Independent Auditor's Report

Plan Administrator and Board of Advisors
Employee Stock Ownership Plan of Select Health Care, Inc.
Rome, Georgia

Opinion on the 2024 Financial Statements

We have audited the financial statements of Employee Stock Ownership Plan of Select Health Care, Inc. (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA") which comprise the statement of net assets available for benefits as of December 31, 2024 and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2024 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditor's Report on the 2023 Financial Statements

The 2023 financial statements of the Plan were audited by predecessor auditors whose report, dated November 18, 2024, expressed an unmodified opinion on those financial statements.

Note 1. Description of the Plan

General

The following description of Employee Stock Ownership Plan of Select Health Care, Inc. (the “Plan”) provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan’s provisions, which are available from the Plan Administrator.

The Plan, which was created on June 30, 2009 by Select Health Care, Inc., and subsequently amended, is classified as a defined-contribution Plan, covering employees of participating employers who are aged 18 or older with at least one year of service. The Plan operates as a leveraged employee stock ownership plan (“ESOP”) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (“IRC”) of 1986, as amended, and is subject to the Employee Retirement Income Security Act of 1974 (“ERISA”). Participating employers, which are related through common ownership, include Reliable Health Care Management, LLC; Chulio Hills Health & Rehab, LLC; Dade Health & Rehab, LLC; Friendship Health & Rehab, LLC; Gateway Health & Rehab, LLC; Molena Health & Rehab, Inc. (through date of sale in September 2011); North Georgia Care Services, Inc.; Cedar Springs Health & Rehab, LLC; Reliable Health & Rehab at Lakewood, LLC; and Reliable Rehab Associates, LLC (through date of sale in July 2014). The participating employers are collectively referred to as the Company.

On June 30, 2009, the Plan purchased 1,000,000 shares of Select Health Care, Inc.’s common stock (the “Encumbered Shares”) through the issuance of a note payable to the Company in the amount of \$8,585,000. The note bore interest at the rate of 3.81% per annum and was payable in 10 equal, annual principal installments of \$858,500, plus interest. Repayments of the borrowings were made from fully deductible contributions from the Company to the Plan. The borrowing was collateralized by the unallocated shares of the Company’s stock held by the Plan. The Company, as lender, has no rights against the shares once they are allocated to participants.

Contributions

The Company, at its discretion, may make employer contributions to the Plan. Participant contributions are not permitted. There were no discretionary employer contributions during the year ended December 31, 2024.

Participant Accounts

Under the Plan, a separate account is maintained for each participant, and each participant’s account is credited with an allocation of Company shares held by the Plan, if any, and an allocation of Plan earnings or losses. Allocations to participants’ accounts are based on participants’ annual compensation and years of service, as defined by the provisions of the Plan.

Allocation of Shares to Participant Accounts

As of the last day of each Plan year during the duration of the loan from the Company, the number of shares of Company common stock allocated to participants was equal to the number of Encumbered Shares, as defined, held immediately prior to the current-year allocation multiplied by a fraction, the numerator of which was the amount of principal paid for the Plan year and the denominator of which was the sum of the numerator plus the unpaid principal balance. During the year ended December 31, 2018, the loan balance was paid in full and the final 100,000 shares were released. There were no unallocated shares at December 31, 2024 and 2023. Released shares were allocated pro rata to eligible participants based upon eligible annual compensation and years of service, as defined by the provisions of the Plan. A participant was required to work 1,000 hours (500 for the 2009 Plan year) and be employed on the last day of the Plan year to receive an allocation.

Notes to Financial Statements
December 31, 2024 and 2023

Vesting

If a participant’s employment with the Company ends for any reason other than retirement, permanent disability, or death, the participant will vest in the balance in their account based on total years of service with the Company, as follows:

1 year	0%
2 years	0%
3 years	100%

Participants receive one year of vesting credit for each year they have worked 1,000 hours. Vesting credit is not provided for service prior to 2009.

In the event of a participant’s death or total and permanent disability prior to their retirement date, as defined, the participant shall become fully vested in their account balance.

Payment of Benefits

Generally, no distributions from the Plan will be made until a participant retires, dies, or otherwise terminates employment with the Company. The Plan may force distributions of inactive participants with vested account balances of less than \$1,000. The Plan, at its discretion, may forfeit distributable vested account balances that remain unpaid solely due to the inability to locate the participant after diligent efforts (as defined) are made. If a participant or beneficiary is located subsequent to such a forfeiture, the benefit shall be restored first from forfeitures and then from an additional Company contribution, if needed. Distributions are made in the form of cash or Company stock. Payments may be made in one lump-sum payment or in installments.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been allocated and are vested under the terms of the Plan, as long as the shares are not publicly traded or no shares are subject to trading limitations. During the year ended December 31, 2024, 56,832 shares were purchased for approximately \$90,000 from participants who elected to take distributions from the Plan. These shares were reallocated to eligible participants as of December 31, 2024.

Forfeitures

Forfeitures are allocated in the same manner as Company contributions and are also allocated based on participants’ annual compensation and years of service, as defined by the provisions of the Plan. The timing of the allocation of forfeitures depends on whether or not a terminated participant received a cash-out distribution made prior to the date the participant incurs five consecutive years of break-in-service and whether a participant is vested. Once five consecutive years of break-in-service is incurred where a terminated participant has not taken a cash-out distribution, the non-vested portion of the account will be allocated as a forfeiture after the close of the Plan year end. Similarly, if a participant has no vesting in their account, the account will be allocated as a forfeiture after the close of the Plan year end. During the year ended December 31, 2024, forfeitures approximating 400 shares and \$500 were reallocated to active participants. There were no unallocated forfeitures at December 31, 2024.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Plan trustee prior to the time that such rights are to be exercised. The Plan trustee shall vote all Company stock held by it as part of Plan assets. Provided, however, that if any agreement entered into by the trust provides for voting of any shares of Company stock pledged as security for any obligation of the Plan, then such shares of Company stock shall be voted in accordance with such agreement.

Notes to Financial Statements
December 31, 2024 and 2023

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund shall become fully vested and will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Trust buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company's common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of the employer stock in the participant's account at year-end.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts, changes therein and disclosures. The most significant estimate is the fair value of the Plan's holdings in Select Health Care, Inc.'s common stock. Actual results could differ from those estimates and assumptions. The process of estimating the fair value of an investment that has no active quoted market requires a significant amount of judgment. The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. These favorable or unfavorable differences could be material. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a materially different fair value measurement at the reporting date.

Notes to Financial Statements
December 31, 2024 and 2023

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in Select Health Care, Inc. common stock has no active quoted market. Plan management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Contributions

Company contributions to the Plan are recorded in the period in which they become obligations of the Company.

Administrative Expenses

Certain expenses of the Plan were paid by the Plan's sponsor, including certain fees for custodial, legal, and accounting services. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events for potential recognition through October 24, 2025, the date the financial statements were available to be issued.

Note 3. Tax Status

The Plan is intended to be a qualified trust under the IRC and is subject to the provisions of ERISA. The Plan previously received a determination letter from the Internal Revenue Service dated September 26, 2013, stating that the Plan was qualified under the IRC and was, therefore, exempt from taxation. That determination letter expired January 31, 2018. The Plan administrator believes the Plan is currently designed and operated in accordance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified, and the related trust is tax exempt. Accordingly, no provision or liability for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4. Investments

Investments at estimated fair value, which are non-participant directed and fully allocated, consist of the following at December 31:

<u>Stock Description</u>	<u>Number of Shares</u>	<u>2024</u>	<u>2023</u>
Select Health Care, Inc. Common Stock	1,000,000	\$ 1,160,000	\$ 1,580,000

Note 5. Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Company Common Stock

The fair value of the Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts.

Recurring Measurements

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024 and 2023.

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Fair Value	(Level 1)	(Level 2)	(Level 3)
Common stock	\$ 1,160,000	\$ -	\$ -	\$ 1,160,000

	December 31, 2023			
	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	Fair Value	(Level 1)	(Level 2)	(Level 3)
Common stock	\$ 1,580,000	\$ -	\$ -	\$ 1,580,000

During the year ended December 31, 2024, the Plan's investment in Company common stock had net depreciation in estimated fair value of \$420,000.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Risks and Uncertainties

The Plan's investments consist entirely of Select Health Care, Inc.'s common stock, which does not have an active quoted market and is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other techniques. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 7. Subsequent Events

On October 2, 2025, the Company's Board approved for management to evaluate and pursue the termination of the Plan. Management is currently assessing the related requirements and has not yet determined the practical feasibility thereof. As part of a plan termination process, it is likely that the ESOP would sell all outstanding ESOP shares at fair market value, as determined by an independent valuation firm. The Company would also file the necessary termination documents with the Department of Labor and the Internal Revenue Service and distribute final account balances to participants in accordance with ERISA guidelines.
