INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and participants of the
Olé Mexican Foods, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Olé Mexican Foods, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements (the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of the report,

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current Plan instrument, including all Plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule H, Line 4a – Schedule of Delinquent Participant Contributions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional

procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion,

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Olé Mexican Foods, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2024 and 2023

1. Description of Plan

The following description of the Olé Mexican Foods, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement, copies of which are available from the plan administrator, for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Olé Mexican Foods, Inc., and certain subsidiaries, La Quesera Mexicana, LLC, Urumex, LLC, Nina's Mexican Foods, Inc., Bak E-Z, LLC, Western Foods Distributing, Inc., and Good Harvest Grains, LLC (collectively, the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participants are allowed to enter the Plan on the first day of the quarter following the date that the participant attains 21 years of age and three months of consecutive service with a minimum of 250 hours of service. If the 250 hours of service are not completed within the first three consecutive months of service, the employee satisfies the service requirement following completion of one year of service.

Plan Amendments

Effective March 1, 2024, the Plan was amended to (1) permit participants to make designated Roth 401(k) deferrals, (2) expand the types of rollover contributions accepted by the Plan.

- Under the amended Roth deferral provisions, participants may elect to have all or a portion of their elective deferrals treated as Roth contributions, which are subject to federal income tax at the time of deferral but may be distributed tax-free if certain conditions are met.
- The Plan now accepts direct rollovers and participant rollover contributions from a broader range of eligible retirement plans, including qualified plans under IRC Section 401(a), Section 403(b) annuity contracts, Section 457(b) governmental plans, and eligible traditional IRAs, subject to applicable restrictions.

Contributions

Participants may make pre-tax contributions up to 25% of eligible compensation, not to exceed \$23,000 in 2024. Employees that attained the age of 50 during the Plan year may also make "catchup" contributions up to \$7,500 in 2024. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

Olé Mexican Foods, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2024 and 2023

The Company may make a discretionary profit sharing contribution as well as a discretionary matching contribution. No discretionary profit sharing contributions were made during 2024. The Company made a discretionary matching contribution equal to 100% of the first 3% of each contributing participant's eligible compensation during 2024.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, the Company's contributions, and earnings or losses on the investments in their account and is charged with participant transaction fees. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and earnings thereon. Participants vest in the discretionary matching and discretionary profit sharing contributions at 20% per year beginning at the completion of their second year of service and each year thereafter and are fully vested after six years.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to a lesser of \$50,000 reduced by the highest outstanding note balance in the previous 12 months or 50% of the participant's vested account balance. A participant may have one note outstanding at any time. The notes are secured by the participant's account and bear interest at the local prevailing rates as determined quarterly by the plan administrator. During 2024, notes had fixed interest rates between 4.25% and 9.50% for their terms, not to exceed five years or an extended term length if used for the purchase of a principal residence. Principal and interest are paid through payroll deductions.

Payment of Benefits

At the time of death, disability, termination of service or retirement, the participant or their beneficiary may receive payment of the vested interest in their account in a lump sum distribution or installment payments. In-service distributions are allowed for participants who have attained age 59½. The participant's contributions may also be withdrawn for certain hardship situations. The Plan allows for force-out distributions in the form of a lump sum payment, at the time of termination, for terminating participants with an account balance equal to or less than \$1,000.

Olé Mexican Foods, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

Forfeited Accounts

Forfeited non-vested accounts totaled \$29,134 and \$2,157 at December 31, 2024 and 2023, respectively. Forfeited amounts are included in the stable value core account on the statements of net assets available for benefits and may be used to reduce administrative expenses or to fund employer matching contributions. During 2024, \$22,964 of forfeitures were used to pay administrative expenses and no forfeitures were used to reduce employer contributions.

Administrative Expenses

Certain participant transaction fees are charged directly to the participant. These expenses are paid to a service provider of the Plan and therefore qualify as party-in-interest transactions. The Company pays all other administrative expenses not paid by participants or paid through forfeitures. The Company does not expect reimbursement from the Plan for any expenses paid on behalf of the Plan.

The Plan has an ERISA spending account where the qualified institution deposits revenue sharing payments that are used to pay certain Plan administrative expenses. During 2024, \$47,014 was deposited to the account and used to pay administrative expenses during the year. Deposits to this account are included in net change in contract value of investment in the accompanying statement of changes in net assets available for benefits. The account had no balance as of December 31, 2024 and 2023. Expenses are recorded in the year paid.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Contributions

Participant contributions are considered payable to the Plan upon the withholding of contributions from the participant's paycheck. The discretionary matching contributions are considered payable to the Plan when the related participant's contributions are payable to the Plan and approved by the plan administrator. The discretionary profit-sharing contributions are considered payable to the plan when approved by the plan administrator. Any unfunded participant or employer contributions would be included in the participant or employer

Olé Mexican Foods, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

contributions receivable on the statements of net assets available for benefits as of December 31, 2024 and 2023, if applicable.

Valuation of Investments and Recognition of Income

The Plan's investments are stated at fair value, except for the stable value core account, which is stated at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Net change in fair value and contract value of investments includes interest, dividends, and realized and unrealized gains and losses and fees charged for investment and administrative services on those investments. Interest income is recorded when received.

Notes Receivable from Participants

Notes receivable from participants are carried at their outstanding balances. Interest income is recognized when received by the Plan. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. If a participant ceases to make note repayments and the plan administrator deems the participant note to be in default, the participant note balance is reduced, and a benefit payment is recorded as a deemed distribution. Notes receivable from participants also qualify as party-in-interest transactions.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to participant contributions. The Plan distributed the required excess contributions to the applicable participants in accordance with IRS regulations.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 8, 2025, which is the date the financial statements were available to be issued.

Olé Mexican Foods, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

3. Information Certified by the Qualified Institution

All investment information in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) including investments held and notes receivable from participants at December 31, 2024 and 2023, and net change in fair value and contract value of investments, and interest on notes receivable from participants for the year ended December 31, 2024, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Transamerica Financial Life Insurance Company, Inc. (TFLIC), the Plan's qualified institution.

4. Investments

All Plan investments are managed by Transamerica Retirement Solutions LLC (Transamerica). Transamerica is an affiliate of the qualified institution of the Plan; therefore, transactions in these investments qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are netted with net changes in fair value of investments and net change in contract value of investments on the accompanying statement of changes in net assets available for benefits as they are paid through revenue sharing rather than as a direct payment.

Investments are exposed to various risks such as interest rate, market, currency, and credit risks. Market risks include U.S. and global events which could impact the value of Plan investments. Such events would include healthcare crises, such as a pandemic, international conflicts, supply chain disruptions, global monetary policy decisions, significant exogenous economic influences, and significant cybersecurity attacks, among others. It is at least reasonably possible that changes in their fair value will occur in the near term and that such changes could materially affect participants' account balances.

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – other observable data, including quoted prices for identical assets in inactive markets

Level 3 – unobservable inputs

Olé Mexican Foods, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level but rather the degree of judgment used in determining those values.

Following is a description of the valuation methodologies used for assets measured at fair value.

Investments in pooled separate accounts are valued daily using net asset value (NAV). The NAVs are based on the fair value of the underlying mutual funds, stocks, debt instruments, and other securities in the accounts. Participants can trade the pooled separate accounts daily at the published NAV, but the market is considered inactive, therefore, management has categorized them as Level 2.

The following table summarizes the Plan's investments carried at fair value based on the inputs used to determine their fair values as of December 31, 2024 and 2023:

	Level 2	
	2024	2023
Pooled separate accounts	\$ 5,665,822	\$ 4,691,900
Total investments at fair value	\$ 5,665,822	\$ 4,691,900

The Plan has a fully benefit-responsive investment contract through the stable value core account issued by Transamerica. This is an investment based on the general unallocated account of Transamerica. Transamerica pays interest and guarantees the Plan's capital deposit regardless of the activity in the general account. The investment, as a deposit liability of Transamerica has no direct investments on behalf of the Plan. The investment value is based on the general unallocated account of Transamerica and the risk of investment is based on Transamerica's insurance ratings. The effective annual interest rate is established every six months. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

The contract does not have a maturity date and there are no contract provisions that require a distribution at contract value at any specified time. Although Plan participants may direct withdrawals at any time without restrictions, a hold can apply in the event the Company requests

Olé Mexican Foods, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

a full distribution from the investment. The Plan has no intention to request a full distribution at this time.

The Plan's ability to receive amounts due is dependent on Transamerica's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. Certain events might limit the ability of the Plan to transact at contract value with the issuer. At this time, the plan administrator is not aware of any events that may limit the ability of the Plan to transact at contract value with the contract issuer or limit the ability of the Plan to transact at contract value with the participants.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

6. Income Tax Status

The Plan is a non-standardized pre-approved profit sharing plan created by Transamerica. The Internal Revenue Service has determined and informed Transamerica by a letter dated June 30, 2020, that the non-standardized pre-approved profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan's income tax returns for the past three years are subject to examination by taxing authorities and may change upon examination.

The Plan's administrator has completed the discrimination testing for 2024 and 2023 and has recorded a liability for excess contributions payable on the statements of net assets available for benefits.

The Plan's administrator has not completed the discrimination testing for the years ended December 31, 2021 and 2020. Upon completion of the testing, the Plan may have to take corrective action by either 1) refunding excess contributions and earnings thereon to participants, or 2) making a qualified non-elective contribution to identified non-highly compensated employees. The plan administrator believes any effect of the discrimination testing results would not be material to the financial statements.
