INDEPENDENT AUDITOR'S REPORT

To the Plan Trustees and Administrators of
GO2 Partners Profit Sharing and Stock Ownership Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements

We have performed an audit of the accompanying financial statements of GO2 Partners Profit Sharing and Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2024 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2024 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2024 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section:

- The amounts and disclosures in the 2024 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the 2024 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2024 Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion on the 2024 financial statements.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2024 financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter

As discussed in Note 3, an investment representing 17.81% and 15.76% of total assets as of December 31, 2024 and 2023, respectively, whose fair value, in the absence of readily ascertainable fair values, has been estimated by the Trustees with the assistance of an independent third-party appraisal firm. Our opinions on the financial statements are not modified with respect to this matter.

Other Matters

2024 Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2023 Financial Statements

We have audited the 2023 financial statements, and in our report dated October 14, 2024, we expressed an unmodified opinion on those 2023 financial statements.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

1. DESCRIPTION OF PLAN

The following description of the GO2 Partners Profit Sharing and Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of Print Management Partners, Inc., d/b/a GO2 Partners (the Company), containing both a 401(k) plan feature as well as an employee stock ownership component designed to invest primarily in the common stock of the Company (Company stock). The Plan excludes proofreaders, nonresident aliens, independent contractors, leased employees, temporary employees who have not completed a year of service, and employees subject to a collective bargaining agreement. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to the maximum allowed by the IRC of pre-tax annual compensation, as defined in the Plan. Participants are permitted to designate a portion or all of their deferral contributions as Roth 401(k) contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may elect to make discretionary matching contributions. To be eligible for discretionary matching contributions, employees must have worked at least 1,000 hours for initial eligibility, worked at least 500 hours of service during the plan year, and be employed on the last day of the plan year. The Company did not elect to make discretionary matching contributions for the years ended December 31, 2024 and 2023.

The Company may elect to make discretionary non-elective or Employee Stock Ownership Plan (ESOP) contributions. To be eligible for discretionary non-elective or ESOP contributions, employees must have worked at least 1,000 hours of service and be age 21 or older for initial eligibility, worked at least 500 hours of service during the plan year, and be employed on the last day of the plan year. ESOP contributions may be made in the form of Company stock or cash. The Company did not elect to make discretionary non-elective or ESOP contributions for the years ended December 31, 2024 and 2023, other than as noted below.

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Contributions (Continued)

The Company is required to purchase the Company stock from participants who have requested a benefit payment, which is reflected as a Company contribution. These shares are then available to be allocated to participants as discretionary non-elective contributions. For the years ended December 31, 2024 and 2023, the Company funded \$471,517 and \$215,395, respectively, to purchase Company stock from withdrawing participants.

Contributions are subject to certain limitations as mandated by the (IRC).

Investment Options

Participants may direct all their 401(k) contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account and forfeitures of terminated participants' nonvested accounts, if any. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are determined by management and are distributed evenly between active employees at year end. For the years ended December 31, 2024 and 2023, the plan sponsor did not allocate any forfeited shares of stock to eligible employees.

Each participant may also establish a participant directed 401(k) account. Each participant's 401(k) account is credited with the participant's contributions and allocations of (a) the Company's contribution(s) and (b) plan earnings (losses) and charged with the participant's benefit payments and an allocation of administrative expenses. Allocations are based on participant earnings (losses), account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are vested immediately in their contributions plus actual earnings (losses) thereon. Vesting in the Company discretionary matching contribution portion, discretionary non-elective contribution portion, or discretionary ESOP portion of their accounts is based on the following table:

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Vesting (Continued)

<u>Years of Service</u>	<u>Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their 401(k) fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their account balance, less defaulted loans (if any). Participants can have only 2 loans outstanding at any time. The loans are secured by the balance in the participants' account and bear interest at the prime rate plus 0.50%. The term of the loan may not exceed 5 years or 15 years if the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. A participant that terminates employment whose account balance is less than \$7,000 (\$5,000 prior to 2024) will receive a distribution of their vested aggregate account balance without the consent of the participant. If the distribution is less than \$1,000 the distribution will be made in the form of lump sum cash. If the distribution is greater than \$1,000, but less than \$7,000 (\$5,000 prior to 2024) the Plan will pay the distribution in an automatic direct rollover to an individual retirement account (IRA). In-service withdrawals of all or a portion of the participant's vested account balance are also permitted upon the participant's attainment of age 59½. Under certain conditions participants may receive a hardship distribution from the employee deferral portion of their account if certain criteria are met.

The amount of Company stock to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. The Plan repurchases the shares of Company stock and transfers to the unallocated shares account. The Company makes an advance to the Plan for the value of the shares and the cash is deposited into the participant-directed portion of the Plan. The participant then may elect to take a cash distribution.

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits (Continued)

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. For the years ended December 31, 2024 and 2023, the Plan distributed and the Plan repurchased from participants 13,868 and 23,948 shares, respectively, at the current appraised value. Repurchased shares are held by the Plan in an unallocated account.

Forfeited Accounts

As of December 31, 2024 and 2023, forfeited nonvested 401(k) accounts totaled \$29,301 \$32,457, respectively. These amounts will be used in accordance with the applicable plan provisions. During 2024 and 2023, forfeitures of \$16,410 and \$15,000, respectively, were used to pay administrative expenses of the Plan.

ESOP forfeitures for participants who terminate will be allocated after the expiration of a five-year period during which the forfeiture balances are reinstated if the participants are rehired or subsequent to the terminated participant receiving a full distribution from the Plan, whichever is earlier. There were no unallocated forfeiture shares at December 31, 2024 and 2023.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised. The Trustees are not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustees are required, however, to vote any unallocated shares, if any, on behalf of the collective best interests of plan participants and beneficiaries.

Participants have the right to direct the Trustees how to vote Company stock allocated to their account with regard to approval of the sale of the Company, and recapitalization or consolidation of the Company. As a participant reaches certain age limits, the participant can elect to have their investment diversified as provided for in the Plan.

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN

1. DESCRIPTION OF PLAN (Continued)

Diversification

A participant may elect annually, within 60 days after the fair market value of the Company stock is announced to participants to liquidate a portion of their ESOP stock and reinvest the proceeds into other funds offered within the Plan. Participants who are at least age 55 with 5 years of participation may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6 year period. In each of the first 5 years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Upon termination of employment, 100% of the value of the Company stock account is transferred to the 401(k) account. Participants who elect to diversify receive a cash distribution transferred into their 401(k) account where they select an investment allocation from the 401(k) options.

Put Option

Under federal income tax regulations, Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Administration

The Plan's assets, which include Print Management Partners, Inc., d/b/a Go2Partners common stock, are held and managed by the Company. The Company, as the plan administrator, administers the Plan for the exclusive benefit of participants and their beneficiaries. The plan administrator and the Trustees make all rules, regulations, computations, and other decisions concerning administration of the Plan.

Certain administrative functions are principals or employees of the Company who make up plan management. No such principal or employee receives compensation from the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodian, and appraiser for Company stock. See Note 3 for discussion of fair value measurements.

The investment in the Company stock is valued as of December 31, 2024 and 2023 at \$4,347,936 (\$32.00 per share) and \$4,619,682 (\$34.00 per share) respectively, based upon an appraisal performed by an independent valuation firm, and approved by the Plan's Trustee's and Administrators. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Dividends

When declared, dividends on the Company stock are paid by the Company on shares allocated to a participant's account and are accrued and distributed quarterly to the participants unless a participant elects to reinvest his or her dividends. The election to reinvest some or all dividends paid with respect to the Company stock is available to participants as soon as they become eligible under the Plan and may be changed 30 days prior to the beginning of the calendar quarter. Participants are fully vested in all reinvested dividends.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, less amounts defaulted (if any). Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Loan administration and distribution fees are charged directly to the participant's account and are included in administrative expenses. The Plan also pays certain investment advisory and plan administration fees from plan assets. Certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments.

Recent Accounting and Regulatory Pronouncements

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the years ended December 31, 2024 and 2023. Plan management continues to evaluate the impact of the optional provisions of SECURE 2.0 and awaiting additional regulatory guidance from the Internal Revenue Service (IRS) and Department of Labor (DOL). The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements for the plan years ended December 31, 2024 and 2023. The Plan will be amended to reflect any changes made in response to SECURE 2.0 prior to the deadline set by law or applicable regulations.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a. Quoted prices for similar assets or liabilities in active markets,

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

3. FAIR VALUE MEASUREMENTS (Continued)

Level 2: (Continued)

- b. Quoted prices for identical or similar assets or liabilities in inactive markets,
- c. Inputs other than quoted prices that are observable for the asset or liability, and
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-ended mutual funds that are registered with the US Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value collective trust: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the stable value collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner.

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

3. FAIR VALUE MEASUREMENTS (Continued)

Common stock: Investment in the Company common stock is valued by an independent appraisal as of the last day of each annual reporting period. In approaching the valuation, a variety of factors are taken into consideration, including:

- a. the nature and history of the business, its current position, and its outlook;
- b. the general and relevant economic conditions prevailing at the time of the appraisal; and
- c. the current conditions and outlook in the market in which the subject Company competes.

The approach to determining fair values of the common stock involved the following:

- a. Determine estimated fair values of shares of common stock using the Guideline Public Company Method. Comparative valuation analysis is a technique that determines a value based on a direct comparison of the subject company to publicly traded companies where pricing and other financial data are available.
- b. Determine estimated fair value of shares of common stock using the Discounted Cash Flow Method. Discounted Cash Flow Method values a Company based on projected cash flows. Apply a Minority Interest Discount to the results. Applying a discount to reflect that a buyer of a minority interest does not have control over Company policy, operations, or strategic direction.
- c. Compare the findings under both the Guideline Public Company Method and the Discounted Cash Flow Method.
- d. Apply a Marketability Discount to the results. Applying a discount to reflect the lack of marketability.

Plan management accumulates the data as requested by its independent valuation specialist from the reviewed financial statements of the Company. The Trustees' independent valuation specialist prepares a preliminary report which the Trustees review in detail, discuss and approve. The results of this process are documented by the Trustees.

Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

3. FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024			Total

3. FAIR VALUE MEASUREMENTS (Continued)

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table presents the fair value, unfunded commitments, participant redemption frequency, and participant redemption notice period for plan investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2024 and 2023:

Investment	Fair Value		Unfunded Commitments		Participant Redemption Frequency	Participant Redemption Notice Period
	2024	2023	2024	2023		
Reliance Met Life Stable Value Series 25053 - Class 0	\$ 933,465	\$ 744,220	\$ -	\$ -	Daily	None

Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The Plan's Level 3 assets for the years ended December 31, 2024 and 2023 had no purchases and issuances, and there were no transfers into or out of Level 3 during 2024 and 2023.

4. NON-PARTICIPANT-DIRECTED LEVEL 3 INVESTMENTS

The Company common stock investment held by the Plan, at December 31, 2024 and 2023, is presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	121,415	14,458	124,990	10,883

4. NON-PARTICIPANT-DIRECTED LEVEL 3 INVESTMENTS (Continued)

Unallocated shares consist of shares that are held in a suspense account resulting from participant ESOP distributions that have not yet been allocated to remaining participants.

Information about the net assets and significant components of the changes in net assets relating to the Level 3 Company stock is as follows:

	2024	2023
Net assets		
Common stock	\$ 4,347,936	\$ 4,619,682
Changes in net assets		
Net depreciation in fair value	(271,746)	-

5. CERTIFICATION OF FINANCIAL INFORMATION

Certain financial data included in the accompanying financial statements as of and for the year ended December 31, 2024 and supplemental schedule of assets (held at end of year) as of December 31, 2024 has been certified as complete and accurate by Capital Bank and Trust Company, a qualified institution. The following certified information was obtained by management and agreed to or derived from information certified as complete and accurate, and has not been audited by the independent auditors for the Plan: mutual funds at fair value, stable value collective trust at fair value, notes receivable from participants, net appreciation in fair value of mutual funds and stable value collective trust, interest and dividends, and interest on notes receivable from participants.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. TAX STATUS

The IRS has determined and informed the Company by letter dated March 25, 2015, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

GO2 PARTNERS
PROFIT SHARING AND STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

7. TAX STATUS (Continued)

US GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which include 135,873 shares of Company common stock, are held by the Trustees of the Plan. Transactions involving the funds administered by the Company are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 4089(b) of the ERISA regulations.

Certain Plan investments are managed by an affiliate of Capital Bank and Trust Company, the custodian; therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative expenses were paid by the Plan or the Company. The Plan issues loans to participants, which are secured by the vested balance in the participants' accounts. These transactions qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities and Company common stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities as well as the level of uncertainty related to changes in the value of the stock, it is at least reasonably possible that changes in the value of investment securities and common stock will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 29, 2025, which was the date that these financial statements were available for issuance and determined that there were no significant non-recognized subsequent events through that date.
