Independent Auditor's Report

To the Plan Administrator of the South Bow USA Services Inc. 401(k) and Savings Plan:

Opinion

We have audited the financial statements of the South Bow USA Services Inc. 401(k) and Savings Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the period October 1, 2024 through December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the period October 1, 2024 through December 31, 2024, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Emphasis of Matter – Plan Transfer

As further discussed in Note 1, employees who were participants of the TransCanada 401(k) and Savings Plan were transferred into the South Bow USA Services Inc. 401(k) and Savings Plan on October 1, 2024. Our opinion is not modified with respect to this matter.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of plan

The following description of the South Bow USA Services Inc. 401(k) and Savings Plan (the Plan) is provided only for general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that provides retirement benefits for employees of South Bow USA Services Inc. (South Bow or the Company) not covered by a collective bargaining agreement, unless participation is required by the agreement. Employees are eligible to participate in the Plan upon hiring. The Plan excludes employees hired under the Company's student program, until they reach age 21 and have completed at least 1,000 hours of service, special project employees, leased employees, non-resident persons with no income from a United States source, and nonresident persons who have been nonresidents for a period of 183 days or more, unless the employee remains on the Company's payroll. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective October 1, 2024, the Company completed the spinoff from TransCanada USA Services Inc. (TC Energy) in the establishment of a new, separate, independent, publicly traded company. In connection with the spinoff, participant account balances related to affected employees were transferred from the TransCanada 401(k) and Savings Plan to the newly established Plan. The total amount transferred was approximately \$31,157,000 as of the effective date.

As a result of the spinoff from TC Energy, participants who held investments in the TC Energy stock fund (the TC Energy Stock Fund) had those investments transferred into the Plan. Participants may continue to hold, sell, or transfer their existing investments in the TC Energy Stock Fund at their discretion; however, they are no longer permitted to purchase additional shares of the TC Energy Stock Fund within the Plan.

The Board of Directors of South Bow (the Board) has appointed the South Bow USA Services Inc. Pension Committee as the plan administrators and fiduciaries of the Plan. The Board has also appointed Fidelity Management Trust Company (Fidelity or the Trustee) as custodian and trustee of the Plan's assets. Fidelity Investments Institutional Operations Company serves as the record keeper for the Plan.

Employee and Employer Contributions

Each year, participants may elect to defer up to 60 percent of their eligible compensation into the Plan on a pre-tax basis, Roth after-tax basis, or a combination of both, subject to certain limitations under the Internal Revenue Code of 1986, as amended (the Code). Participants may also elect to contribute up to 25 percent of their compensation as an after-tax contribution, subject to certain limitations under the Code. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan or elect a different deferral percentage. Automatically enrolled participants have their deferral rate set at six percent of eligible compensation, and their contributions are invested in a designated fund until changed by the participant, and their deferrals are automatically increased by one percent annually, up to a maximum of 10 percent of compensation. Participants age 50 or older who are making deferral contributions may also make catch-up contributions of up to \$7,500. Participants may also contribute amounts transferred to the Plan from another qualified plan at the participant's request (rollover).

The Company will match 100 percent of each participant's contributions up to a maximum of the first six percent of the participant's eligible compensation for the Plan year. The Company will also make annual enhanced profit sharing contributions in an amount equal to seven percent of a participant's base salary. In 2024, the Company made enhanced contributions of \$224,214.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and an allocation of Plan earnings. Earnings are allocated from a particular fund based on the ratio of a participant's account invested in the fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are responsible for investment decisions relating to the investment of assets in their account. In the event investment instructions are not received from the participant, contributions are allocated to the Plan's qualified default option, the Vanguard Target Retirement funds, based upon the participant's expected retirement date.

Vesting

Participants are immediately vested in their contributions, including rollovers, employer contributions and any earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding note balance in their account during the prior 12 month period or 50 percent of their vested account balance. Participants may only have two loans outstanding at any given time and may not refinance an existing loan or obtain an additional loan for the purpose of paying off an existing loan. Note terms range up to five years for general notes or up to 15 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a reasonable interest rate, as determined by the Plan Administrator, based on prevailing market interest rates at the time. Interest rates remain fixed throughout the duration of the term. Interest rates on notes outstanding at December 31, 2024 ranged from 3.25 percent to 9.5 percent. Principal and interest are paid through payroll deductions.

A note receivable from a participant shall be considered in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which the note is initially considered past due. In the event of a default or termination of employment, the entire outstanding note and accrued interest is considered to be a deemed distribution to the participant.

Payment of Benefits

Participants are eligible to request a distribution of their vested amounts upon retirement, death, disability, severance of employment with the Company or, in very limited circumstances, in the event of financial hardship. Participants may withdraw rollover contributions at any time. Distributions are made in the form of a lump-sum payment, installment payments, partial payments, or a rollover to another qualified account.

A participant's normal retirement age is 65; however, participants may elect to withdraw all or a portion of their contributions after the age of 59½, subject to certain conditions.

In certain circumstances related to in-service withdrawals, participants may elect to withdraw all or a portion of their contributions and vested Company contributions that have been in their account for at least 24 months or after they have at least 60 months of participation in the Plan.

Forfeitures

As participants are immediately 100 percent vested in their account balance, there are no forfeitures.

Administrative Expenses

The Plan Administrator is responsible for filing all required reports on behalf of the Plan. The Company provides or pays for certain accounting, legal, and management services on behalf of the Plan. The Company has not charged the Plan for these expenses or services. Loans and other transaction-specific fees are charged to the accounts of participants electing such transactions. Certain investment-related expenses, including management fees, are deducted from the funds in which the Plan invests, including those sponsored by an affiliate of Fidelity. These expenses are presented as a reduction of investment income.

Plan Termination

Although it has not expressed any intent to do so, with approval from the Board, South Bow has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

2. Summary of accounting policies

Basis of Accounting

The financial statements of the Plan are presented on an accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP). Amounts are stated in U.S. dollars unless otherwise indicated.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date.

Net appreciation (depreciation) in fair value of investments consists of: (1) the unrealized gains or losses on investments held during the year and (2) the realized gains or losses recognized on the sale of investments during the year. Realized gains and losses from security transactions are reported on the average cost basis.

Purchases and sales of securities are recorded on a trade-date basis.

Notes Receivable from Participants

Notes receivable from participants include the unpaid principal balance plus any accrued interest. Defaulted notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Contributions

Contributions from Plan participants and the Company are recorded in the year in which the employee contributions are withheld from compensation.

Payment of Benefits

Benefits are recorded when paid.

3. Investments

Participants direct the investment of their account balances into a broad range of investment securities offered by the Plan. Refer to Note 1, Description of plan, for additional information. Investment securities are exposed to various risks, such as counterparty credit risk, liquidity risk, and market risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of these investments, it is reasonably possible that changes in the values of investment securities may occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

The Plan offers alternatives that may mitigate participant risks, including the opportunity to diversify investments across multiple participant-directed fund elections, including active and passively managed funds covering multiple asset classes. Additionally, the investments within each participant-directed fund election are further diversified into various financial instruments, with the exception of the TC Energy Stock Fund and South Bow Stock Fund, which invests in securities of a single issuer.

The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. The Plan's concentrations of credit risk, interest rate risk, and market risk are dictated by the Plan's provisions as well as those of ERISA and the participants' investment preference.

Fair Value Hierarchy

The Plan's financial assets and liabilities recorded at fair value have been categorized into three levels based on a fair value hierarchy. In Level I, the fair value of assets and liabilities is determined by reference to quoted prices in active markets for identical assets and liabilities. In Level II, determination of the fair value of assets and liabilities includes valuations using inputs, other than quoted prices, for which all significant inputs are observable, directly or indirectly. This category includes fair value determined using valuation techniques, such as option pricing models and extrapolation using observable inputs. In Level III, determination of the fair value of assets and liabilities is based on inputs that are not readily observable and are significant to the overall fair value measurement. There were no Level II or Level III investments or transfers between levels in 2024.

Common stock funds: Valued at the closing price reported on the New York Stock Exchange.

Mutual funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: The common collective trust holds underlying investments that have prices which are derived from quoted prices in active markets. The fair value of the Plan's interest in this fund is based on the fund's daily net asset value (NAV), which is considered to be the best approximation of fair value. The fund's underlying assets are principally short-term money market funds, marketable equities and fixed income securities. Units held in the common collective trust are valued at the unit value as reported by the investment manager as of December 31, 2024. Participants are allowed to redeem units of the common collective trust held by the Plan on a daily basis; however, the Plan is subject to a twelve-month redemption notice period for the Mellon Stable Value Fund. There are no unfunded commitments.

The method described above for common collective trust may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2024. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement:

	Fair Value Measurements at December 31, 2024				
	Total	Level I	Level II	Level III	Other ¹
Mutual funds	\$29,820,401	\$29,820,401	\$ —	\$ —	\$ —
Common collective trust	179,484	—	—	—	179,484
South Bow common stock	425,398	425,398	—	—	—
TC Energy common stock	532,968	532,968	—	—	—
Total	\$30,958,251	\$30,778,767	\$ —	\$ —	\$179,484

¹ Fair value is measured using net asset value as a practical expedient and is therefore excluded from the fair value hierarchy.

4. Income taxes

The pre-approved plan document sponsor obtained an advisory opinion on June 30, 2020 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. The Plan is exempt from federal income taxes. Accordingly, no provision for federal income taxes has been made in the accompanying financial statements.

The Plan Administrator has analyzed any income tax assets and liabilities of the Plan and has concluded that as of December 31, 2024, there are no uncertain income tax positions taken or expected to be taken that would require recognition of a liability or asset, or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions. However, there are currently no audits in progress for any tax periods.

5. Party-in-interest and related party transactions

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company, and certain others. Transactions resulting in Plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption is applied. Transactions involving the investments described below are permitted party-in-interest transactions.

Fidelity is a party-in-interest as defined by ERISA given its position as record keeper and custodian of the Plan's assets. The Plan holds units of mutual funds and a common collective trust that are managed by an affiliate of Fidelity.

Certain mutual fund companies share their management fees with the Trustee. The agreement between the Trustee and the Plan includes a revenue sharing arrangement whereby the Trustee shares this revenue with the Plan. These deposits are included in the net depreciation in fair value of investments amount in the Statement of changes in net assets available for benefits.

South Bow and TC Energy are a party-in-interest to the Plan. At December 31, 2024, the Plan held 18,005.730 shares of South Bow common stock valued at \$424,395 and \$1,003 in a stock purchase account. For the period ended December 31, 2024, the Plan purchased 18,136.981 shares and sold 131.251 shares of the South Bow common stock. The Plan recorded dividend income of \$52,399 during December 31, 2024. At December 31, 2024, the Plan held 11,432.269 shares of TC Energy common stock valued at \$531,943 and \$1,025 in a stock purchase account. For the period ended December 31, 2024, the Plan transferred in 12,036.668 shares and sold 604.399 shares of the TC Energy common stock.

6. Subsequent events

The Plan has evaluated subsequent events through June 20, 2025, the date these financial statements were available to be issued.
