Independent Auditors' Report

To the Participants and Plan Administrator of
Natixis US Group Plan 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements Natixis US Group Plan 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Natixis US Group 401(k) Plan

Notes to Financial Statements
December 31, 2024 and 2023

1. Description of the Plan

The following description of the Natixis US Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible full-time employees of Natixis New York Branch (the Branch), Natixis North America LLC (NNA or the Sponsor) and Pramex International Corp., (collectively, the Company). NNA is the Plan's Sponsor. An employee is eligible to participate in the Plan on the date an employee commences their employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company has appointed certain officers to the Retirement Committee to act as the administrator for the Plan. The administrator is responsible for the administrative and investment decisions of the Plan. Charles Schwab Trust Bank (the Trustee) is the trustee of the Plan's assets.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the related matching and nonelective contributions and plan earnings. Participant accounts are also charged with withdrawals, allocated investment income and losses and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Contributions

A participant in the Plan may contribute a percentage of pretax annual compensation, as defined in the plan document, subject to Internal Revenue Code (IRC) limits. Such pretax contributions are excluded from the participant's taxable income for federal income tax purposes until received as a distribution from the Plan. A participant may also designate their deferral contributions as after-tax Roth contributions. A participant's pre-tax and Roth elective contribution was limited to \$23,000 in calendar year 2024. Participants age 50 or over may have been eligible to make additional contributions of up to \$7,500 for calendar year 2024.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans, subject to applicable IRC limitations (rollover).

The Company may contribute an amount equal to a percentage of a participant's contributions as defined in the plan document. The percentage that the Company may contribute is determined annually and is subject to limitations prescribed in the plan document. For the year ended December 31, 2024, the Company matched 50% of participant pretax elective contributions. Additionally, the Company, at its discretion, may make qualified nonelective contributions for the benefit of all eligible participants. The additional nonelective contribution for 2024 totaling \$7,631,181 was paid on January 17, 2025. Contributions are subject to certain Internal Revenue Service (IRS) limits.

Forfeited Accounts

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account as defined in the plan document represents a forfeiture. However, if a participant is reinstated and fulfills certain requirements as defined in the plan document, the forfeited amount will be reinstated. These amounts are used to reduce Company contributions or to pay plan administrative expenses. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$385,613 and \$211,109, respectively. In 2024, the Company's contributions were reduced by \$202,991 from forfeited nonvested accounts.

Natixis US Group 401(k) Plan

Notes to Financial Statements
December 31, 2024 and 2023

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. A participant vests in the Company matching contributions over the vesting periods defined in the plan document as specified by the Company. Employees of the Company who transfer to an affiliate which does not participate in the Plan will continue to receive vesting credit in their unvested balance in the Plan to the extent that they continue their employment with the respective affiliate.

Eligible employees who receive the Company discretionary nonelective contribution vest ratably over three-years in this contribution with credit given for all vesting service.

Payment of Benefits

Vested amounts are distributable upon retirement, death, disability, separation from service, upon a participant's attainment of age 59½ or upon the hardship of a participant as provided for in the plan document. Upon termination of service, a participant may elect to receive a lump sum distribution, or if eligible, an annuity or both. Participants are eligible to make hardship withdrawals from their accounts in the event of certain financial hardships or other in-service withdrawals as defined in the plan document.

Investments

Participants may direct the investment of their contributions in 1% increments into various investment options offered by the Plan and may change investments and transfer amounts between investment options at their discretion. The Plan offers mutual funds, common collective trusts (including a stable value fund) and a Personal Choice Retirement Account (PCRA) which is a self-directed brokerage account, as investment options. All investments are participant-directed.

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of \$1,000, in accordance with the terms of the Plan, and a maximum amount up to the lesser of 50% of the participant's vested account balance or \$50,000. Loans are secured by the assignment of the participant's vested account balance and bear interest at a rate commensurate with local prevailing rates at the time the funds are borrowed, as determined by the Trustee. Loan terms generally shall not exceed five years; however, terms may exceed five years if the loan is used for the purchase of a primary residence. Participants may not have more than two loans outstanding at any time.

At December 31, 2024, participant loans are accruing interest at rates between 4.25% to 9.50% and mature at various dates between January 2025 and August 2039. All repayments of principal and interest on loans are reinvested in the Plan's investment options in accordance with the participant's investment elections in effect at the time of any such repayment. Such repayments are made ratably through payroll deduction or as a lump sum for the outstanding loan balance.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Natixis US Group 401(k) Plan

Notes to Financial Statements
December 31, 2024 and 2023

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The plan document requires all expenses incurred in the administration of the Plan be paid from the Plan's assets except to the extent that the Company shall otherwise provide for such payments. Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Recent Regulatory Update

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

3. Tax Status

The Plan uses a non-standardized prototype plan document sponsored by the Trustee which received an opinion letter from the IRS, dated September 21, 2020, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan has been amended since the date of the opinion letter, however, the Plan's management believes that the Plan is currently designed and being operated in compliance with the requirements of the IRC and the Plan and related trust continue to be tax-exempt.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements
December 31, 2024 and 2023

4. Information Certified by the Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, Charles Schwab Trust Bank, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024 and the related investment activity and interest income on notes receivable from participants reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their Company contributions.

6. Related-Party and Party in Interest Transactions

Certain of the Plan's investments are managed by the Trustee, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Natixis US Group 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Fund is composed primarily of a diversified portfolio of investment contracts and is reported at fair value using NAV as a practical expedient. The stable value fund calculates NAV per share in a manner consistent with the measurement principles in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 946 *Financial Services-Investment Companies*. Those measurement principles indicate that, in the determination of a stable value fund's NAV, the relevant measurement is net assets which include the fully benefit-responsive investment contracts held by the fund at contract value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the fund, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Personal Choice Retirement Account is a self-directed brokerage link account and is valued based upon the fair values of the underlying assets in this account. Common stock, unit investment trusts and mutual funds are valued at the closing market value in active markets. Government and corporate bonds are valued using pricing models maximizing the use of observable inputs for similar securities. Interest bearing cash is valued at cost plus accrued interest.

Common collective trusts are valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

8. Stable Value Fund

The Morley Stable Value Fund (the Morley Fund) is a collective investment trust. The objective of the Morley Fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile and liquidity for benefit-responsive payments. The Morley Fund seeks to achieve this objective by investing primarily in a variety of high quality stable value investment contracts (the performance of which may be predicated on underlying fixed income securities), as well as cash and cash equivalents. The Morley Fund benefits from a wrap agreement structure. It is intended that the Morley Fund's stable value investment contracts will maintain a minimum weighted average credit quality rating of A or better. The underlying fixed income securities must be rated investment grade and meet issuer diversification guidelines. The duration of the Morley Fund's investments will not exceed four years. The Morley Fund is typically appropriate for investors who desire low volatility, stable principal value and returns commensurate with a capital preservation objective for a component of their retirement savings. The Morley Fund is designed for long term retirement investing.

Natixis US Group 401(k) Plan

Notes to Financial Statements
December 31, 2024 and 2023

Valuation of the Morley Fund's Underlying Investments

Investments in contracts are presented in the portfolio of investments of the Morley Fund at contract value, which represents invested principal plus accrued interest thereon. The contracts are nontransferable but provide for benefit-responsive withdrawals and participant transfers to noncompeting options by plan participants at contract value. In the event facts and circumstances provide evidence that contract value is impaired, the contracts of the Morley Fund would be presented at fair value. In determining contract value, the Morley Fund's Trustee considers such factors as the benefit-responsiveness of the contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and the likelihood of default by the issuer of an investment security. The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end.

Events Limiting Contract Value Treatment of the Morley Fund

Market value events may limit the ability of the Morley Fund to transact at contract value with the issuer. Market value events are events or conditions that occur which are outside of the normal operation of the Morley Fund and lead to any Morley Fund disbursements which have or will have a material adverse effect on the operations of the Morley Fund and a financial effect on the investment contract. Such events may include but are not limited to: Morley Fund administration amendments or changes, merger or consolidation of investors, group terminations or layoffs, implementation of an early retirement program, termination or partial termination of the Morley Fund, failure to meet certain tax qualifications, participant communication that is designed to influence participants not to invest in the Morley Fund, transfers to competing options without meeting the equity wash provisions of the Morley Fund and plan sponsor withdrawals without the appropriate notice to the Morley Fund and/or issuer.

In the normal course of business, such events or conditions would not limit the ability of the Morley Fund to transact at contract value with the participants in the Morley Fund. The Morley Fund is managed to maintain a certain amount of liquidity to provide for the day-to-day liquidity needs of participants as well as the occasional market value event.

Underlying Investment Contracts of the Morley Fund

Underlying investment contracts of the Morley Fund can be structured as nonparticipating, participating or a combination thereof. Conventional Guaranteed Investment Contracts (GICs) issued by insurance companies are primarily nonparticipating, wherein the contract holder does not participate in any gains and losses incurred due to performance of the underlying portfolio relative to the book value at times of withdrawals. Conversely, synthetic investment contracts and stable separate account contracts, issued by insurance companies or banks, are primarily participating, wherein the contract holder participates in gains and losses incurred due to the performance of the underlying portfolio relative to book value at times of withdrawals.

Gains and losses are amortized through future crediting rate resets. Participating structures are the most common structure utilized in the Morley Fund. Certain synthetic investment contracts have underlying investments which are sub-advised by managers affiliated with the synthetic issuers.

GICs are typically issued with a fixed crediting rate and a fixed maturity date that does not change over the life of the contract. Crediting rates on wrap contracts typically reset on a monthly or quarterly basis as negotiated with the wrap issuer and wrap contracts do not have a final stated maturity date. The wrap contracts in this Morley Fund are predominately reset on a monthly basis with a one month look back for the portfolio statistics. The wrap contract issuer guarantees a minimum 0% crediting rate; however, a wrap does not absorb any loss for credit defaults in an underlying portfolio.

Natixis US Group 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

The net crediting rate is equal to the gross crediting rate minus the wrap fee due the contract issuer and if applicable, minus the sub-advisor fees for specific investment strategies. Crediting rates reflect the amortization of realized and unrealized gains and losses in the underlying portfolio over the duration of the portfolio and, in consequence, may not reflect the actual returns achieved in the portfolio. From time to time the crediting rate may be significantly greater or less than current market interest rates.

We are not aware of any circumstances that would limit the ability of the Morley Fund to transact at NAV.

9. Risks and Uncertainties

The Plan provides various investment options such as mutual funds, common collective trusts and other securities through the PCRA. Such securities and investments are exposed to various risks such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in their value will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

As of December 31, 2024 and 2023, the Plan had investments of \$125,838,491 and \$96,861,629, respectively, that were concentrated in two funds.

10. Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 7, 2025, the date the financial statements were available to be issued. There were no subsequent events requiring disclosure in or adjustment to the financial statements.
