For calendar plan year 2024 or fiscal plan year beginning **01/01/2024** and ending **12/31/2024**

A Name of plan WESTERN ASSET MACRO OPPORTUNITIES PORTFOLIO, L.L.C.	B Three-digit plan number (PN) ▶	001
C Plan sponsor's name as shown on line 2a of Form 5500 WESTERN ASSET MANAGEMENT COMPANY, LLC	D Employer Identification Number (EIN) 45-4652841	

Part I Service Provider Information (see instructions)

You must complete this Part, in accordance with the instructions, to report the information required for **each person** who received, directly or indirectly, \$5,000 or more in total compensation (i.e., money or anything else of monetary value) in connection with services rendered to the plan or the person's position with the plan during the plan year. If a person received **only** eligible indirect compensation for which the plan received the required disclosures, you are required to answer line 1 but are not required to include that person when completing the remainder of this Part.

1 Information on Persons Receiving Only Eligible Indirect Compensation

a Check "Yes" or "No" to indicate whether you are excluding a person from the remainder of this Part because they received only eligible indirect compensation for which the plan received the required disclosures (see instructions for definitions and conditions)... Yes No

b If you answered line 1a "Yes," enter the name and EIN or address of each person providing the required disclosures for the service providers who received only eligible indirect compensation. Complete as many entries as needed (see instructions).

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

(b) Enter name and EIN or address of person who provided you disclosures on eligible indirect compensation

2. Information on Other Service Providers Receiving Direct or Indirect Compensation. Except for those persons for whom you answered "Yes" to line 1a above, complete as many entries as needed to list each person receiving, directly or indirectly, \$5,000 or more in total compensation (i.e., money or anything else of value) in connection with services rendered to the plan or their position with the plan during the plan year. (See instructions).

(a) Enter name and EIN or address (see instructions)

PRICEWATERHOUSECOOPERS LLP

13-4008324

(b) Service Code(s)	(c) Relationship to employer, employee organization, or person known to be a party-in-interest	(d) Enter direct compensation paid by the plan. If none, enter -0-.	(e) Did service provider receive indirect compensation? (sources other than plan or plan sponsor)	(f) Did indirect compensation include eligible indirect compensation, for which the plan received the required disclosures?	(g) Enter total indirect compensation received by service provider excluding eligible indirect compensation for which you answered "Yes" to element (f). If none, enter -0-.	(h) Did the service provider give you a formula instead of an amount or estimated amount?
10	NONE	28368	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>		Yes <input type="checkbox"/> No <input type="checkbox"/>

(a) Enter name and EIN or address (see instructions)

(sources other than plan or plan sponsor)	(f) Did indirect compensation include eligible indirect compensation, for which the plan received the required disclosures?	(g) Enter total indirect compensation received by service provider excluding eligible indirect compensation for which you answered "Yes" to element (f). If none, enter -0-.	(h) Did the service provider give you a formula instead of an amount or estimated amount?
18 19 99	CUSTODIAN	14828	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>		Yes <input type="checkbox"/> No <input type="checkbox"/>

(a) Enter name and EIN or address (see instructions)

(b) Service Code(s)	(c) Relationship to employer, employee organization, or person known to be a party-in-interest	(d) Enter direct compensation paid by the plan. If none, enter -0-.	(e) Did service provider receive indirect compensation? (sources other than plan or plan sponsor)	(f) Did indirect compensation include eligible indirect compensation, for which the plan received the required disclosures?	(g) Enter total indirect compensation received by service provider excluding eligible indirect compensation for which you answered "Yes" to element (f). If none, enter -0-.	(h) Did the service provider give you a formula instead of an amount or estimated amount?
			Yes <input type="checkbox"/> No <input type="checkbox"/>	Yes <input type="checkbox"/> No <input type="checkbox"/>		Yes <input type="checkbox"/> No <input type="checkbox"/>

Part I Service Provider Information (continued)

3. If you reported on line 2 receipt of indirect compensation, other than eligible indirect compensation, by a service provider, and the service provider is a fiduciary or provides contract administrator, consulting, custodial, investment advisory, investment management, broker, or recordkeeping services, answer the following questions for (a) each source from whom the service provider received \$1,000 or more in indirect compensation and (b) each source for whom the service provider gave you a formula used to determine the indirect compensation instead of an amount or estimated amount of the indirect compensation. Complete as many entries as needed to report the required information for each source.

(a) Enter service provider name as it appears on line 2	(b) Service Codes (see instructions)	(c) Enter amount of indirect compensation

(d) Enter name and EIN (address) of source of indirect compensation	(e) Describe the indirect compensation, including any formula used to determine the service provider's eligibility for or the amount of the indirect compensation.	

(a) Enter service provider name as it appears on line 2	(b) Service Codes (see instructions)	(c) Enter amount of indirect compensation

(d) Enter name and EIN (address) of source of indirect compensation	(e) Describe the indirect compensation, including any formula used to determine the service provider's eligibility for or the amount of the indirect compensation.	

(a) Enter service provider name as it appears on line 2	(b) Service Codes (see instructions)	(c) Enter amount of indirect compensation

(d) Enter name and EIN (address) of source of indirect compensation	(e) Describe the indirect compensation, including any formula used to determine the service provider's eligibility for or the amount of the indirect compensation.	

Part II Service Providers Who Fail or Refuse to Provide Information

4 Provide, to the extent possible, the following information for each service provider who failed or refused to provide the information necessary to complete this Schedule.

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

(a) Enter name and EIN or address of service provider (see instructions)	(b) Nature of Service Code(s)	(c) Describe the information that the service provider failed or refused to provide

Part III Termination Information on Accountants and Enrolled Actuaries (see instructions)

Part I	Asset and Liability Statement
---------------	--------------------------------------

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

		(a) Beginning of Year	(b) End of Year
Assets			
a Total noninterest-bearing cash	1a		
b Receivables (less allowance for doubtful accounts):			
(1) Employer contributions	1b(1)		
(2) Participant contributions	1b(2)		
(3) Other	1b(3)	0	48226
c General investments:

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: PRICEWATERHOUSECOOPERS LLP

(2) EIN: 13-4008324

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)			
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?			
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?			
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?			
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?			
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)			
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?			
l Has the plan failed to provide any benefit when due under the plan?			
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) Yes No Not determined
 If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year _____.

Report of Independent Auditors

To the Management of Western Asset Management Company, LLC

Opinion

We have audited the accompanying financial statements of Western Asset Macro Opportunities Portfolio, L.L.C. (the "Fund"), which comprise the statement of net assets (in liquidation) as of December 31, 2024, the related statement of changes in net assets (in liquidation) for the period from August 21, 2024 to December 31, 2024, and the statements of operations (going concern basis) and of changes in net assets (going concern basis) for the period from January 1, 2024 to August 20, 2024, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (in liquidation) of the Fund as of December 31, 2024, the changes in its net assets (in liquidation) for the period from August 21, 2024 to December 31, 2024, and the results of its operations (going concern basis) and changes in its net assets (going concern basis) for the period from January 1, 2024 to August 20, 2024, in accordance with accounting principles generally accepted in the United States of America applied on the bases described in Note 1 and 2.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of Accounting

As discussed in Note 1 and 2 to the financial statements, the Investment Manager of the Fund approved a plan of liquidation on August 21, 2024, and the Fund determined liquidation is imminent. As a result, the Fund changed its basis of accounting on August 21, 2024 from the going concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and

therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

1. Exercise professional judgment and maintain professional skepticism throughout the audit.
2. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
3. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed.
4. Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Western Asset Macro Opportunities Portfolio, L.L.C.
(A Delaware Limited Liability Company)
Notes to Financial Statements
December 31, 2024
(Expressed in U.S. Dollars)

1. Organization and Investment Objective

Western Asset Macro Opportunities Portfolio, L.L.C. (the “Fund”) was formed on January 2, 2013 as a Limited Liability Company (“LLC”) under the Delaware Limited Liability Company Act. The Fund intends to achieve its investment objective by investing substantially all of its assets in the Western Asset Macro Opportunities Portfolio Master Fund, Ltd. (the “Master Fund”). The Master Fund is organized as an exempted company under the laws of the Cayman Islands and is a separate investment company with investment objectives that are consistent with those of the Fund. Therefore, the Fund's interest in the securities and other investments owned by the Master Fund is indirect. In such an arrangement, the Fund is referred to as a “Feeder Fund.” Western Asset Management Company, LLC (“WAM”), a California corporation, is the Fund’s Investment Manager (the “Investment Manager”). Western Asset Management Company Limited (“WAMCL”), Western Asset Management Company Pte. Ltd. (“Western Asset Singapore”), Western Asset Management Company Ltd. (“Western Asset Tokyo”), Western Asset Management Company Distribuidora de Títulos e Valores Mobiliários Limitada (“Western Asset Brazil”), and Western Asset Management Company Pty. Ltd. (“Western Asset Melbourne”) are the sub-investment managers to the Fund. The Bank of New York Mellon, a wholly-owned subsidiary of The Bank of New York Mellon Corporation, is the custodian, transfer agent, and administrator to the Fund.

The investment objective of the Master Fund is to maximize long-term total return, consistent with prudent investment management. Under normal market conditions, the Master Fund expects to invest up to 50% of its total net assets, measured at the time of purchase, in securities of issuers rated at or above Baa1 or BBB- by a nationally recognized rating agency such as Moody’s Investors Service, Inc., Standard & Poor’s, or Fitch Ratings, or that are of comparable quality as determined by the Investment Manager or WAMCL.

The accounting policies of the Master Fund, such as the valuation of the Master Fund’s investments, will directly affect the value of the Fund’s interest in the Master Fund, and thus the net assets of the Fund. The financial statements and accompanying footnotes of the Master Fund are attached and should be read in conjunction with the Fund’s financial statements.

The Investment Manager decided to liquidate the Fund due to decreased net asset levels which did not allow the Investment Manager to manage the assets effectively. The liquidation of the Fund was considered imminent as of August 21, 2024 upon the plan of liquidation being approved by the Investment Manager. Additionally, the likelihood of the execution of the plan being blocked or the Fund returning from liquidation was remote and the liquidation was not imposed by other forces. The Fund began liquidation proceedings on August 21, 2024 and ceased investment operations on December 31, 2024. Beginning on December 31, 2024, the Fund expects to complete the liquidation within 180 days.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (“U.S.

Western Asset Macro Opportunities Portfolio, L.L.C.
(A Delaware Limited Liability Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

2. Summary of Significant Accounting Policies (Continued)

Basis of Accounting (Continued)

GAAP”) for the period January 1, 2024 through August 20, 2024 (Going Concern Basis). In connection with the Fund’s liquidation, the Fund has adopted the liquidation basis of accounting in conformity with U.S. GAAP effective August 21, 2024.

Under the liquidation basis of accounting, assets and liabilities are measured at their estimated settlement amounts. The adoption of the liquidation basis of accounting did not have a material effect on the measurements of the assets and liabilities in liquidation. Assets were measured at amounts which represent the expected amounts to be received upon disposition. Liabilities were measured at the amounts expected to be paid in carrying out the plan of liquidation, which were estimated based on historical expenses incurred. As of December 31, 2024, the net settlement value of the Fund’s assets was equal to their fair value. The Fund intends to distribute any residual cash to the shareholders, upon settlement of the remaining receivables and payables.

The Fund is an investment company which follows accounting and reporting guidance in the Financial Accounting Standards Board Accounting Standards Codification 946, Financial Services – Investment Companies.

Use of Estimates

The preparation of financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Transactions, Investment Income and Expenses

Investments made into the Master Fund and redemptions from the Master Fund are recorded on trade date.

The Fund’s net investment income or loss consists of the Fund’s pro rata share of the net investment income or loss of the Master Fund, less the Fund’s feeder specific actual and accrued expenses determined in accordance with U.S. GAAP.

Functional and Presentation Currency

Items included in the Fund’s financial statements are measured using the currency of the primary economic environment in which it operates. Issuances, redemptions, and valuations of the shares are effected and denominated in the U.S. Dollars (“USD”).

Income Taxes

For U.S. federal income tax purposes, the Fund is treated as a partnership. The shareholders are required to report their respective portion of the Fund’s taxable income or loss on their own income tax returns and are liable for any related taxes thereon. Accordingly, no provision for federal or state taxes is made in the Fund’s financial statements.

Western Asset Macro Opportunities Portfolio, L.L.C.
(A Delaware Limited Liability Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

2. Summary of Significant Accounting Policies (Continued)

Income Taxes (Continued)

The Fund's federal and state income tax returns for the tax years for which the applicable statute of limitations have not expired are subject to examination by the Internal Revenue Service or state departments of revenue. There are currently no examinations being conducted of the Fund by the Internal Revenue Service or any other taxing authority.

The Fund is subject to the authoritative guidance with respect to accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination. Management has analyzed the Fund's tax positions for all open tax years and has concluded that as of December 31, 2024, there are no uncertain tax positions that would require financial statement recognition or disclosure. The Fund's policy is to recognize interest and penalties, if any, related to uncertain tax positions as a component of income tax expense.

The Fund recognizes interest and penalties related to the underpayment of income taxes in operating expenses within the Statement of Operations (Going Concern Basis). During the year ended December 31, 2024, no such interest and penalties were incurred.

Issuances and Redemptions of Shares of Participation

The net asset value of the Fund is determined on the relevant "Dealing Day". A Dealing Day is every business day on which federal, state or local banks are open for business in New York and the New York Stock Exchange is open for trading. Issuances and redemptions of Fund shares are made on such days, based upon the closing net asset value.

The Investment Manager may temporarily suspend the determination of the net asset value of the Fund, the issuance and redemption of the Fund's shares, and may postpone the date of payment of redemption proceeds if, among other reasons, during any period when it is not reasonably practicable for the Investment Manager to fairly determine the value of the Fund's net assets. There were no such occurrences during the year ended December 31, 2024.

Distributions to Shareholders

Net investment income distributions and net realized or unrealized gains distributions will not be declared by the Fund on a regular basis, but may, however, be authorized and paid at such times as may be determined by the Investment Manager. There were no such distributions during the year ended December 31, 2024.

3. Valuation

The Fund's investment in the Master Fund is valued at the net asset value per share on the valuation date as determined by the Master Fund. The Fund receives a daily allocation of the Master Fund's income, expenses, and net realized and unrealized gains or losses in proportion to its investment in the Master Fund.

Western Asset Macro Opportunities Portfolio, L.L.C.
(A Delaware Limited Liability Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

4. Investment Manager Fee

The Investment Manager's fee is not charged to either the Fund or the Master Fund, but is paid directly by the shareholders in the Fund to the Investment Manager.

5. Shares of Participation

The following represents the Fund's share activity for the period January 1, 2024 to August 20, 2024 (Going Concern Basis):

	<u>Shares</u>	<u>Amount</u>
Shares issued	38,326	\$ 622,586
Shares redeemed	(820,833)	(12,784,637)
Net (decrease)	<u>(782,507)</u>	<u>\$ (12,162,051)</u>

The following represents the Fund's share activity for the period August 21, 2024 to December 31, 2024 (In Liquidation):

	<u>Shares</u>	<u>Amount</u>
Shares redeemed	<u>(4,487,316)</u>	<u>\$ (74,318,851)</u>

6. Financial Highlights

	<u>Period Ended August 20, 2024⁽¹⁾</u>
Selected Per Share Data	
Net asset value, beginning of period	\$ 16.743
Net investment income ⁽²⁾	0.579
Net realized and unrealized gain (loss)	(0.646)
Total (loss) from investment operations	<u>(0.067)</u>
Net asset value, end of period	<u>\$ 16.676</u>
Total return % ⁽³⁾	(0.40)
Ratios to Average Net Assets	
Expenses %	0.06
Net investment income %	3.39

⁽¹⁾ For the period January 1, 2024 to August 20, 2024 (Going Concern Basis).

⁽²⁾ Net investment income per share has been calculated based upon average shares outstanding for the period.

⁽³⁾ Total return calculation is based on the value of a single share of participation outstanding throughout the period. It represents the percentage change in the net asset value per share between the beginning and end of the period. The total return is not annualized for periods less than a year.

The above ratios are calculated for the participating shares as a whole. An individual shareholder's total return and ratios may vary from these ratios based on the timing of capital share transactions.

The above ratio and per share data includes the Fund's pro rata allocations of income, expense, and realized and unrealized gain or loss from the Master Fund.

Western Asset Macro Opportunities Portfolio, L.L.C.
(A Delaware Limited Liability Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

7. Risk Associated with Investment in the Master Fund

The Fund, through its investment in the Master Fund, is exposed to various types of risks. As the Fund's assets are invested in the Master Fund, they are primarily exposed to the risks faced by the Master Fund. A summary of risks is discussed in the Master Fund's financial statements, which are attached and should be read in conjunction with the Fund's financial statements.

8. Contingencies and Commitments

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. Based on experience, management is of the view that the risk of loss in connection with these potential indemnification obligations is remote; however, there can be no assurance that material liabilities related to such obligations will not arise in the future that could adversely impact the business of the Fund.

9. Subsequent Events

As of March 25, 2025, the date the financial statements were available to be issued, no subsequent events or transactions had occurred that would have materially impacted the financial statements as presented.

Opinion

We have audited the accompanying financial statements of Western Asset Macro Opportunities Portfolio Master Fund, Ltd. (the "Fund"), which comprise the statement of net assets (in liquidation), including the schedule of investments (in liquidation), as of December 31, 2024, the related statement of changes in net assets (in liquidation) for the period August 21, 2024 to December 31, 2024, and the statements of operations (going concern basis) and of changes in net assets (going concern basis) for the period January 1, 2024 to August 20, 2024, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (in liquidation) of the Fund as of December 31, 2024, the changes in its net assets (in liquidation) for the period August 21, 2024 to December 31, 2024, and the results of its operations (going concern basis) and changes in its net assets (going concern basis) for the period January 1, 2024 to August 20, 2024 in accordance with accounting principles generally accepted in the United States of America applied on the bases described in Note 2.

Basis for opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of accounting

As discussed in Note 1 to the financial statements, the Investment Manager approved a plan of liquidation on August 21, 2024, and the Fund determined liquidation is imminent. As a result, the Fund changed its basis of accounting on August 21, 2024 from the going concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Report of independent auditors (continued)

To the Board of Directors of Western Asset Macro Opportunities Portfolio Master Fund, Ltd.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

A handwritten signature in black ink, appearing to read "Michael Joseph Lopez", is written over a large, stylized, light-colored scribble.

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements
December 31, 2024
(Expressed in U.S. Dollars)

1. Organization and Investment Objective

Western Asset Macro Opportunities Portfolio Master Fund, Ltd. (the “Fund”) was formed on March 20, 2012 as an exempted company under the laws of the Cayman Islands providing limited liability in accordance with the laws of the Cayman Islands for all holders of the Fund’s participating shares. The Fund is registered as a Mutual Fund under Section 4(3) of the Mutual Funds Act (as amended) of the Cayman Islands. The Fund is a “Master Fund” in a master/feeder structure. Western Asset Management Company, LLC (“WAM”), a California corporation, is the Fund’s Investment Manager (the “Investment Manager”). Western Asset Management Company Limited (“WAMCL”), Western Asset Management Company Pte. Ltd. (“Western Asset Singapore”), Western Asset Management Company Ltd. (“Western Asset Tokyo”), Western Asset Management Company Distribuidora de Títulos e Valores Mobiliários Limitada (“Western Asset Brazil”), and Western Asset Management Company Pty. Ltd. (“Western Asset Melbourne”) are the sub-investment managers to the Fund. The Bank of New York Mellon, a wholly-owned subsidiary of The Bank of New York Mellon Corporation, is the custodian, transfer agent, and administrator to the Fund.

The investment objective of the Fund is to maximize long-term total return, consistent with prudent investment management. Under normal market conditions, the Fund expects to invest up to 50% of its total net assets, measured at the time of purchase, in securities of issuers rated at or above Baa1 or BBB- by a nationally recognized rating agency such as Moody’s Investors Service, Inc., Standard & Poor’s, or Fitch Ratings, or that are of comparable quality as determined by the Investment Manager or WAMCL.

The Investment Manager decided to liquidate the Fund due to decreased net asset levels which did not allow the Investment Manager to manage the assets effectively. The liquidation of the Fund was considered imminent as of August 21, 2024 upon the plan of liquidation being approved by the Investment Manager. Additionally, the likelihood of the execution of the plan being blocked or the Fund returning from liquidation was remote and the liquidation was not imposed by other forces. The Fund began liquidation proceedings on August 21, 2024 and ceased investment operations on December 31, 2024. Beginning on December 31, 2024, the Fund expects to complete the liquidation within 180 days.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) for the period January 1, 2024 through August 20, 2024 (Going Concern Basis). In connection with the Fund’s liquidation, the Fund has adopted the liquidation basis of accounting in conformity with U.S. GAAP effective August 21, 2024.

Under the liquidation basis of accounting, assets and liabilities are measured at their estimated settlement amounts. The adoption of the liquidation basis of accounting did not have a material effect on the measurements of the assets and liabilities in liquidation. Assets were measured at amounts which represent the expected amounts to be received upon disposition. Liabilities were

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

2. Summary of Significant Accounting Policies (Continued)

Basis of Accounting (Continued)

measured at the amounts expected to be paid in carrying out the plan of liquidation, which were estimated based on historical expenses incurred. As of December 31, 2024, the net settlement value of the Fund's assets was equal to their fair value. The Fund intends to distribute any residual cash to the shareholders, upon settlement of the remaining receivables and payables.

The Fund is an investment company which follows accounting and reporting guidance in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification 946, Financial Services – Investment Companies.

Use of Estimates

The preparation of financial statements, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Security Transactions and Investment Income

Security transactions are accounted for as of trade date. The cost of securities delivered and the net gain or loss on securities sold are determined using the first-in, first-out method. Interest income earned on securities is recorded net of applicable withholding taxes on the accrual basis. Interest income includes accretion of discounts and amortization of premiums which are recorded using the effective yield method. To the extent any issuer defaults or a credit event occurs that impacts the issuer, the Fund may halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default or credit event. Dividend income is recorded on the ex-dividend date net of applicable withholding taxes.

Functional and Presentation Currency

Items included in the Fund's financial statements are measured using the currency of the primary economic environment in which it operates. Issuances, redemptions, and valuations of the shares are effected and denominated in the U.S. Dollars ("USD").

Foreign Currency Translation/Transactions

Investment securities and other assets and liabilities denominated in foreign currencies are translated into USD amounts based upon prevailing exchange rates on the date of valuation. Purchases and sales of investment securities, income and expense items denominated in foreign currencies are translated into USD amounts based upon prevailing exchange rates on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from fluctuations in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included within the net realized and unrealized gain or loss on investments on the Statement of Operations (Going Concern Basis).

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

2. Summary of Significant Accounting Policies (Continued)

Foreign Currency Translation/Transactions (Continued)

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including exchange gains and losses on the settlement of forward foreign currency contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the USD equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains or losses arise from changes in the fair values of assets and liabilities, other than investments in securities and derivative contracts, on the date of valuation, resulting from changes in exchange rates.

Certain foreign security and currency transactions may involve considerations and risks not typically associated with those of USD denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

Income Taxes

According to the current laws of the Cayman Islands, there is no income, estate, corporation, capital gains or other taxes payable by the Fund. As a result, no provision for income taxes has been made in the financial statements.

The Fund intends to conduct its affairs so that it will not be deemed to be engaged in trade or business in the U.S. and, therefore, none of its income will be treated as "effectively connected" with a U.S. trade or business carried on by the Fund. Effectively connected income is subject to U.S. federal income tax at the graduated rates applicable to U.S. domestic corporations. Certain categories of income that are not "effectively connected" but are derived from U.S. sources, including dividends and interest income, are subject to a U.S. tax of thirty percent. However, under the portfolio interest exemption, the thirty percent tax does not apply to portfolio interest earned. For the year ended December 31, 2024, interest earned by the Fund qualifies under the portfolio interest exemption.

For U.S. federal income tax purposes the Fund is considered a partnership and therefore the Fund files U.S. federal income tax returns as well as tax returns in certain state jurisdictions. The shareholders are required to report their respective portion of the Fund's taxable income or loss on their own income tax returns and are liable for any related taxes thereon. Accordingly, no provision for federal or state taxes is made in the Fund's financial statements. The Fund's federal and state income tax returns for the tax years for which the applicable statute of limitations have not expired are subject to examination by the Internal Revenue Service or state departments of revenue. There are currently no examinations being conducted of the Fund by the Internal Revenue Service or any other taxing authority.

The Fund is subject to the authoritative guidance with respect to accounting for and disclosure of uncertainty in tax positions, which requires the Fund to determine whether a tax position is more likely than not to be sustained upon examination. Management has analyzed the Fund's tax positions for all open tax years and has concluded that as of December 31, 2024, there are no uncertain tax

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.

Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

2. Summary of Significant Accounting Policies (Continued)

Income Taxes (Continued)

positions that would require financial statement recognition or disclosure. The Fund's policy is to recognize interest and penalties, if any, related to uncertain tax positions as a component of income tax expense. For the year ended December 31, 2024, the Fund did not recognize any interest or penalties for uncertain tax positions.

Issuances and Redemptions of Shares of Participation

The net asset value of the Fund is determined on the relevant "Dealing Day". A Dealing Day is every business day on which federal, state or local banks are open for business in New York and the New York Stock Exchange is open for trading. Issuances and redemptions of Fund shares are made on such days, based upon the closing net asset value.

The Fund has an authorized share capital of \$50,000 consisting of 50,000,000 shares, par value U.S. \$0.001. The shares carry the right to vote and participate in allocations of gains and losses or distributions paid by the Fund.

The Investment Manager may temporarily suspend the determination of the net asset value of the Fund, the issuance and redemption of the Fund's shares, and may postpone the date of payment of redemption proceeds if, among other reasons, during any period when it is not reasonably practicable for the Investment Manager to fairly determine the value of the Fund's net assets. There were no such occurrences during the year ended December 31, 2024.

The Fund may pay any portion of a redemption of Fund shares by a distribution in-kind of securities held by the Fund. The cash to be paid and the securities to be transferred to a shareholder from the Fund with respect to a redemption made on a Dealing Day shall have an aggregate value determined as of the close of business on such Dealing Day. During the year ended December 31, 2024, the Fund transferred securities with a cost and fair value of \$5,483,240 and \$4,581,788, respectively, to fund a redemption of Fund shares. The realized loss in the amount of \$(901,452) is included within realized gain on investments on the Statement of Operations.

Distributions to Shareholders

Net investment income distributions and net realized or unrealized gains distributions will not be declared by the Fund on a regular basis, but may, however, be authorized and paid at such times as may be determined by the Investment Manager. There were no such distributions during the year ended December 31, 2024.

3. Valuation

The Fund has adopted procedures for determining the fair value of its investments each Dealing Day. Under these procedures, the Fund has delegated its authority to a pricing committee governed by the Investment Manager to determine the value of the Fund's investments each Dealing Day. The notes below describe in greater detail the methodologies used to value the Fund's investments.

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

3. Valuation (Continued)

The Fund uses both the income and market approaches to establish the fair value of its investments. Use of particular techniques and inputs may vary over time based on availability and relevance as market and economic conditions evolve.

The Investment Manager considers pricing techniques it deems relevant and appropriate when making fair value determinations. When determining the reliability of third-party pricing information for investments owned by the Fund, the Investment Manager, among other things, conducts due diligence reviews of pricing vendors, monitors the daily change in prices, and reviews transactions among market participants. In addition, prices which change from the prior day by greater than a pre-established threshold will be verified against additional pricing sources, when available, or by evaluation of verifiable changes to the model inputs that impacted the resulting fair value.

Exchange traded options, warrants, and publicly traded U.S. and non-U.S. equity securities are generally valued at the official closing price of, or the last reported sale price on, the exchange or market on which such securities are traded, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available bid price. Futures contracts are valued at the last settlement price at the end of each day on the board of trade or exchange upon which they are traded.

Fixed-income securities, including short-term securities purchased with more than 60 days left to maturity, are generally valued at prices obtained from one or more pricing vendors. Vendors value such securities based on one or more inputs described in the following table. The table provides examples of inputs that are commonly relevant for valuing particular classes of fixed-income securities, in which the Fund is authorized to invest. However, these classifications are not exclusive, and any of the inputs may be used to value any other class of fixed-income security.

Fixed-income class and Derivatives	Examples of inputs
All	All benchmark yields, transactions, bids, offers, quotations from dealers and electronic trading systems, spreads and other relationships observed in the markets among comparable securities; and proprietary pricing models such as yield measures calculated using factors such as cash flows, financial or collateral performance and other reference data (collectively referred to as “standard inputs”).
Corporate bonds and notes	Standard inputs and new issue data.
Bonds and notes of government and government agencies	Standard inputs.
Mortgage-backed and asset-backed obligations	Standard inputs, prepayment information, default rates, delinquency and loss assumptions, collateral characteristics, credit enhancements and specific deal information.

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

3. Valuation (Continued)

Fixed-income class and Derivatives	Examples of inputs
Structured products (including Interest Only and Principal Only securities and Collateralized Mortgage and Collateralized Debt Obligations)	Standard inputs, plus new issue data, monthly payment information and collateral performance.
Loans, loan participations and loan assignments	Transactions, bids, offers, and quotations from dealers.
Student loans	Standard inputs including the weighted average life of the loans.
Swaps and other derivatives	Standard inputs and interest rate curves, interest rate volatilities, credit spreads and recovery rates on the underlying reference securities, index spreads, foreign exchange spot and forward curves, and foreign exchange volatilities.

Where the Investment Manager deems it appropriate to do so (such as when vendor prices are unavailable or not deemed to be representative), fixed income securities will be valued in good faith at the mean quoted bid and asked prices that are reasonably and timely available or at prices for securities of comparable maturity, quality and type.

Short-term securities purchased within 60 days to maturity are valued at amortized cost, which approximates fair value.

Securities and investments for which representative market quotations are not readily available or are considered unreliable are fair valued in good faith by the Investment Manager. Various inputs may be reviewed in order to make a good faith determination of a security's fair value. These inputs include, but are not limited to, the type and cost of the security; contractual or legal restrictions on resale of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion or exchange rights on the security; related corporate actions; significant events occurring after the close of trading in the security; and changes in overall market conditions. Fair valuations and valuations of investments that are not actively trading involve judgment and may differ materially from valuations that would have been used had greater market activity occurred.

If third-party evaluated vendor pricing is neither available nor deemed to be indicative of fair value, the Investment Manager may elect to obtain indicative market quotations ("broker quotes") directly from a broker-dealer. Indicative market quotations are typically received from established market participants. The Investment Manager has requested transparency to view the underlying inputs which support these market quotations. When transparency to the underlying inputs is received from the broker then the security may be considered Level 2 of the fair value hierarchy if the inputs are observable. If the inputs are not transparent or are found to be unobservable, then the securities are categorized as Level 3 of the fair value hierarchy.

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

3. Valuation (Continued)

If broker quotations are not received as of the valuation date, the most recent available broker quotation(s) may be used. However, adjustments are made to the most recent broker quotation(s) based on interpolated changes in the yields of associated benchmark securities from the date upon which the broker quotation was received to the valuation date. Typically, benchmark securities are comprised of certain treasury securities with standard maturities. Specifically, the interpolated change in the yield is calculated using an interpolation factor which measures the duration of the security being priced versus the duration of the benchmark securities with durations immediately greater than and less than the security being priced. The interpolated yield change is then applied to the duration of the security to calculate the implied change in price.

Over-the-counter financial derivative instruments, such as forward foreign currency contracts, options contracts, swaptions contracts, or swap agreements, derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These contracts are normally valued on the basis of pricing service providers or broker dealer quotations. Depending on the product and the terms of the transaction, the value of financial derivative instruments can be estimated by a pricing service provider using a series of techniques, including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, yield curves, and exchange rates.

Centrally cleared swaps transacted on a multilateral or trade facility platform, such as a registered exchange, are valued at the daily settlement price determined by the respective exchange. For centrally cleared credit default swaps, the clearing facility requires its members to provide actionable price levels across complete term structures. These levels along with external third-party prices are used to produce daily settlement prices. Centrally cleared interest rate swaps are valued using a pricing model that references the underlying rates including the overnight index swap rate and Secured Overnight Financing Rate forward rate to produce the daily settlement price. These securities are categorized as Level 2 of the fair value hierarchy.

The various inputs that are used in determining the fair value of the Fund's assets and liabilities are summarized into the broad levels listed below:

- Level 1 – quoted prices in active markets for identical investments.
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

3. Valuation (Continued)

- Level 3 – significant unobservable inputs, including the Investment Manager’s own assumptions in determining the fair value of investments. Level 3 fair value techniques include (i) the use of proprietary models that require the use of judgment and the application of various assumptions including, but not limited to, prepayment assumptions and default rate assumptions, and (ii) the solicitation of valuations from third-parties (typically, broker-dealers). Third-party valuation providers often utilize proprietary models that are subjective and also require the use of judgment and the application of various assumptions including, but not limited to, prepayment assumptions and default rate assumptions.

The valuation levels are not necessarily an indication of the risk or liquidity associated with investing in those securities.

The following is a summary of the levels within the valuation hierarchy used in valuing the Fund’s assets and liabilities carried at net realizable value:

<u>Description</u>	<u>Assets</u>			<u>Total</u>
	<u>Quoted Prices (Level 1)</u>	<u>Other Significant Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>	
Investments in Other Investment Companies	\$ 504,715	\$ —	\$ —	\$ 504,715

4. Investments in Affiliated Investment Companies

The following table summarizes the Fund’s investments in affiliated investment companies (the “Investee Funds”) as of December 31, 2024. The Fund did not directly pay any management fee or performance fee to the Investee Funds for the year ended December 31, 2024. The Fund did not receive any distributions from the affiliated investment companies during the year ended December 31, 2024.

<u>Investments</u>	<u>Fair Value at December 31, 2023</u>	<u>Purchases</u>	<u>Redemption Proceeds</u>	<u>Realized Gain</u>	<u>Change in Unrealized Gain (Loss)</u>	<u>Fair Value at December 31, 2024</u>

Western Asset Emerging Markets Diversified Debt Fund, L.L.C. - The fund's investment objective is to maximize total return, consisting of current income and medium- to long-term capital appreciation, consistent with prudent investment management. Under normal circumstances, the Fund invests at least 80% of its assets in fixed income securities issued by governments, government-related entities and corporations located in emerging markets and related investments. The Fund may invest without limit in high yield debt securities and related investments rated below investment grade (that is, securities rated below the Baa/BBB categories or, if unrated, determined to be of comparable credit quality by WAM). Below investment grade securities are commonly referred to as "high yield" or "junk" bonds. The Fund may invest up to 50% of its assets in non-U.S. dollar denominated exposure via unhedged foreign currency denominated bonds and foreign currency transactions on a spot or forward basis and both long and short currency exposures are permissible. The Fund will be invested in at least three emerging market countries, which are countries that, at the time of investment, are represented in the J.P. Morgan Emerging Markets Bond Index Global or the J.P. Morgan Corporate Emerging Market Bond Index Broad or categorized by the World Bank in its annual categorization as middle- or low-income. The Fund may invest in securities of any maturity. The WAM attempts to maintain the dollar-weighted average effective duration of the Fund's portfolio, as estimated by WAM, within a range of 20% (above or below) of the duration of the J.P. Morgan Emerging Markets Bond Index Global Diversified. A shareholder may redeem all or a portion of its shares upon 15 business days prior written notice to the fund. There are no unfunded commitments due by the fund as of December 31, 2024.

Western Asset Floating Rate High Income Fund, L.L.C. - The investment objective is to maximize total return. Under normal market conditions, the fund will invest at least 80% of its total assets in U.S. Dollar-denominated loans, loan participations and fixed income securities that are rated

4. Investments in Affiliated Investment Companies (Continued)

below investment grade at the time of purchase by one or more Nationally Recognized Statistical Rating Organizations (“NRSROs”) or are of a comparable quality as determined by the Investment Manager. Redemption is permitted daily. A shareholder may redeem all or a portion of its shares upon 15 business days’ prior written notice to the fund. There are no unfunded commitments due by the fund as of December 31, 2024.

Western Asset Frontier Markets Fund, Ltd. – The fund’s investment objective is to maximize total return, consisting of current income and medium- to long-term capital appreciation, consistent with prudent investment management. Under normal market conditions, the fund intends to invest at least 80% of its assets, measured at the time of purchase, in securities of frontier market countries or securities denominated in frontier market currencies. The fund also may invest in assets that are tied to non-frontier market countries (or securities denominated in non-frontier currencies) but any such investments will not contribute to the 80%. Redemption is permitted daily. A shareholder may redeem all or a portion of its shares upon 15 business days prior written notice to the fund. There are no unfunded commitments due by the fund as of December 31, 2024.

Western Asset India Bond Fund, L.L.C. – The investment objective of the fund is to maximize long-term total return, consisting of current income and medium- to long-term capital appreciation, consistent with prudent investment management. Under normal market conditions, the fund intends to invest at least 80% of its assets in sovereign debt issued by the Republic of India and in fixed income securities of other issuers domiciled in India and Supranational Entities that issue fixed income securities in Indian Rupee. Redemption is permitted daily. A shareholder may redeem all or a portion of its shares upon 10 business days’ prior written notice to the fund. There are no unfunded commitments due by the fund as of December 31, 2024.

Western Asset Investment Grade Commercial Mortgage, L.L.C. – The Fund is organized for the purpose of engaging in any lawful act or activity for which limited liability companies may be formed under the Act, including, without limitation, investing in securities and engaging in all activities and transactions the Investment Manager deems necessary or advisable in connection therewith, including, without limitation: to invest, on margin or otherwise, directly or through subsidiaries or other special purpose vehicles, long and short, in securities and other financial instruments, U.S. or non-U.S., denominated in either USD or foreign currencies, whether existing on the date hereof or subsequently developed. There are no unfunded commitments due by the fund as of December 31, 2024.

Western Asset Opportunistic Structured Securities Portfolio, L.L.C. – The investment objective of the fund is to maximize long-term total return. Under normal market conditions, the fund expects to invest all or substantially all of its assets, either directly or indirectly through investments in other commingled investment vehicles, in investment grade debt and fixed income securities rated at the time of purchase at least Baa3 or BBB- by a nationally recognized rating agency such as Moody’s Investors Service, Inc., Standard & Poor’s, or that are of a comparable quality as determined by the Investment Manager or WAMCL. Redemption is permitted daily. A shareholder may redeem all or a

portion of its shares upon 15 business days' prior written notice to the fund. There are no unfunded commitments due by the fund as of December 31, 2024.

Western Asset Risk Balanced Credit L.L.C. – The fund's investment objective seeks to maximize absolute return and generate income by systematically balancing the exposure of credit spread or equity risk with Treasury duration and other hedges. The fund attempts to earn positive returns in all market cycles. In the Risk Balanced Credit Fund the "risk balance" focuses on an allocation of risk rather than capital – it is unbiased to the source of return. Overall portfolio volatility is targeted by periodically rebalancing the component weights which become unbalanced due to changing market conditions and correlations. The portfolio attempts to keep risks balanced while seeking the highest expected return for the specified target volatility. A shareholder may redeem all or a portion of its shares upon 15 business days' prior written notice to the fund. There are no unfunded commitments due by the fund as of December 31, 2024.

Western Asset Strategic US\$ High Yield Portfolio, L.L.C. – The investment objective of the fund is to maximize total return, consistent with prudent investment management. Under normal market conditions, the fund will invest at least 90% of its total assets in U.S. Dollar-denominated debt or fixed income securities that are rated below investment grade at the time of purchase by one or more NRSROs or are of comparable quality as determined by the Investment Manager. Redemption is permitted daily. A shareholder may redeem all or a portion of its shares upon 15 business days' prior written notice to the fund. There are no unfunded commitments due by the fund as of December 31, 2024.

5. Investments in Other Investment Companies

The following table summarizes the Fund's investments in other investment companies as of December 31, 2024:

<u>Investment</u>	<u>Fair Value</u>	<u>Net Income⁽¹⁾</u>
Dreyfus Government Cash Management	\$ 504,715	\$ 1,162,206

⁽¹⁾ This amount represents the net income earned during the period January 1, 2024 to December 31, 2024 from other investment companies.

Dreyfus Government Cash Management — The investment objective is to seek as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. Redemption is permitted daily.

6. Investment Manager Fee

The Investment Manager's fee is not charged to the Fund, but is paid directly by the shareholders in the Fund to the Investment Manager.

(Expressed in U.S. Dollars)

7. Short Sale Transactions

Short sales are transactions in which the Fund sells a security it does not own in anticipation of a decline in the market value of that security. To complete such a transaction, the Fund must borrow the security to deliver to the buyer. The Fund is then obligated to replace the security borrowed by purchasing it in the open market at the time of replacement. The proceeds received by the Fund for the short sale are retained by the broker as collateral until the Fund replaces the borrowed security. The collateral required is determined daily by reference to the market value of the short positions. Liabilities for securities sold short are marked to market daily and reported at market value in the financial statements.

Short sale transactions may result in a risk of loss that may exceed the amount shown on the Statement of Net Assets (In Liquidation). A gain, limited to the price at which the Fund sold the security short, or a loss, potentially unlimited in size, will be recognized upon termination of a short sale. Dividends and interest on short positions are recorded as a liability on the ex-dividend date or on the accrual basis, respectively, and are shown within the Statement of Operations (Going Concern Basis) as dividends and interest expense because the Fund must pay the dividend and interest to the lender of the security.

Short selling is a technique that may be considered speculative, involves risk beyond the amount of money used to secure each transaction, and may represent a form of leverage.

8. Inflation-Indexed Bonds

Inflation-indexed bonds are fixed-income securities whose principal value or interest rate is periodically adjusted according to the rate of inflation. As the index measuring inflation changes, the principal value or interest rate of inflation-indexed bonds will be adjusted accordingly. Inflation adjustments to the principal amount of inflation-indexed bonds are reflected as an increase or decrease to investment income on the Statement of Operations (Going Concern Basis). Repayment of the original bond principal upon maturity (as adjusted for inflation) is guaranteed by most countries of issuance. For bonds that do not provide a similar guarantee, the adjusted principal value of the bond repaid at maturity may be less than the original principal.

9. Collateralized Mortgage Obligations

The Fund may invest in collateralized mortgage obligations (“CMOs”), which are a type of bonds secured by an underlying pool of mortgages or mortgage pass-through certificates that are structured to direct payments on underlying collateral to different series or classes of the obligations. Such investment may include, but are not limited to the following classes of CMOs: adjustable rate bonds, floating rate bonds, planned amortization bonds or targeted amortization bonds. Moreover, the Fund may invest in stripped CMOs, which are created by separating bonds into their principal and interest components and selling each piece separately. Stripped CMOs are more volatile than other fixed income securities in their response to change in market interest rates. The value of some stripped CMOs moves in the same direction as interest rates, further increasing their volatility.

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

10. Collateralized Loan Obligations

The Fund may invest in collateralized loan obligations (“CLOs”), which are a type of financial security which are typically backed by a pool of loans. A CLO will make payments to its investors based on loan payments received. A CLO has various tranches of ownership which can vary in their risk profile and as a result senior tranches typically have a higher credit rating and lower coupon rates and junior tranches typically have a lower credit rating and higher coupon rates.

11. Stripped Mortgage-Related Securities

The Fund may invest in stripped mortgage-related securities (“SMRS”) which are derivative multi-class mortgage securities. SMRS may be issued by agencies or instrumentalities of the U.S. government, or by private originators of, or investors in, mortgage loans, including savings and loan associations, mortgage banks, commercial banks, investment banks, and special purpose entities of the foregoing.

SMRS are usually structured with two classes that receive different proportions of the interest and principal distributions on a pool of mortgage assets. A common type of SMRS will have one class receiving some of the interest and most of the principal from the mortgage assets, while the other class will receive the interest and the remainder of the principal. In the most extreme case, one class will receive all of the interest, (the interest-only or “IO” class), while the other class will receive the entire principal (the principal-only or “PO” class). The yield to maturity on an IO class is extremely sensitive to the rate of principal payments (including prepayments) on related underlying mortgage assets, and a rapid rate of principal payments may have a material adverse effect on a Fund’s yield to maturity from these securities. If the underlying mortgage assets experience greater than anticipated prepayment of principal, the Fund may fail to fully recoup its initial investment in these securities even if the security is in one of the highest rating categories.

12. Asset-Backed Securities

The Fund may invest in asset-backed securities (“ABSs”), which are a type of financial security which are typically backed by a pool of loan, lease or other type of assets excluding real estate or mortgage-backed securities. This pool of assets is typically a group of illiquid assets which are unable to be sold individually. An investor will invest into a specific tranche of the loan pool with each tranche having a different risk profile. More senior tranches typically have a higher credit rating and lower coupon rates and junior tranches typically have a lower credit rating and higher coupon rate.

13. Mortgage-Backed Securities

The Fund may invest in mortgage-backed securities (“MBSs”), which are a type of financial security that are typically secured by a mortgage or a pool of mortgages. A MBS must originate from a regulated and authorized financial institution and it can either be related to residential or commercial real estate. The structure of a MBS is sometimes known as a “pass-through”, where the interest and principal payments made by a borrower are passed through to the MBS investor.

(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

14. Forward Foreign Currency Contracts

The Fund may enter into a forward foreign currency contract to hedge against foreign currency exchange rate risk on its non-USD denominated securities and shares or to facilitate settlement of a foreign currency denominated portfolio transaction. A forward foreign currency contract is an agreement between two parties to buy and sell a currency at a set price with delivery and settlement at a future date. The contract is marked to market daily and the change in value is recorded by the Fund as an unrealized gain or loss. When a forward foreign currency contract is closed, through either delivery of the currencies or offset by entering into another forward foreign currency contract, the Fund recognizes a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value of the contract at the time it is closed.

Forward foreign currency contracts involve elements of market risk in excess of the amounts reflected on the Statement of Net Assets (In Liquidation). The Fund bears the risk of an unfavorable change in the foreign exchange rate underlying the forward foreign currency contract. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

15. Futures Contracts

The Fund may use futures contracts to manage exposure to the relevant markets. Buying futures increases a fund's exposure to the underlying instrument. Selling futures decreases a fund's exposure to the underlying instrument, or allows the fund to hedge other fund investments. Futures contracts involve, to varying degrees, credit and market risks.

Futures contracts are valued based upon their quoted daily settlement prices. Upon entering into a futures contract, the Fund is required to deposit with its futures broker, an amount of cash, U.S. Government and Agency Obligations, or select sovereign debt, in accordance with the initial margin requirements of the broker, board of trade, or exchange. U.S. Government and Agency Obligations deposited as initial margin are included within the Condensed Schedule of Investments, and cash is recorded on the Statement of Net Assets (In Liquidation) in Due from Broker. Futures contracts are marked to market daily and an appropriate payable or receivable for the change in value ("variation margin") is recorded within the Statement of Operations (Going Concern Basis) and within "Due to/from Broker" on the Statement of Net Assets (In Liquidation). Gains or losses are recognized but not considered realized until the contracts expire or are closed.

The Fund enters into futures contracts only on exchanges or boards of trade where the exchange or board of trade acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange or board of trade. Losses in value may arise from changes in the value of the underlying instruments or if there is an illiquid secondary market for the contracts. In addition, there is the risk that there may not be an exact correlation between a futures contract and the underlying instrument.

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)
December 31, 2024
(Expressed in U.S. Dollars)

16. Options

The Fund may purchase and write call and put options to increase and decrease their exposure to underlying instruments (including commodity risk, equity risk, foreign exchange risk and/or interest rate risk), in the case of options written, to generate gains from options premiums. A call option gives the purchaser (holder) of the option the right (but not the obligation) to buy, and obligates the seller (writer) to sell (when the option is exercised) the underlying instrument at the exercise or strike price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying instrument at the exercise or strike price at any time or at a specified time during the option period. When the Fund purchases (writes) an option, an amount equal to the premium paid (received) by the Fund is reflected as an asset (liability). The amount of the asset (liability) is subsequently marked-to-market to reflect the current market value of the option purchased (written). When an instrument is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the instrument acquired or deducted from (or added to) the proceeds of the instrument sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premiums received or paid). When the Fund writes a call option, such option is “covered”, meaning that the Fund holds the underlying instrument subject to being called by the option counterparty. When the Fund writes a put option, such option is covered by cash in an amount sufficient to cover the obligation.

Options on swaps (swaptions) are similar to options on securities except that instead of selling or purchasing the right to buy or sell a security, the writer or purchaser of the swap option is granting or buying the right to enter into a previously agreed upon interest rate or credit default swap agreement (interest rate risk and/or credit risk) at any time before the expiration of the option.

In purchasing and writing options, the Fund bears the risk of an unfavorable change in the value of the underlying instrument or the risk that the Fund may not be able to enter into a closing transaction due to an illiquid market. Exercise of a written option could result in the Fund purchasing or selling a security when it otherwise would not, or at a price different from the current market value.

17. Swap Agreements

A swap is an agreement between the Fund and a counterparty to exchange the return generated by one instrument for the return generated by another instrument. The Fund may enter into swap agreements to manage its exposure to interest rate, credit, market risk or for other purposes. Swap agreements are privately negotiated in the over-the-counter market (“OTC”) or may be executed on a registered exchange (“Centrally Cleared Swaps”). Unlike Centrally Cleared Swaps, the Fund has credit exposure to the counterparties of OTC swaps.

Upon entering into Centrally Cleared Swaps, the Fund is required to make a deposit in the form of cash or securities with the clearing house, typically referred to as initial margin deposit. Securities deposited as initial margin are included within the Schedule of Investments (In Liquidation) and cash is recorded on the Statement of Net Assets (In Liquidation) in Due from Broker. Daily changes

Western Asset Macro Opportunities Portfolio Master Fund, Ltd.
(A Cayman Islands Exempted Company)
Notes to Financial Statements (Continued)

(Expressed in U.S. Dollars)

17. Swap Agreements (Continued)

in valuation of Centrally Cleared Swaps, including periodic amount of interest to be received or paid on swaps, is reported as a change in net unrealized gain or loss within the Statement of Operations (Going Concern Basis) and within “Due to/from Broker” on the Statement of Net Assets (In Liquidation). A realized gain or loss is recorded upon payment or receipt of a periodic payment or payment made upon termination of the swap agreement.

Upon entering into OTC swaps, premiums received or paid are recorded as an asset or liability. Such payments are recorded as realized gains or losses on the Statement of Operations (Going Concern Basis) upon termination or maturity of the swap. Net periodic payments received or paid by the Fund are included as part of realized gains or losses on the Statement of Operations (Going Concern Basis). Payments received or paid at the termination of the swap are recorded as realized gains or losses on the Statement of Operations (Going Concern Basis).

Implied credit spreads are utilized in determining the market value of credit default swap agreements on corporate issues or sovereign issues of an emerging country as of year end and are disclosed within the Condensed Schedule of Investments, if applicable, and serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to enter into the agreement. For credit default swap agreements on asset-backed securities and credit indices, the quoted market prices and resulting values serve as the indicator of the current status of the payment/performance risk. Wider credit spreads and decreasing market values, when compared to the notional amount of the swap, represent a deterioration of the referenced entity’s credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of agreement.

The maximum potential amount of future payments (undiscounted) that the Fund as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. The monthly average notional balances of swap agreements during the period January 1, 2024 to August 20, 2024 (Going Concern Basis) are disclosed in Note 21.

These potential amounts are partially offset by any recovery values of the respective referenced obligations or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Fund for the same referenced entity or entities. In connection with these agreements, cash or securities may be set aside as collateral by the Fund’s custodian in accordance with the terms of the respective swap agreements to provide assets of value and recourse if a credit event, such as bankruptcy/insolvency, were to occur. The Fund earns interest on cash set aside as collateral.

Entering into these agreements involves, to varying degrees, elements of credit, legal, market, and documentation risk in excess of the amounts recognized on the Statement of Net Assets (In Liquidation). Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to

17. Swap Agreements (Continued)

the meaning of the contractual terms in the agreements, or that there may be unfavorable changes in interest rates. Additionally, for written credit default swaps, the Fund's exposure is in excess of the amounts recorded on the Statement of Net Assets (In Liquidation), up to the extent of its notional amounts.

18. Board of Directors

The Fund is a Cayman Islands Exempted Company with its own Board of Directors. The Board is responsible for the overall management and administration of the Fund. The directors and officers are subject to removal or replacement in accordance with Cayman Islands law and the Fund's Articles of Incorporation.

19. Shares of Participation

The following represents the Fund's share activity for the period January 1, 2024 through August 20, 2024 (Going Concern Basis).

20. Financial Highlights

	Period Ended August 20, 2024⁽¹⁾
Selected Per Share Data	
Net asset value, beginning of period	\$ 203.703
Net investment income ⁽²⁾	7.237
Net realized and unrealized gain (loss)	(7.980)
Total income from investment operations	(0.743)
Net asset value, end of period	\$ 202.960
Total return % ⁽³⁾	(0.36)
Ratios to Average Net Assets	
Expenses %	0.03
Net investment income %	3.50

⁽¹⁾ For the period January 1, 2024 to August 20, 2024 (Going Concern Basis).

⁽²⁾ Net investment income per share has been calculated based upon average shares outstanding for the period.

⁽³⁾ Total return calculation is based on the value of a single share of participation outstanding throughout the period. It represents the percentage change in the net asset value per share between the beginning and end of the period. The total return is not annualized for periods less than a year.

The above ratios are calculated for the participating shares as a whole. An individual shareholder's total return and ratios may vary from these ratios based on the timing of capital share transactions.

21. Derivative Instruments

The Fund may transact in a variety of derivative instruments including futures, forwards, swaps, swaptions and options for trading purposes with each instrument's primary risk exposure being commodity, credit, equity, foreign exchange or interest rate risk.

The following tables provide information about the effect of derivatives within the Fund's Statement of Operations (Going Concern Basis) for the period January 1, 2024 to August 20, 2024. The first table provides additional detail about the amounts and sources of gains or losses realized on derivatives during the period. The second table provides additional information about the change in unrealized gain (loss) resulting from the Fund's derivatives during the period. The realized and unrealized gains and losses from derivatives are presented as separate line items on the Statement of Operations (Going Concern Basis).

22. Fund Investment Risks

Investment in Repurchase Agreements

The Fund will bear a risk of loss in the event that the other party to a repurchase agreement defaults on its obligations and the Fund is delayed or prevented from exercising its rights to dispose of the underlying securities, including the risk of a possible decline in the value of the underlying securities during the period in which the Fund seeks to assert its rights to them, the risk of incurring expenses associated with asserting those rights, the risk that those rights may be limited by bankruptcy or other legal considerations and the risk of losing all or a part of the income from the agreement. Each of the risks of repurchase agreements will be increased to the extent the Fund invests a substantial portion of its assets in repurchase agreements with a small number of financial institutions.

Investment in Emerging Market Issuers

The Fund may invest in emerging market instruments which are subject to certain credit and market risks. The securities and currency markets of emerging market countries are generally smaller, less developed, less liquid and more volatile than the securities and currency markets of the United States and other developed markets. Disclosure and regulatory standards in many respects are less stringent than in other developed markets. There also may be a lower level of monitoring and regulation of securities markets in emerging market countries and the activities of investors in such markets and enforcement of existing regulations may be extremely limited. Political and economic structures in many of these countries may be in their infancy and developing rapidly, and such countries may lack the social, political and economic stability characteristics of more developed countries.

Investment in Mortgage-Backed Securities

Investments in securities collateralized by residential real estate mortgages are subject to certain credit and liquidity risks. When market conditions result in an increase in default rates of the underlying mortgages and the foreclosure values of underlying real estate properties are materially below the outstanding amount of these underlying mortgages, collection of the full amount of accrued interest and principal on these investments may be doubtful. Such market conditions may significantly impair the value of these investments resulting in a lack of correlation between their credit ratings and values.

Investment in Non-U.S. Securities

The Fund invests in securities of non-U.S. issuers which present certain special risks, including those resulting from future political, legal, and economic developments, which could include changes in currency exchange rates or exchange control regulations, expropriation of assets, confiscatory taxation, nationalization of assets, imposition of withholding or other taxes, adverse changes in investment capital or exchange control regulations, political changes, diplomatic developments, difficulty in obtaining and enforcing judgments against non-U.S. entities, the possible imposition of the applicable country's governmental laws or restrictions, and the reduced availability of public information concerning issuers. Additionally, issuers of non-U.S. securities are not generally subject to uniform accounting, auditing and financial reporting standards or other regulatory practices

Investment in Non-U.S. Securities (Continued)

and requirements comparable to those applicable to U.S. issuers. In the event of nationalization, expropriation or other confiscation of assets, the Fund could lose its entire investment in a security.

The costs associated with investment in debt securities of non-U.S. issuers, including withholding taxes, brokerage commissions and custodial fees, may be higher than those associated with investment in debt securities of U.S. issuers. In addition, non-U.S. securities transactions may be subject to difficulties associated with the settlement of such transactions. Non-U.S. markets have different clearance and settlement procedures which in some markets have at times failed to keep pace with the volume of transactions, thereby creating substantial delays and settlement failures. Delays in settlement could result in temporary periods when assets of the Fund are uninvested and no return is earned thereon. Settlement failures could also adversely affect the Fund's performance. The inability of the Fund to make intended security purchases due to settlement problems could cause it to miss attractive investment opportunities. Inability to dispose of a portfolio security due to settlement problems could result in losses to the Fund due to subsequent declines in value of the portfolio security.

Sovereign Debt Risk

The Fund may invest in sovereign debt instruments which can involve a high degree of risk. The governmental entity that controls the repayment of sovereign debt may not be able or willing to repay the principal and/or interest when due in accordance with the terms of the debt. A governmental entity's willingness or ability to repay principal and interest when due may be affected by, among other factors, its cash flow situation, the extent of its reserves, the availability of sufficient foreign exchange on the date a payment is due, the relative size of the debt service burden to the economy as a whole, the governmental entity's policy toward the International Monetary Fund, the political constraints to which a governmental entity may be subject, and changes in governments and political systems.

Non-Publicly Traded and Rule 144A Securities Risk

The Fund may invest in non-publicly traded and Rule 144A securities which may involve a high degree of business and financial risk and may result in substantial losses. These securities may be less liquid than publicly traded securities, and the Fund may take longer to liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices realized from these sales could be less than those originally paid by the Fund. Further, companies whose securities are not publicly traded may not be subject to the disclosure and other investor protection requirements that would be applicable if their securities were publicly traded. Consequently, these securities may be difficult to value.

22. Fund Investment Risks (Continued)

Interest Rate Risk

Interest rate risk is the risk that fixed income securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Fund is likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is used primarily as a measure of the sensitivity of a fixed income's market price to interest rate (i.e., yield) movements.

Liquidity Risk

The Fund may invest in assets and derivatives that may not be readily available to sell or dispose of, including securities whose disposition is restricted by securities laws. The effect of liquidity risk is particularly pronounced when low trading volume, lack of a market maker, large position size, or legal restrictions (including daily price fluctuation limits or "circuit breakers" or an affiliation with the issuer of a security) limit or prevent the Fund's ability to initiate a transaction, sell assets, or unwind derivative positions at desirable prices. The Fund is also exposed to liquidity risk when it has an obligation to purchase particular securities (for example, as a result of entering into reverse repurchase agreements, writing a put, or closing out a short position).

Concentration of Risk

To the extent the Fund concentrates its investments in one or more countries, the value of the Fund's assets will be especially affected by economic, political and other factors affecting such country or countries, and may fluctuate more widely than the value of a fund that invests in a greater number of countries.

Derivative Instruments Risk

The Fund may invest in various derivatives which may present additional risks and costs that are different from and, in certain cases, greater than the risks and costs presented by investing directly in securities and other more traditional investments. Following are additional risk factors concerning the use of derivatives:

- *Management Risk:* Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The successful use of derivatives requires sophisticated management and an understanding not only of the underlying instrument but also of the derivative itself. In particular, the use and complexity of derivatives require the maintenance of adequate controls to monitor the transactions entered into, and the ability to assess the risk that a derivative adds to the Fund's portfolio.

22. Fund Investment Risks (Continued)

Derivative Instruments Risk (Continued)

- *Counterparty Credit Risk:* The use of derivatives subjects the Fund to the risk that the counterparty will not be able or willing to make timely settlement payments or otherwise meet its obligations, especially during unusually adverse market conditions. If the counterparty defaults, the Fund will have contractual remedies, but the Fund may be unable to enforce its contractual rights. Counterparty risk is more pronounced if a counterparty's obligations exceed the amount of collateral held by the Fund (if any), the Fund is unable to exercise its interest in collateral upon default by the counterparty, or the termination value of the instrument varies significantly from the marked-to-market value of the instrument.
- *Documentation Risk:* Many derivative instruments have documentation risk. Because the contract for each over-the-counter derivative transaction is individually negotiated with a specific counterparty, there exists the risk that the parties may interpret contractual terms differently. If that occurs, the cost and unpredictability of the legal proceedings required for the Fund to enforce its contractual rights may lead the Fund to decide not to pursue its claims against the counterparty. The Fund, therefore, assumes the risk that it may be unable to obtain payments the Investment Manager believes are owed to them under derivatives instruments or those payments may be delayed or made only after the Fund has incurred the costs of litigation.

23. Contingencies and Commitments

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties, which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. Based on experience, management is of the view that the risk of loss in connection with these potential indemnification obligations is remote; however, there can be no assurance that material liabilities related to such obligations will not arise in the future that could adversely impact the business of the Fund.

24. Subsequent Events

As of March 25, 2025, the date the financial statements were available to be issued, no subsequent events or transactions had occurred that would have materially impacted the financial statements as presented.
