Independent Auditors' Report

To the Plan Administrator and Plan Participants
International Holding Partners, Inc. Employee Stock Ownership Plan:

Opinion on the Financial Statements

We have audited the accompanying financial statements of the International Holding Partners, Inc.'s (IHP Inc.) Employee Stock Ownership Plan (the Plan), an employee contribution plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of IHP Inc. as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

INTERNATIONAL HOLDING PARTNERS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2024

Description of Plan

The following brief description of the International Holding Partners, Inc. (IHP Inc.), (the Company) Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document or the summary plan description for a complete description of the Plan provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Employees of IHP, Inc. are eligible to participate in the Plan upon the completion of at least 1,000 hours of service during the first 12 months of employment, if they are at least 18 years of age. To maintain eligibility if the plan terminates, employees must have 500 worked hours during the Plan year termination. The Plan year is a calendar year.

Plan Amendments

No plan amendments in the current year.

Contributions

The Company may make a discretionary annual contribution to the accounts of eligible participants of the Plan. During 2024, the Company contributed a discretionary value as evidenced in the financial statements. No changes were made to the contribution funding policy from the prior year.

Participant Accounts

Each participant's share of earnings is determined by the Plan Administrator, as a uniform percentage or uniform dollar amount. Forfeitures of separated participants or beneficiaries that cannot be located after the current plan year will be reallocated as Employer Contributions, for the plan year in which the forfeitures occur. No forfeitures were noted in 2024 or 2023.

Vesting

Participants are immediately vested in their allocated pro rata shares and maintain eligibility through the event of total disability or death.

Forfeitures

Forfeitures are reallocated as additional Employer Contributions for the following Plan Year in which the forfeitures occur. Additionally, forfeitures may be used to pay Plan expenses. No forfeitures were noted in the 2024 Plan Year.

Distribution of Benefits

Benefits are recorded when paid.

Upon disability or death, a participant or his/her beneficiary may elect to receive full distribution of his/her vested Company Stock Account as of the valuation date immediately preceding the date of distribution.

If the value of a deceased participant's Contributions Accounts is \$5,000 or less, the participant's beneficiary generally will receive an automatic distribution from the Plan as soon as administratively practicable. If the value of a deceased participant's Accounts exceeds \$5,000, the beneficiary may elect to defer distribution. Payment of a deferred distribution must be made to a beneficiary other than a surviving spouse by December 31 of the calendar year containing the fifth anniversary of the participant's death. If the beneficiary is the participant's surviving spouse, distribution can be deferred until the participant would have reached age 70½ if the participant was born before July 1, 1949, age 72 if the participant was born on or after July 1, 1949 and would have reached age 72 on or before December 31, 2024, or age 73 if the participant would have reached age 72 after December 31, 2024.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of changes in net assets available for plan benefits during the reporting period. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (“allocated”) and (b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Allocations will be performed as a uniform percentage or dollar amount of Plan Compensation. Shares are released from collateral and become allocated generally in the period in which debt service is paid.

Investments

The Plan’s investments are stated at fair value. Because IHP, Inc. is not traded on an established securities market, the market price of IHP, Inc. is determined by the Administrator responsible for maintaining custody of the financial statements. There are no unfunded commitments or restrictions on redemptions by participants of the collective investment funds.

The Plan’s investments are stated at fair value. See Fair Value Measurements note for a discussion of the fair value measurements. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year

The Plan’s investments, at December 31, are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
IHP, Inc. common stock:				
<u>Number of shares</u>	<u>84,790</u>	<u>15,210</u>	<u>20,000</u>	<u>80,000</u>
<u>Cost</u>	<u>359,136</u>	<u>64,425</u>	<u>78,537</u>	<u>314,149</u>
<u>Estimated fair value</u>	<u>359,136</u>	<u>64,425</u>	<u>78,537</u>	<u>314,149</u>

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

The Notes to the Financial Statements are an integral part of these statements

INTERNATIONAL HOLDING PARTNERS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	Assets at Fair Value as of December 31			
	2024		2023	
	Level 3	Total	Level 3	Total
<u>IHP, Inc. common stock:</u>				
Estimated fair value	423,561	423,561	392,686	392,686

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2024.

	Level 3 Assets Year Ended December 31, 2024	
	Investment in IHP, Inc. Common Stock	
Balance, beginning of year	\$	392,686
Realized gains/losses		
Unrealized appreciation in estimated fair value		30,875
<u>Balance, end of year</u>	<u>\$</u>	<u>423,561</u>
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.	\$	423,561

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Investment Risk

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due

INTERNATIONAL HOLDING PARTNERS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2024

to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Administration of the Plan

International Holding Partners, Inc., the Plan Administrator, is responsible for the investment funds and other assets in which the employer contributions are invested... The Plan Administrator of the Company performs certain administrative functions for the Plan with no compensation from the Plan. The Plan administration costs are paid by the Company, except as follows:

- Administrative fees of \$35,000 during 2024, respectively, were deducted from the accounts of participants and were paid to the third-party Plan Administrator.

Related Party Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company and the Plan Administrator. These are related party and party in interest transactions. As per the Plan document, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Termination of Plan

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan Administrator is directed to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay any applicable loans. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. The Plan was terminated during the 2024 Plan year with an effective date of October 11, 2024.

Tax Status

U.S. generally accepted accounting principles require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Valuation of Employee Stock Ownership Plan

Company's stock is not publicly traded and, therefore, the fair market value (FMV) is determined annually by an independent third-party business valuation or appraisal firm. The valuation is performed in accordance with FASB ASC 820, Fair Value Measurement, using a combination of the Income and Market Approaches. A summary of the components of the valuation report provided the following components and determination of stock value:

Valuation methodology and assumptions:

- Valuation Date: The most recent valuation was performed as of October 11, 2024 considering various factors listed in IRS Revenue Ruling 59-60.
- Valuation Approaches:
 - *Financial Net Worth* ("Book Value"): is defined as "the company's Equity as reported in its financial statements.

INTERNATIONAL HOLDING PARTNERS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2024

The figure is typically determined by taking the total of a company's assets and subtracting any of the liabilities the company still owes."

- It should be recognized that under the book value concept, assets are reported in accordance with various accounting conventions (GAAP, IARP, etc.)
- In the case of IHP, assets have significant future value, but very little present value. IHPs assets primarily consist of cash and most importantly, receivables. Those receivables are in the form of Long-Term Notes (LTNs). LTNs are currently unrealized as there are just interest-only debt service payments made. The principal balance on those notes will remain for an extended period of years in the form of future balloon payments owed by The Company's executives.
- *Enterprise Value*: is more difficult than identifying Financial net Worth, since "Enterprise Value" requires establishing two subjective factors: Earnings Capacity and Inherent Risk, defined as follows:
 - Earnings Capacity The value of IHP accounts (book of business), and operations depend on the earning capacity of the company. In other words, what is a reasonable profit an investor could expect to generate from investing in the company, after adjustment for non-operating and non—recurring expenses or after adjustment for additional risks or expenses that may be necessary to continue the book of business in force?
 - Inherent Risk. The value of a company's earnings stream (operations) must be tempered by the risk that this earnings capacity will be maintained over time. Examples of inherent risk would include a high concentration of business in a few accounts, along with various factors, such as nature (hurricanes), litigation, etc.

The Enterprise Value was determined as the most practical, realistic, and viable method for a going-concern enterprise such as IHP. Accordingly, the method was selected considering the Company's EBITDA (Earnings Before Interest, taxes Depreciation and Amortization) from the operating statements for October 2024. From that a set of specific inherent risk discounts were given for (a) Loss of Primary Income (sole source) (b) Contractual Uncertainty, Detrimental Reliance on Key Individuals and Regulatory Changes. The combined discount attributed to these uncertainties totaled thirty-five percent (35%).

- Thus, the result is a Fair Market Value Calculation which represents a 35% discount over present value, multiplied by Ordinary Business Income ("OBI").
- OBI was referenced as \$651,632 as multiplied by the discount of 35% (referenced above) generated a calculation of a Total Stock value of \$423,561 or \$4.2356 per unit.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2025, the date the financial statements were available to be issued. Remaining assets in the plan will be allocated according to the Plan requirements.
