for identical assets (Level 1) are summarized below:

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Investments		
Mutual funds	\$ 44,494,202	\$ 47,582,647
Money market fund	<u>499,583</u>	<u>-</u>
Total investments, fair value	<u>\$ 44,993,785</u>	<u>\$ 47,582,647</u>

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present eligible employees or their beneficiaries. The accumulated plan benefits for active employees are based on the years of service ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, full and permanent disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

COMBINED PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The actuarial present value of accumulated plan benefits is determined by actuaries from Willis Towers Watson, the Plan's actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, full and permanent disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used by the Plan's actuaries to arrive at the valuations of the Plan as of December 31, 2023 are as follows:

Assumed rate of return	5.50%
Mortality basis	Pri-2012/MP-2021
Retirement age (Legacy Union)	Rates vary by age, ranging from 10% (age 62) to 25% (age 65) to 100% (age 70)
Retirement age (Legacy Non-Union)	Rates vary by age, ranging from 2.50% (age 55) to 25% (age 65) to 100% (age 70)
Cash balance crediting rate (Legacy Non-Union)	3.50%

The \$158,048 decrease in the present value of accumulated plan benefits in 2023 is due to actuarial assumption changes attributable to various annual updates required under IRC 417(e).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 4 - CERTIFIED INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held as of December 31, 2024 and 2023, net appreciation (depreciation) in fair value of investments, interest and dividends, for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by U.S. Bank National Association as of December 31, 2024 and for the period of November 1, 2024 to December 31, 2024 and Vanguard Fiduciary Trust Company as of December 31, 2023 and for the period of January 1, 2023 through October 31, 2024.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. Certain investments held by the Plan at December 31, 2024 and 2023 are shares of mutual funds managed by Vanguard Group, Inc. The prior-Trustee is a wholly owned subsidiary of the Vanguard Group, Inc. Vanguard Fiduciary Trust Company was the trustee as of December 31, 2023 and for the period of January 1, 2024 to October 31, 2024, as defined by the Combined Plan; therefore, these investments and investment transactions qualify as party-in-interest transactions. Amounts paid by the Plan to parties-in-interest included fees for investment management, actuarial, audit and trustee services. However, these investments and transactions are not considered prohibited transactions.

NOTE 6 - PLAN TERMINATION

Although it has not expressed an intention to do so, the Company has the right to terminate the Plan at any time within the constraints of ERISA and the Internal Revenue Code. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed in the Plan document and by ERISA and its related regulations. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. However, benefit improvements attributable to plan amendments may not be fully guaranteed by the PBGC. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 7 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated January 13, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code ("the Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe the Plan is qualified and the related trust is tax-exempt.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to federal income tax examinations for years prior to 2021.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 15, 2025, which is the date the financial statements were available to be issued.

NOTE 9 - DECEMBER 31, 2024 ACTUARIAL VALUATION (UNAUDITED)

The December 31, 2024 actuarial valuation was completed prior to the release of the financial statements. A summary of the actuarial valuation information provided by the Plan's actuary, which has not been audited by independent accountants, is provided below for informational purposes.

NOTE 9 - DECEMBER 31, 2024 ACTUARIAL VALUATION (UNAUDITED) (Continued)

The actuarial present value of accumulated plan benefits as of December 31, 2024 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:	
Participants currently receiving payments	\$ 30,210,835
Other participants	<u>14,076,265</u>
Total vested benefits	47,287,100
 Nonvested benefits	 <u>1,516</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 44,288,616</u>

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2024 consists of the following:

Actuarial present value of plan benefits at beginning of year	\$ 45,947,790
 Benefits paid	(5,198,687)
Increase due to decrease in the discount period	2,386,078
Net actuarial (gains) losses	(571,530)
Assumption changes	<u>1,724,965</u>
	(1,659,174)
 Actuarial present value of accumulated plan benefits at end of year	 <u>\$ 44,288,616</u>

The \$1,659,174 decrease in the present value of accumulated plan benefits in 2024 is due to actuarial assumption changes attributable to various annual updates required under IRC 417(e).

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Economic Assumptions

Expected return on plan assets for asset smoothing 6.00%

Interest rate basis

- Applicable month October 2023
- Interest rate basis Segment Rates

Interest rates	Reflecting Stabilization	Not Reflecting Stabilization
• First segment rate	4.75%	3.82%
• Second segment rate	4.87%	4.59%
• Third segment rate	5.59%	4.63%
• Effective interest rate	4.95%	4.47%

Annual rates of increase

(Legacy Non-Union only)

- Cash balance crediting rate 3.50%¹

Plan-related expenses \$1,301,272 is included in the target normal cost for plan year 2024.

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates and may be inconsistent with other economic assumptions used in the valuation.

¹ Actual crediting rate for plan year 2024 (6.73%) was used, with 3.50% applying from 2025+

Demographic Assumptions

Mortality

- **Healthy** Separate rates for non-annuitants and annuitants based on PRI-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
- **Disabled** Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.

Termination

Rates varying by age and gender

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit The later of age 65 or termination of employment
- Disability benefit N/A
- Retirement benefit Upon termination of employment

Form of payment

Legacy Union: Life annuity (100% electing)

Legacy Non-Union:

Active Retirement: 80% single lump sum distribution; 20% life annuity

Deferred Vested Retirement: 60% single lump sum distribution; 40% life annuity

Percent married

85% of males; 50% of females.

Spouse age

Wife three years younger than husband.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Decrement timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Target normal cost

Plan-related expenses expected to be paid from plan assets during the plan year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected investment returns of 6.00% (with such expected earnings limited as described in IRS Notice 2009-22), including contributions receivable. The average asset value must be within 10% of fair value on valuation date, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued except for disability benefits which are determined to be immaterial. WTW has reviewed the plan provisions with HY and based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

WTW used asset data supplied by the trustee. HY furnished participant data as of the valuation date through the eepoint administration system. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the Company, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	As required by IRC §430, the basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate <i>(Legacy Non-Union only)</i>	The plan credits interest to cash balance accounts using the sum of 1% plus one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year. For the current plan year, the actual rate is used. HY has selected an expected future one-year constant maturity yield of 2.50%. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.
Lump sum conversion rate <i>(Legacy Non-Union only)</i>	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Annuity conversion rate for cash balance benefits <i>(Legacy Non-Union only)</i>	As required by IRC §430, annuity benefits are valued by converting accounts to annuities using the current IRC §430 interest rates, so that the interest rates assumed are effectively the same as described above for the discount rate.
Assumed return for asset smoothing	The assumed return of 6.00% used for asset smoothing is the expected return on assets assumption chosen by HY with the help of their investment advisers for the 2023 fiscal year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is HY’s best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation. When higher, this rate is limited by the prior year third segment rate of 5.74% for 2023 and 4.92% for 2022.

Assumptions Rationale - Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Retirement	Assumed retirement rates differ by age because of expected differences in retirement rates by age.
Form of payment (Legacy Non-Union Only)	The percentage of retiring participants assumed to take lump sums and annuities is based on recent observed experience and anticipated future experience.

Prescribed Methods

Funding methods	The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430 or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	• The segment interest rates used to calculate the funding target were updated to the current valuation date as required by IRC §430. • The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality table and improvement scale and was changed from using a static projection of mortality improvement to a generational projection , as required by guidance issued by IRS under IRC §430.

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor	Hyster-Yale Materials Handling, Inc.
EIN/PN	93-0160700/021
Plan Name	The Hyster-Yale Materials Handling, Inc. Combined Pension Plan
Valuation Date	January 1, 2024
Enrolled Actuary	Brett J. Logterman
Enrollment Number	23-07485

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates and may be inconsistent with other economic assumptions used in the valuation.

Demographic Assumptions

Mortality

- **Healthy** Separate rates for non-annuitants and annuitants based on PRI-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).
- **Disabled** Alternative disabled life mortality tables as defined under Revenue Ruling 96-7.

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Decrement timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Target normal cost	Plan-related expenses expected to be paid from plan assets during the plan year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected investment returns of 6.00% (with such expected earnings limited as described in IRS Notice 2009-22), including contributions receivable. The average asset value must be within 10% of fair value on valuation date, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued except for disability benefits which are determined to be immaterial. WTW has reviewed the plan provisions with HY and based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

WTW used asset data supplied by the trustee. HY furnished participant data as of the valuation date through the eepoint administration system. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the Company, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	As required by IRC §430, the basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate <i>(Legacy Non-Union only)</i>	The plan credits interest to cash balance accounts using the sum of 1% plus one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year. For the current plan year, the actual rate is used. HY has selected an expected future one-year constant maturity yield of 2.50%. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.
Lump sum conversion rate <i>(Legacy Non-Union only)</i>	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.
Annuity conversion rate for cash balance benefits <i>(Legacy Non-Union only)</i>	As required by IRC §430, annuity benefits are valued by converting accounts to annuities using the current IRC §430 interest rates, so that the interest rates assumed are effectively the same as described above for the discount rate.
Assumed return for asset smoothing	The assumed return of 6.00% used for asset smoothing is the expected return on assets assumption chosen by HY with the help of their investment advisers for the 2023 fiscal year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is HY’s best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation. When higher, this rate is limited by the prior year third segment rate of 5.74% for 2023 and 4.92% for 2022.

Assumptions Rationale - Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Retirement	Assumed retirement rates differ by age because of expected differences in retirement rates by age.
Form of payment (Legacy Non-Union Only)	The percentage of retiring participants assumed to take lump sums and annuities is based on recent observed experience and anticipated future experience.

Prescribed Methods

Funding methods	The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430 or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation	• The segment interest rates used to calculate the funding target were updated to the current valuation date as required by IRC §430. • The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality table and improvement scale and was changed from using a static projection of mortality improvement to a generational projection , as required by guidance issued by IRS under IRC §430.

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as a life annuity in the amount described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the actuarially equivalent 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 75% and 100% joint and survivor annuity and a 5-, 10- or 15-year certain and life annuity.
Conversion factors applied for optional forms of payment	7.50% and the 1971 TPF&C Unisex Mortality Table set back six years for beneficiaries.
Maximum limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the IRC. The plan provides for increasing the dollar limits automatically as such changes become effective.

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as a life annuity in the amount described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the actuarially equivalent 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 75% and 100% joint and survivor annuity and a 5-, 10- or 15-year certain and life annuity.
Conversion factors applied for optional forms of payment	7.50% and the 1971 TPF&C Unisex Mortality Table set back six years for beneficiaries.
Maximum limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the IRC. The plan provides for increasing the dollar limits automatically as such changes become effective.

Monthly pension benefit

The account balance converted to an annuity plus the frozen accrued benefit.

As of any date, one-twelfth of (i) plus (ii):

- (i) The prior plan benefit excluding the terminated plan benefit
- (ii) An annuity based on the balance in a notional account. The annual additions to the account are age-based percentages of pensionable pay with an additional percentage for pay in excess of the Social Security wage base, until December 31, 1996, when the plan was frozen. The schedule is as follows:

Age	Percentage of Pay	Percent of Pay Over Wage Base
0-34	1.4%	1.4%
35-39	1.7%	1.7%
40-44	2.0%	2.0%
45-49	2.5%	2.5%
50-54	3.1%	3.0%
55-59	3.8%	3.8%
60+	4.5%	4.5%

The annual increase interest credit is given on the balance at the end of the prior year based upon the rate for T-bills plus 1%, with a maximum of 12%.

Monthly preretirement death benefit

50% of the monthly pension benefit exclusive of the cash balance benefit as of the date of death, reduced for the 50% joint and survivor selection and reduced for payment as early as the participant's 55th birthday.

are paid in the form of the actuarially equivalent 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% joint and survivor annuity, a 5-, 10- or 15-year certain and life annuity, a 5-, 10- or 15-year certain annuity, or a lump sum.

Conversion factors for optional forms of payment

For the cash balance portion, the applicable interest rate(s) and mortality table

For the prior plan benefit, 7.50% and the 1971 TPF&C Mortality Table for males set back six years for beneficiaries.

Maximum limits on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the IRC. The plan provides for increasing the dollar limits automatically as such changes become effective.
