Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **WEINSTEIN SPIRA & CO**

(2) EIN: **74-2181616**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

The Administrative Committee
Vopak North America, Inc. Retirement Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Vopak North America, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions and maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

October 15, 2025
Vopak North America, Inc. Retirement Plan

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the supplemental Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

VOPAK NORTH AMERICA, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

Note 1 - Plan Description

The following brief description of the Vopak North America, Inc. Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted effective January 1, 1978 and is a defined benefit plan covering substantially all employees other than leased employees, union employees, nonresident aliens, independent contractors and other non-common law employees of Vopak North America, Inc. and subsidiaries (the Company) who have completed one year of consecutive service, as defined. The Plan and the related trust are maintained for the exclusive benefit of the participating employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Plan Administration

The Plan is administered by an administrative committee which consists of selected employees of the Company.

Empower Annuity Insurance Company (EAIC) serves as the asset custodian for the pooled separate account investments. Empower Trust Company, LLC (ETC) serves as the Plan's asset custodian for the mutual fund investment.

Freezing of the Plan

Effective January 1, 2023, the Company amended the Plan to "soft freeze" the Plan so that no employees hired after December 31, 2022 are permitted to enter the Plan as new participants on or after the effective date. Participants hired and entered into the Plan prior to December 31, 2022 will continue to accrue benefits under the current terms of the Plan.

Contributions

Contributions to the Plan are made solely by the Company and are irrevocable. The Company's funding policy is to make contributions to the Plan in amounts as determined by the Plan's independent actuary to meet or exceed the annual ERISA minimum funding requirement. The Company was required to make minimum contributions of \$2,923,525 and \$2,855,527 for the plan years ended December 31, 2024 and 2023, respectively; however, these required contributions were fully offset by available prior year funding credits. As a result, the Company did not make any cash contributions for either the 2024 or 2023 plan year.

VOPAK NORTH AMERICA, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
December 31, 2024 and 2023

Retirement Benefits

Normal retirement benefits begin at age 65 and consist of a monthly annuity payment equal to 2% of the participant's average monthly compensation during the five highest consecutive years of credited service, multiplied by years of service not in excess of 20 years. A participant who has completed 10 years of service may elect early retirement between the ages of 55 and 65, with normal retirement benefits as described above, and reduced as stipulated in the plan document.

If a participant becomes totally and permanently disabled after completing five years of service and is eligible for and receives social security disability benefits, his or her plan participation will continue, and earnings during the years of disability will be assumed to be the same as those in the last calendar year prior to disability. Upon attainment of age 65, he or she will receive a monthly retirement benefit calculated as if their employment continued through their normal retirement date.

A married participant with an eligible surviving spouse may have a survivor annuity paid to his or her spouse upon death while employed by the Company, if the participant had at least five years of consecutive service with the Company.

For purposes of severance benefits, an employee becomes 100% vested in accrued benefits after the completion of five years of service.

If a participant is terminated prior to age 65, the participant is eligible to receive a normal retirement benefit at age 65 equal to the amount described above, times the participant's vested percentage. If a participant has had at least 10 years of service prior to termination, he or she is eligible to receive reduced benefits at age 55. A participant may elect to receive a lump sum benefit payment if the present value of the participant's accrued vested benefits is less than \$7,000 upon retirement. Certain limitations may apply to a participant's accelerated benefit payment options based on the Plan's adjusted funding target attainment percentage.

From time to time, the Company may offer one-time lump-sum option windows for employees who are vested, no longer employed by the Company, and are not currently receiving benefits. The terms of these option windows vary and are communicated to applicable participants after a diligent search has been conducted by the Company to locate them during the election window. No such lump-sum option windows were offered during the 2024 plan year.

Effective June 1, 2023, the Company amended the Plan to allow certain qualifying participants to receive a one-time lump sum distribution or immediately commence annuity payments if elected during the period from September 16, 2023 to October 31, 2023. This option was available to vested participants who are no longer employed by the Company, had not otherwise begun receiving benefits from the Plan, had not reached their normal retirement date, and had have a vested interest in their accrued benefit as of November 1, 2023 that exceeded \$5,000, but did not exceed \$100,000, and certain other restrictions, as defined in the amendment.

Note 2 - Summary of Accounting Policies

Basis of Financial Statements

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Valuation of Investments and Income Recognition

The investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes realized gains and losses on investments sold during the year as well as unrealized gains and losses on the investments held at the end of the year.

Benefit Payments

Payments to participants and/or their beneficiaries are recorded when paid.

Plan Expenses

Plan expenses are paid by the Plan, unless paid by the Company at its discretion.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the administrative committee to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investment in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and may impact the funded position of the Plan and the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

See independent auditor's report.

VOPAK NORTH AMERICA, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
December 31, 2024 and 2023

Subsequent Events

The administrative committee evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 15, 2025, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during December 31, 2024 and 2023.

Mutual Fund: This fund is valued daily, based upon quoted market prices.

VOPAK NORTH AMERICA, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
December 31, 2024 and 2023

Pooled Separate Accounts: These funds are valued at their net asset value (NAV) as reported by the issuer based on quoted market prices of the underlying investments, when available. The NAV is used as a practical expedient to estimate fair value; therefore, these funds are not required to be categorized within the fair value hierarchy. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Note 4 - Information Certified by the Plan's Asset Custodians

The administrative committee has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the administrative committee has obtained certifications from EAIC and ETC as of December 31, 2024 and 2023 and for the years then ended, that all of the information provided is complete and accurate. Information included in the financial statements and the accompanying notes to the financial statements as to investments, net appreciation in fair value of investments, interest and dividends and all information in the supplemental schedules is presented in reliance solely upon these certifications.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements, the accompanying notes to the financial statements and the supplemental schedules.

Note 5 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, or (c) present participants or their beneficiaries. Benefits under the Plan are based on participants' compensation during their highest five consecutive years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date (the valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination - are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits was calculated as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material differences. The actuarial present value of accumulated plan benefits is determined by Empower Benefit Consulting Services, an independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The valuation as of January 1, 2024 used the Pri-2012 Total Dataset Mortality Table Projected with Scale MP-2021 (for current employees and inactive former participants) and Pri-2012 Total Dataset Contingent Survivor Table with Scale MP-2021 (for surviving beneficiaries of former participants). An investment return of 6.0% compounded annually was assumed in making the valuation. Estimated annual expenses of \$400,000 were assumed in the valuation. The assumed average retirement age was between 55 and 70. The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

VOPAK NORTH AMERICA, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)
December 31, 2024 and 2023

The actuarial present value of accumulated plan benefits as of December 31, 2023 was as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants and beneficiaries currently receiving payments	\$ 49,192,781
Active participants	24,689,709
Inactive participants with deferred benefits	<u>22,112,533</u>
	95,995,023

Nonvested benefits	<u>893,834</u>
--------------------	----------------

Total actuarial present value of accumulated plan benefits	<u>\$ 96,888,857</u>
--	----------------------

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2023 was as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 95,850,813
Increase (decrease) during the year attributable to:	
Interest	5,564,575
Benefits accumulated and actuarial loss	1,781,152
Benefits paid	<u>(6,307,683)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 96,888,857</u>

Note 6 - Federal Income Tax Exemption

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated November 29, 2017, that the Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the administrative committee believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Party-in-Interest Transactions

The Plan engages in investment transactions with pooled separate accounts offered by EAIC, which qualify as party-in-interest transactions with respect to the Plan. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC.

See independent auditor's report.

NOTES TO FINANCIAL STATEMENTS (Continued)

Note 8 - Plan Termination

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. In the event the Plan is terminated, each participant's accrued benefit will become 100% vested, effective to the extent that the Plan is funded. The assets of the Plan will be liquidated and distributed in accordance with Section 4044 of ERISA and its related regulations generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five-year period preceding plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions.

However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Actuarial methods

Under the actuarial methods described below, if all current assumptions remain constant and are realized, funding at least the minimum required contribution each year will eventually accumulate sufficient plan assets to cover the funding target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost method

Costs have been computed in accordance with the unit credit actuarial cost method and reflect the actuarial assumptions described under “Actuarial assumptions” of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target normal cost

The target normal cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding target and funding shortfall

The funding target is the present value of benefits accrued as of the beginning of the plan year and the funding shortfall is the excess of the funding target over the actuarial value of assets (reduced by the credit balance). The initial funding shortfall is amortized over 15 years.

In subsequent years, the funding shortfall less the present value of prior year amortization installments is amortized over 15 years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan year</u>	<u>Corridor</u>
Through 2030	95% - 105%
2031	90% - 110%
2032	85% - 115%
2033	80% - 120%
2034	75% - 125%
2035 and later	70% - 130%

In the event the 25-year average of either the first, second, or third segment rate falls below 5%, the 25-year average of such rate will be deemed to be 5%.

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Sponsor elections

Discount rate: Segment rates, with a 4-month lookback

Mortality table: Prescribed IRS generational mortality table – separate

At-risk determination

The at-risk funding target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the at-risk funding target and at-risk target normal cost when a plan is at-risk in at least two years during the preceding four years. The load increases the at-risk funding target by 4% of the not at-risk funding target plus \$700 per participant, and increases the at-risk target normal cost by 4% of the not at-risk target normal cost.

The funding target and target normal cost are calculated by multiplying the not at-risk values by 100% minus the phase-in percentage, plus the at-risk values multiplied by the phase-in percentage.

Credit balance

The credit balance consists of the carryover balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the prefunding balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the minimum required contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The actuarial value of assets is reduced by the credit balance to determine certain funded percentages and to determine the funding shortfall.

Asset valuation method

The actuarial value of assets is determined using an annual average of the adjusted fair market value of assets with the earliest determination 24 months prior to the valuation date. The fair market value of assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the fair market value of assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the fair market value of assets.

The actuarial value of assets is adjusted to be no less than 90% or no more than 110% of the fair market value of assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an actuarial value of assets slightly below the fair market value of assets.

The actuarial value of assets for determining the maximum tax deductible contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

Actuarial assumptions

Funding Assumptions:

The discount rate and mortality assumptions are prescribed assumptions set by law. All other assumptions are non-prescribed assumptions set by the actuary which reflect estimates of future experience, are appropriate for the purpose of the measurement, consider relevant plan characteristics, and contain no significant bias unless otherwise noted. Relevant historical information, such as credible plan experience and experience from representative populations, was considered in the selection of the non-prescribed assumptions with a significant effect on the measurement. Factors that may affect future experience and the views of experts were also considered.

The salary scale, active retirement, deferred vested retirement, and termination assumptions consider the experience study completed in February 2021 based on plan experience from 2015 through 2019.

An annual review of actuarial assumptions is completed and there has been no consistent pattern of material gains or losses occurring for any non-prescribed assumptions.

The investment return is based on the plan's asset allocation and reflects a weighted average of expected returns by asset class.

ASC 960 Assumptions:

All assumptions are set by the plan sponsor and they align with the Funding Assumptions except for the mortality assumption. Note that the discount rate for ASC 960 aligns with the Investment Return assumption used in the ERISA Funding measurement.

The mortality assumption reflects experience from representative populations, based on the Pri-2012 Private Retirement Plans Mortality Table Report issued by the Society of Actuaries (SOA) in October 2019 and the Mortality Improvement Scale MP-2021 Report issued by the SOA in October 2021.

Below are the actuarial assumptions as of January 1, 2024:

Discount Rate:	<u>With Stabilization</u>	<u>Without Stabilization</u>	<u>ASC960</u>
<i>Effective Rate</i>	5.19%	4.45%	6.00%
<i>First Segment – First 5 Years</i>	4.75%	3.62%	n/a

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Actuarial methods

Under the actuarial methods described below, if all current assumptions remain constant and are realized, funding at least the minimum required contribution each year will eventually accumulate sufficient plan assets to cover the funding target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost method

Costs have been computed in accordance with the unit credit actuarial cost method and reflect the actuarial assumptions described under “Actuarial assumptions” of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target normal cost

The target normal cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding target and funding shortfall

The funding target is the present value of benefits accrued as of the beginning of the plan year and the funding shortfall is the excess of the funding target over the actuarial value of assets (reduced by the credit balance). The initial funding shortfall is amortized over 15 years.

In subsequent years, the funding shortfall less the present value of prior year amortization installments is amortized over 15 years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan year</u>	<u>Corridor</u>
Through 2030	95% - 105%
2031	90% - 110%
2032	85% - 115%
2033	80% - 120%
2034	75% - 125%
2035 and later	70% - 130%

In the event the 25-year average of either the first, second, or third segment rate falls below 5%, the 25-year average of such rate will be deemed to be 5%.

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Sponsor elections

Discount rate: Segment rates, with a 4-month lookback

Mortality table: Prescribed IRS generational mortality table – separate

At-risk determination

The at-risk funding target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the at-risk funding target and at-risk target normal cost when a plan is at-risk in at least two years during the preceding four years. The load increases the at-risk funding target by 4% of the not at-risk funding target plus \$700 per participant, and increases the at-risk target normal cost by 4% of the not at-risk target normal cost.

The funding target and target normal cost are calculated by multiplying the not at-risk values by 100% minus the phase-in percentage, plus the at-risk values multiplied by the phase-in percentage.

Credit balance

The credit balance consists of the carryover balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the prefunding balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the minimum required contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The actuarial value of assets is reduced by the credit balance to determine certain funded percentages and to determine the funding shortfall.

Asset valuation method

The actuarial value of assets is determined using an annual average of the adjusted fair market value of assets with the earliest determination 24 months prior to the valuation date. The fair market value of assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the fair market value of assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the fair market value of assets.

The actuarial value of assets is adjusted to be no less than 90% or no more than 110% of the fair market value of assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an actuarial value of assets slightly below the fair market value of assets.

The actuarial value of assets for determining the maximum tax deductible contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

Actuarial assumptions

Funding Assumptions:

The discount rate and mortality assumptions are prescribed assumptions set by law. All other assumptions are non-prescribed assumptions set by the actuary which reflect estimates of future experience, are appropriate for the purpose of the measurement, consider relevant plan characteristics, and contain no significant bias unless otherwise noted. Relevant historical information, such as credible plan experience and experience from representative populations, was considered in the selection of the non-prescribed assumptions with a significant effect on the measurement. Factors that may affect future experience and the views of experts were also considered.

The salary scale, active retirement, deferred vested retirement, and termination assumptions consider the experience study completed in February 2021 based on plan experience from 2015 through 2019.

An annual review of actuarial assumptions is completed and there has been no consistent pattern of material gains or losses occurring for any non-prescribed assumptions.

The investment return is based on the plan's asset allocation and reflects a weighted average of expected returns by asset class.

ASC 960 Assumptions:

All assumptions are set by the plan sponsor and they align with the Funding Assumptions except for the mortality assumption. Note that the discount rate for ASC 960 aligns with the Investment Return assumption used in the ERISA Funding measurement.

The mortality assumption reflects experience from representative populations, based on the Pri-2012 Private Retirement Plans Mortality Table Report issued by the Society of Actuaries (SOA) in October 2019 and the Mortality Improvement Scale MP-2021 Report issued by the SOA in October 2021.

Below are the actuarial assumptions as of January 1, 2024:

Discount Rate:	<u>With Stabilization</u>	<u>Without Stabilization</u>	<u>ASC960</u>
<i>Effective Rate</i>	5.19%	4.45%	6.00%
<i>First Segment – First 5 Years</i>	4.75%	3.62%	n/a

Plan provisions

Compensation	Gross income including elective deferrals, but excluding reimbursements, expense allowance, fringe benefits, moving expenses, welfare benefits, and any other income that receives special tax benefits. Capped at 401(a)(17) compensation limit.
Average Monthly Compensation	The monthly average of the highest five consecutive complete calendar years of Compensation. If a participant has less than five consecutive completed calendar years of employment, the considered period shall be all completed years of employment.
Vesting Service	1,000 or more Hours of Service in a Plan Year.
Accrual Service	1,000 or more Hours of Service in a Plan Year. For a Plan Year during which a participant's employment with the Employer is terminated by reason of retirement, total and permanent disability or death, such participant shall be credited with that number of months during which he was employed by the Employer during such Plan Year.
Vesting Schedule	Five Years of Vesting Service equals 100% vesting. Normal Retirement Date equals 100% vesting.
Form of Annuity	Life annuity with 60 monthly payments certain.
Normal Retirement Date	The date upon which a participant attains age 65.
Participation Eligibility	Any employee except those covered by a collective bargaining agreement, nonresident aliens, leased employees, independent contractors and other non-common law employees, who completes a year of Participation Service. A year of Participation Service is completion of 1,000 or more Hours of Service during the twelve consecutive months beginning with Employment Commencement Date or any Plan Year that begins after Employment Commencement Date.
Plan Freeze	Effective January 1, 2023 the plan is soft frozen and no new employees are eligible to participate in the plan.

Vopak Benefit Formula

Accrued Benefit Ratio

A fraction, the numerator of which is the actual years of Accrual Service completed as of the date of determination, and the denominator of which is the sum of (1) and (2) below:

- 1) The actual years of Accrual Service completed by a Participant as of the date of determination; and
- 2) The years of Accrual Service a participant would have completed after the date of determination had employment continued uninterrupted until Normal Retirement Date.

Accrued Benefit

Monthly benefit equal to 2% of Average Monthly Compensation multiplied by years of Accrual Service that a participant would have completed had employment continued uninterrupted until Normal Retirement Date, not in excess of 20 years, multiplied by Accrued Benefit Ratio.

Early Eligibility

Age 55 and 10 years of Vesting Service.

Early Benefit Amount

Accrued Benefit at Early Retirement Date, reduced by 5% for each year by which actual retirement precedes Normal Retirement Date.

Late Retirement Eligibility

Termination, for a reason other than death, after Normal Retirement Date.

Late Retirement Benefit Amount

Monthly payment commencing on the first day of the month coinciding with or next following the date of the participant's retirement equal to the greater of:

- a) Accrued Benefit as of Late Retirement Date; and
- b) Actuarial Equivalent of Accrued Benefit determined as of Normal Retirement Date.

Preretirement Spouse Benefit

- A. *Eligibility* Death after attaining age 50 and 5 years of Vesting Service but before Normal Retirement Date.
- Benefit Formula* The surviving spouse will receive a lifetime income of 50% of the anticipated normal retirement benefit, payable immediately. The anticipated normal retirement benefit is the Accrued Benefit that would have been payable at Normal Retirement Date had the participant not died but instead continued in the service of the Company until Normal Retirement Date at the rate of Compensation in effect at the time of death. If there is no surviving spouse, the benefit will be paid equally among dependent children under 21 years of age and paid until they attain age 21.
- B. *Eligibility* Death after attaining age 50 and 5 years of Vesting Service and on or after Normal Retirement Date.
- Benefit Formula* The surviving spouse will receive a lifetime income of 50% of the participant's Accrued Benefit determined as of the date of death, payable immediately. If there is no surviving spouse, the benefit will be paid equally among dependent children under 21 years of age and paid until they attain age 21.
- C. *Eligibility* Death after completing 5 years of Vesting Service but before attaining age 50.
- Benefit Formula* The surviving spouse shall be eligible to receive a death benefit starting on the participant's earliest retirement date. The amount of the death benefit will be the monthly benefit due to the spouse if the participant had retired on his earliest retirement date, elected a 50% Joint & Survivor Annuity, and died the day after the annuity commenced.

Disability

- Eligibility* Receiving either Social Security Disability Benefits under the Federal Social Security Act or disability benefits under any Employer-sponsored long-term disability plan.
- Benefit Formula* Benefit payable at Normal Retirement based on Average Monthly Compensation as of the date employment was terminated and the Accrual Service such participant would have completed had employment continued to Normal Retirement Date.

Optional Forms of Benefit

*Automatic Form For
Unmarried Participants*

Life Annuity with 60 monthly payments certain.

*Automatic Form For
Married Participants*

Reduced 50% Joint and Survivor Annuity.

Optional forms

50% Joint and Survivor Annuity
75% Joint and Survivor Annuity
100% Joint and Survivor Annuity
Life Annuity
Life Annuity with 120 monthly payments certain
Level Income Annuity

The amount of benefit under any optional form is actuarially equivalent to the normal form.

Actuarial equivalence

Level income option and lump sum option:
The mortality table prescribed by Section 430(h)(3) and in effect at the time of payment with segment rates pursuant to Section 417(e)(3)(c) with a 3 month look-back.

All other forms of payments:
The UP-1984 Mortality Table set back one year using a 6.00% interest rate.

Paktank Atlantic Company

The benefit amount for a person who was a participant in the prior Paktank Atlantic Pension Plan as of January 14, 1983 is the greater of (a) and (b) below:

- a) Benefit under the formula in the Vopak North America Inc. Retirement Plan; or
- b) Account balance in the prior Paktank Atlantic Pension Plan plus interest.

Service credit is given for service with Paktank Atlantic Company and its predecessors.

Paktank Richmond Company

The benefit amount for a person who was a participant in the prior Paktank Richmond Pension Plan as of December 31, 1988 is the greater of (a) and (b) below:

- a) Benefit under the formula in the Vopak North America Inc. Retirement Plan; or

Compensation	Gross income including elective deferrals, but excluding reimbursements, expense allowance, fringe benefits, moving expenses, welfare benefits, and any other income that receives special tax benefits. Capped at 401(a)(17) compensation limit.
Average Monthly Compensation	The monthly average of the highest five consecutive complete calendar years of Compensation. If a participant has less than five consecutive completed calendar years of employment, the considered period shall be all completed years of employment.
Vesting Service	1,000 or more Hours of Service in a Plan Year.
Accrual Service	1,000 or more Hours of Service in a Plan Year. For a Plan Year during which a participant's employment with the Employer is terminated by reason of retirement, total and permanent disability or death, such participant shall be credited with that number of months during which he was employed by the Employer during such Plan Year.
Vesting Schedule	Five Years of Vesting Service equals 100% vesting. Normal Retirement Date equals 100% vesting.
Form of Annuity	Life annuity with 60 monthly payments certain.
Normal Retirement Date	The date upon which a participant attains age 65.
Participation Eligibility	Any employee except those covered by a collective bargaining agreement, nonresident aliens, leased employees, independent contractors and other non-common law employees, who completes a year of Participation Service. A year of Participation Service is completion of 1,000 or more Hours of Service during the twelve consecutive months beginning with Employment Commencement Date or any Plan Year that begins after Employment Commencement Date.
Plan Freeze	Effective January 1, 2023 the plan is soft frozen and no new employees are eligible to participate in the plan.

Vopak Benefit Formula

Accrued Benefit Ratio

A fraction, the numerator of which is the actual years of Accrual Service completed as of the date of determination, and the denominator of which is the sum of (1) and (2) below:

- 1) The actual years of Accrual Service completed by a Participant as of the date of determination; and
- 2) The years of Accrual Service a participant would have completed after the date of determination had employment continued uninterrupted until Normal Retirement Date.

Accrued Benefit

Monthly benefit equal to 2% of Average Monthly Compensation multiplied by years of Accrual Service that a participant would have completed had employment continued uninterrupted until Normal Retirement Date, not in excess of 20 years, multiplied by Accrued Benefit Ratio.

Early Eligibility

Age 55 and 10 years of Vesting Service.

Early Benefit Amount

Accrued Benefit at Early Retirement Date, reduced by 5% for each year by which actual retirement precedes Normal Retirement Date.

Late Retirement Eligibility

Termination, for a reason other than death, after Normal Retirement Date.

Late Retirement Benefit Amount

Monthly payment commencing on the first day of the month coinciding with or next following the date of the participant's retirement equal to the greater of:

- a) Accrued Benefit as of Late Retirement Date; and
- b) Actuarial Equivalent of Accrued Benefit determined as of Normal Retirement Date.

Preretirement Spouse Benefit

- | | |
|------------------------|---|
| A. <i>Eligibility</i> | Death after attaining age 50 and 5 years of Vesting Service but before Normal Retirement Date. |
| <i>Benefit Formula</i> | The surviving spouse will receive a lifetime income of 50% of the anticipated normal retirement benefit, payable immediately. The anticipated normal retirement benefit is the Accrued Benefit that would have been payable at Normal Retirement Date had the participant not died but instead continued in the service of the Company until Normal Retirement Date at the rate of Compensation in effect at the time of death. If there is no surviving spouse, the benefit will be paid equally among dependent children under 21 years of age and paid until they attain age 21. |
| B. <i>Eligibility</i> | Death after attaining age 50 and 5 years of Vesting Service and on or after Normal Retirement Date. |
| <i>Benefit Formula</i> | The surviving spouse will receive a lifetime income of 50% of the participant's Accrued Benefit determined as of the date of death, payable immediately. If there is no surviving spouse, the benefit will be paid equally among dependent children under 21 years of age and paid until they attain age 21. |
| C. <i>Eligibility</i> | Death after completing 5 years of Vesting Service but before attaining age 50. |
| <i>Benefit Formula</i> | The surviving spouse shall be eligible to receive a death benefit starting on the participant's earliest retirement date. The amount of the death benefit will be the monthly benefit due to the spouse if the participant had retired on his earliest retirement date, elected a 50% Joint & Survivor Annuity, and died the day after the annuity commenced. |

Disability

- | | |
|------------------------|---|
| <i>Eligibility</i> | Receiving either Social Security Disability Benefits under the Federal Social Security Act or disability benefits under any Employer-sponsored long-term disability plan. |
| <i>Benefit Formula</i> | Benefit payable at Normal Retirement based on Average Monthly Compensation as of the date employment was terminated and the Accrual Service such participant would have completed had employment continued to Normal Retirement Date. |
