## Summary of plan provisions

The following is a summary of the principal plan provisions upon which this actuarial valuation is based. This summary should not be relied on to provide benefit estimates or other information to participants.

Effective Date of Plan	October 1, 1988.
Effective Date of Latest Amendment	January 1, 2000.
Fresh Start Date	December 31, 1988.
Eligibility	All employees become Participants of this Plan after completion of one year of service, and attainment of age 21. Service with an organization in the health and social service field counts towards the service requirement for eligibility.
Compensation	Compensation includes all wages, salaries, fees and amounts received for personal service rendered in the course of employment. Compensation includes excludes contributions made to a salary reduction or deferred compensation plan. Prior to 2002, compensation for any plan year, for benefit purposes, is limited to \$150,000 adjusted for increases prescribed by the Secretary of the Treasury. For the 2002 plan year, EGTRRA increased prospectively the limit to \$200,000 annually. For prospective years after 2002, the \$200,000 limit will be indexed for inflation. For 2024, the compensation limit is \$345,000.
Final Average Earnings	The highest average monthly compensation for 5 consecutive completed calendar years of employment within the last consecutive 10 completed calendar years of service.
Social Security Average Monthly Wage	Monthly average of the Social Security Taxable Wage Bases for the 35 calendar years ending with the year the Participant attains Social Security Retirement Age.
Benefit Accrual Service	Years and months of employment after completing the eligibility requirements.
Vesting	100% upon completion of 5 years of service or upon attaining age 55.

## Summary of plan provisions

Retirement Dates	
Normal	The first of the month coincident with or next following the Participant's 65th birthday.
Early	The first of the month on or after attainment of age 55 (but before age 65), on which the Participant elects to retire.
Deferred	The first of any month following Normal Retirement Date on which the Participant elects to retire.
Frozen Accrued Benefit	The Accrued Benefit as of the Fresh Start Date determined under the provisions of the Plan then in effect.
Benefit Formula	<p>The monthly Normal Retirement benefit is determined as follows:</p> <p>The greater of (A) or (B):</p> <p>(A) The Frozen Accrued Benefit;</p> <p>(B) The sum of 1.0% of Final Average Earnings multiplied by Benefit Accrual Service and 0.5% of Final Average Earnings in excess of the Social Security Average Monthly Wage multiplied by Benefit Accrual Service not greater than 35.</p>
Accrued Benefit	<p>The Accrued Benefit is computed under the Benefit Formula above using Final Average Earnings and Social Security Average Monthly Wage at date of determination assuming the Participant continues to earn Benefit Accrual Service until his Normal Retirement Age or date of determination, if later, and adjusted as follows:</p> <p>The portion of the retirement benefit based on total Benefit Accrual Service (item (B) in the Benefit Formula above) is multiplied by a fraction (not to exceed one) equal to actual Benefit Accrual Service divided by projected Benefit Accrual Service at Normal Retirement Age. The multiplication by this factor does not apply to the Frozen Accrued Benefit (item (A) in the Benefit Formula above).</p>
Early Retirement Benefit	The Accrued Benefit reduced by 1/15 for each of the first 5 years and 1/30 for each of the next 5 years by which the Early Retirement Date precedes the Normal Retirement Date.
Deferred Retirement Benefit	The Accrued Benefit reflecting Final Average Earnings and Benefit Accrual Service to the Deferred Retirement Date.

## Summary of plan provisions

Maximum Benefit	The annual benefit shall not exceed the lesser of (i) \$160,000 indexed after 2002 for inflation adjustments and (ii) 100% of the average compensation for the 3 consecutive years producing the highest average. For 2024, the dollar amount of \$275,000 is in the form of a non-refund life annuity. This amount is adjusted to reflect commencement before age 62 or after age 65 or for forms of payment other than a non-refund life annuity and Cost of Living Supplements, if any. It is prorated for less than 10 years of participation in the Plan.
Minimum Accrued Benefit	The Accrued Benefit computed under the provisions of the plan as of the latest amendment adoption date.
Normal Form of Payment	A non-refund monthly life annuity.
Automatic Form of Payment	For a married Participant, a monthly Joint and 66 2/3% Survivor with 120 months certain and continuous annuity actuarially equivalent to the monthly benefit in the normal form.
Optional Forms of Payment	The Plan provides other possible forms of annuity, all actuarially equivalent to the normal form of payment.
Lump Sum	<p>The Plan allows Participants to receive a single lump sum in lieu of a monthly annuity at retirement. The actuarial basis for determining the lump sum is different than for other optional forms.</p> <p>For the 2024 plan year, interest rate is 100% of monthly spot segment rate based on high quality corporate bonds in effect the second month prior to the quarter of benefit commencement. Mortality is the 2024 Unisex Mortality Table specified in IRS Notice 2023-73.</p>
Death Benefit Before Retirement	If a partially or fully vested participant dies before retirement benefits have begun, the annual death benefit payable to the spouse is equal to 66 2/3% of the vested Accrued Benefit, reduced for early commencement, and further reduced to reflect the Automatic Form of Payment.
Disability Annuity Credit	<p>Periods of disability while a participant receives a Social Security Disability Income are also counted as Benefit Accrual Service excluding the first six months of disability and ending on Normal or Early Retirement Date.</p> <p>The compensation rate in effect immediately prior to disability is assumed to continue while disabled. Such compensation rate shall not exceed 120% of the compensation rate in effect one year prior to disability.</p>

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

# Actuarial assumptions

## Miscellaneous Assumptions

Form of Payment:	Lump Sum
Expenses:	Assumed equal to prior year's actual expenses
Percent Married:	80.00%
Spouse's Age:	Wives assumed to be 3 years younger than husbands

## Rationale for significant assumptions

### Economic assumptions

- **Expected return on plan assets:** The assumption was selected by the client with input from their investment advisor. We believe the assumption is reasonable as it falls within a reasonable range of expected returns for the plan's asset allocation based on capital market assumptions.
- **ASC 960 pre-retirement discount rate:** This assumption is based on the **expected return on plan assets** assumption.
- **ASC 960 post-retirement discount rate:** The lump sum conversion interest is based on the long-term expectation of lump sum rates based on yields on high quality corporate bonds. The lump sum conversion mortality is based on the IRS lump sum mortality table for the current plan year.
- **Salary increase:** This assumption is based on the plan sponsor's long-term expectation of salary increases. We believe that this is representative of anticipated future experience. In addition, based on discussions with the plan sponsor, significant changes in future salary growth or compensation practices are not expected.

# Actuarial assumptions

## Demographic Assumptions

- **ASC 960 mortality:** The mortality base table and projection scale is based on the most recent mortality table and improvement scale published by the Society of Actuaries (SOA) and in our judgement, adequately reflects expected mortality rates as of the measurement date. The SOA elected not to release a new mortality scale for 2023 which would have included mortality data affected by the COVID-19 pandemic, but instead will continue to study emerging mortality experience and assess what mortality improvement scale options might be considered to be implemented in the future. As such, we have decided not to reflect any adjustments to the most recent mortality improvement scale. The plan's relatively small size would not support a credible mortality study.
- **Termination:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in termination patterns are not expected.
- **Retirement:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in retirement patterns are not expected.

## Miscellaneous assumptions

- **Expenses:** The assumption is based on the expectation of expenses to be paid out during the plan year, assuming expenses will be similar to the prior year.
- **Form of payment:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan.
- **Spouse's age and percent married:** The employer does not have enough credible data to analyze spousal demographics. These assumptions are based on the actuary's experience with similar plans.
