Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Eagle Group Systems, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Eagle Group Systems, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Eagle Group Systems, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Eagle Group Systems, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Eagle Group Systems, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Eagle Group Systems, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN

The following description of Eagle Group Systems, Inc. (the Company) Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). The Plan is subject to applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is permitted to acquire both preferred and common stock of the Company.

Throughout the years, the Plan purchased Employer stock using the proceeds of bank borrowings and holds the stock in a trust established under the Plan. As the Plan made debt payments, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The loan has been paid in full and all stock has been allocated.

Eligibility

Employees not covered by a collective bargaining agreement are eligible to become a participant in the Plan on the first entry date coinciding with or immediately preceding the date on which he or she completes one year of service during which he or she performs at least 1,000 hours of service.

Contributions

Each year, the Company may contribute to the Plan up to 25% of covered compensation as determined annually by the Company's Board of Directors. Contributions may be in the form of shares of preferred stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must meet eligibility requirements unless termination is due to death, disability, or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's preferred stock released by the trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Those participants who are eligible employees of the Company will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Net earnings and losses from the investment in stock of the Company, including unrealized appreciation and depreciation in fair value, are allocated to each participant's account based on the actual number of shares of convertible preferred stock allocated thereto. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Participant balances for employees are subject to the following vesting schedule:

| <u>Years of Service</u> | <u>Vesting Percentage</u> |
|-------------------------|---------------------------|
| Less than 2 | 0% |
| 2 | 20 |
| 3 | 40 |
| 4 | 60 |
| 5 | 80 |
| 6 or more | 100% |

Notwithstanding the foregoing, a participant's account shall become 100% vested upon the attainment of normal retirement age, or upon death or disability.

Payment of Benefits

Distributions will be made to participants and beneficiaries based upon the circumstances of their termination of employment. Upon a participant's termination date, the participant or beneficiary will be entitled to receive payment from the participant's ESOP account, based on the value of his or her vested percentage. The value of a participant's ESOP account will be based on the value in his or her account as of the end of the Plan year prior to the date of payment.

For terminations of employment due to attainment of normal retirement age, death, or becoming disabled, payments of benefits will be made in equal periodic payments over a period of five years with each installment equal to the value of the participant's account at the time of the distribution divided by the number of installments remaining to be paid.

For terminations of employment for any other reason, payments of benefits will begin in the sixth Plan year following the Plan year of termination and will be made in equal periodic payments over a period of five years with each installment equal to the value of the participant's account at the time of the distribution divided by the number of installments remaining to be paid.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits (Continued)

For terminations of employment in which a participant's account balance is less than \$1,000, the vested benefits will be paid in a lump sum by the close of the Plan year following the Plan year of termination.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan. During 2024 and 2023, the Company repurchased from participants 2,055 and 1,818 shares, respectively, at prices determined from the independent appraisal.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is required to vote any allocated share for which instructions have not been given by a participant, and unallocated shares as directed by a committee appointed by the Company's Board of Directors.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common or preferred stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Forfeited Accounts

Any forfeitures of the nonvested portion of each terminated participant's account balance shall be allocated to all other eligible participants for the respective year, based on the ratio which that participant's compensation bears to the total annual compensation for all eligible participants. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2024 and 2023 were \$2,145 and \$11,525, respectively. There were no balances in forfeited, nonvested accounts at December 31, 2024 and 2023.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the trustee to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates. Significant estimates in these financial statements include the valuation of Company stock.

Investment Valuation and Income Recognition

The Plan's investments are reported at estimated fair value. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The trust is responsible for all expenses of maintaining the Plan. The Company has the option, but not the obligation, to pay such expenses. There were no expenses paid by the Plan for the year ended December 31, 2024. All expenses of maintaining the Plan were paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 31, 2025, the date the financial statements were available to be issued.

NOTE 3 FAIR VALUE OF INVESTMENTS

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 3 FAIR VALUE OF INVESTMENTS (CONTINUED)

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

The fair value of the Company preferred stock held by the Plan is valued at fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves. The results of this process are documented in minutes of the Plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

| | 2024 | | | |
|--|---------|---------|--------------|--------------|
| | Level 1 | Level 2 | Level 3 | Total |
| Convertible Preferred Stock of Eagle Group Systems, Inc. | \$ - | \$ - | \$ 2,542,968 | \$ 2,542,968 |

| | Level 1 | Level 2 | Level 3 | Total |
| Convertible Preferred Stock of Eagle Group Systems, Inc. | \$ - | \$ - | \$ 3,459,920 | \$ 3,459,920 |

There were no purchases, issuances, or transfers in and out in Level 3 assets for the years ended December 31, 2024 and 2023.

NOTE 4 INVESTMENTS

On July 26, 2010, the Plan acquired 24,400 shares of the Company's outstanding convertible preferred stock for \$325.82 per share, which was the estimated fair value, as determined by independent appraisal, at that time. The estimated fair value, as determined by independent appraisal as of December 31, 2024 and 2023 was \$104.22 and \$141.80 per share, respectively.

| | 2024 | 2023 |
|---|--------------|--------------|
| Eagle Group Systems, Inc. Convertible Preferred Stock: Number of Shares | 24,400 | 24,400 |
| Cost | \$ 7,950,000 | \$ 7,950,000 |
| Market (at Estimated Fair Value) | \$ 2,542,968 | \$ 3,459,920 |

NOTE 5 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the trustee agrees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such a sale to be necessary in order to repay the loan. In the event of Plan termination, participants will become 100% vested in their accounts.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 6 PLAN TAX STATUS

The IRS has determined and informed the Company by a letter that the Plan and related trust are designed in accordance with the applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan provides for investment primarily of the Company's stock which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cashflows, and/or other such techniques. Due to the level of risk associated with the investment in the preferred stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the preferred stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 8 PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which consist primarily of Company preferred shares, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, who invests cash received as a result of cash contributions and interest income, and makes distributions to participants. The Plan is administered by Eagle Group Systems, Inc. and certain administrative functions are outsourced to a third-party administrator. Certain administrative functions are performed by officers or employees of the Company. No officer or employee receives compensation from the Plan.

The Plan invests in Company preferred stock. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company preferred stock qualify as party-in-interest transactions. At December 31, 2024 and 2023, the Plan held 24,400 shares of Company preferred stock and the Plan received \$-0- in dividends from this stock for the year ended December 31, 2024. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Eagle Group Systems, Inc. Employee Stock Ownership Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Eagle Group Systems, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Eagle Group Systems, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Eagle Group Systems, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Eagle Group Systems, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Eagle Group Systems, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Eagle Group Systems, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN

The following description of Eagle Group Systems, Inc. (the Company) Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). The Plan is subject to applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is permitted to acquire both preferred and common stock of the Company.

Throughout the years, the Plan purchased Employer stock using the proceeds of bank borrowings and holds the stock in a trust established under the Plan. As the Plan made debt payments, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The loan has been paid in full and all stock has been allocated.

Eligibility

Employees not covered by a collective bargaining agreement are eligible to become a participant in the Plan on the first entry date coinciding with or immediately preceding the date on which he or she completes one year of service during which he or she performs at least 1,000 hours of service.

Contributions

Each year, the Company may contribute to the Plan up to 25% of covered compensation as determined annually by the Company's Board of Directors. Contributions may be in the form of shares of preferred stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must meet eligibility requirements unless termination is due to death, disability, or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's preferred stock released by the trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Those participants who are eligible employees of the Company will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Net earnings and losses from the investment in stock of the Company, including unrealized appreciation and depreciation in fair value, are allocated to each participant's account based on the actual number of shares of convertible preferred stock allocated thereto. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Participant balances for employees are subject to the following vesting schedule:

| <u>Years of Service</u> | <u>Vesting Percentage</u> |
|-------------------------|---------------------------|
| Less than 2 | 0% |
| 2 | 20 |
| 3 | 40 |
| 4 | 60 |
| 5 | 80 |
| 6 or more | 100% |

Notwithstanding the foregoing, a participant's account shall become 100% vested upon the attainment of normal retirement age, or upon death or disability.

Payment of Benefits

Distributions will be made to participants and beneficiaries based upon the circumstances of their termination of employment. Upon a participant's termination date, the participant or beneficiary will be entitled to receive payment from the participant's ESOP account, based on the value of his or her vested percentage. The value of a participant's ESOP account will be based on the value in his or her account as of the end of the Plan year prior to the date of payment.

For terminations of employment due to attainment of normal retirement age, death, or becoming disabled, payments of benefits will be made in equal periodic payments over a period of five years with each installment equal to the value of the participant's account at the time of the distribution divided by the number of installments remaining to be paid.

For terminations of employment for any other reason, payments of benefits will begin in the sixth Plan year following the Plan year of termination and will be made in equal periodic payments over a period of five years with each installment equal to the value of the participant's account at the time of the distribution divided by the number of installments remaining to be paid.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits (Continued)

For terminations of employment in which a participant's account balance is less than \$1,000, the vested benefits will be paid in a lump sum by the close of the Plan year following the Plan year of termination.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan. During 2024 and 2023, the Company repurchased from participants 2,055 and 1,818 shares, respectively, at prices determined from the independent appraisal.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is required to vote any allocated share for which instructions have not been given by a participant, and unallocated shares as directed by a committee appointed by the Company's Board of Directors.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common or preferred stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Forfeited Accounts

Any forfeitures of the nonvested portion of each terminated participant's account balance shall be allocated to all other eligible participants for the respective year, based on the ratio which that participant's compensation bears to the total annual compensation for all eligible participants. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2024 and 2023 were \$2,145 and \$11,525, respectively. There were no balances in forfeited, nonvested accounts at December 31, 2024 and 2023.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the trustee to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates. Significant estimates in these financial statements include the valuation of Company stock.

Investment Valuation and Income Recognition

The Plan's investments are reported at estimated fair value. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The trust is responsible for all expenses of maintaining the Plan. The Company has the option, but not the obligation, to pay such expenses. There were no expenses paid by the Plan for the year ended December 31, 2024. All expenses of maintaining the Plan were paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 31, 2025, the date the financial statements were available to be issued.

NOTE 3 FAIR VALUE OF INVESTMENTS

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

EAGLE GROUP SYSTEMS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 3 FAIR VALUE OF INVESTMENTS (CONTINUED)

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

The fair value of the Company preferred stock held by the Plan is valued at fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves. The results of this process are documented in minutes of the Plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the trustee agrees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such a sale to be necessary in order to repay the loan. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 6 PLAN TAX STATUS

The IRS has determined and informed the Company by a letter that the Plan and related trust are designed in accordance with the applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan provides for investment primarily of the Company's stock which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cashflows, and/or other such techniques. Due to the level of risk associated with the investment in the preferred stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the preferred stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 8 PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which consist primarily of Company preferred shares, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, who invests cash received as a result of cash contributions and interest income, and makes distributions to participants. The Plan is administered by Eagle Group Systems, Inc. and certain administrative functions are outsourced to a third-party administrator. Certain administrative functions are performed by officers or employees of the Company. No officer or employee receives compensation from the Plan.

The Plan invests in Company preferred stock. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company preferred stock qualify as party-in-interest transactions. At December 31, 2024 and 2023, the Plan held 24,400 shares of Company preferred stock and the Plan received \$-0- in dividends from this stock for the year ended December 31, 2024. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
