Independent Auditor's Report

Plan Participants, Board of Directors, and Trustee
ARES Holding Corporation Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of the ARES Holding Corporation Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Security Act of 1974 (ERISA), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held at End of Year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material aspects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the ARES Holding Corporation Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

ARES Holding Corporation (the Company) established the Plan effective January 1, 2022. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by a trustee (the Trustee) appointed by the Company's Board of Directors. The Trustee and plan administrator oversee governance of the Plan.

On December 9, 2022, the Plan purchased 734,545 shares of ARES Holding Corporation common stock (Company Stock) from the Company, with a note payable of \$19,500,000 (Note 6) and holds the Company Stock in a trust established under the Plan. The borrowings are to be repaid over the term of the loan by fully deductible Company contributions to the Plan. As the Plan makes each payment of principal and interest, an appropriate percentage of Company Stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowings are collateralized by the unallocated shares of Company Stock. The Company has no rights against the shares once they are allocated to participants under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- a) the accounts of participants with vested rights in allocated Company Stock (Allocated), and
- b) Company Stock not yet allocated to eligible participants (Unallocated).

Eligibility

The Plan covers substantially all employees of the Company who are at least age 21, have completed one year of service, as defined, and have worked at least 1,000 hours during the Plan year. The Plan excludes bargaining employees, leased employees, residents of Puerto Rico, and contractors. An employee eligible to participate in the Plan becomes a participant on the first day of the Plan quarter coinciding with or following completion of the eligibility requirements.

Contributions

The Plan is funded solely by the Company's discretionary contributions to the Plan as determined by the Company's Board of Directors. Contributions authorized by the Board of Directors for the year ended December 31, 2024, were \$1,482,080. All Company contributions are subject to the limitations imposed under IRC Section 404(a)(3)(A). Employee contributions are not permitted.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Contributions (continued)

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's distributions on unallocated Company Stock and dividends and interest earnings received, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable. Contribution amounts in excess of the required loan payments are allocated to the eligible participants in the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited, as of the last day of each Plan year, with an allocation of shares of the Company Stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company, as defined, will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's account balance.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company Stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a rollover to another qualified defined-contribution plan sponsored by the Company. The election to diversify is made subsequent to year-end based upon the shares of Company Stock in the participant's account at year-end.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest based on years of continuous service with the Company. After two years of service, participants will vest 20% per year and are fully vested after five years of service.

Payment of Benefits

Upon termination of service for any reason or attainment of normal retirement age, as defined, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a future period. If the participant's account balance is between \$1,000 and \$5,000, the plan administrator makes an automatic rollover of the account balance to a qualified individual retirement account. If the participant's account balance is less than \$1,000, the plan administrator directs the Trustee to make a lump-sum distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Put Option

Under federal income tax regulations, Company Stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the Company Stock. The put option permits the participant to sell Company Stock to the Company for a period of sixty days after such shares are distributed at the fair market value as of the last valuation date, as specified in the Plan document. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

The Trustee votes on behalf of the Plan in the collective best interest of participants and beneficiaries.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets (deficit) available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The current method of valuation of the investment considers certain assumptions related to the Company's future performance. These factors are subject to change over time and are reviewed periodically. Further, because of the inherent uncertainty of the valuation process, those estimated fair values may differ significantly from the values that would have been used had a ready market for the investment existed, and the differences could be material.

Investment Valuation and Income Recognition

The shares of Company Stock are valued at fair value. See Note 5 for discussion of fair value measurements. Dividend income is recorded on the ex-dividend date. Net appreciation in fair value of investment includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

The Plan's administrative expenses are paid either by the Plan or the Company as provided by the Plan agreement. Expenses that are paid by the Company are excluded from these financial statements.

Income Taxes

In accordance with GAAP, the plan administrator is required to evaluate tax positions taken by the Plan and recognize a tax liability for any significant uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). As of December 31, 2024 and 2023, and for the year ended December 31, 2024, the Plan did not have a liability for unrecognized tax benefit. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Subsequent Events

Plan management has evaluated subsequent events through October 15, 2025, the date the financial statements were available to be issued.

3. INVESTMENT

At December 31, 2024 and 2023, the investment in Company Stock is as follows:

	<u>December 31, 2024</u>	
	<u>Allocated</u>	<u>Unallocated</u>
ARES Holding Corporation Common Stock:		
Number of shares	<u>73,455</u>	<u>661,090</u>
Cost	<u>\$ 1,950,217</u>	<u>\$ 17,549,783</u>
Estimated fair value	<u>\$ 1,044,523</u>	<u>\$ 9,400,707</u>
	<u>December 31, 2023</u>	
	<u>Allocated</u>	<u>Unallocated</u>
ARES Holding Corporation Common Stock:		
Number of shares	<u>36,747</u>	<u>697,798</u>
Cost	<u>\$ 975,102</u>	<u>\$ 18,524,898</u>
Estimated fair value	<u>\$ 66,880</u>	<u>\$ 1,269,992</u>

The fair value of the Company Stock is determined annually, as of December 31, by an independent third-party appraiser. The Company Stock held as a Plan asset is valued using the most recent valuation approved by the Trustee. The Plan owns 100% of the outstanding stock of ARES Holding Corporation.

The investment is non-participant directed.

NOTES TO THE FINANCIAL STATEMENTS

4. ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist of Company Stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, who invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the notes payable.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Company stock: Valued at fair value based upon an annual independent appraisal by a firm hired by the Trustee. This appraisal was based on a combination of the market (capitalization of earnings) and income (discounted cash flow) valuation methods. Unobservable inputs used for the market method include public comparables and revenue multiples while inputs for the income valuation method include the weighted average cost of capital, required return on equity and residual cash flow value. Additionally, both methods reflected that a market participant would also recognize a discount for lack of marketability. Plan management accumulates the data for the appraiser from the audited and projected financial statements of the Company. The appraiser prepares a preliminary report which the Trustee reviews in detail and approves. The appraiser's report, upon approval, is used to estimate per share value that a participant will receive upon distribution.

NOTES TO THE FINANCIAL STATEMENTS

5. FAIR VALUE MEASUREMENTS (Continued)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value are comprised of Level 3 Company Stock at December 31, 2024 and 2023, totaling \$10,445,230 and \$1,336,872, respectively.

Following is a reconciliation of activity for the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

Balance - Beginning of year	\$ 1,336,872
Net unrealized gains	<u>9,108,358</u>
Balance - End of year	<u>\$ 10,445,230</u>

6. NOTE PAYABLE

During 2022, the Plan borrowed \$19,500,000 from the Company to purchase 734,545 shares of Company Stock. The term loan agreement bears interest at 4.34% requiring annual payments of principal and interest payable on December 31 until the maturity date of December 2042. The loan had an outstanding balance of \$18,254,071 and \$18,904,349 at December 31, 2024 and 2023, respectively. Interest expense of \$831,802 was incurred during the year ended December 31, 2024. The unallocated outstanding Company Stock owned by the Plan is collateral for the loan.

The maturity of the note payable is as follows:

2025	\$ 689,853
2026	719,793
2027	751,032
2028	783,626
2029	817,636
Thereafter	<u>14,492,131</u>
	<u>\$ 18,254,071</u>

The investment in unallocated Company Stock is restricted to the extent that it is security for the note payable. Shares of the unallocated Company Stock become available for allocation to participants based on a ratio of principal and interest paid in the Plan year to the total principal and interest to be paid on the note in future years.

NOTES TO THE FINANCIAL STATEMENTS

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of common stock of ARES Holding Corporation, which is the plan sponsor. These investment activities are related party and party-in-interest transactions. As described in Notes 2 and 4, the Company pays the expenses of the Plan. These related party and party-in-interest transactions are exempt from the prohibited transactions rules of ERISA.

8. TAX STATUS

The Plan has adopted a pre-approved plan provided by Principal Financial Group (Principal). The plan administrator and Trustee have determined that the Plan is qualified under Section 401(a) of the IRC. The Plan is in the process of applying for its IRS determination letter.

9. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the plan sponsor directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed Company Stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

10. RISKS AND UNCERTAINTIES

The Plan investment consists of the Company Stock, which is exposed to various risks such as interest rate, market, and credit risks as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the Company Stock and due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the value of the Company Stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net deficit available for benefits.

11. SECURE 2.0

The Securing a Strong Retirement Act of 2022 (SECURE 2.0) was signed into law on December 29, 2022, and includes mandatory and optional provisions with effective dates in 2025 and later. The plan administrator will determine the optional provisions to elect and amend the Plan document accordingly.
