**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## Independent Auditors' Report

To the Plan Administrator of  
OshKosh B'Gosh, Inc. Pension Plan

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of OshKosh B'Gosh Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2024 (in liquidation) and 2023 (ongoing), and the related Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2024 (in liquidation) and 2023 (ongoing), and the Statement of Accumulated Plan Benefits as of January 1, 2024, and the related Statement of Changes in Accumulated Plan Benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting**

As discussed in Notes 1 and 2 to the financial statements, the Board of Directors of the Plan's sponsor approved a plan of liquidation on May 15, 2024, with an effective date of November 30, 2024, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the ongoing plan basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditors' Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

#### **Other Matter - Supplemental Schedules Required by ERISA**

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2024 and 2023

## 1. Description of Plan

The following description of the OshKosh B'Gosh, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

### General

The Plan is a frozen defined benefit plan established effective January 1, 1947, as restated July 1, 2024 and August 1, 2024. The Plan covers substantially all employees of OshKosh B'Gosh, Inc. and its affiliates (the Company) prior to December 31, 2005 who were not covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participation and accrued benefits are frozen and all participants are 100% vested.

The Plan's administrators are responsible for oversight of the Plan. The Plan's Retirement Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's administrators.

### Plan Termination

On May 15, 2024, management of the Plan adopted a resolution to terminate the Plan effective November 30, 2024. Upon termination, all assets remaining in the Plan will be distributed to the participants, subject to the applicable requirements of ERISA and in accordance with the provisions of the plan document. Effective August 27, 2025, \$35,336,538 of assets were liquidated out of the Plan resulting in \$3,126,790 of assets yet to be liquidated. Although no date has been formally selected, liquidation of the remaining assets is expected to be completed by March 31, 2026 and, accordingly, the related amounts for accrued expenses and accrued income through this date have been estimated and recorded in the accompanying financial statements. Prior to distribution of accrued benefits, certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC). Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

### Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No participant contributions are permitted. The minimum funding requirements of ERISA were met in 2024 and 2023. No voluntary contributions were made for the years ending December 31, 2024 and 2023.

### Pension Benefits

Participants with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) based on 1% of the participant's highest five year average monthly compensation multiplied by accrued service credited prior to January 1, 2005 and 0.75% of average monthly compensation multiplied by accrued service credited after January 1, 2005 through December 31, 2005. One year of benefit service is defined as 1,000 hours of service, with partial years of service of 1/10 credited for each 100 hours of service.

# OshKosh B'Gosh, Inc. Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

The Plan permits early retirement at age 60 and five years of service. Participants may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement age if they are actively employed or disabled. Participants terminating their employment prior to retirement age will receive their benefits as an annuity payable monthly upon attainment of retirement age. If the vested accrued benefit is less than \$7,000, the benefit will be paid as a lump-sum.

Effective June 1, 2024, the Plan established a temporary single sum window, during which an inactive participant may elect to receive a distribution of the inactive participant's accumulated benefit in a single sum, provided the inactive participant is not receiving an annuity. The single sum payment window began on June 1, 2024, and ended on July 15, 2024.

## **Death and Disability Benefits**

If a participant should die prior to retirement, the participant's beneficiary will receive either the actuarial value of the accrued benefit at the time of death or a joint and survivor annuity payable to the eligible spouse, depending on the form of benefit payment option selected by the participant. Participants who become totally disabled shall receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

## **2. Summary of Accounting Policies**

### **Basis of Accounting**

As a result of the resolution to terminate the Plan, the Plan considers liquidation to be imminent and, therefore, the financial statements of the Plan as of and for the year ended December 31, 2024 are presented on the liquidation basis of accounting.

The financial statement of the Plan for the year ended December 31, 2023 is presented on the ongoing accrual basis of accounting.

### **Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

## Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

## Payment of Benefits

Benefits payments to participants are recorded upon distribution.

## Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

## Recent Regulatory Updates

The Setting Every Community Up for Retirement Enhancement 2.0 Act (SECURE 2.0 Act) of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

## Subsequent Events

Subsequent events were evaluated through October 2, 2025, the date the financial statements were available to be issued. See Note 1 for subsequent events related to Plan termination.

## 3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

# OshKosh B'Gosh, Inc. Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. The significant actuarial assumptions used in the valuations were:

<b>Assumption</b>	<b>January 1, 2024</b>
Discount rate	4.75%
Mortality	Pri-2012 Mortality Table using Principal Mortality Improvement Scale 2023
Normal retirement age	65
Long-term rate of return on assets	4.75%

## 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation methodologies used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

## OshKosh B'Gosh, Inc. Pension Plan

Notes to Financial Statements

December 31, 2024 and 2023

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation methodologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued based upon the unit values of such pooled accounts held by the Plan at year end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data by correlation or other means, although are not based upon quoted market prices in an active market. The underlying investments of the pooled separate accounts consist of mutual funds, each of which follows a separate investment strategy. Due to the nature of these pooled accounts, there are no unfunded commitments or redemption restrictions.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

<b>Assets at Fair Value as of December 31, 2024</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

### 5. Information Certified by Trustee and Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, Delaware Charter Guarantee & Trust Company (d/b/a Principal Trust Company), the Trustee of the Plan, has certified to the completeness and accuracy of all investments held by the Trustee reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 (in liquidation) and 2023 (ongoing), and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 (in liquidation) and 2023 (ongoing) and the information reported in the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2024. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

Additionally, Fidelity Institutional Asset Management Trust Company (Fidelity), the Custodian of the Plan, has certified to the completeness and accuracy of all Fidelity investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 (in liquidation) and 2023 (ongoing), and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 (in liquidation) and 2023 (ongoing) and the information reported in the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2024. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

### 6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with the Trustee and Custodian of the Plan. Contributions are held and managed by the Trustee and Custodian, who invest cash received, interest and dividend income and make distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

## 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 28, 2023, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan at times may hold certain investments that represent 10% or more of the Plan's net assets available for benefits. As of December 31, 2024 and 2023, the Plan held investments that were concentrated in five and four funds, totaling \$44,923,216 and \$51,576,737, respectively.

## 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2024 to Form 5500:

Net assets available for benefits per the financial statements	\$ 45,224,556
Accrued expenses, in excess of accrued income, expected to be incurred in liquidation	324,489
<b>Net assets available for benefits per Form 5500</b>	<b>\$ 45,549,045</b>

Assumptions prescribed by law

Mortality	Before benefit payment period
	IRS Prescribed Mortality - Generational Non-annuitant, male and female.
	During benefit payment period
	IRS Prescribed Mortality - Generational Annuitant, male and female.

Assumptions selected by actuary

Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	4.75% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions. This assumption is based on the results of recent experience analysis and anticipated future experience.
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.
Marriage	100% married; husbands are 0 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	None. Due to the size of the plan and limited experience, we're not recognizing a withdrawal assumption prior to retirement.

**Form of benefit and basis** 100% of active participants will elect a benefit paid in a lump sum at the assumed retirement ages.

Active participants who terminate before the earliest assumed retirement age are assumed to receive a single sum immediately. Participants who are already terminated on the valuation date are assumed to receive their benefit on the normal form at the assumed retirement age.

This assumption is based on the results of recent experience analysis and anticipated future experience.

The lump sum benefit is based on the Applicable Mortality projected to decrement and the plan's funding target interest rates, as prescribed.

#### Methods prescribed by law

**Liability measure** Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 5.50%.

Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

**Lump sum payments** Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.

#### Methods selected by plan sponsor

**Asset method** The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

**Yield curve rates** Full yield curve. Use the rates through the month of December.

**PBGC premium basis** Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

#### Methods elected by actuary

**Retirees** Assets and liabilities for current and future retirees are included.

**Vested benefits** A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

#### Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality** Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

**Mortality base rates**

**Before benefit payment period**  
Employee amount-weighted, male and female

**During benefit payment period**  
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

**Mortality improvement**

Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None <sup>1</sup>

<sup>1</sup>Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality documentation](#) for rationale and additional information.

**Interest rate used to value liabilities**

4.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

**Treatment of administrative expenses**

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

#### Basis for lump sums

#### Interest rate

Based on the three segment yield curve: 3.55%/3.95%/4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

#### Mortality

We have selected the same [mortality](#) assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

Schedule SB, Lines 6, 18, 31, 32 - Explanation of Short Plan Year  
OshKosh B'gosh, Inc. Pension Plan  
EIN 39-0519915 Plan No. 001

The plan year beginning 01/01/2024 reflects a short plan year ending on the termination date of 11/30/2024.

The annual cost is prorated for the period from 01/01/2024 to 11/30/2024. This short period is based on the plan termination date of 11/30/2024 and reflects the final IRS minimum contribution regulations. Quarterly contribution requirements have been adjusted to reflect the short period.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age  
 OshKosh B'gosh, Inc. Pension Plan  
 EIN 39-0519915 Plan No. 001

Active participants are expected to retire at the plan's assumed retirement age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the restated plan effective 05/26/2021 signed 07/12/2021 including amendments through number 1.

#### Plan eligibility

Age	Attained age 21 or older.
Service	One year of service in which employee completes 1,000 hours.
Class	Not covered by a collective bargaining agreement or a retail employee hired after January 1, 2005 and after January 1, 2006 for all remaining employees.

#### Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
Amount (accrued benefit)	The sum of (a) and (b) below: a) 1.0% of average compensation multiplied by accrual service earned as of January 1, 2005. b) .75% of average compensation multiplied by accrual service earned between January 1, 2005 and December 31, 2005. Plan benefits were frozen as of December 31, 2005.

Early retirement benefit

Age	Attained age 60.
Service	Five years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date multiplied by the following factors (based on 5.5% interest and the Unisex Pension 1984 Mortality table) for each year that the early retirement date precedes normal retirement date. However, in determining the actuarial equivalent early retirement benefit, the interest rate may not exceed the PBGC interest rate in effect at the date of distribution.

Years early retirement date precedes normal retirement date	Factor
0	1.0000
1	.9028
2	.8174
3	.7420
4	.6751
5	.6158

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date.

#### Termination benefit

Vesting percentage	100% after five years of vesting service, at death, retirement, early retirement age, or disability.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

#### Lump sum death benefit (a vested benefit)

Eligibility	Active or inactive participant
Form	Lump sum benefit payable to beneficiary.
Amount	Present value of accrued benefit.

#### Disability retirement benefit (a nonvested benefit)

Eligibility	Totally and permanently disabled as determined by the United States Social Security Administration in connection with a grant of Social Security Disability Benefits.
Form	Same as normal retirement benefit.
Amount	Accrued benefit actuarially reduced for each month that the disability retirement date precedes the normal retirement date (same as early retirement benefit).

## Definitions

<a href="#">Average compensation</a>	The monthly average of compensation for the five consecutive years prior to January 1, 2006, which gives the highest average.
<a href="#">Accrual service</a>	Each plan year during which an employee is credited with 1,000 hours of service. Partial credit is given if an employee is not employed for the entire plan year. No additional accrual service will be credited after December 31, 2005.
<a href="#">Vesting service</a>	Each plan year during which an employee is credited with 1,000 hours of service.
<a href="#">Optional forms of benefit payments</a>	<p>The optional forms of benefit payments are:</p> <ul style="list-style-type: none"><li>• Monthly annuity payable for life</li><li>• Monthly annuity term certain for 10 or 15 years</li><li>• Monthly annuity payable as a survivorship life annuity with survivorship percentages of at least 50 and no greater than 100</li><li>• Monthly annuity payable for 10 or 15 years certain and life if employed at the McEwen facility</li><li>• Single sum payment equal to the present value of the benefit due to retirement (if active participant at time of retirement), death, or disability</li></ul> <p>The optional form conversion basis is 5.5% interest and the Unisex Pension 1984 Mortality Table for payments other than lump sums.</p> <p><a href="#">Lump sum provisions</a></p> <p>Small amount force out (SAFO) – allowed up to \$7,000.</p> <p>Lump sums in excess of SAFO - are allowed at termination of employment and retirement.</p> <p>Conversion – greater of the deferred or immediate rate with early retirement factor based on the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the second calendar month preceding the first day of the stability period which is the plan year.</p>

## Changes in Principal Eligibility or Benefit Provisions

The report reflects a short plan year due to the plan termination date of 11/30/2024.

## Significant Event

The following significant event occurred during the plan year:

The plan terminated effective November 30, 2024.

Schedule SB, Line 24 – Change in Actuarial Assumptions  
OshKosh B'gosh, Inc. Pension Plan  
EIN 39-0519915 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 5.00% to 4.75%. This rate is used in the calculation of the actuarial value of plan assets.
