Schedule SB, Part V — Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

Original Effective Date	June 21, 1954
Effective Date of Last Amendment	November 1, 2015
Plan Year	April 1 to March 31
Employer Fiscal Year	July 1 to June 30
Employer ID Number	31-4262510
Plan Number	001
Plan Administrator	The National Board of Boiler and Pressure Vessel Inspectors

Eligibility

All employees of the employer are eligible to participate on the April 1 nearest the completion of one year of service. No new participants will enter after June 30, 2012.

Service

Service shall equal total years of service with the employer. A year of service is credited for each plan year in which an employee works 1,000 hours. Service for benefit accrual purposes is frozen as of June 30, 2012.

A break in service occurs at the start of any plan year in which the employee works 500 hours or less for the employer in such year, if his employment has terminated. Service will not be interrupted by:

- (1) Involuntary layoff determined by the employer, not exceeding one year;
- (2) A leave of absence granted by the employer;
- (3) A period of service in the Armed Forces of the United States under which employment rights are granted.

An employee will be given credit for his pre-break service if either of the following occurs:

- (1) The employee had a vested interest in his accrued benefit at the time of his break in service; or
- (2) The employee's period of absence was less than the greater of his pre-break service or five years.

Normal Retirement Date

Normal retirement date is the earlier of the first day of the month coincident with or next following the later of (a) age 65 and (b) the date the participant completes five years of service.

Normal Retirement Benefit

The amount of annual benefit to be paid in monthly installments for life, based on service to normal retirement date, is 50% of average monthly compensation reduced one-fifteenth for each year and fraction thereof for each month by which such participant's years of credited service is less than 15 years. No participant will accrue any additional benefit after June 30, 2012.

Delayed Retirement

A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement the benefit he would have received on his normal retirement date, actuarially increased to reflect delayed payment. However the benefit will not be less than the benefit determined reflecting service and compensation to such date. No participant will accrue any additional benefit after June 30, 2012.

Average Monthly Compensation

The average of the highest five consecutive calendar years of compensation preceding the date of determination. Participant's average monthly compensation shall be frozen and calculated as of June 30, 2012.

Accrued Benefit

The accrued benefit at any time prior to a participant's normal retirement date shall be the benefit described as the normal retirement benefit, using average monthly compensation as of the date of determination, and shall be multiplied by a fraction (not exceeding 1). The numerator is the participant's actual years of service as of the date of determination, and the denominator is the participant's expected years of service at normal retirement. No participant will accrue any additional benefit after June 30, 2012.

Early Retirement Benefit

Upon the completion of 12 years of service and the attainment of age 55, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the accrued benefit at early retirement date. Payments may begin immediately, with the benefit being reduced one-fifteenth for each of the first five years and one-thirtieth for each of the next

five years by which the payment date precedes the normal retirement date.

For participants employed on or after April 1, 1990, an unreduced benefit is available upon the attainment of (1) age 60, (2) completion of 20 years of service, and (3) age plus service equals or exceeds 85. For participants employed on or after March 1, 2007, the accrued benefit is available upon the attainment of (1) age 55, and (2) completion of 30 years of service.

For participants who have completed at least 20 years of service between January 1, 2010 and June 30, 2012 and are actively employed any time between March 1, 2007 and June 30, 2012 are entitled to an early retirement subsidy upon the attainment of (1) age 55 and (2) completion of 30 years of service. At such time, the plan benefit will be the normal retirement benefit as of June 30, 2012 without applying the service proration defined in the accrued benefit definition.

Disability Retirement Benefit

A participant who becomes totally and permanently disabled before his normal retirement date may retire after leaving employment due to the disability and being determined to be disabled under the Social Security Act. The disability retirement benefit is equal to the participant's normal retirement benefit at disability.

Death Benefit

In the event of a married participant's death after the completion of five years of service, but prior to meeting the requirements for early retirement, it will be assumed the participant had terminated employment the day prior to death, survived to his early retirement date, elected a 50% joint and survivor annuity, and died the following day.

In the event of a married participant's death after meeting the requirements for early retirement, his surviving spouse will receive one-half of the 50% joint and survivor annuity calculated on the day before his death.

For a vested terminated participant, death benefits are calculated as for active participants, but based on the participant's accrued benefit at his termination date.

Severance Benefit

Upon the termination of employment after five or more years of service, a participant shall have a vested interest in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Less than 5	0%
5 or more	100%

A participant who terminates with 12 or more years of service may elect to receive his vested interest as early as age 55. Such benefit will be reduced as described under early retirement benefits.

Optional Methods of Settlement

All optional methods of settlement are actuarially equivalent to the normal form of annuity. If a married participant does not elect the normal form of annuity or does not elect one of the optional methods of settlement described below, then the participant's retirement benefit shall automatically be paid under option (1) below. The options are:

- (1) A benefit to be paid during the participant's lifetime with one half the benefit to be continued to his spouse for her lifetime after his death.
- (2) A benefit to be paid during the participant's lifetime with three-fourths the benefit to be continued to his spouse for her lifetime after his death.
- (3) A benefit to be paid during the participant's lifetime with the same benefit to be continued to his spouse for her lifetime after his death.
- (4) A benefit payable in equal installments during the participant's lifetime.
- (5) A benefit to be paid for 120 months certain and thereafter for life.
- (6) A lump sum settlement under \$5,000 for vested participants.

For those eligible for COLA increases, additional forms of payment which provide an increased benefit in lieu of future COLA increases are also available.

Adjustment for Cost of Living Increase

For participants who enter the plan prior to November 1, 2004, as of the first day of each plan year the monthly benefit of each participant or beneficiary receiving a benefit in the form of an annuity shall be increased proportionately to the increase in Consumer Price Index for all Urban Customers for the month of January of the immediately preceding plan year.

Plan Changes Since the Prior Year

The funding valuations do not reflect any plan changes.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the expected return on plan assets from 4.50 percent to 5.00 percent.

The change was made to better reflect the anticipated plan experience. The assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.
