NOTE 1 – Organization:

Oaktree Enhanced Income Fund, L.P. (the “Main Fund”) was formed on April 23, 2012, as a closed-end Delaware limited partnership. The Main Fund is managed in tandem with Oaktree Enhanced Income Fund (Parallel), L.P. (the “Parallel Fund”, and collectively with the Main Fund, the “Funds”). The Parallel Fund was formed on September 24, 2012, as a closed-end Delaware limited partnership. The principal objective of the Funds is to invest primarily in a diversified portfolio of U.S. dollar-denominated bank loans and other senior debt instruments of borrowers that are organized or have a substantial portion of their operations, assets, or business located in the United States or Canada (“U.S. Entities”). The Funds are also permitted to invest a portion of their capital in debt investments and other obligations that the investment manager believes are available at meaningful discounts to their intrinsic values, including bridge loans for high yield bond commitments and U.S. dollar- and non-U.S. dollar-denominated bank loans and other debt instruments of non-U.S. Entities, and equity and debt instruments that are purchased or otherwise obtained in a workout or financial restructuring involving a pre-existing investment. The Funds employ leverage in their investment program through the use of one or more special purpose vehicles.

The Second Amended and Restated Limited Partnership Agreement of the Main Fund, dated September 14, 2015 (the “Main Fund Agreement”), was entered into among Oaktree Enhanced Income Fund GP, L.P. (the “Main Fund General Partner”), a Delaware limited partnership, and the limited partners of the Main Fund. The Main Fund commenced operations with its first drawdown of capital on September 4, 2012. The Main Fund appointed Oaktree Capital Management, L.P. (“Oaktree” or the “Investment Manager”), a Delaware limited partnership, as its investment manager to provide portfolio management and administrative services pursuant to a management agreement, dated August 24, 2012; provided however that the management and conduct of the activities of the Main Fund remain the ultimate responsibility of the Main Fund General Partner.

The Second Amended and Restated Limited Partnership Agreement of the Parallel Fund, dated September 14, 2015 (the “Parallel Fund Agreement”, and collectively with the Main Fund Agreement, the “Fund Agreements”), was entered into among Oaktree Enhanced Income Fund GP, Ltd. (the “Parallel Fund General Partner”, and collectively with the Main Fund General Partner, the “General Partners”), a Cayman Islands exempted company, and the limited partners of the Parallel Fund. The Parallel Fund commenced operations with its first drawdown of capital on November 1, 2012. The Parallel Fund appointed Oaktree as its investment manager to provide portfolio management and administrative services pursuant to a management agreement, dated November 1, 2012; provided however that the management and conduct of the activities of the Parallel Fund remain the ultimate responsibility of the Parallel Fund General Partner.

The Funds were restructured on October 20, 2015 (the “Restructuring”). The Restructuring involved the formation of two classes of limited partner interests – a class for partners of the Funds who had elected to extend their investment period (“Class A Partners”) and a class for partners of the Funds who had elected, or were deemed to have elected, not to extend their investment period (“Class B Partners”). The Main Fund and Parallel Fund’s investment periods commenced on September 4, 2012 and November 1, 2012, respectively. Pursuant to the Fund Agreements, the investment period for Class A Partners ended on October 20, 2018 (“Class A Investment Period”). The investment period for Class B Partners ended on September 4, 2015 (“Class B Investment Period”, and collectively with Class A Investment Period, the “Investment Periods”). A one-year liquidation period began immediately following the end of each class’ investment period (“Liquidation Periods”). During the Liquidation Periods, the General Partners will commence an orderly liquidation of the investments held by each class, provided that the General Partners, in their sole discretion, may extend the Liquidation Periods for up to two additional one-year periods. As of December 31, 2024, the options to extend were exercised, and the General Partners shall continue to use reasonable efforts to liquidate any remaining assets.

As of December 31, 2024, the limited partners of the Funds have committed aggregate capital of \$735,375, all of which has been drawn. The General Partners have committed capital of \$20,010, all of which has been drawn.

NOTE 1 – Organization *(continued)*:

As of December 31, 2024, the Main Fund's total assets, total liabilities, and total partners' capital were \$489, \$40, and \$449, respectively, with the latter representing 32.5% of the Funds' aggregate partners' capital balance. As of December 31, 2024, the Parallel Fund's total assets, total liabilities, and total partners' capital were \$1,016, \$83, and \$933, respectively, with the latter representing 67.5% of the Funds' aggregate partners' capital balance.

The Main Fund and the Parallel Fund each have a feeder fund, Oaktree Enhanced Income Fund (Cayman), L.P. (the "Feeder Fund") and Oaktree Enhanced Income Fund (Parallel) Feeder, L.P. (the "Parallel Feeder" and collectively with the Feeder Fund, the "Cayman Feeders"), respectively. The Feeder Fund and the Parallel Feeder are each a Cayman Islands exempted limited partnership that invests all of its assets in the Main Fund and the Parallel Fund, respectively. As of December 31, 2024, the Feeder Fund and the Parallel Feeder represented approximately 8.8% and 46.8% of the Funds' partners' capital, with the remainder comprised of investments by the other Limited Partners and the General Partners.

On March 24, 2025, the General Partner decided to terminate the Funds and distribute all proceeds.

NOTE 2 – Significant Accounting Policies:

PRINCIPLES OF ACCOUNTING

The accompanying combined consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles ("U.S. GAAP"). The preparation of these combined consolidated financial statements requires the General Partners to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the combined consolidated financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from these estimates.

The Funds are investment companies and follow specialized accounting and reporting requirements for investment companies established under U.S. GAAP.

BASIS OF PRESENTATION

The accompanying financial statements have been prepared on a combined consolidated basis, as the Main Fund and the Parallel Fund share common investments and are commonly controlled by the General Partners. The combined consolidated financial statements also include the accounts of certain special purpose vehicles which are under common control with the Funds. As of December 31, 2024, the investments in senior loans presented in the accompanying combined consolidated financial statements were held by the special purpose vehicles. The profits and losses associated with the senior loans held by the special purpose vehicles have been presented in the accompanying combined consolidated financial statements. All intercompany balances and transactions have been eliminated in the combination/consolidation. As of March 31, 2025, no investments are held by the special purpose vehicles and are presented as such in the accompanying combined consolidated financial statements.

INVESTMENT VALUATIONS

U.S. GAAP establishes a hierarchical disclosure framework, which prioritizes the inputs used in measuring financial instruments at fair value into three levels based on their market observability. Market price observability is affected by a number of factors, including the type of instrument and the characteristics specific to the instrument. Financial instruments with readily available quoted prices from an active market or for which fair value can be measured based on actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment inherent in measuring fair value.

 (Amounts in thousands)

NOTE 2 – Significant Accounting Policies *(continued)*:

INVESTMENT VALUATIONS *(CONTINUED)*

Financial assets and liabilities measured and reported at fair value are classified as follows:

- *Level I* – Quoted unadjusted prices for identical instruments in active markets to which the Funds have access at the date of measurement. The types of investments in Level I include exchange-traded equities, debt and derivatives with quoted prices.
- *Level II* – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are directly or indirectly observable. Level II inputs include interest rates, yield curves, volatilities, prepayment risks, loss severities, credit risks and default rates. The types of investments in Level II generally include corporate bonds and loans, government and agency securities, less liquid and restricted equity investments, over-the-counter traded derivatives and other investments where the fair value is based on observable inputs.
- *Level III* – Valuations for which one or more significant inputs are unobservable. These inputs reflect the General Partners' assessment of the assumptions that market participants use to value the investment based on the best available information. Level III inputs include prices of quoted securities in markets for which there are few transactions, less public information exists or prices vary among brokered market makers. The types of investments in Level III include non-publicly traded equity, debt, real estate and derivatives.

In some instances, an instrument may fall into different levels of the fair value hierarchy. In such instances, the instrument's level within the fair value hierarchy is based on the lowest of the three levels (with Level III being the lowest) that is significant to the fair value measurement. The assessment of the significance of an input requires judgment and considers factors specific to the instrument. Transfers of assets into or out of each fair value hierarchy level as a result of changes in the observability of the inputs used in measuring fair value are accounted for as of the beginning of the reporting period. Transfers resulting from a specific event, such as a reorganization or restructuring, are accounted for as of the date of the event that caused the transfer.

Credit-Oriented Investments

Certain investments in corporate and government debt which are not listed or admitted to trading on any securities exchange are valued at the mean of the last bid and ask prices on the valuation date based on quotations supplied by recognized quotation services or by reputable broker-dealers.

Certain assets are valued using prices obtained from pricing vendors or brokers. The General Partners seek to obtain prices from at least two pricing vendors for the subject or similar securities. In cases where vendor pricing is not reflective of fair value, a secondary vendor is unavailable, or no vendor pricing is available, a fair value comprised of quotes for the subject or similar securities received from broker dealers may be used. These investments may be classified as Level III because the quoted prices may be indicative in nature for securities that are in an inactive market, may be for similar securities, or may require adjustment for investment-specific factors or restrictions. Generally, the General Partners do not adjust any of the prices received from these sources, and all prices are reviewed by the General Partners. The General Partners evaluate the prices obtained from brokers or pricing vendors based on available market information, including trading activity of the subject or similar securities, or by performing a comparable security analysis to ensure that fair values are reasonably estimated. The General Partners also perform back-testing of valuation information obtained from pricing vendors and brokers against actual prices received in transactions. In addition to on-going monitoring and back-testing, the General Partners perform due

diligence procedures over pricing vendors to understand their methodology and controls to support their use in the valuation process.

Non-Publicly Traded Equity Investments

The fair values of private equity investments are determined by using a market approach or income approach. A market approach utilizes valuations of comparable public companies or transactions and generally seeks to establish the enterprise value of the portfolio company using a market multiple approach. This approach takes into account a specific financial measure (such as EBITDA, adjusted EBITDA, free cash flow, net operating income, net income, book value or net asset value) believed to be most relevant for the given company. Consideration may also be given to such factors as acquisition price of the security, historical and projected operational and financial results for the portfolio company, the strengths and weaknesses of the portfolio company relative to its comparable companies, industry trends, general economic and market conditions and other factors deemed relevant. The income approach is typically a discounted cash flow method that incorporates expected timing and level of cash flows. It incorporates assumptions in determining growth rates, income and expense projections, discount rates, capital structure, terminal values and other factors. The applicability and weight assigned to market and income approaches are determined based on the availability of reliable projections and comparable companies and transactions.

The valuation of securities may be impacted by expectations of investors' receptiveness to a public offering of the securities, the size of the holding of the securities and any associated control, information with respect to transactions or offers for the securities (including the transaction pursuant to which the investment was made and the period of time elapsed from the date of the investment to the valuation date) and applicable restrictions on the transferability of the securities.

INVESTMENT TRANSACTIONS AND INCOME RECOGNITION

The Funds utilize the accrual method of accounting. Investment transactions are reported on a trade date basis. Realized gains and losses on investments are recorded on a specific identification basis. The Funds record income on an accrual basis unless the related investment is in default or if the collection of the income is otherwise considered doubtful. Discounts and premiums are accreted/amortized using the effective yield method based on the expected call (yield-to-worst) date.

INCOME TAXES

As partnerships, the Funds are not subject to U.S. federal income tax. Instead, for U.S. federal income tax purposes, the partners of the Funds that are subject to U.S. tax are responsible for their allocable share of the Funds' net taxable income and are required to take into account their distributive share of each item of the Funds' income, gain, loss, deduction and credit, whether or not distributed. Consequently, no income tax provision has been made in the accompanying combined consolidated financial statements. The Funds intend generally to conduct their affairs so that their activities do not constitute a U.S. trade or business and do not create a taxable presence in any of the jurisdictions outside of the U.S. in which the General Partners and/or Investment Manager has offices or in which the Funds have made any investments. Dividends, certain interest as well as other income realized by the Funds from sources within the U.S. may be subject to U.S. withholding tax on certain non-U.S. partners. Interest, dividends and other income realized by the Funds from non-U.S. sources and capital gains realized on the sale of investments in non-U.S. issuers may be subject to withholding and other taxes levied by the jurisdiction in which the income is sourced. Certain activities of the Funds may cause partners in the Funds to be subject to state and local taxes.

NOTE 2 – Significant Accounting Policies *(continued)*:

INCOME TAXES *(CONTINUED)*

The Funds files tax returns as prescribed by the tax laws of the jurisdictions in which it operates. Management determines whether a tax position of the Funds are more likely than not to be sustained upon examination, including resolution of any related appeals or litigation processes, based on the technical merits of the position. For tax positions meeting the more likely than not threshold, the maximum tax benefit recognized is limited to the amount that is more than 50% likely to be realized upon ultimate settlement. Management has analyzed the tax positions expected to be taken on the Funds' tax returns for all open tax years (generally, current and prior three tax years) for all major jurisdictions, and has concluded that no provision for income taxes is required in the Funds' combined consolidated financial statements. The Funds' tax returns for tax years for which the applicable statutes of limitation have not expired are subject to examination by federal, state, local and foreign jurisdictions, where applicable. The Funds have no examinations in progress as of December 31, 2024 and March 31, 2025.

CASH AND CASH EQUIVALENTS

Cash deposits held at the Funds' custodian and cash equivalents, primarily short-term investments in money market funds, are valued at cost, which approximates fair value. As of December 31, 2024 and March 31, 2025, the Funds held \$1,501 and \$1,487, respectively, in Dreyfus, which are considered a Level I investment under the U.S. GAAP fair value hierarchy.

RISKS AND UNCERTAINTIES

Senior loans have exposure to certain degrees of risk, including interest rate, market risk, and the potential non-payment of principal and interest, including default or bankruptcy of the issuer. Loans are generally subject to prepayment risk, which will affect the maturity of such loans. The Funds may enter into senior loan participation agreements through a contractual relationship with a third party selling such participations, but not with the borrower. As a result, the Funds assume the credit risk of the borrower and the selling participant.

Credit risk is the potential loss the Funds may incur from the failure of a counterparty or an issuer to make payments according to the terms of an investment contract. The Funds are subject to credit risk due to their strategy of investing in senior loans and corporate bonds. The Funds' counterparties include their custodian bank, collateral trustee, major brokerages and affiliates with which the Funds have relationships. The Funds continually monitor the creditworthiness of the financial institutions with which they conduct business.

Investments are subject to concentration and industry risk. Such concentrations may subject the investments to additional risks resulting from changes in political, regulatory, or economic conditions in such industry which could cause the investments and their markets to be less liquid and prices more volatile. Investment performance of a few sectors may have a significant impact on the performance of the Funds.

To the extent that the Funds have investments denominated in non-U.S. currencies or non-U.S. domiciled entities, there are risks and special considerations not typically associated with U.S. investments. Such risks may include, but are not limited to, investment and repatriation restrictions, currency exchange rate fluctuations, adverse political, social and economic developments, less liquidity and smaller capital markets, and certain local tax law considerations.

NOTE 3 – Fair Value:

The table below summarizes the valuation of the Funds' investments by the U.S. GAAP fair value hierarchy levels as of December 31, 2024:

	<u>Level I</u>	<u>Level II</u>	<u>Level III</u>	<u>Total</u>
Investments:				
Senior loans	\$ -	\$ -	\$ -	\$ -
Common Equity	-	-	4	4
Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4</u>	<u>\$ 4</u>

The following table sets forth a summary of changes in the fair value of the Funds' Level III investments for the year ended December 31, 2024 and period ended March 31, 2025:

	<u>Common Equity</u>	<u>Total</u>
Balance, December 31, 2023	\$ 4	\$ 4
Purchases	(1)	(1)
Realized gains (losses), net	<u>1</u>	<u>1</u>
Balance, December 31, 2024	4	4
Unrealized gains (losses), net	<u>(4)</u>	<u>(4)</u>
Balance, March 31, 2025	<u>\$ -</u>	<u>\$ -</u>

The following table sets forth a summary of valuation techniques and quantitative information utilized in determining the fair value of the Funds' Level III investments as of December 31, 2024:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Significant Unobservable Inputs</u>
Equity Investments:	\$ 4	Recent market information	Broker quotations

As described in Note 2, other factors beyond the unobservable inputs described above have a significant impact on our investment valuations. A significant amount of judgment may be required when using unobservable inputs, including assessing the accuracy of source data and the results of pricing models. The General Partners assess the accuracy and reliability of the sources it uses to develop unobservable inputs. These sources may include third-party vendors that the General Partners believe are reliable and commonly utilized by other market participants. Additional details regarding the application of valuation techniques and significant unobservable inputs described above are as follows:

- Certain investments are valued using vendor prices or broker quotes for the subject or similar securities. Generally, investments valued in this manner are classified as Level III because the quoted prices may be indicative in nature for securities that are in an inactive market, may be for similar securities, or may require adjustment for investment-specific factors or restrictions.

NOTE 4 – Allocations and Distributions:

Each item of income, gain, loss, deduction and credit, other than management fees and placement fees, of the Funds are allocated to all partners in proportion to their capital account balances as of the beginning of each allocation period. Management fees and placement fees are allocated to all limited partners in proportion to their capital balances as of the beginning of each allocation period.

During the Investment Periods, the General Partners expect to make cash distributions to the partners of interest income, net of amounts reserved for fees, expenses and additions to reserves. Such distributions will not increase the partners' unfunded capital commitments or be subject to recall and will be allocated to partners in proportion to their respective capital account balances. Unless the General Partners designate such distributions as not subject to recall, distributions of other cash receipts will increase each Partner's unfunded capital commitment by the amount of any such distributions. During the Investment Periods, the General Partners may distribute capital contributions that have been drawn down and not invested or committed for investment to the partners in proportion to the capital contributions made by the partners.

After the end of the Investment Periods, except under limited circumstances, the General Partners will distribute to the partners all of the Funds' cash receipts and decreases in reserves, net of expenses (including the management fee and increases in the Funds' reserves). Included among those limited exceptions is the General Partners' right to make follow-on investments, pay for fund expenses, or to repay amounts borrowed by the Funds. Such distributions will be allocated to partners in proportion to their respective capital account balances.

NOTE 5 – Investment Management Fee and Expenses:

Subsequent to the conclusion of the Class A Liquidation Period (for Class A Partners) and the Class B Liquidation Period (for Class B Partners), Oaktree does not charge the Funds an investment management fee.

The Funds pay all costs, expenses, fees and liabilities that are incurred by, or arise out of the formation, organization, operation and activities of, or sale of interests in the Funds and the Cayman Feeders, including management fees, fees and expenses related to consummated and unconsummated investments, research, costs of valuing investments, fees and expenses of the custodian, attorneys, brokers, independent auditors, and all taxes incurred with respect to the Funds and the Cayman Feeders.

NOTE 6 – Commitments and Contingencies:

In conjunction with the ownership of senior loans, the Funds are party to certain credit agreements, which may require the Funds to extend additional loans to investee companies. The Funds use the same investment criteria in making these commitments as it does in making investments. The unfunded liability associated with these credit agreements is equal to the amount by which the contractual loan commitment exceeds the sum of the amount of funded debt and cash held in escrow, if any. As of December 31, 2024, and the period ended March 31, 2025, the Funds had no outstanding debt commitments.

In the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties, and which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.

NOTE 6 – Commitments and Contingencies *(continued)*:

As investment companies under U.S. GAAP, the Funds are required to disclose financial support provided to investees, and whether such support was provided pursuant to previously existing contractual obligations or at the discretion of the General Partners. During the year ended December 31, 2024, the Funds did not provide financial support to their investees.

NOTE 7 – Non-Affiliated Limited Partner Financial Highlights:

	Combined Funds	Main Fund	Parallel Fund
Non-Affiliated Limited Partners' internal rate of return as of:			
December 31, 2023	5.1%	5.2%	5.1%
December 31, 2024	5.1	5.2	5.1
March 31, 2025	5.1	5.2	5.1

For the year ended December 31, 2024:

Total return (time-weighted):			
Before investment management fees and expenses	7.6 %	7.6 %	7.6 %
After investment management fees and expenses	(7.7)	(7.7)	(7.7)
Ratios:			
Net investment loss to average Non-Affiliated Limited Partners' capital	(9.8)%	(9.8)%	(9.8)%
Total expenses to average Non-Affiliated Limited Partners' capital	15.4	15.4	15.4

For the period ended March 31, 2025 (non-annualized):

Total return (time-weighted):			
Before investment management fees and expenses	1.3 %	1.3 %	1.3 %
After investment management fees and expenses	(21.2)	(21.2)	(21.2)
Ratios:			
Net investment loss to average Non-Affiliated Limited Partners' capital	(26.8)%	(26.8)%	(26.8)%
Total expenses to average Non-Affiliated Limited Partners' capital	28.9	28.8	28.9

The Non-Affiliated Limited Partner internal rate of return is net of investment management fees and expenses. Internal rate of return is calculated from the commencement of operations of the Funds through the date indicated based on the actual dates of the cash flows (contributions and distributions) and the ending Non-Affiliated Limited Partners' capital at the end of the period (residual value) as of each measurement date.

Total return and the ratios of net investment loss and expenses are calculated based on income and expenses allocated to the Non-Affiliated Limited Partners taken as a whole. Average Non-Affiliated Limited Partners' capital is obtained by calculating the monthly average for the year ended December 31, 2024 and the period ended March 31, 2025.

NOTE 7 – Non-Affiliated Limited Partner Financial Highlights *(continued)*:

Each Non-Affiliated Limited Partner's results may vary based on the timing of capital transactions.

NOTE 8 – Subsequent Events:

As of April 28, 2025, all of the Funds' remaining assets and liabilities were settled and the full distributions payable of \$1,103 was paid to the limited partners. Following the distributions, the Funds had no assets or known liabilities. Effective April 28, 2025 the General Partner has substantially dissolved the operations of the Funds.

Subsequent events have been reviewed through April 29, 2025, the date these combined consolidated financial statements became available for distribution to the partners.

Report of Independent Auditors

The General Partner
Oaktree Enhanced Income Fund, L.P. and
Oaktree Enhanced Income Fund (Parallel), L.P.

Opinion

We have audited the combined consolidated financial statements of Oaktree Enhanced Income Fund, L.P. and Oaktree Enhanced Income Fund (Parallel), L.P. (the “Funds”), which comprise the combined consolidated statements of assets and liabilities as of December 31, 2024 and March 31, 2025, including the combined consolidated schedule of investments as of December 31, 2024, and the related combined consolidated statements of operations, changes in partners’ capital and cash flows for the year ended December 31, 2024 and for the period from January 1, 2025 to March 31, 2025, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Funds at December 31, 2024 and March 31, 2025, and the results of their operations, changes in their partners’ capital and their cash flows for the year ended December 31, 2024 and for the period from January 1, 2025 to March 31, 2025 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Funds and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Funds’ ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Funds' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.
