MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITOR'S REPORT

To the Retirement Plan Committee and Participants of the
Pixelle Specialty Solutions LLC Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pixelle Specialty Solutions LLC Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Respectfully submitted,

PIXELLE SPECIALTY SOLUTIONS LLC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

***Note 1* Description of Plan**

The following description of the Pixelle Specialty Solutions LLC Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory, defined benefit pension plan, covering certain employees of Pixelle Specialty Solutions LLC (the Company) who transferred employment from P.H. Glatfelter Company to the Company on November 1, 2018 and transferred employment from Verso Androscoggin, LLC on February 10, 2020. The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA).

On October 31, 2018, the Company completed the purchase of the Specialty Papers Business Unit (SPBU) from P.H. Glatfelter which largely included the Spring Grove and Ohio hourly employees along with the related salaried work force.

Effective October 31, 2019, all employees with a "traditional" benefit were frozen under the final average earning formula. These employees were added to the "cash balance" program as of November 1, 2019.

On February 10, 2020, the Company completed the purchase of Verso Androscoggin, LLC, an indirect wholly owned subsidiary of Verso Corporation. As of the closing date, Verso Androscoggin, LLC held all the assets primarily related to Verso's Androscoggin Mill located in Jay, Maine and Stevens Point Mill, located in Stevens Point, Wisconsin. These employees are frozen and no benefits shall accrue, unless they are considered to be a Grandfathered employee, as defined in the Plan document.

Effective January 1, 2022, the cash balance program was closed to new entrants.

Pension Benefits

Participants are entitled to a monthly pension benefit beginning at normal retirement age of 65. Benefits under the Plan vary depending on which benefit formula applies to each participant. Such formulas consist of "traditional", "union", or "cash balance". Generally, traditional plan participants' benefits are based on employees' highest five years of compensation during their last ten years of credited service. Union participants' monthly benefits are based on the product of multiplying years of service times a stated multiplier. Cash balance benefits consist of a percentage of eligible annual wages plus an interest credit.

Special plan provisions exist for early retirement, deferred retirement, death or disability prior to eligibility for retirement and benefit payments.

***Note 1* Description of Plan - Continued**

Pension Benefits - Continued

Vesting Years

An employee accrues vesting years for all employment with all participating companies and any affiliated company. Vesting years are calculated from the employee's employment commencement date or re-employment commencement date to his or her separation from service. Vesting years are calculated on the basis that 12 completed months equal one year and each additional completed month equals one-twelfth (1/12) of a year. Except for break-in-service situations, only full vesting years are taken into account.

As of November 1, 2018, all participants in the "traditional" and "cash balance" benefit structures are 100% vested.

"Ohio hourly" employees become vested upon completion of five years of vesting service, or upon attaining age 55 as an active participant, and completion of one year of vesting service. "Spring Grove" employees become vested upon completion of five years of vesting service, or if they retire from active service on or after age 55. "Verso" employees become vested upon completion of five years of vesting service or upon attaining age 65 as an active participant.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirements that are determined by annual actuarial valuations on the basis of such actuarial methods and assumptions that are adopted by the Company after consultation with an actuary. No participant contributions are permitted. The minimum funding requirements of ERISA were met for the years ended December 31, 2024 and 2023.

***Note 2* Summary of Significant Accounting Policies**

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Subsequent Events

In preparing the financial statements, management has evaluated events and transactions for potential recognition or disclosure through October 23, 2025, the date that the financial statements were available to be issued.

PIXELLE SPECIALTY SOLUTIONS LLC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

***Note 2* Summary of Significant Accounting Policies - Continued**

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All costs related to administering the Plan are paid by either the Plan or the Company.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumption used could significantly change the amount of the actuarial value of accumulated plan benefits, and changes therein, reported in the accompanying financial statements.

Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Market risks include global events which could impact value of investment securities, such as inflation, a pandemic or international conflict. Due to the uncertainties inherent in this process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the accompanying financial statements.

***Note 3* Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan follows the fair value measurement guidance required by accounting principles generally accepted in the United States of America for financial and nonfinancial assets and liabilities. This guidance defines fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

PIXELLE SPECIALTY SOLUTIONS LLC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

***Note 3* Investment Valuation and Income Recognition - Continued**

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

Registered Investment Companies: Valued using the NAV (Net Asset Value) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Common Collective Trust Funds: These investments are valued using the NAV provided by the administrator of the fund. The NAV is used as a practical expedient to estimate fair value and is obtained from information provided by the investment advisor using the audited financial statements of the common collective trust at year end.

PIXELLE SPECIALTY SOLUTIONS LLC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 3 Investment Valuation and Income Recognition - Continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2024	
	Level 1	Total
Registered Investment Companies	\$ 857,970	\$ 857,970
Investments Measured at NAV as a Practical Expedient (a)		202,429,697
Total Investments, at Fair Value	\$ 857,970	\$ 203,287,667

	2023	
	Level 1	Total
Registered Investment Companies	\$ 1,094,663	\$ 1,094,663
Investments Measured at NAV as a Practical Expedient (a)		208,820,402
Total Investments, at Fair Value	\$ 1,094,663	\$ 209,915,065

^(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

PIXELLE SPECIALTY SOLUTIONS LLC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 4 **Actuarial Information**

The actuarial valuation is performed as of the beginning of the plan year. The more significant actuarial assumptions used in the calculation of the present value of accumulated plan benefits as of January 1, 2024 and 2023 are as follows:

2024

Actuarial Cost Method:	Unit Credit
Return on Assets:	5.17%
Mortality:	Pri-2012 (separate annuitant/non-annuitant, sex-distinct, white-collar for salaried, blue-collar for hourly) projected generationally using scale MP-2021.
Interest Credit Rate on Cash Balance Account:	Moody's Aa Nominal Bond Yield Rate (4.91% at December 31, 2023) Third segment rate determined under IRC Section 417(e) published by the IRS (5.83% at November 30, 2023)
Normal Retirement Age	65

2023

Actuarial Cost Method:	Unit Credit
Return on Assets:	5.43%
Mortality:	Pri-2012 (separate annuitant/non-annuitant, sex-distinct, white-collar for salaried, blue-collar for hourly) projected generationally using scale MP-2021.
Interest Credit Rate on Cash Balance Account:	Moody's Aa Nominal Bond Yield Rate (5.04% at December 31, 2022) Third segment rate determined under IRC Section 430(h)(2)(C) published by the IRS (5.41% at November 30, 2022)
Normal Retirement Age	65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

PIXELLE SPECIALTY SOLUTIONS LLC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

Note 4 Actuarial Information - Continued

Accumulated plan benefits represent those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. These benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is that amount determined by the Plan's actuary by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits of the Plan at January 1, 2024, is as follows:

	2024
Vested Benefits	
Active Participants	\$ 116,913,240
Retired Participants and Beneficiaries	72,810,650
Other Participants	17,101,359
Total Vested Benefits	206,825,249
Non-Vested Benefits	6,398,231
Total Actuarial Present Value of Accumulated Plan Benefits	<u>\$ 213,223,480</u>
Accumulated Plan Benefits – Beginning of Year	<u>\$ 220,167,321</u>
Increase (Decrease) During the Year Attributable to:	
Benefits Accumulated	15,352,139
Increase for Interest Due to	
Decrease in Discount Period	10,798,297
Benefits Paid	(39,329,842)
Change in Assumptions	6,235,565
	<u>(6,943,841)</u>
Accumulated Plan Benefits – End of Year	<u>\$ 213,223,480</u>

PIXELLE SPECIALTY SOLUTIONS LLC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

***Note 4* Actuarial Information - Continued**

Changes in actuarial assumptions include changes to interest rate and cash balance interest credit rate as noted above, annuity substitution was adopted for the valuation of lump sums, and the salary scale assumption was updated from 2.5% to 3.5% for 2024 and 2.5% for 2025 and onward.

***Note 5* Information Certified by the Trustees**

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, U.S. Bank National Association and State Street Bank and Trust Company have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the schedule of assets (held at end of year) as of December 31, 2024, the related investment activity (including net appreciation in fair value of investments) reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the information reflected on the schedule of reportable transactions for the year ended December 31, 2024.

***Note 6* Plan Termination**

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving or have been eligible to receive for at least three years;
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations;
- c) All other vested benefits; and
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

PIXELLE SPECIALTY SOLUTIONS LLC RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

***Note 6* Plan Termination - Continued**

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

***Note 7* Income Taxes**

The Plan obtained a determination letter on May 19, 2020, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

***Note 8* Party-In-Interest Transactions**

Certain Plan investments are managed by an entity related to Mercer. Mercer is the actuary of the Plan and, therefore, transactions involving these investments qualify as party-in-interest transactions.

***Note 9* Subsequent Events**

During 2025, the Stevens Point, Wisconsin facility was sold and the mill in Chillicothe, Ohio, was closed. As of the date of these financial statements, Plan management believes these events do not have a material impact on the Plan.

Rationale for economic assumptions

- **Discount rate** – The discount rate assumption for funding purposes is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Mortality** – The mortality assumption is prescribed by IRS regulations.
- **IRC Section 417(e) lump sums** – This assumption is prescribed by IRS Section 430 and relevant regulations.
- **Cash balance interest accumulation rate** – This assumption is based on the current crediting rate being used by the plan (both for Pixelle salaried and former Verso – New Page cash balance).
- **Cash balance conversion** - For funding purposes, balances are converted to annuities based on the valuation interest rates and mortality prescribed by the IRS for the current plan year.
- **Salary increases** – This assumption is based on discussions with management with respect to expected short-term salary increases. Based on facts and circumstances discussed with management, significant future changes in the rate of salary growth do not seem likely. We will monitor this assumption and, as more data becomes available, we will adjust the salary increase assumption, if necessary.
- **Inflation** – The inflation assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their Capital Markets Outlook.
- **Expected investment return** – The expected investment return assumption (used to calculate the actuarial value of assets) is based on the median simulated investment return using capital market assumptions published by Mercer Investment Consulting's Capital Market Outlook for the plan's current asset mix, net of an adjustment for investment expenses assumed to be paid from plan assets.
- **Expenses** – Assumed plan-paid expenses for the upcoming year are based on the prior year's plan-paid non-investment expenses, updated for the current year's expected PBGC premium, and rounded to the nearest \$10,000.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Rationale for demographic assumptions

• **Withdrawal:**

- Pixelle rates are based on expected turnover and experience analysis for the pre-spinoff Glatfelter plan completed in 2011. No significant gains or losses have been generated based on actual experience.
- Rates for merged-in participants from the Verso Plan were provided by the prior actuary.

• **Retirement:**

- Pixelle rates are based on expected turnover and experience analysis for the pre-spinoff Glatfelter plan completed in 2011. No significant gains or losses have been generated based on actual experience.
- Rates for merged-in participants from the Verso Plan were provided by the prior actuary.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each month during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan administrator (Transamerica) provides us with data on all plan participants as of the valuation date.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** The liabilities for disabled participants who have not yet commenced benefits have been included with the liabilities for active participants.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service. A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- This plan provides benefits that are not a function of a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the ratio of the participant's service at the beginning of the plan year to their service at each decrement age and is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- This plan provides disability/death benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

The average assumed retirement age for Salaried Legacy Plan Benefit Structure participants, Salaried Cash Balance participants, Hourly PA participants, Hourly OH participants, New Page participants, and Androscoggin participants is calculated by first determining the number of retirements at the earliest possible retirement age from a population of 10,000 lives. The number of retirements at each successive age is then determined by applying the appropriate retirement rate to the number of remaining lives. The percentage of the number of retirements at each age over 10,000 is the weight applied to that age to determine the average. The weighted average retirement age for all participants combined is the average of the average retirement ages, weighted by the respective headcounts, as of the valuation date.

It should be noted that while only integral values are shown in the tables above, the full content of each cell, including decimal portions, is used in the calculations.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions – Pixelle Retirement Plan for Salaried Employees****Summary of major plan provisions with respect to salaried employees of Pixelle, the Glatfelter Pulp Wood Company and the Bergstrom Paper Company hired prior to January 1, 2007**

Effective date and plan year	Original plan (Glatfelter): May 1, 1942 Adopted and effective (Pixelle): November 1, 2018 Plan year: January 1 through December 31
Status of the benefit structure	This benefit structure is closed to employees hired, re-hired or transferred on or after January 1, 2007. Benefit accruals in the final average earnings benefit formula for pre-2007 hires were frozen as of October 31, 2019 and replaced with the cash balance formula starting November 1, 2019.
Significant events that occurred during the year	None
Definitions	
• Participation	Upon completing one eligibility Year an employee who was a salaried/non-union Spring Grove Group employee hired prior to January 1, 2007 (including those who subsequently transfer to the Ohio Group) becomes a participant retroactive to the January 1 immediately preceding the date he or she completed such Eligibility Year, provided that he or she is a covered employee on that date. An employee who is not a covered employee on the date he or she completes one Eligibility Year becomes a participant retroactive to the January 1 st immediately preceding the first date thereafter on which he or she becomes a covered employee.
• Contribution	Company pays 100% of the cost of the plan.
• Eligibility year	An Eligibility Year is any period of 12 consecutive calendar months of employment with the company or an affiliate (including any periods of absence that are counted under the rules of the plan).
• Benefit years	A participant accrues full and partial Benefit Years for the period from his or her employment commencement date or re-employment commencement date to his or her separation from service, disregarding years for which he or she is not a covered employee. Benefit Years are calculated on the basis that twelve completed months equal one year and each additional completed month equals one-twelfth (1/12) of a year.
• Vesting years	An employee accrues Vesting Years for all employment with all participating companies and any affiliated company. Vesting Years are calculated from the employee's employment commencement date or re-employment commencement date to his or her separation from service. Vesting Years are calculated on the basis that twelve completed months equal one year and each additional completed month equals one-twelfth (1/12) of a year. Except for break-in-service situations only full Vesting Years are taken into account. As of November 1, 2018, all participants in this benefit structure are 100% vested.

Schedule SB, Part V — Summary of Plan Provisions

Pensionable earnings	- Earnings for time worked, consisting of the Participant's base salary or wages, overtime or other premium pay, shift differential pay, and retroactive or other pay adjustments; - Earnings for time not worked, consisting of the Participant's holiday pay, vacation pay, sick pay, shore-term disability payments, Military Differential Wage Pay and pay while on jury duty or funeral leave; and - Certain other payments, consisting of special or discretionary cash bonuses, Quarter Century Club awards, and cash awards under a Company annual or non-periodic short term incentive compensation plan, including without limitation the Company's Management Incentive Plan, Middle Management Bonus Plan, Sales Incentive Plan and/or Superior or High Performance Award plan, that do not represent deferred compensation within the meaning of Code Section 409A, plus (for Plan Years beginning after December 31, 1994) elective deferrals with respect to such Compensation that are not included in gross income under section 125, 132(f)(4), 401(e)(2), 402(h) or 403(b) of the Code. - Earnings shall not include any other elements of a Participant's compensation, remuneration or benefits, whether or not includable in taxable income. When determining Compensation as described above, there shall only be taken into account amounts paid, or treated as being paid, prior to a Participant's Separation from Service. - Beginning with the 2002 plan year, pensionable earnings were limited to \$200,000 for 2002 and all prior plan years. Thereafter, pensionable earnings have been limited to the IRC Section 401(a)(17) limit. The limit for 2024 is \$345,000.
Final average earnings	Pensionable earnings averaged over the five consecutive calendar years during the participant's most recent ten years of service before separation from service which results in the highest average.
Accrued benefit	The greater of: 1.4% of Final average earnings times years of service up to 25 years, plus 0.5% of final average earnings times years of service over 25 years; or - For members on or before May 1, 1970, 25% of compensation plus 10% of compensation in excess of \$6,600. Benefit accruals in the final average earnings benefit formula for pre-2007 hires were frozen as of October 31, 2019 and replaced with the cash balance formula starting November 1, 2019.
Minimum accrued benefit	For a participant employed by Bergstrom Paper Company on January 30, 1979, the accrued benefit will not be less than the benefit the participant would have earned under the plan in effect on January 30, 1979, if that plan had remained in effect until the participant's credited service equals twice

Schedule SB, Part V — Summary of Plan Provisions

	his/her credited service as of January 30, 1979, and such accrued benefit had not thereafter decreased. The accrued benefit under the above-mentioned plan is the greater of: 1% of final average compensation up to Social Security covered compensation plus 1.5% of final average compensation in excess of Social Security covered compensation, all multiplied by the number of Benefit Years; or \$14.50 multiplied by the number of Benefit Years.
Normal retirement	
• Eligibility	First day of the month coincident with or next following the member's 65th birthday.
• Benefit	Accrued pension to normal retirement date.
Early retirement	
• Eligibility	Any time after attaining age 55.
• Benefit	For members who leave employment on or after age 55: accrued benefit at early retirement date reduced by 5/24% for each month the benefit commences prior to normal retirement date. The accrued benefit will be unreduced for a participant who has attained age 62 and has 30 years of vesting service before leaving employment. For members who leave employment before age 55: accrued pension at date of termination, reduced by 0.5% for each month by which commencement precedes the participant's Normal Retirement Date but no earlier than age 55.
Special early retirement	
• Eligibility	First day of any month coincident with or next following the attainment of age 62 and completion of 30 years of vesting service, but not after age 65.
• Benefit	The accrued benefit will be unreduced.
Late retirement	
• Eligibility	Any time after normal retirement.
• Benefit	Pension equal to accrued benefit at late retirement date.
Deferred vested	
• Eligibility	If a member terminates employment before age 55 after completing 5 vesting years.
• Benefit	The member shall be entitled to a pension based on service to date of termination. See the "Early Retirement" section for a description of benefits available starting at age 55. The "Special Early Retirement" section applies to members who separated from service after reaching age 62.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions with respect to salaried employees of Pixelle retirement plan and the Glatfelter Pulp Wood Company hired, re-hired or transferred on or after January 1, 2007, and former NewPage Corporation salaried employees (other than former Verso Corporation)**

Effective date and plan year	Adopted and effective (Pixelle): November 1, 2018 Plan year: January 1 through December 31
Status of the benefit structure	This benefit structure is closed to employees hired, re-hired or transferred on or after January 1, 2022 but has ongoing benefit accruals for existing participants.
Significant events that occurred during the year	None
Definitions	
• Participation	An employee who is a Covered Cash Balance Employee on the date he or she completes one Eligibility Year becomes a participant retroactive to the date he or she became a Covered Cash Balance Employee (but no earlier than January 1, 2007). An employee who is not a Covered Cash Balance Employee on the date he or she completes one Eligibility Year becomes a participant retroactive to the January 1 st immediately preceding the first date thereafter on which he or she becomes a Covered Cash Balance Employee. A participant who ceases to be a Covered Cash Balance Employee shall cease to be a participant as of the last day of the payroll period during which he or she ceases to be a Covered Cash Balance Employee. Effective November 1, 2019, pre-2007 hires ("Schedule C participants") also began accruing benefits under the cash balance formula.
• Contribution	Company pays 100% of the cost of the plan.
• Covered cash balance employee	A salaried/non-union Ohio Group employee (disregarding an employee who is a legacy salaried plan participant and who transfers to the Ohio Group) or a salaried/non-union Spring Grove Group employee hired (or rehired or transferred) on or after January 1, 2007.
• Eligibility year	An Eligibility Year is any period of 12 consecutive calendar months of employment with the company or an affiliate (including any periods of absence that are counted under the rules of the plan). An Eligibility Year includes contiguous and continuous service with New Page Corporation or Chillicothe Paper, Inc. which immediately preceded the acquisition in 2006.

Schedule SB, Part V — Summary of Plan Provisions

• Vesting years	An employee accrues Vesting Years for all employment with all participating companies and any affiliated company. Vesting Years are calculated from the employee's employment commencement date or re-employment commencement date to his or her separation from service. Vesting Years are calculated on the basis that twelve completed months equal one year and each additional completed month equals one-twelfth (1/12) of a year. Except for break-in-service situations only full Vesting Years are taken into account. As of November 1, 2018, all participants in this benefit structure are 100% vested.
• Regular company credits	5.5% of Compensation credited at the end of each month in which an employee is (1) a participant for any portion of such month and (2) employed on the last day of such month (except that participants who retire or incur a disability before the end of such month receive a credit for the month).
• Supplemental company credits	A % of Compensation credited at the end of each year ending before January 1, 2012 in which an employee (1) is a participant for any portion of such year, (2) has satisfied the eligibility requirements defined below, and (3) is employed on the last day of such year (except that participants who retire or incur a disability before the end of such year receive a credit for the year). - 5.5% for participants with < 20 Vesting Years - 3.5% for participants with 20-30 Vesting Years - 1.5% for participants with 30+ Vesting Years
• Compensation	Base salary or regular hourly wages plus elective deferrals under IRC Sections 125 or 401(k), subject to the IRC Section 401(a)(17) compensation limit.

Schedule SB, Part V — Summary of Plan Provisions

• Interest credits	Timing of Interest - The end of each month (up to and including the month prior to distribution). Interest Crediting Rate - The published corporate Moody's Aa nominal bond yield for the last business day of the preceding calendar year. Interest Crediting Methodology - For a given plan year apply an amount at the end of each month equal to (1/12th) of the Interest Crediting Rate multiplied by the participant's account balance as of the end of the previous month. (For example, if the Moody's Aa nominal bond yield for the last business day of 2006 was 5.72%, then a participant would receive an interest credit on July 31, 2007 equal to 0.476667% of his or her account balance as of June 30, 2007.)
• Annuity conversion basis	Actuarial basis used to convert account balance to equivalent annuity payment form For a given plan year, the applicable interest rate as described under IRC Section 417(e) for the prior December, and the applicable mortality table as described under IRC Section 417(e).

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Most recent plan amendments included:**
 - Amendment 2023-1 (Hourly, Salaried, and Verso Programs), which made the following updates:
 - › Changes due to the SECURE 2.0 Act of 2022 (updates to the Required Beginning Date effective January 1, 2000, and increasing the automatic cashout limit from \$5,000 to \$7,000 effective January 1, 2024)
 - › Technical updates to the lump sum actuarial equivalence basis for Spring Grove Hourly and Ohio Hourly participants
 - › Added a Limited-Time Lump Sum Window for deferred vested participants who terminated employment prior to July 1, 2023 and made a one-time election during the window period (September 29, 2023 to October 31, 2023) to receive a lump sum distribution of their pension benefits. The lump sum benefits were paid out in December 2023.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* N/A
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases for participants covered under the hourly structures:** If applicable, scheduled benefit increases effective after the beginning of the current plan year are excluded from minimum funding requirements, but are included for accounting purposes under ASC 715.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.

Schedule SB, Part V — Summary of Plan Provisions

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provision changes since prior valuation
