Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BDO USA, P.C.**

(2) EIN: **13-5381590**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

Independent Auditor's Report

To the Plan Administrator
AkzoNobel Retirement Plan
Nashville, Tennessee

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audit of the financial statements of AkzoNobel Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and the related statement of changed in net assets available for benefit for the year then ended, and of accumulated plan benefits as of December 30, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 30, 2024, and for the year then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying 2024 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- The certified investment information in the accompanying 2024 financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the 2024 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2024 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4(i) - Schedule of Assets (Held at the End of Year), Schedule H, Line 4(i) - Schedule of Assets (Acquired and Disposed of Within Year) and Schedule H, Line 4(j) - Schedule of Reportable Transactions, as of or for the year ended December 30, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified

investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter – Report on the 2023 Financial Statements

The Plan's financial statements as of December 31, 2023 (2023 financial statements) were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the auditor not to perform, and they did not perform, any auditing procedures with respect to the information certified by a qualified institution. Their audit report dated April 25, 2025, indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2023 financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2023 supplemental schedule, other than the information in the 2023 supplemental schedule that agreed to or is derived from the certified investment information, was presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

AkzoNobel Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the AkzoNobel Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the comprehensive plan document for a complete description of the Plan's provisions.

General

The Plan was adopted effective December 30, 2008 by AkzoNobel, Inc., (the Company or Employer) is the sponsor of the Plan. The Plan is a noncontributory defined benefit pension plan under Internal Revenue Code (IRC) Section 401(a), which covers certain employees of the Company and their beneficiaries. The Plan provides for certain protected rights, benefits, and features applicable only to certain identifiable participant groups resulting from past mergers of affiliated plans. Prior to the plan freeze, the Plan covered all employees of the Company who had completed 1,000 more hours of service. If the employee did not complete 1,000 or more hours of service from their date of employment to the first anniversary of such date, such employee would be eligible to become a participant following the completion of at least 1,000 hours of service during any plan year following the start of employment. Effective November 30, 2013, the Plan was frozen to new entrants and accrual of additional benefit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is administered by the AkzoNobel Retirement Plan Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Investment Committee of the Company.

Participant Accounts

Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are allocated compensation credits and investment credits at the end of every quarter. The compensation credits are allocated based on a percentage of the participants' certified compensation as defined in the plan document for that particular quarter. The applicable percentage ranges from 4% to 8% and is based on the participant's age plus years of credited service (as defined in the plan document) at the end of the quarter. Age and credited service are determined in whole years at the end of the quarter.

Participants' hypothetical accounts also receive investment credits at the end of every quarter. The amount of the investment credit is tied to the average of the annual yields on ten-year treasury securities and is adjusted annually. As of December 30, 2024 and 2023, the interest rate was 4.75%.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. The Company's contributions for 2024 and 2023 exceeded the minimum funding requirements of ERISA.

AkzoNobel Retirement Plan

Notes to Financial Statements

Benefit Payments

A vested participant who retires at the normal retirement date (the first day of the month following his or her 65th birthday) and has completed five years of service is entitled to normal retirement benefits in the form of a joint and survivor annuity or, if the participant waives the joint and survivor annuity option, a single life annuity or equal installments over the assumed life expectancy of the participant or over the assumed joint life expectancy of the participant and his or her beneficiary with a ten-year certain option. The monthly amount of the annuity is either determined by a formula times years of credited service, as defined by the Plan, to a maximum of 40 years or a cash balance credit. A lump-sum distribution is available for participants whose present value of benefits is \$5,000 or less.

A participant who has attained the age of 55 and has completed at least ten years of eligible service may elect early retirement. The annual amount of early retirement benefits is determined as described above for normal benefits but is reduced by 0.5% for each month by which the date the retirement income commences preceding age 62.

The spouse of a vested participant, upon the death of the vested participant, is entitled to 50% of the benefits that would have been payable to the vested participant. For a participant who is not married, upon the death of the vested participant, a retirement benefit may be paid to the beneficiary in the form of monthly installments.

Effective January 1, 1998, the Plan was converted to a cash balance plan, as defined in the plan document. Employees participating in the cash balance formula may elect commencement of benefits at any age following termination of employment and the completion of three years of service. The cash balance feature offers the option of an annuity or lump sum upon retirement. Pay credits for the cash balance feature will not be credited after December 31, 2006; however, cash balance interest credits will continue to accrue.

Active employees who become totally disabled and qualify for Social Security Disability and the AkzoNobel Long-Term Disability Plan continue to accrue benefits under some formulas as if their service and annual compensation remained the same as at the time they become disabled until they reach normal retirement age, the formula freeze date, die or recover, whichever occurs earlier.

Participants may elect to receive their distributions, subject to certain Plan provisions, in the form of various annuity payment options. If the participant's actuarial equivalent of the accrued benefit payable at their normal retirement date is less than \$1,000, the participant is paid a lump-sum payment as soon as practicable after his or her termination date. If the participant's actuarial equivalent of the accrued benefit payable at their normal retirement date is less than \$5,000 but greater than \$1,000, the lump-sum payment will be made as a direct rollover to an eligible retirement plan specified by the participant or to an individual retirement plan account.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

AkzoNobel Retirement Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. All other administrative expenses of the Plan are paid by the Company and excluded from these financial statements. Investment related expenses are included in net appreciation/depreciation in the fair value of investments.

3. Certified Investment Information

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedules, related to investment transactions and investments held at December 30, 2024 and 2023, and net appreciation in fair value of investments and interest and dividends for the years ended December 30, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Northern Trust Company, a qualified institution.

Limited Partnership investments of \$163,109 and \$378,108 as of December 30, 2024 and 2023, respectively, and related net depreciation in fair value of investments of \$38,587 for the year ended December 30, 2024 are not certified.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 30, 2024 or 2023. The following is a description of the valuation methodologies used for assets measured at fair value:

Common Stock - Common stocks are valued at the closing price reported on the active market on which the individual securities are traded.

Collective Trust Funds (CTFs) - Collective trust funds are valued at the net asset value (NAV) of units held. The NAV, as provided by the trustee of the CTFs, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the CTF less its liabilities. This practical expedient is not used when it is determined to be probable that the CTFs will sell for an amount different than the reported NAV. The CTFs provide for daily redemptions by the Plan at reported NAV with no advance notice. There are no unfunded commitments related to these investments. These are direct filing entities.

Limited Partnerships - Limited partnerships are valued at fair value as determined by the general partner of the limited partnerships and approved by the trustee. The NAV of the units held by the Plan at year-end is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the limited partnership units will sell for an

AkzoNobel Retirement Plan

Notes to Financial Statements

amount different than the reported NAV. The NAV is based on the fair value of the underlying assets of the limited partnership less its liabilities.

The preceding methods described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis:

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

AkzoNobel Retirement Plan

Notes to Financial Statements

The significant actuarial assumptions used in the valuations as of December 30, 2023 were as follows:

Assumed retirement age - actives:

Age	Retirement Rate
55-61	0.09
62	0.13
63-64	0.20
65-69	0.30
70	1.00

Assumed retirement age for inactive is assumed to be age 65 or earliest unreduced age for all deferred vested inactives.

Assumption	
Mortality table	Pri-2012 White Collar and No Collar Mortality with Scale MP 2021
Discount Rate	5.01%
Cash balance interest crediting rate	Select and multiple tables of rates beginning at 5.90% and grading linearly to 6.50%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of December 31, 2023. Had the valuations been performed as of December 30, there would be no material differences.

The change in actuarial assumptions consisted of the update in the discount rate and the update to the mortality projection scale.

6. Related Party and Party-in-Interest Transactions

Certain Plan investments are in funds and accounts that are managed by Northern Trust Company or their subsidiaries and affiliates. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules under ERISA.

7. Risks and Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

AkzoNobel Retirement Plan

Notes to Financial Statements

As of December 30, 2024 and 2023, there were 4 investments held that individually accounted for more than 10% of total investments. See the supplemental schedule of Assets (Held at End of Year) for a complete listing of investments held at December 30, 2024.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- c) All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

9. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated March 10, 2021 that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Plan management believes that the Plan and the related trust is currently designed and operated in compliance with the applicable requirements of the IRC and continues to

AkzoNobel Retirement Plan

Notes to Financial Statements

be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Subsequent Events

The Plan has evaluated subsequent events through October 15, 2025, the date the financial statements were available to be issued.

Actuarial value of assets “Smoothing” – Average of market values (adjusted for contributions, benefit/expense payments, and expected investment returns) as of the valuation date and prior two valuation dates. Asset values can be no less than 90% of fair market value and no more than 110% of fair market value, including discounted contributions receivable for the prior plan year (discounted using the effective interest rate for the 2020 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias

All benefits were valued except those described as not valued in the Plan Provisions section.

Assumptions Rationale – Significant Economic Assumptions

Discount Rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest Crediting rate	The cash balance interest crediting rate (ICR) is based on the 10-year Treasury rate, subject to a minimum (floor) of 4.00% for the AkzoNobel Retirement Plan (RAP Salaried Plan). The long-term assumption for 10-year Treasury rates is 4.75% and has been set by the Company based on a projection of future market rates. The resulting assumption is a select and ultimate table of rates which reflects both current conditions and expected future conditions. We believe that the selected assumption does not significantly conflict with other economic assumptions used.
Lump sum conversion rate	The lump sum interest rates are set equal to the segment rates as required by IRC §430.

Assumptions Rationale – Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Employee Turnover Termination	Termination rates were updated based on the results of an experience study conducted in 2021, with annual consideration of whether any conditions have changed that would be expected to produce different experience in the future.
Retirement	Retirement rates were updated based on the results of an experience study conducted in 2021, with annual consideration of whether any conditions have changed that would be expected to produce different experience in the future.

Benefit commencement date for deferred benefits:

- Preretirement death benefit For preretirement pension death benefits, surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer.
- Deferred vested benefit Deferred vested pension participants are assumed to begin benefits based on the results of an experience study conducted in 2021, with annual consideration of whether any conditions have changed that would be expected to produce different experience in the future.

Form of Payment

The assumed form of payment elections for active and terminated vested participants were updated based on the results of an experience study conducted in 2021, with annual consideration of whether any conditions have changed that would be expected to produce different experience in the future.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods Since Last Year

The funding interest rate basis was updated to the 24-month average segment rates for August 2023 based on yields through July 2024.

The lump sum conversion mortality table was updated to the 417(e) Applicable Mortality Table for 2023.

The mortality tables used for annuity and lump sum conversion was updated to include one additional year of improvements and align with recent statutory table changes.

The assumed plan-related expenses added to the target normal cost were changed from \$3,500,000 for the 2022 plan year to \$2,400,000 for the 2023 plan year to better reflect anticipated experience.

Missing or Incomplete Data

We made the following assumptions for missing or incomplete data. For missing dates (hire, birth, retirement), we used the average data for all similar participants in that plan. For missing benefits for deferred inactives or participants currently receiving benefits, we used the benefit from the prior year's data if available; otherwise, we estimated the benefit according to the plan provisions. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assets

The asset data supplied by the Trustee was used by Willis Towers Watson without further audit. Akzo Nobel Inc. provided the dates and amounts of the prior plan year contributions that were paid in 2024. All of this information has been relied upon by Willis Towers Watson. We are not aware of any errors or omissions in the asset data that would have a significant effect on the results of our calculations.

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of December 31, 2023

For each active participant, an expected retirement age was calculated weighted in proportion to the probability (as shown in the retirement rates tables in the attachments to Schedule SB, Part V – Statement of Actuarial Assumptions/Methods) that the individual would remain an active participant to each age and then retire at that age. The plan's weighted average retirement age of 62 is the arithmetic average of the expected retirement ages of all participants on December 31, 2023

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions – AkzoNobel Retirement Plan

The AkzoNobel Retirement Plan is a merger of previously separate plans. Effective December 31, 2010, assets and liabilities for participants of the AkzoNobel Master Hourly Retirement Plan and the AkzoNobel Consolidated Pension Plan for Employees of ICI were merged into the AkzoNobel Retirement Account Plan. The plan was renamed the AkzoNobel Retirement Plan effective December 31, 2010. The following summarizes the plan provisions applicable to the primary groups that participate in the plan.

Plan Provisions – AkzoNobel Retirement Account Plan

Plan name	Salaried Plan — Retirement Account Plan (RAP)	Effective date	12/31/1975
Plan number	001	Restated effective date	12/31/1997
Type of plan	Final Average Pay (former ANRP formula) Cash Balance		
Plan configuration	Merger of many previously separate plans. Some common provisions, with individual company variations for service dates, benefit formulas, minimums and offsets. Closed/Sold and HRAP were merged in effective December 30, 2008.		
Eligibility to participate	Salaried and certain hourly employees on later of date of hire or age 21. Effective January 1, 1998, participants between the ages of 40 and 55 had the option to remain under the ANRP formula or to choose the cash balance. Participants beyond age 55 or who had 30 years of service remained under the ANRP formula and participants under age 40 fall under the cash balance provisions. All new participants after January 1, 1998 will be under the cash balance provisions. Employees hired on or after October 1, 2006 are not eligible.		
Benefit service	Former ANRP: All continuous service (see comments) Cash Balance: One year for each 12 month period of 1,000 hours Benefit service is frozen at the earlier of December 31, 2006 or date of termination.		
Vesting	0% first 5 years of service — 100% thereafter. Effective December 31, 2008, 0% first 3 years of service — 100% thereafter.		
Normal form	Life Annuity

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit determined as of early retirement date, reduced 4% for each year of payment before age 62. Pension benefit will be unreduced if participant is at least age 55 with 85 points (age plus credited service) at early retirement date.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Vested termination	Monthly pension benefit determined as of termination date payable at participant's NRD. If termination occurred after 10 years of credited service or participant attains at least age 55 with 85 points (attained age plus credited service at termination) may elect pension benefit as early as age 55 reduced 8% per year for the first five years and reduced by 4% per year for the next five years by which benefit commencement precedes the participant's NRD.
Disablement	Monthly pension benefit determined as of NRD. Deemed to continue to accrue credited service during disability until NRD or disability benefits cease.
Preretirement death	<p>If participant was eligible for early retirement as of date of death, monthly preretirement death benefit payable at ERD.</p> <p>If participant was not eligible for early retirement as of date of death, monthly preretirement death benefit payable at NRD. Or reduced vested termination benefit but no earlier than earliest retirement age.</p>

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% joint and survivor annuity, a 75% joint and survivor annuity, a five-year certain and life annuity, a ten-year certain and life annuity, a fifteen-year certain and life annuity, or (for married participants) a life annuity.
Maximum on benefits and pay	All benefits for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code.
