Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

To the Plan Participants and Plan Administrator
Citgo Petroleum Corporation Salaried Employees' Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Citgo Petroleum Corporation Salaried Employees' Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical

requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information

to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

(1) Plan Description

The CITGO Petroleum Corporation Salaried Employees' Pension Plan (the Plan) is a frozen noncontributory, defined benefit pension cash balance plan covering substantially all salaried employees of CITGO Petroleum Corporation (CITGO) and its participating subsidiary companies (collectively, the Company). Effective January 1, 1999, nonunion hourly full-time and part-time employees, who are not at a retail facility, are covered under the Plan. Prior to January 1, 1999, these employees had been covered by the Retirement Plan of CITGO Petroleum Corporation and Participating Subsidiary Companies. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective January 1, 2021, the Plan was amended and restated to change the pay formula from a final average pay plan to a cash balance plan. The benefits accrued as of December 31, 2020 are frozen. The unlimited lump-sum option was made available for the cash balance portion of benefit to all active participants as of December 31, 2020 and new entrants as of January 1, 2021.

The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan's Summary Plan Description (SPD) or the Plan document for a more complete description of the Plan's provisions. The terms used herein are as defined in the Plan document.

(a) General

The Plan provides for retirement and death benefits. The Company contributes such amounts as necessary to provide assets sufficient to meet the benefits to be paid to Plan participants and to comply with the minimum funding requirements of ERISA. In accordance with ERISA funding requirements and historical Company funding policy, contributions to be made by the Company after the Plan year-end, which were considered due as of the reporting date, have been accrued in the accompanying financial statements. The Benefit Plans Committee of CITGO serves as the plan administrator. BOK Financial Corporation (BOKF, NA), a qualified institution, is the trustee of the Plan (the Trustee).

In 2021, certain plan participants filed a class action lawsuit in the Northern District of Illinois alleging that, prior to 2018, the Plan contained outdated actuarial assumptions for the conversion of benefits into the joint and survivor form of annuity. A settlement was approved by the Court in January 2025. In connection with the settlement, the Plan was amended effective July 1, 2025, to increase benefits for certain participants and beneficiaries receiving joint and survivor annuity benefits.

(b) Master Trust

The Plan's investments are held in the CITGO Petroleum Corporation Defined Benefit Master Trust (the Master Trust) that was established for the investment of assets of the Plan and the Retirement Plan of CITGO Petroleum Corporation and Participating Subsidiary Companies (the Hourly Plan). Each participating plan has an undivided interest in the Master Trust.

**CITGO PETROLEUM CORPORATION
SALARIED EMPLOYEES' PENSION PLAN**

Notes to Financial Statements

(c) Vesting

Participants become fully vested upon completion of three years of service, attainment of at least age 55 while in employment or becoming permanently and totally disabled while in employment. Participants are fully vested in all contributions made by them under the Pension Plan for Salaried Employees of Champlin Refining and Chemicals, Inc. (the Champlin Plan). The Champlin Plan merged into the Plan, effective December 31, 1991.

(d) Pension Benefits

Under the frozen accrued benefit vested participants are entitled to annual pension benefits payable in monthly installments beginning at normal retirement age (age 65) equal to the greater of (1) the sum of (a) 1% times the participant's Final Average Pay up to the breakpoint times the participant's years of Benefit Credit Service up to 40 years, and (b) 1.4% times the participant's Final Average Pay in excess of the breakpoint times the participant's years of Benefit Credit Service up to 40 years, or (2) a single life annuity of (a) \$90 per month if the participant is an active participant on or after December 31, 2002 who terminates on or after December 31, 2002 and on or before December 31, 2004; or (b) \$140 per month if the participant is an active participant on or after January 1, 2005 who terminates on or after January 1, 2005 and on or before December 31, 2005; or (c) \$145 per month if the participant is an active participant on or after January 1, 2006. If the present value of any vested benefit for a participant who is no longer in employment and who is no longer accruing Benefit Credit Service is in excess of \$1,000 but not in excess of \$5,000, that participant may elect at any time to receive the benefit solely in the form of a single sum payment. The Plan permits early retirement beginning at age 55. Participants may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement if such value is more than \$5,000 but not more than \$10,000. A lump-sum distribution upon retirement or termination will be made in instances where the value of the accumulated plan benefits is \$1,000 or less.

Effective January 1, 2021, each participant is credited with a Pension Account, a hypothetical account maintained for recordkeeping purposes to accumulate compensation credits for each plan year of a participant's active participation in the Plan and interest credits thereon until the benefit commencement. Compensation credit means the amount deemed credited to a participant's Pension Account based upon the participant's base pay at the percentages following:

<u>Points on credit date</u>	<u>Credit rate on base pay</u>
Less than 45	4.5 %
45 through 64	5.5
65 or more and older	7.0

Points are determined by the sum of the participant's age plus his or her years of credited service.

Certain survivor's benefits are also provided under the Plan for the eligible surviving spouse of a participant who is vested and either (a) dies after reaching age 55 while in employment and prior to

retirement or (b) dies while in employment before age 55 or terminates from employment prior to age 55 but dies prior to retirement.

Active employees who become permanently and totally disabled receive disability benefits under a separate plan and continue to accrue Benefit Credit Service under this plan until they retire. Generally, disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits.

Special benefit calculations apply to former participants of the Champlin Plan and the PDVSA Services, Inc. Pension Plan, which were merged into the Plan in 2003. Those benefits are explained in detail in the Plan's SPD.

The employees of PDVSA Services, Inc. ceased accruing benefits under the plan effective February 26, 2019. Benefits accrued prior to February 26, 2019 remain unaffected.

Effective January 1, 2023, the Plan was amended to provide cash balance pre-retirement death benefits for the spouse, or other beneficiary of a deceased member, the participant's entire account balance as a lump-sum or as a monthly single life annuity.

(e) Plan Termination

No amendment of the Plan may diminish the accrued benefit of any participant. Although it has not expressed any intention to do so, CITGO's board of directors has the right under the Plan to amend or terminate the Plan subject to the provisions set forth in ERISA and the Plan document.

The Pension Benefit Guaranty Corporation (PBGC) guarantees, subject to certain limitations prescribed by ERISA, the payment of all nonforfeitable basic benefits. Should the Plan terminate at some future time, the assets are to be allocated in an order of precedence set forth in the Plan document. Whether a particular participant's accumulated plan benefits will be paid depends upon (1) the priority of those benefits, (2) the extent of net assets available for distribution, and (3) the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America (GAAP).

(b) Valuation of Investments and Income Recognition

The Plan's investment in the Master Trust is based on the Plan's prorated allocation of the fair value of the underlying investments within the Master Trust. The underlying investments consisted of common/collective trusts, investment funds structured as limited partnerships and limited liability corporations (investment funds), and a money market fund. The individual investment funds are

**CITGO PETROLEUM CORPORATION
SALARIED EMPLOYEES' PENSION PLAN**

measured at fair value using net asset value per share (NAV) as a practical expedient for interest held in the respective investment by the Master Trust or have a readily determinable value as is the case for the common/collective trusts, at year end. The investments and income within the Master Trust are allocated to the Plan and the Hourly Plan based on each plan's equity in the Master Trust. The Plan's investment accounted for 61.8% of the underlying assets of the Master Trust at December 31, 2024 and 2023.

Security transactions are recorded in the Master Trust on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is recorded as earned. Net appreciation in fair value of investments includes gains and losses on investments bought and sold as well as held during the year.

(c) Administrative Expenses

Generally, fees charged by the Trustee, investment manager, and others for products or services related to management of the investments are allocated to the Plan and Hourly Plan based on each plan's equity in the Master Trust. Individual plan level expenses including but not limited to fees for benefit services, PBGC premiums, auditing services, legal services, and actuarial services are charged directly to the Plan.

(d) Management Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

(3) Assets Held by Master Trust

Assets held by the Master Trust are not segregated by each participating plan. The assets held by the Master Trust as of December 31, 2024 are presented in the following table:

	Master Trust balance	Plan's interest in Master Trust balance
Interest receivable	\$ 25,005	\$ 15,460
Money market fund	14,485,564	8,613,369
Investment funds	1,253,283,840	775,197,940

Total assets held by Master Trust	\$ 1,284,819,523	\$ 794,034,912

Plan's interest in the Master Trust as a percentage of the total 61.8%

Net investment income of the Master Trust for the year ended December 31, 2024 is as follows:

Investment income:	
Net appreciation in fair value of investments	\$ 16,212,143
Interest and dividends	14,018,586
Administrative expenses	(339,919)
Net investment income	\$ 29,890,810

(4) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, attributable under the Plan's provisions to the service that employees have rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits has been determined by an independent actuarial firm and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected payment dates. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

**CITGO PETROLEUM CORPORATION

Notes to Financial Statements

December 31, 2024 and 2023

The significant actuarial assumptions used in determining accumulated plan benefits as of December 31, 2024 and 2023 valuation date are as follows:

	<u>2024</u>	<u>2023</u>
Actuarial cost method (funding)	Unit Credit	Unit Credit
Discount rate	5.96%	5.36%
Crediting interest rate	3.91%	4.29%
Mortality:		
Healthy participants	Pri-2012 Mortality Tables with White Collar Adjustment, projected generationally with Projection Scale MP-2021.	Pri-2012 Mortality Tables with White Collar Adjustment, projected generationally with Projection Scale MP-2021.
Disabled participants	Pri-2012 Disabled Retiree Mortality Table, projected generationally with Projection Scale MP-2021.	Pri-2012 Disabled Retiree Mortality Table, projected generationally with Projection Scale MP-2021.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial assumption changes for the year ended December 31, 2024, relate to changes to the lump sum conversion mortality assumptions and interest rates.

(5) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of employer contributions per the financial statements to the Annual Return/Report of Employee Benefit Plan (Form 5500) Schedule SB for the year ended December 31, 2024:

	<u>2024</u>
Employer contributions from the financial statements	\$ 19,300,000

Notes to Financial Statements

December 31, 2024 and 2023

The following is a reconciliation of employer contributions per the financial statements to the Annual Return/Report of Employee Benefit Plan (Form 5500) Schedule H for the year ended December 31, 2024:

	2024
Employer contributions from the financial statements	\$ 19,300,000
Plan year 2024 employer contributions recharicaterized to 2023	(3,800,000)
Employer contributions per Form 5500 Schedule H	\$ 15,500,000

(6) Tax Status

The Company obtained its latest determination letter dated February 8, 2018, in which the Internal Revenue Service (IRS) stated that the Plan, as designed and amended, is qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended, (the Code) and that the related trust was exempt from federal income taxes under Code Section 501(a). The Plan has been amended since receiving the letter, however, the Benefit Plans Committee of CITGO believes the Plan is being operated and administered in accordance with Code Section 401(a) requirements and that the related trust is exempt from federal income taxes under Code Section 501(a).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Risks and Uncertainties

The Plan, through its investment in the Master Trust, utilizes various investment instruments. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In October 2023, the Special Master appointed by the United States District Court for the District of Delaware in connection with the case of *Crystallex International Corp. v. Bolivarian Republic of Venezuela* (D. Del. Case. No.17- 151-LPS) commenced a process under which the shares of PDV Holding, Inc., the indirect parent company of CITGO Petroleum (the plan sponsor), are proposed to be sold to satisfy certain creditor claims. This sale process is subject to a number of conditions and contingencies and CITGO

(8) Master Trust Fair Value Measurements

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value.

- Level 1 – inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets that the Master Trust has the ability to access at the measurement date.
- Level 2 – inputs to the valuation methodology are observable for the asset or liability (other than quoted prices included within Level 1), either directly or indirectly. Observable inputs are those that reflect the assumptions market participants would use in pricing the asset developed on market data obtained from sources independent of the Master Trust.
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs are those that reflect the Master Trust's own assumptions about the assumptions that market participants would use in pricing the asset, developed based on the best information available in the circumstances.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the Master Trust's valuation methodologies for assets measured at fair value. There have been no changes in methodologies used or transfers between levels as of December 31, 2024 and 2023.

Money Market Fund

The money market fund is valued at the daily closing price as reported by the fund. The money market fund held by the Master Trust is an open-end fund that is registered with the Securities and Exchange Commission. The fund is required to publish its daily net asset value (NAV) and to transact at that price. The money market fund held by the Master Trust is deemed to be actively traded and is classified within Level 1 of the valuation hierarchy.

Common/Collective Trust Funds

These funds are valued at the daily NAV as reported by the issuer and are classified within Level 2 of the valuation hierarchy. The investments primarily consist of mutual funds that are valued on the basis of readily determinable market prices.

Notes to Financial Statements

December 31, 2024 and 2023

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Investment Funds

These investments are valued at the NAV as reported by the issuer as a practical expedient for fair value and have not been categorized in the fair value hierarchy. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily.

Master Trust assets measured at fair value or at NAV as a practical expedient as of December 31, 2024:

(9) Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from BOK Financial Corporation that all of the information provided by them is complete and accurate.

Information included in the accompanying financial statements and notes to financial statements as to investment in CITGO Petroleum Corporation Defined Benefit Master Trust, the Plan's share of CITGO Petroleum Corporation Defined Benefit Master Trust investment income, total assets held by Master Trust included in notes 3 and 8, total Master Trust net appreciation in fair value of investment funds, and total Master Trust interest and dividends included in note 3 are presented in reliance solely upon those certifications.

(10) Subsequent Events

The Plan has evaluated subsequent events through October 14, 2025, the date the financial statements were available to be issued.

Schedule SB, line 22 – Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at mid-year, except for the 100% retirement age.

(a) Age	(b) Rate	(c) Weight	(d) Product (a) × (b) × (c)

Schedule SB, line 24 – Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- The decrement timing assumption was changed from beginning of year to middle of year, except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%.
- The cash balance interest crediting rate changed from 3.64% to 4.29%.
- The expected return on assets assumption changed from 7.63% in 2023 to 7.90% in 2024.
- The assumed retirement age for deferred participants' final average pay benefits was changed from age 62 to age 63.
- The assumption for spousal age for females was changed from assuming females are three years younger than their spouse to two years younger than their spouse.
- The retirement rates for active participants were updated to reflect recent plan experience and future expectations.
- The withdrawal rates were updated to reflect recent plan experience and future expectations.
- The salary increase rates were updated to reflect recent plan experience and future expectations.

These changes were made to better reflect the anticipated plan experience. The funding non-prescribed assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.

Interest Rates	Based on segment rates with a four month lookback (as of September 2023), each adjusted as needed to fall within the 25-year average interest rate corridor under ARPA.
1 st Segment Rate	4.75%
2 nd Segment Rate	4.87%
3 rd Segment Rate	5.59%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four month lookback (as of September 2023), without regard to the interest rate corridor.
1 st Segment Rate	3.62%.
2 nd Segment Rate	4.46%.
3 rd Segment Rate	4.52%.
Expected Return on Assets for VPA Development	2023: 7.63%, limited to 5.74% 2022: 5.02%
Cash Balance Interest Crediting Rate	4.29%.
Social Security Wage Base Increases	Future wage indices are based on a national wage increase of 3.50% per year.
Optional Payment Form Election Percentage	
Final Average Pay	For Active Retirements, Future Vested Deferred, Future Disabilities, and Current Vested Deferred, it is assumed that of these participants, 33.33% will elect a Single Life Annuity, 33.33% will elect a 50% J&S Annuity, and 33.33% will elect a 100% J&S Annuity
Cash Balance	It is assumed that all participants will elect a Lump Sum
Lump Sum Conversion Assumptions	Interest rate: Same as the segment rates used in the underlying valuation. Mortality: Current IRC section 417(e) table

Withdrawal Rates	See Table 2.
Disability Rates	See Table 3.
Salary Increase Rates	See Table 4.
Spousal Assumptions	It is assumed that 80% of males and 60% of females have an eligible spouse, and that males are two years older than their spouses and females are two years younger than their spouses.
Valuation Compensation	Base Pay
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the 401(a)(17) compensation limit of \$345,000.
Decrement Timing	Middle of year decrements, except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%.
Valuation of Plan Assets	Average of the fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(c)(iii).

Assumed Administrative Expenses Included in Target Normal Cost

Prior year actual administrative expenses paid from the Trust excluding PBGC premiums, plus current year actual PBGC premiums.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- The decrement timing assumption was changed from beginning of year to middle of year, except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%.
- The cash balance interest crediting rate changed from 3.64% to 4.29%.
- The expected return on assets assumption changed from 7.63% in 2023 to 7.90% in 2024.
- The assumed retirement age for deferred participants' final average pay benefits was changed from age 62 to age 63.
- The assumption for spousal age for females was changed from assuming females are three years younger than their spouse to two years younger than their spouse.
- The retirement rates for active participants were updated to reflect recent plan experience and future expectations.
- The withdrawal rates were updated to reflect recent plan experience and future expectations.
- The salary increase rates were updated to reflect recent plan experience and future expectations.

These changes were made to better reflect the anticipated plan experience. The funding non-prescribed assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
